State of the University

By: Madison Watkins

On Nov. 15, SGA held its semi-annual State of the University address in the Student Union Ballrooms. After listening to opening remarks from SGA president Jarvis Steele and Executive Vice President of the Armstrong campus Spencer Demink, the students and faculty members in attendance were ready to listen to what university executives had to say and ask them questions that have been on the minds of many students.

After the opening words by Steele and Demink, the Interim President of GSU Shelley Nickel stepped forward to say a few words to those in attendance and give her thoughts on the current semester.

“We’ve gone through a consolidation and it’s been difficult. I do believe it was the right thing to do. I believe [the school] will be a stronger university because of it… There are some inequities between campuses. We are working through the issues and we’ll have some answers for you tonight… We need your help as well… We aren’t going to grow as a complete university until we get to know each other and grow together… I also encourage you all to take part in the strategic planning committee.”

Next up, the Vice President for Academic Affairs, Dr. Carl Rieber, stepped up to introduce himself and discuss the recent issues involving registration.

“There are things that did get missed in the consolidation. The only way we can find out about those things is when you point them out… One of the things that came to our attention was that there were courses that filled up here quicker than we thought… WINGS didn’t specify for some classes which campus they would be on. We’ve been trying to correct that error as quickly as possible… You should be able to do what you need to do as efficiently as possible… If you don’t tell me what the problems are, I can’t help you. If you get in touch with me through your advisor or a faculty member or knocking on my door, we can address the problem.”

After Dr. Rieber was finished speaking, the floor was open to the students and staff members who had questions they would like answered.

The first question came from a theater performance major asking about the rumors concerning the upcoming spring commencement and where it would be located.

A teacher who was part of the panel of staff members in attendance to answer questions spoke up. “A decision has not been made yet. We’re working through that. We have put together some different proposals that we’re looking through. One of the proposals you’ve heard about is one where you’d graduate with your college at a certain campus. We’ll look at it as a whole, keeping in mind the student experience, and let you know as soon as we can.”

The next two students asked questions about issues with registration regarding their majors. They faced scheduling issues where some of the major classes they needed to take would overlap. One of the students was an art major and since many of the art major classes last longer than normal, she had trouble finding classes that would fit in her schedule. Dr. Rieber had the students write down their contact information and he assured them he would be meeting with the deans of their colleges soon to fix the problem.

The next student asked a question about an issue that is giving many student-veterans trouble. He had trouble finding the classes he needed that the VA would cover. He had been a veteran for 23 years but hadn’t been to school in a long time. A math teacher of his told him that he needed to go back and take college algebra so he could fully understand what was being discussed in the class he was in. However, he stated that the VA won’t pay for a class he’s already taken.

Dr. Rieber said in response, “You can take a placement test called the ACCUPLACER, that tells us which math class you should go into… We’ll have to work one-on-one with you. We have ways we can help you where you can brush up on your math skills so you don’t have to take college algebra again and take the next class you’re supposed to take that the military will reimburse you.”

The next student asked why there was new furniture being placed in the Student Union when budgets for student organizations and the hours for tutoring services were being cut.

Robert Whitaker, the Vice President for Business and Finance, stood up to address the student and everyone else in attendance.

“That furniture along with redosing some of the furniture in the student center, there was painting being done, new carpeting, there was a lot of different renovation, repairs, upgrades that we wanted to do and those were funds out of last year’s budget… That’s just part of our year-end process to keep the campuses up and looking nice.”

Whitaker then moved on to a topic that has been on the minds of many students—food services.

Whitaker started off with an apology saying, “I apologize to you, the students. We did not meet your expectations… We’ve heard you loud and clear and we’re going to do everything we can to correct that and move forward… I can confirm that we knew it was going to take some time to renovate the space downstairs and get the Chick-fil-A in there. We didn’t do a good job of letting you know that and know that was the expectation. When we started the fall semester obviously we didn’t have enough services, didn’t have enough options in the Gus Mart. We heard you and hopefully you see those things have started to change in there…”

Then he announced some long-awaited news concerning the Gus Mart hours. Whitaker confirmed that they will cut the Galley hours back one hour and increase the Gus Mart hours until 10 pm. Gus Mart will also be open on Saturdays from 12 - 8 pm. The changed hours will take effect at the beginning of spring semester.

Concerning Chick-fil-A, Whitaker confirmed that Chick-fil-A is slated to be done on January 12. The deli that will be right next to it will “probably not be ready until a month or two after the beginning of spring semester” said Whitaker. The reason being there is currently a design quandary in the back kitchen area.

Whitaker went on to say about the upcoming Starbucks that “they’re currently doing some site visits and hopefully it will be open in August of 2019.”

In response to a question from a student-worker from the Liberty campus about a possible Gus Mart there, Whitaker stated, “there is a conversation about that. We don’t have plans yet but we’ve heard that that’s something the campus and the students want… It may not happen in the spring but something may be started by the fall semester.”

He also stated that there are plans in motion to redesign some parts of the kitchen areas in the Galley. Mainly to replace the dishwasher that’s in the server area because the one that’s in there keeps on breaking and that is why students have to frequently use paper plates and cups.

If you have other questions you would like answered, you can send emails to the people named above, attend the weekly SGA meetings at 12:15 pm on Mondays in the Student Union Ballroom, or get in touch with us about a possible story that we can look into.
GSU to celebrate Student Plays during Spring Festival

By: Gabriel Williams

Calling all playwrights! The GSU Theatre department is currently accepting submissions for its annual 10-minute play festival held in Spring 2019.

The festival serves as a venue for interested students to express their creative minds through storytelling and acting.

Students from all three campuses are eligible to apply regardless of major or experience.

“It is a terrific opportunity for both experienced professionals and newcomers to get a chance to be seen onstage by both their peers, faculty, and theatre-going community,” said Nicholas Newell, Associate Professor of Theatre and coordinator of the event.

To be considered, applicants must submit a 10-12 paged script with a title page to Professor Newell at mnwell@georgiasouthern.edu by December 1.

However, it should not contain the student’s name and must be read in no more than 10 minutes.

Senior Art Exhibition- GAMUT

By: Caniece Mitchell

GAMUT: A full scope of artists, brings the work of students Kathryn Percival, Anthony Caracci, Hannah Moore and Antonio Singleton to center stage. Featured pieces included acrylic paintings on glass, Raku sculpture and pottery, comics, artist’s merchandise, and an imaginative café setting.

Past the glass wall of the art gallery, I’m immersed in the work of Percival.

Suddenly, as if a smiling face clad in a stained apron emerges with a double shot of espresso topped with caramel and foamy deliciousness, this piece titled

“The Bombastic Kit-Tea Cat Café” transports the onlooker to the ever familiarity of the coffee shop. The warm brown tones and dim lights provide for an experience that will make you do a double take.

Percival has truly captured the essence of the cozy coffee shop, in our coffee-crazed society, it stands out as a piece that could elicit memories and translate to a wide variety of viewers.

Next were the pedestals of pottery and sculpture featuring the work of Caracci. The imaginative sculpture pieces depict on one end the head of an alligator attached to a vise grip.

In his free time Caracci has an interest in for mechanical work. The grips providing parallelism to the mighty snap of an alligator. With three different components, the work reflects the nature versus machine. An outstanding depiction of tools mirroring the world around us.

His pottery is beautiful copper-inspired pieces of work that utilizes a unique Raku firing technique to gain its color. Through this technique a piece is rapidly heated to 1850 degrees and then thrown into a sealed trash can. I guess it’s true when they say, “One man’s trash is another man’s art”.

Then you will see the warm work of artist Singleton.

It is easy to catch the coolness of the set, the shades and tones of blue and purple providing an immediate sense of collectiveness. Here he features his inspired pieces of cartoon work, that reflect his passion to bring happiness to the people around him.

He quotes the “Bhagavad Gita” as being his inspiration to create art, “... no matter the medium or format. It’s a “small miracle” from my own hands that could potentially elevate someone and make them happier.”

One other very notable piece is of a monkey man perched in the clouds exuding light from all around him. This indeed is a work that transfers as pure light. The exhibit ends with Moore.

“In the spring festival, Be sure to stop by Jenkins Hall on campus or visit GSU’s webpage for more opportunities to be involved in theater-related events.

Georgia and Alabama Square Off in National Championship Rematch Saturday

By: Ethan Smith

Well, how many of us saw this coming? As much expected, Georgia and Alabama will meet in the SEC Championship Game for the first time since 2012. To no one’s surprise either, this matchup will feature two top-five teams in the College Football Playoff rankings, meaning the stakes of the game are high once again. The two met in last year’s CFP National Championship Game with Alabama coming out on top in a thriller in overtime, but here is a preview on how the game could look this Saturday in Atlanta.

Let’s start with Tua Tagovailoa and the top-ranked Crimson Tide. The Tide are 12-0, but impressively so. The closest game the Tide have struggled in the first half the past few weeks, both games smoothly, posting 50 field goal against bitter rival on September 22 against Texas A&M in a 45-23 victory, winning by 22 points. The Tide have struggled in the first half the past few weeks, being tied at halftime with FCS Citadel and being up by a mere field goal against bitter rival Auburn. Alabama would win both games smoothly, posting 50 points in each, something they’ve done in eight of their 12 games this season.

It all starts on the offensive side of the football with Alabama, with the likes of Damien Harris, Jerry Jeudy, Devonta Smith and Joshua Jacobs adding to Tua’s impeccable Heisman candidate campaign. The Tide rank fourth in total offense, but never forget about Nick Saban’s defense, which ranks seventh in the country this year. Playmakers such as Dylan Hoskins and Deionte Thompson will likely have some impact on the game, while other players will keep the defense at its top level. Now to the Georgia Bulldogs, who will be ranked in the top-five ahead of this matchup. Georgia is the defending SEC Champions after beating Auburn in last season’s game 28-7 after an impressive all-around performance which led to a College Football Playoff berth. Georgia enters this match-up with an impressive 11-1 record, the exact record they had last year entering this game.

The lone loss came to LSU on October 13, as the Dawgs were rolled over 36-16 in their worst first-place prize since the team has won any. After the loss, Georgia dismantled the likes of Florida, Kentucky and rival Georgia Tech, all of which were impressive performances that made them look like a top-five team again. For Georgia, it all starts with another dynamic duo of running backs in the form of Elijah Holyfield and D’Andre Swift, both having over 850 yards rushing and over five touchdowns between them.

Quarterback Justin Fields also gets in on the run game at times and could play a major factor in how Georgia decides to run their offense against Alabama. Quarterback Jake Fromm will enter the matchup as the starter, but it is unclear how head coach Kirby Smart plans to play against Alabama’s defense. The Dawgs do have plays set up for both quarterbacks, but if the offense is clicking under one of them, Kirby Smart won’t hesitate to leave them out there.

As for Georgia’s defense, it all starts with defensive-back and likely NFL dratfee Deandre Baker. Baker is a projected top-10 pick in the upcoming NFL Draft. A dom on a quarterback’s side when the ball is thrown in his direction. Baker has two interceptions on the season, but opposing quarterbacks usually look away from the star defensive back as he rarely allows catches when he is involved. Baker will be lined up against the likes of Jeudy and Smith, so the challenge is set for him this Saturday.

For both teams, stopping the opposing run game will be an ideal part in each team’s success. For Georgia, stopping Harris and Jacobs will help, but containing Tua will be the Dawgs main concern. For Alabama, if they can flutter Fromm and jump out to an early lead, the likelihood of a Georgia win goes drastically down. This game could very well come down who jumps out to a lead first, but both coaches are masterminds at making the adjustments they need to. This battle doesn’t quite have the implications of a National Championship, but it is pretty close.

The game airs on CBS at 4pm this Saturday at Mercedes Benz Stadium in Atlanta.

Top 5 Winter Activities in Savannah

By: Kassidy Fikes

Savannah is very big on the holidays and traditions. Here are some winter activities and events around the city for those who would like to do something a little different this holiday season.

1. Dec 10 & Dec 24
Starting Saturday the 10th Annual Santa’s Wonderland will be at the Bass Pro Shop at the Savannah Mall. With a Bass Pass, you can get a free photo. 10. Get out and skate this season, stadium in Atlanta. This battle doesn’t quite have the same kind of hype as the first, but it is pretty close. The Ice Bowl was a taut one, with Harris and Tua making adjustments they need to. Now, both squads are masterminds at making adjustments. For Georgia, stopping Harris and the opposing run game will be an uphill battle, as he rarely allows catches into his direction. Baker has two interceptions on the season, but he likely will have a lot more to do this Saturday. Tua will be the Dawgs main man.
