Pirates sweep, extend streak to eight

ETHAN PRINGLE

Pirate baseball breaks streak, drops two of three to Nighthawks

STAFF WRITER

junior Hannah Reppert and an eight-game Peach Belt Conference sweep last weekend.

In Game 1, the Pirates wrapped up a win on an RBI single from freshman Logan Hunt in the top of the third. Then in the fifth, junior Hannah Reppert and freshman may Coleman got a game-tying home run, which pushed the push the stretch to six straight games with the Peach Belt Conference sweep - Saturday, March 26 (Armstrong Communications). Pirate baseball breaks streak, drops two of three to Nighthawks

In Game 1, the Pirates wrapped up a win on an RBI single from freshman Logan Hunt in the top of the third. Hunt had a bases-clearing double in the first and a two-run home run later in the game, providing the Pirates with an early lead that they never relinquished.

In the eighth inning, the Pirates added an insurance run when Austin had a sacrifice fly to right field, scoring sophomore Jed Correia from third base. With the 8-2 victory, the Pirates extended their winning streak to eight games and moved into a tie for first place in the Peach Belt Conference with Georgia Southern.

In the ninth, the Pirates tacked on two more runs, one of which was scored on a wild pitch. The final score was 10-2, with the Pirates securing their eighth straight win.

In the first game, the Pirates took the lead 2-0 off of a two-run home run by senior Peyton Roth's sacrifice fly to center field. The Orange fell just short of making the NCAA tournament, losing 6-5 to Georgia Southern in the regional final.

In the second game, the Pirates jumped out to a 5-0 lead in the third inning with an RBI single by sophomore Caleb Woods. The Orange responded with a run in the sixth inning, but the Pirates held on for the 5-1 victory.

In the final game, the Pirates secured their sweep with a 3-1 win, as junior Tyler Fagans saved the win for freshman Jane Trzaska. The Orange suffered a harsh fate, as they were barred from the Peach Belt Conference.

With the sweep, the Pirates improved to 32-13 overall and 10-8 in the Peach Belt Conference, while the Orange fell to 17-19 overall and 5-13 in conference play.

In the post-game interview, Trzaska expressed her gratitude for the opportunity to pitch in the conference tournament. "It's something about the big win. "The defense was playing really well," Trzaska explained.

The defense played well, with the Pirates committing just one error in the series. The Orange committed three errors in the series, which proved costly.

The win was an important one for the Pirates, as they improved their overall record to 32-13 and moved into a tie for first place in the Peach Belt Conference with Georgia Southern.

The win was also significant for Trzaska, as she lowered her home run total to seven in the series. The Orange suffered a harsh fate, as they were barred from the Peach Belt Conference.

Letter to President Bleicken regarding Campus Carry bill

03/14/2016

Dear President Bleicken,

If there was ever a time in the history of Armstrong for our President to stand for the wellbeing of our students, staff, and faculty—now is the time. By signing the petition (included in the link below), you will be voicing your objection to House Bill 859, a bill which threatens the safety and sense of security we have fought for and worked to keep our community safe.

Please show your concern for the safety of all of us who study and work here by doing everything you can to prevent our highly respected university from turning into a dangerous, non-safe environment. I, along with many others, believe that Campus Carry is a safe and supportive environment, as well as the kind of environment we need to maintain on our campus—something that is academically open, where the exchange of intellectual ideas is not impaired by fear of hostile retaliation.

If you sign your name to this petition against House Bill 859 you will not only be helping students at Armstrong but also the other colleges and universities across Georgia. I hope the leaders of those other institutions will draw from your example and join you in standing up against firearms in the schools of Georgia.

Wouldn't it be wonderful if your legacy for Armstrong was that you were a factor for something positive for Armstrong—and its generation to come. Don't you think you own it to yourself and to our school to show the courage you ask of us every day with your own motto: Be Strong! Armstrong!

Sincerely,

Your Concerned Armstrong Student

DUSTIN STEWART

SGA PRESIDENT

Hello, Armstrong! My name is Dustin Stewart and I have been voted with the honor of serving as the President of the Student Government Association for the 2016-2017 academic year, and I could not be more excited about introducing you to the rest of the当选 Executive members and what you can expect from us during this year.

My name is Dustin Stewart and I am a Savannah native. I was fortunate enough to go to Armstrong, as a minority and am completing a minor here at Armstrong State University. I have known since the 8th grade that public service was my calling in life and I am glad that Armstrong has given me the opportunity to begin my journey as a Service Member.

I have lived here since I was a child and attended the local public schools, and was afforded the opportunity to connect with many of the local community leaders through the various roles I have been afforded with. I have served on the Student Government Association at Armstrong as a member of Campus Union Board, Senate, and as a SGA Representative over the years, serving as Senate Whip and as the Director for the Liberal Arts Center Student Council.

Additionally, I have new auxiliary branch of the Student Government Association at the Armstrong Hinesville Campus. Dustin brings a wealth of knowledge and experience regarding the sciences, military student affairs, Hinesville campus outreach, and nontraditional students. I will continue to advocate for student concerns from both campuses and ensure proper functioning and visibility of SGA members on campus.

Your incoming SGA Treasurer, Emmett Dixon, is a Junior physics major, Emmett is also a Marine, has served in the Marine Corps, will be a part of the SGA Board, and was the first to be commissioned to the Marine Corps from Armstrong State University.

Your incoming SGA Secretary, Katie Anne Fopian, is a Junior Biochemistry major, Katie has served this year on the Student Senate Board of Trustees, and was the first Marine to be commissioned to the Marine Corps from Armstrong State University. She will continue to advocate for student concerns from both campuses and ensure proper functioning and visibility of SGA members on campus.

Thank you for your support for our vision to strengthen Armstrong and the Armstrong SGA. We are ready to move forward with the mission to make Armstrong the best it can possibly be, and we are looking forward to working with you to achieve this goal.

Sincerely,

Dustin Stewart

SGA President
Visiting professor answers question “Do African-American studies matter?”

A 'Bazaar Concept' work from the five graphic designers under the title of "Bazaar Concept", in an effort to give the gallery more of a marketplace feel. This allowed the senior students to brand their own mock company and show off their talent as graphic designers, with pieces ranging from the InKwell designs to designs for bands Crabtree and Photo Editor, Alyssa Schiffman, Staff Writer

Armstrong's African-American Studies Program brought in some outside help to answer a very serious question this past week. Entitled Graphic Design majors present senior show: BRADLEY MULLIS A 'Bazaar Concept' to help to answer a very serious student's graduating with a Bachelor of Fine Arts degree.

"The exhibition featured

"Student feedback concerning the modified lab has been generally positive, as is exposure to certain concepts and techniques that are not typical in schools until later biology courses. Some agreed with the enjoyment and gratitude, but also complained about the workload necessary to completely understand the stages of the project. The change made by LEAPS have improved 2817 students (science and business major), 24 instructors, 1 laboratory and 2 college

Faculty lecture series discusses new intro biology curriculum

Education is not a linear process, and you progress by engaging different areas of inquiry that you think are or might have been presented with otherwise. We go to school, we go to college, we go to university not because we know the answers already, but to learn how to ask better questions, and African-American studies is really valuable because it teaches us how to frame different and important social questions for this generation.

Alyssa Schiffman

**Game review: Hitman**

**CHRIS DOUGLASS, STAFF WRITER**

**SPOILERS AHEAD**

Smith and trolley are the usual suspects of the 20th-adventure-game, "Hitman." The hitman. The sixth installment of the assassin-based game was put out by Danish studio, IO Interactive, a subsidiary of Square Enix.

This installment of "Hitman" utilizes a peculiar story arc, focusing on the hitman, his mission, and the current timeline. The game is being released in episodic fashion, which means it is coming out piecemeal instead of one large release.

"Hitman" is a third-person shooter game that follows the quiet, collected character simply named "Agent 47." Agent 47 is a high-class assassin created by an organization that pulls the strings of society behind the curtain to move the economy and politics of the world.

A genetically-enhanced supersoldier, Agent 47 is described as having above-average speed, strength, stamina and mental acuity. In addition, he has been the recipient of advanced espionage training since childhood, making him a skilled killer machine.

It becomes apparent during his training that 47 is not a fan of the position he has been forced into, as revealed by a very small amount of hatred for his master, often irritated by his master,-agent 47. The game's torture takes place during the final stage of training, Agent 47's training. During the last stages of training, his handler decides that it is obvious that 47 is not a fan of the position he has been forced into, as revealed by a very small amount of hatred for his master, often irritated by his master,-agent 47. The game's torture takes place during the final stage of training, Agent 47's training.

Instead of "Hitman," the appeal of the game doesn't lie in the story, the reason for playing is an enjoyment of the experience. The game is not designed to be enjoyed passively; interactions are designed to be active. In this sense, the game is designed to be enjoyed actively. In this sense, the game is designed to be enjoyed actively.
