The Largest Enrollment Ever

ASC Boasts 12% Growth

Almost a 12% growth in student enrollment has been achieved this year by Armstrong State College according to Mr. George Hannicutt, Registrar. The final figure was expected to be approximately 2,700, including about 750 new students.

The 1971-1972 freshman class includes roughly 600 students, the largest freshman class ever to attend ASC.

Several changes were made in the registration process to accommodate the increased numbers. Under the new procedure, non-prepaid course cards were returned to the department heads who then combined them with the general pool of cards for distribution to registering students. This allowed for better class load predictions and prevented classes full of people who will neither appear nor pay from being closed to students who really want the course.

Other changes included the assignment of appointment times to freshmen to relieve congestion in the gym. Fourteen student advisors helped to direct the new students, according to Mr. Hannicutt, "were most helpful... and will be used in future registrations.

The major problem was the fee lines which were slowed considerably by the time necessary to write out checks and receipts. It is possible that uncanceled checks will be used as receipts in the future.

Mr. Hannicutt stated that, "in order to reduce the congestion at registration in the future, students are urged to pre-register and pay in advance."

Graduate Degrees Offered

The Savannah Graduate Center formation has been approved by the Board of Regents allowing ASC and SSC to initiate graduate programs in the Savannah area. As individual entities the resources of the two institutions gives the program access to 5,500 students and 220 qualified instructors.

The primary concentration of the curriculum, to this point, is in Education and Business Administration. Elementary Education classes are in progress this quarter on both campuses and Business Administration classes are expected to begin in the early part of '72. Secondary Education studies are pending approval of the Board of Regents. Summer quarter of '72 is the anticipated time for initiation of this program.

Classes are offered on both campuses and it is recommended that students do not take more than 10 credit hours per quarter. The courses are divided into 5 hour blocks with 60 credit hours required for completion of degree.

Person successfully completing the hours required for a Masters degree will receive diplomas reading “Savannah Graduate Center.” The Masters certificate will be imprinted upon it the names of both institutions and will be signed by the presidents of the two institutions.

The present enrollment in the program is approximately 175 persons and 84 of these are teachers in the Chatham County area.

DIVERSE IN SCOPE, INDEPENDENT OF VOICE.

SPOKESMAN FOR A PROGRESSIVE SOUTH.

The Savannah Graduate Center is unique in that it is the only existing graduate studies program that is a co-operative effort of two colleges. It is President Ashmore’s feeling that without this co-operative effort the Board of Regents would not have approved a proposal for the formation of a graduate program.

Students interested in the SGA (Savannah Graduate Center) may apply in Dr. James A. Eaton’s office in the administration building of both campuses.

Message from the President

Ashmore Welcomes Students

Armstrong State College is a lovely place where the students and the faculty members are away on vacation. Those of us on the campus experience a rising sense of expectation as the time approaches for the return of students and college personnel. It is an annual renewal of spirit and excitement which never seems to dim of cease.

So it is with this feeling of opportunity, of excitement, that we welcome the students to the campus of Armstrong State College in the Fall, 1971. It is always a good thing to see the Freshman class, and administrators have a sense of pride in each new class. We aspire for them a challenging campus life, a desire for new experiences, a search for self-identity, and a crystalizing of values, hopes, and ambitions.

We in America apparently become attached to causes and movements. This can be a very healthy thing, or it can be a waste of thought and energy. It depends in part upon how real the cause becomes, and how extensively (Continued on Page 6)

Freshman Class Elects Mava Byrd Queen

Mava Byrd was crowned the 1971-1972 Rat Queen by Jane Rockwell, the 1970-1971 Rat Queen, Friday night in the New Student Center. Roseanne Hayes was named the first runner-up.

Freshmen voted Friday for one of the 31 candidates. Because there was no clear majority a run-off election was held at the dance. The six girls involved in the run-off were Geraldine Brown, Mava Byrd, Mille Clonts, Chantel Gaudry, Roseanne Hayes, and Nancy Lancaster.

A crowd of approximately 500 attended the dance. The music was provided by the Three Prophets with back-up music by Caution.

**Students Create New “Dump”**

Many people in our society today have called our generation one which is more ecologically oriented than any before us. Yet, to a typical ASC student, this seems a rather remote idea. Have you ever gone into the Student Center around two o’clock and tried to find a decent chair to sit in? You may have pulled out a chair from a half decent table only to find clear cups and cans, candy wrappers, and cellophane. This disease is becoming increasingly serious. Many a student has pulled out a chair and table and is then faced with the choice of sitting on the floor or sitting in the midst of garbage.

This cafeteria-style arrangement seems workable to us—because it’s only one suggestion. A person was not meant to do all the cleaning up on his own. If you do, why not mention them to somebody? Instead of keeping secrets? Somebody should mention things to include: instructors, school administrators, ASC members, and Officers of any on-campus organization, Administrative people, and especially, people in the bookstore.

---

**Students Stand in Long Lines for Books**

Washington (WCNS) — With the passage by the Senate of the draft extension bill, the Selective Service System is once again authorized to induct men into the armed forces—but with a few strings.

First, the draft will last only until July 1, 1973. President Nixon hopes to have replaced draft calls with sufficient numbers of volunteers by then and the induction machinery will be put on ice in case of national emergency.

After that date therefore, 18-year olds will still have to register with the Selective Service.

Second, male college students no longer receive automatic deferments while in school.

---

**Draft Returns For Two-Year Encore**

Congress, bowing to pressure from college students and others for a more equitable draft agreed to authorize the President to end the under-graduate deferments a step he has already promised to take.

Starting this past summer new students (not enrolled in the 1970-1971 academic year) will not be deferred, although if they have started classes they will be able to postpone induction until the present term ends. All other students at eligible for induction after four years in college of when they reach 24 years of age, whichever comes first.

Third, lottery numbers will apply to all men with the same birthdate, regardless of the location of their draft boards. Requested by the President, this new rule will end charges that certain draft boards were “lucky” others. Thus, all men enrolled in the same lottery number will be inductable at the same time.

Another provision provides incentives for more men to volunteer. Originally requested by the President last year, the $2.4 billion pay hike ($1.8 billion for first term enlisted men and junior officers) will go into effect October 1, unless the Cost of Living Council, which oversees the current wage-price freeze, rules otherwise.

For a recruit or seaman recruit, class E-1, average annual pay will be $4,872, as compared with $3,165 at present (6 percent increase).

Conscientious objectors will be given two-year assignments to civil service. The Senate - House Conference Committee emphasized that this work will “parallel in his experiences, to a reasonable extent, the experiences of the young man who is inducted in his stead.”

The Mansfield amendment to require total US troop withdrawal from Vietnam was approved in modified form as a “sense of Congress” title in the act. Mansfield’s nineteen-month timetable is now stated as the “earliest practical” (Continued on Page 4)

---

**SGA Installs Bicycle Racks**

We are glad to learn that the Student Government Association has voted funds for the installation of bicycle racks on campus.

There are quite a few students at Armstrong who ride bikes. They don’t pollute, don’t congest and don’t make noise. The more of this kind of thing that is encouraged, the better we feel; and the SGA has shown that it is aware of and is responding to the needs of students and of the general community.

---

**Mr. Baker: ASC’s Man On The Job**

You probably don’t think of him as a hero. He’s the man associated with parking tickets, broken air-conditioners, being around when the auditorium is full, and digging holes all over the campus. But if you do he’s helping to keep the parking situation from getting completely out of control, fixing those broken air-conditioners, enforcing fire regulations applied to public buildings, and landscaping the campus, so it’s a good job, not an ugly place, to be.

Richard F. Baker is Superintendant of Buildings and Grounds. When it’s a question concerning Armstrong’s physical facilities, the buck stops at Mr. Baker’s desk. A sion in the lab, an uspeller speaker who needs to be watch- ed over, causing security to be on the job. Mr. B. is The Man. He helps. He doesn’t have to. As far as his job goes, he doesn’t have to. He just does. He’s an official score-keeper for the Basketball Team. He’s the man who got the ASC-SSC he keeps the cost of the paint. And he keeps it in re- pair for the cost of the parts. And bought the 41-passenger Americus and brought it home. And got it checked out by GMC. And now it’s insured and safety-tested and it started carrying students Monday because Mr. B. assigned his men to the job. Mr. B. Dr. Ashmore mentioned that Dr. Davenport had no way to make field trips around Savannah’s waterways, and Mr. B. knows a man who knows a tractor.

Every organization needs a certain number of people whose hands are needed to be done. Instead of Part-of-My Job. Armstrong has a few, and Mr. B. is one of them. Mr. B. says it’s no be

Communication Gap Widens

JIMMY KEARNS
SGA Editor

During conversations with various students this week, I have noticed the recurrence of a melody which has plagued A.S.C. for some time. It is simply termed "Student Ignorance." In the past it has reached epidemic proportions and one can only hope that the rising tide may be stemmed in the future.

The term "Student Ignorance" is not to be construed in the academic sense. Armstrong students leave nothing to be desired within this area. However, knowledge is sorely lacking concerning activities and procedures on this campus.

The reason behind this lack of knowledge is puzzling. I believe most students have an earnest desire to know about this campus and its activities. All outlets have made every known effort to place this information at the students disposal. However there is a gap which prevents the information from reaching many of the students.

For example, many students are probably unaware of the existence of this newspaper, much less the fact that it appears on Thursday. I wonder how many students watch the closed circuit T.V. system. By the way, have YOU read YOUR student handbook? To the best of my knowledge there have never been S.R.O. in any student meeting.

When thinking in terms of this communication gap, night students come to mind immediately. They are probably the least informed and most neglected group of students on campus. Most of the organizations and activities are day-student oriented and, therefore, by their nature, practically exclude night students. It is not equitable that more consideration and attention should be paid to them?

The methods for closing this gap in communications are open to debate. However, one thing is clear: It is the responsibility of SGA. The SGA can be effective only if it has the suggestions and participation of the electorate.

The ironic and sad thing about this editorial is that it may never reach the students for whom it is intended.

Armstrong Plays Host To Visiting Frenchman

The Armstrong French department is fortunate enough to have a "Vrai Francais," Jean Luc Ilart, as a visitor and helper. A student and doctoral candidate at the University of Georgia System Studies Abroad Program there this summer. He was invaluable to the program as he familiarized students with France, the new language, and the different customs. Now, with the situation reversed, ASC students have the same opportunity of aiding a foreign student, and Jean Luc is able to appreciate the marvelous opportunity of encountering almost entirely different mode of life.

Jean Luc will remain in Savannah until the middle of October when he will return to Dijon to finish his thesis and resume his teaching position.

SGA

COMMUNICATION GAP WIDENS

"Bonnie and Clyde"

To Be Shown at ASC

Warner Bros. "Bonnie and Clyde" revives the Depression-ridden Southwest of the 1930's. It was the time when bank robber Clyde Barrow and his cigar smoking sweetheart, Bonnie Parker, held sheriffs and bank tellers in terror and frequently captured headlines with their daring, reckless, and often pointless crimes. The motion picture, playing Friday night at 8:00 P.M. in Jenkins Hall, stars Warren Beatty and Faye Dunaway in the title roles. The film was directed by Arthur Penn and produced by Beatty. Beatty and Penn first collaborated on the deceptive and allegorical decline of "Mickey One." However, it is their second effort, "Bonny and Clyde," that has become an undoubted milestone in movie making. Controversial enough to make critics damn and then praise it, and important enough to change the entire intent and purpose of filmmaking for years to come. "Bonnie and Clyde" speaks of innovation -- the violence erupting out of playfulness, the lovemaking fulfilled by a sense of impending death, the actual presence of time and place, and characterization.

Besides Beatty and Miss Dunaway, the cast includes Michael J. Pollard as C. W. Moss, the driver for the Barrow gang; Gene Hackman as Clyde's brother, Buck; Estelle Parsons as Buck's wife, Blanche; Denver Pyle as the sheriff who hunted down Bonnie and Clyde in an obscure woods in Arcadia, La., on May 23, 1934; and Gene Wilder in a sensational comic "chase" scene that launched his career as a comedian.
MARANATHA, a Rock-Gospel group, gave an unannounced concert for students and faculty in the Armstrong State College Student Center on Monday, September 27th, the first day of classes at Armstrong.

Rev. A. Dale Umbrett, Minister of Hill Memorial Presbyterian church, brought the group to Savannah after he attended the Rock-Gospel Worship Service at Covenant College, on Lookout Mountain, Tenn., Joseph A. Rock, Director of Student Affairs at Armstrong, informally presented MARANATHA at the school. Previously, the group had appeared at Hunter Army Airfield and at the International Seaman's House, on Houston St., in Savannah.

Jim Ward, the leader and composer, Joan Nobors, Linda Schwab, Rodney Alles, Dan Herron and Hal Pendergrass are MARANATHA.

Leader Jim Ward said, "We attempt to integrate our music with the worship of God." By expressing their worship of God musically, the group feels their efforts will have a real effect on Christians, and show to others their dedication to Christ.

The word "Maranatha" is found in I Corinthians 16:22, in the King James version of the Nest Testament. It says, "If any man love not the Lord Jesus Christ, let him be Anathema, Maranatha." The word is interpreted by MARANATHA as meaning, "Our Lord, Come!"

Delta Lambda Alpha Forms
Chapter At ASC

Delta Lambda Alpha is a local honor society encouraging superior scholastic attainment among ASC’s Freshmen women. The scholastic average required for membership is a cumulative grade point average of 3.4 or higher in the first two quarters of the freshman year. In addition, the prospective initiate must have met the membership requirements.

Officers for the 1971-72 academic year are: Kathy Acker, President; Patty Woo, Vice-President; and Hope Felton, Secretary-Treasurer.

Shuttle Bus
Schedule Announced

The Board of Regents has approved funds for ASC and SSC to enable the colleges to establish a shuttle bus.

The purpose of this bus is to present the opportunity for students to conveniently enroll in courses at both colleges.

At this time Armstrong has the only operating bus that handles transportation. There has been a hold up on ASC’s acquisition of a bus. Armstrong’s bus starts its run at 8:20 leaving ASC and the last arrival here is at 3:25. There are no plans to extend this into a night service. There is no fee for this transportation.

Schedule:

Note: Thanks to the talents and good graces of Mr. Baker ASC actually has two buses. The one now running is a 20 passenger gold bus. This is a temporary arrangement while some mechanical work is being done on a larger diesel powered blue and white air-conditioned bus.

ASC Runners
Strut Well At
Stone Mountain

The Armstrong State Col-
lege cross-country team fared well in the Stone Mountain Road race, an AAI event
sanctioned by the United
States Track and Field Fed-
eration. The race was run
on September 25.

Five-year southern state was
represented in the annual
event. Even with running
against larger universities and
track clubs, the Bunnies placed
well.

The treacherous five mile course is located around the
base of Stone Mountain, among
those placing well for the
Bunnies were freshman
Billy Carroll (31:29) and
Charles Kircher (31:42). Follow-
ing closely were freshman
Marshall Crosby (34:31) and
Junior John Carroll (35:00).

John Carroll was III up to
time, and was a doubtful
starter.

In the Master division race,
ASC came in fifth, behind
Cedric Stratton, placed a very
respectable fourth in his
4-mile running ten mile event.

Team member Dr. Carroll
talked of Dr. Stratton’s run-
ing accomplishments and
his coaching ability in a post-
run interview on Sept. 29.
Carroll stressed that Dr. Stratton
had already earned the respect and
admiration of his charges.

He went on to say that
Stratton’s own athletic ability, as
well as his coaching personal-
ity, would mean the differ-
ence between success and fail-
ure of this year’s cross country
program.

Fall Baseball
Program Opens

Fall baseball practice began Monday with Coach Kinder
expressing optimism about the team’s chances. The purpose of
fall practice is for Kinder to get a look at his prospects and
to get an idea of who he will be depending on in the spring.

So far Coach Kinder has stressed fundamentals. They in-
clude batting, base running, and “game situation” type skills.
A game has been scheduled for Sunday at Riverview to play
the state prison team.

Coach Kinder stated, “I’m real pleased with the enthu-
siasm the boys have shown thus far and I hope this enthu-
siasm will carry on to the spring.”

Time Out With
“SLICK”

LOOK OUT OPPONENTS . . . Coach Alexander has re-
cruited some new tall timber that would make any opposing
teach run for an axe. The three new additions are quick, big-
timers in clinics and schools. Needed to say, his enthu-
siasm for the game rubs off on his own players and you
can always find a game going on in his gym.

Alexander has been coach-
ing basketball for nine years
and owns a career 99-78 won-
loss record. Most of his mas-
ters have been at Armstrong
State College in the last four
years where he is completely
building an athletic program.

His dedication and hard work, ASC now has 15
scholarship athletes and can compete with small college
powers throughout the coun-
try. Last year ASC had its first winning season, 15-11.

He has taught in Glenn
Wilkes’ basketball camp for
the last nine years and has
opened his own camp at Arm-
strong the past two seasons.

His efforts with young peo-
ple have resulted in his being
offered an honorary “Kentucky Colonel” by the
Governor of Kentucky and
a listing in the “Outstanding
Personalities of the South.”

The combination of a casual delivery and a down-to-earth
way has made him a regular on the banquet circuit. Three
or four engagements per week during the off-season is not
uncommon.

Alexander was raised in
Black Bottom, West Virginia,
and was an All-State basket-
ball and football player at Chapmansville High in Chap-
manville before entering Morris Harvey Col-
lege on a football scholarship but the college dropped
the program the following year.

Unable to pay his own way
to college, he joined the
U.S. Navy. Following his four-year hitch, he re-
turned to Morris Harvey to
earn three varsity letters and
another scholarship as a cen-
ter on the basketball team.

After three years of coach-
ing high school football and
basketball in Florida, he re-
turned to Georgia Southern
College to earn his M. A. in
Physical Education. He coach-
ed the freshman team while
at Southern. He then spent
one year at Brevard Junior
 College before coming to Arm-
strong. His Brevard team
posted a 28-0 regular season
record and was ranked num-
ber one in the country.

He is married to the former
Josephine Dasher of Glenn-
ville, Ga. He and his wife are
expecting their first child in
November.

Focus On:
Bill Alexander

Bill Alexander, a native of
the coal mining region of West
Virginia, is a man totally ded-
icated to repaying the game of
basketball for the opportu-
unities it has opened to him.

So intent is his dedication that he spends the entire year
teaching the game to young-
sters in clinics and schools.

Needless to say, his enthu-
siasm for the game rubs off
on his own players and you
can always find a game going
on in his gym.

Alexander has been coach-
ing basketball for nine years
and owns a career 99-78 won-
loss record. Most of his mas-
ters have been at Armstrong
State College in the last four
years where he is completely
building an athletic program.

Fall Intramurals
Underway At ASC

ASC’s 1971-72 intramural
program got underway on Sun-
day afternoon with a meeting
at Pirate Field to discuss the
rules and regulations of flag
football. Called “one of the
finest programs anywhere” by
program director George H.
Bedwell, Armstrong is look-
ing forward to another year
of keen competition and good
fun.

Coach Bedwell, winner of
last year’s OUTSTANDING
Pool Hours

The Armstrong pool will be
open to faculty, students and
their dependents during the
following hours:

Monday through Friday: 12:30 to 1:30 P.M.
Monday-Wednesday-Friday: 4:30 to 6:00 P.M.
Saturday and Sunday: 2:00 to 6:00 P.M.

We’ll help you grow

SAVANNAH BANK & TRUST COMPANY
ABERCORN and LARGO

FACULTY MEMBER Award, modestly credits the program’s success to the Intramural Council, which governs over the
program. The council, which governs over the pro-
gram, is made up of representatives of each organization and 8 independent
members, decides on events and the number of players on a team. Another reason, possibly the best one, for the
program’s success is the vast par-
ticipation by the ASC student body. Bedwell estimated that 60-80% of the students take part in the activities. This
percentage is helped by the fact that the Greeks participate 100% through some sport or another.

Besides flag football the fall sports will include bad-
nettton and possibly pre-season
basketball and golf tourna-
ments.Dates of the latter events will count for Intra-
mural points. Winter quarters will bring basketball, volleyball, bench-
press contest, table-tennis, and bowling. When swimming season’s over it’s time for the swimming
events and the great out-of-
doors. Golf, softball, tennis, track, and the annual bicycle race will round out the intra-
mural year.

Except for a few rough
spots the council needs to iron
out, Bedwell says everything
is all go for another great
year of intramural sports.
Book Review of the Week

"THE WATER LORDS"

Once again a study group from Ralph Nader's Center for the Study of Responsive Law has put its finger on a festering spot in the American environment. The problem of the Savannah River is not just a problem of water pollution, or air pollution, or municipal mis-management, or inequit- able taxation or corporate arrogance, but of all those things and more. The study of the Savannah River, The Water Lords, shows eloquently that we tamper with our world at its peril.

Rather than a particular problem, The Water Lords explores the problems of a particular place, the Savannah River. Because of the local character and sense of place that approach provides, The Water Lords is highly readable, very much like a novel - and why a city does not treat its sewage, wipe out the livelihoods of many, its citizens would not be wiser with heroes and villains; and at the same time frightening and appalling.

The report says, "If water were merely a replaceable commodity that the Savannahians alone stood to lose, then there would be no reason for tracing it in such detail. But the tides that emerge from the exploration of Savannah's problems are important to every other part of the country."

The Water Lords tells how and why a city does not treat its municipal sewage, how and why one of the nation's most polluting industries can establish itself in a community, subvert the local tax system to subsidize its activities, wipe out the livelihoods of many, and still have the community leaders thank it for its efforts.

The Water Lords will be issued soon in paperback. It should be read, memorized and used as a model for hundreds of task force studies across the country. No place, alas, is so clean and so safe that its citizens would not be wiser and safer for a good long look at what is being done to their water and air.

Mr. Baker . . .

(Continued from Page 2)

I would like to extend a personal invitation to each student to come by my office if he thinks I could help him. We are glad you are here, and we would be glad to see you!

Mr. B, thanks.

Job Interviews

(Continued from Page 1)

town, since mid-July. To date, 33 have declined, most wishing that their college recruiting programs are now very limited but inviting applications from students.

Several have sent printed materials which are on display at the Office of Student Affairs. The scheduled interviews presently include the following:

Oct. 5—Internal Revenue Service.
Oct. 12—University of Georgia Law School; Medical College of Georgia.
Oct. 18-19—Marine Corps, Officer Training Program.
Oct. 21—R. J. Reynolds.
Nov. 3—State Farm Insurance.
Feb. 16—State Farm Insurance.
Feb. 22—Goodyear Tire & Rubber Company.

April 13—U.S. Navy.

Seniors may sign up for employment interviews on the bulletin boards located at the rear entrance to the Administration Building. The effort to interest firms in campus interviews will be continued through the academic year by the Office of Alumni Affairs.
