The Chad Lunsford era of Georgia Southern football got off to a great start last Saturday. The Eagles took on South Carolina State in the season opener and handled the Bulldogs 37-6 in Paulson Stadium.

Sophomore QB Shai Werts had an amazing start to the season by notching three rushing touchdowns on 163 yards rushing to lead the Eagles offensive attack. Senior RB Wesley Fields and senior RB Monteo Garrett added rushing touchdowns as well. The Eagles offense ran for 319 yards while adding another 29 yards through the air.

The defense of Georgia Southern was what surprised most who watched the contest. South Carolina State was basically running into a brick wall on offense as the front seven from Georgia Southern continuously shut down everything the Bulldogs tried to do. The Eagles held SCSU to 151 total yards and six points, which was a definite upgrade from how the defense performed last season. Junior LB Tomarcio Reese won Sun Belt Defensive Player of the Week honors for his performance and contributed to a sack by tallying 10 tackles.

The Eagles started off the season in style, but the focus will move to facing the UMass Minutemen on Saturday. The Eagles will be looking for revenge after UMass handled GSU last season 55-20 in Amherst. The game will be held at Paulson Stadium at 6:00p.m. with the Eagles looking to get their second win of the season in front of the home crowd.

Interview with Executive Vice President Spencer Demink

By: Daylon Bonner

Last Friday, Executive Vice President Spencer Demink spoke about his position, about what is to come from the SGA this year and about the senate budget.

Would you say that the SGA, given the new territory of the consolidation, needs to be spearheaded by someone who will be affected by it for more than one year?

There are ups and downs to it. My resume for the position speaks for itself while my lack of experience more than one year?

Would you say that the SGA, given the new territory of the consolidation, needs to be spearheaded by someone who will be affected by it for more than one year?

Student Employment Fair

By: Naima Thompson

“We believe the job fair was a success”, said Student Employment Center HR Coordinator, Yolanda Hernandez as she helped pack up the last items on the student information table.

Brooke Okorley and Essence Flakes, both Respiratory Therapy majors in their junior year, both said they appreciated the variety of jobs offered at the fair.

“Lane Library stands out to me because of the work environment” said Essence, pointing at their table. “I think it’s a good fit for me because I’m a quiet, detail-oriented person.”

The job fair hosted both on-campus and off-campus opportunities. Some of the on-campus employers included T.R.I.O.-Student Support Services, Parking and Transportation, Recreation and Wellness, Public Safety and the Eagle Dining Central Office.

Some of the off-campus companies represented at the fair were Chick-fil-a, ESS (formally Source-4-Teachers), CarMax, Portman’s Music and iHeartMedia.

“Students were very excited to see our company represented at the job fair,” said iHeart Radio Promotions Director, Kendra Gordon.

“A lot of students didn’t know our company was even in Savannah,” continued Gordon. “They thought iHeart Radio only existed in larger areas like California and New York City.”

She thought that was funny because “iHeart Radio is everywhere.”

“We are looking for students who want to work hard and have fun. We want students to enjoy what they are doing”, she said.

ESS Account Operations Manager, Helene Hunt said employment with her company is “very flexible.”

She said, “Working with our company, you don’t have to ask your boss for the day off. A student can go to school three days a week, and work with us for two days.”

ESS is currently looking for substitute teachers, paraprofessionals, food service personnel, custodians, nurses and clerical staff.

Ms. Hernandez said their office plans to host two more job fairs in January and April of 2019.

For more information about on-campus student employment opportunities log into your MYGS account. You can also connect with the Student Employment Office via phone at (912) 478-7159 or type in their social media handle, GASouthernSEC, for Facebook, Twitter, and Instagram.
On the night of Aug 31, I took a trip to the world of the ethereal. I participated in a paranormal investigation downtown in which I explored the history of the Harper-Fowlkes house. The site of this ghostly undertaking is well-over one-hundred years old and has served as the stomping grounds for a plethora of people throughout the history of Savannah.

The hosts of the event, Rich Lane, Tami Sabo and Noah Baekelandt, began the evening by outlining the history of Savannah for a plethora of people through who fought in the Revolutionary War. Some of them may have been servants in the waning years of the 1800s. It is said to have been the residential area of Irish families who lived in the house while explaining some of the activity until we reached a spot that room allowed me to calm my mind. It may have been the spirit of Mrs. Harper relaxing me. It may not have been. In either case, I legitimately felt something in that study.

This night backed up her words that have intrigued. In any case, I recommend participating in the investigation and seeing for yourself whether you believe or not.

The Harper-Fowlkes House hosts a paranormal investigation every Friday starting at 8:30 pm. If you would like to buy tickets visit https://fareharbor.com/6th-senseworld/items/69534/. Tickets are $50.

Weekly Forecast with the Nihilistic Astrologer- I Was Going to Print All the Horoscopes But Then I Thought, What’s the Point?

Mercury will be forming a grand earth trine with Uranus and Saturn this week. What does that mean? I really don’t know and frankly it doesn’t matter, but it makes me sound like I know a great deal about the stars and it raises the chances of you taking this forecast seriously, so I’ll keep speaking in this gibberish.

If I had to take a wild guess, the planets are telling you to stop being such a lazy piece of $#@ (#. We all know Tauruses take the same amount of initiation as a guinea pig on horse tranquilizers, but it’s time for you to finally throw away that moldy cheese at the bottom of your refrigerator drawer and to stop using the kitchen paper towels as toilet paper.

Sudokus have nine rows and nine columns that are further divided into nine 3x3 sub-sections. Each row, column, and sub-section must contain each digit from 1 to 9 exactly once. The initial numbers provided are clues to help fill in the remaining squares. The puzzle is solved by logic and deduction, without guessing.
