Professor joins 2020 Southern Producers Lab

Alongside nine other producers, Georgia Southern University's Assistant Professor of Multimedia Film and Production Abbey Hoekzema has been selected as a fellow for the 2020 Southern Producers Lab. "Every project in the lab has been affected by current events, and we can talk with each other about challenges we're facing with our work."

Tips on taking grad pictures during quarantine

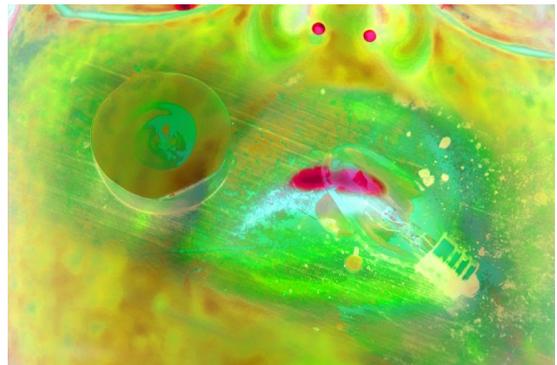

As graduation season is coming up we have to handle things a little differently, like figuring out you're going to celebrate virtual graduation or how you're going to get your grad pics for your invitations. I know what you're thinking: are grad pics even necessary now? In my opinion, they are.

THE GEORGE-ANNE MISCELLANY MAGAZINE

Art: Green

Lindsey Sells is a BFA 2D Studio Art senior at Georgia Southern. She primarily works in painting, printmaking, and photography. She is drawn to photography because of the way we can distort reality or capture reality. Her work revolves around issues of existence, consciousness, and awakening.

≡ try picking up a new hobby ≡

Now that we're under quarantine, why not use this time to find a new hobby that interests you!
Here are a few inexpensive hobbies that you can try:

Ciao!

study a new language

now is the perfect time to start learning that language! There are various apps out there that can get you started, or you even watch lessons on YouTube.

try your hand at writing

you can start a blog writing about your life in quarantine or even start creative writing. The possibilities are endless!

get into art

this can be painting, drawing, calligraphy, or even origami. There are plenty of resources for you to look at if you are interested in starting art.

find peace

meditation is quite helpful in alleviating some of the stress and anxiety you may be feeling in quarantine. Try looking at YouTube videos or downloading apps for mindfulness meditation tips.

pick up a book

finish that series you started but never finished, or try audiobooks. There are plenty of good reads, so why not pass time through books!

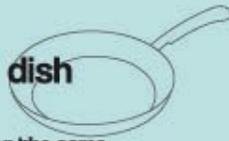

start exercising

do whatever it takes to get your blood flowing, your heart rate up, and burn calories! If you're not interested in heart-pounding cardio, try your hand at yoga!

cook a new dish

are you tired of eating the same dish over and over? Improve your culinary skills by learning a different technique or trying a different dish.

grow a garden

if you don't have access to a patch of green space, try growing small plants on your windowsill! YouTube is a helpful resource if you are a beginner.
