Breaking News: Google Book Search

October 29, 2008

Yesterday an [agreement](#) was reached between Google and a group of publishers, regarding [Google Book Search](#).

There are far-reaching implications for authors, libraries, readers, and publishers. The information landscape has now changed dramatically.

There will be plenty of analysis coming in various sources, after people have time to digest the 141-page settlement agreement. For an introductory explanation, check out [Still Searching](#).

****Update:** Marcus Banks has more analysis [here](#).
