Pep And Steam?

We've got the COACH. We've got the TEAM. But where's the good ole PEP and STEAM?

The truth is—at GTC—it's definitely lacking!

We all attend the home games, and the cheers aren't difficult. Yet, no one seems to know them.

It is true that the show of student attendance is always fairly good so far as attendance is concerned.

If you'll notice, at all our basketball games, the seven voices of the cheerleaders can always be heard. The only way that our team knows we're behind them, as well as the visiting team and spectators, is by the sound of cheering voices.

It's very disheartening, not only for the players, but especially for the cheerleaders to stand up in a room full of hundreds of people and not have the student body of their school back them up.

The seven cheerleaders are: Dexter Hughes, Johnny Hathcock, Marianne DeLoach, Pat Anderson, Mary Moore, Vivian Blizzard, and Charlotte Owens. These boys and girls, under the direction of Miss Pat Shely, practice many hours to perfect their execution of the different cheers.

Join in! Organized cheering can be loads of fun. If each one will do his share then so will the person sitting next to him. SCREAM when the cheerleaders say "SCREAM!" CLAP when the directions call for applause! Back up your basketball team and your cheerleaders. They are YOURS.

Averitt Invited To Conference

Dr. Jack N. Averitt, chairman of the Division of Social Science at GTC, was invited to attend the Third National Conference on the Exchange of Students sponsored by the Institute of International Education on Jan. 28-31 at the Mayflower Hotel in Washington, D. C.

The theme of the conference is "World Progress on Educational Exchange."

Dr. Averitt will participate in a workshop on the exchange of students in the field of higher education and in a clinic on campus programming for foreign students.

As a result he hopes a foundation will be laid for better contacts to attempt to place our graduates in a position to receive foreign scholarships and to have GTC more widely recognized so that our campus may be considered a college eligible to welcome foreign students to our campus.

Dempsey Installs Business Majors Into Fraternity

The Delta Iota Chapter of Pi Omega Pi was installed at Georgia Teachers College on Monday, December 8, 1958. Pi Omega Pi is the National Honorary Fraternity for business education majors.

Dr. Audrey V. Dempsey of East Carolina Teachers College, Greenville, N. C., the national president of the fraternity was present to install the Delta Iota Chapter and to initiate the charter members.

Officers installed at this installation ceremony were Dr. S. L. Toumey, sponsor; Sara Miller, president; Miriam McClain, vice president; Frankie Booth, secretary; Glenda Durrence, treasurer; and Willie Dekle, historian.

Members initiated at this installation ceremony were Franklin Coleman, Edward Drawdy, Bobby Butler, Roberts Adams, Earle Simmons, Shirley Jenkins, Norma Mimms, and Ruth Wise.

PICTURED ABOVE are the chartered members and officers of GTC's newest fraternity, Delta Iota Chapter of Pi Omega Pi. Standing, l. to r., are Dr. S. L. Toumey, Earle Simons, Shirley Jenkins, Franklin Coleman, Ruth Wise, Bobbie Butler, Edward Drawdy, and Dr. Audrey V. Dempsey. Seated are Roberts Adams, Glenda Durrence, Frankie Booth, Sara Miller, Miriam McClain, Willie Dekle, and Norma Mimms.

Broucek-Hooley Concert Slated For January 26

The sixth annual Jack Broucek-Dan Hooley duo-piano concert is slated at Georgia Teachers College's McCroan Auditorium Monday night, January 26, beginning at 8:15 p. m.

This is the sixth time in seven years that the popular GTC music faculty members have combined their talents for an evening program. Last year Mr. Broucek was at Florida State University doing advanced graduate study.

This program is offered free of charge and is open to the general public. In past years music lovers from all over South Georgia have attended in large numbers.

Mr. Broucek, a native of Ohio, received his bachelor's degree in music at Baldwin-Wallace College, Berea, Ohio, and his master's at the University of Michigan.

Dr. Hooley, a native of Renova, Pa., took his bachelor's degree at Penn State, his master's degree at Columbia, and his doctor's degree at Columbia. Mr. Broucek is now working toward his doctor's degree in music. Last year he took a sabbatical leave to study at Florida State University in Tallahassee.

Their program for the concert will be announced later. Past programs have varied between popular and the better-known classical numbers. It is known that the two plan a medley of eight numbers from Gershwin's "Porgy and Bess."

Annual Beauty Revue Has Valentine Theme

Crouch Accepts Appointment To Ga. Task Force

Miss Marjorie Crouch, staff member of the Marvin Pittman School at Georgia Teachers College, has accepted appointment to Task Force Number Five of the Georgia Nuclear Advisory Commission, according to information obtained in an interview here this week.

Task Force Number Five will explore major phases of certain problems that are related to the improvement of the quality of education in Georgia, more especially the education of teachers.

At a meeting in Atlanta on December 9, Task Force Five organized and initiated its study of four major aspects of teacher education including the quality of the teaching force, recruitment of teachers, holding power in the profession, and patterns of teacher education in the various institutions in Georgia devoted to the education of teachers. Out of considerations of these aspects of the problem, next steps will be determined and recommended to the commission.

Miss Crouch is abundantly qualified to participate in the work of the task force in view of her life-long association with teacher education. Her outstanding contributions in her field were recognized in 1956, when she became Georgia's first "Teacher of the Year."

The thirteenth annual Beauty Revue will be held in the McCroan Auditorium on Friday, February 6 at 8 p. m. The theme this year will be "Queen of Hearts" and will center around Valentine's Day.

The director will be Miss Pat Shely of the physical education department.

Eighteen organizations on campus are sponsoring contestants, their escorts, and the sponsoring organization respectively are as follows: Glenda Rentz, Martin Gillette, Eta Rho Epsilon; Sandra Taylor, Roberts Adams, Science Club; Joan LeWallen, Dan Stipe, Alpha Rho Tau; Gwen Jones, Farris Thomas, English Club; Sibbie Hagan, Skeeter Weatherly, "T" Club; Josephine Dasher, Bobby Teasley, French Club; Joan Garrett, Bob Corley, Phi Mu Alpha; Betty Sue Mashburn, Denzil Sellers, Music Education Club.

Others are: Kay Rhodes, Johnny Owens, ACE; Amanda Tanner, John Smoot, Home Economics Club; Sandra Anderson, Jimmy Conaway, Masquers; Peggy Cowart, Alpha Psi Omega; Virginia Kennedy, LeVan Kennedy, Phi Beta Lambda; Bobbie Butler, Billy Mock, FBIA; Sally Beckum, Charles McLendon, Kappa Phi Kappa; Sylvia Phillips, Johnny Hathcock, Student NEA; Jane Fraser, Ray Hicks, George-Anne; Ann Fulmer, Ed Bailey, Veteran's Club.

The master of ceremonies for the entire Beauty Revue will be Harris West.

Plans and details have been discussed and will be announced along with the judges at a later date.

Miss Shely has announced that a meeting of the contestants will be held tonight in the McCroan Auditorium at 7 p. m.

NOTICE

Effective Monday, January 19, 1959, the following regulation will be enforced: There shall be no student or faculty parking or double parking in the areas so designated. These areas include the section reserved for visitor-parking in front of the administration building and the sections marked with yellow paint.

Designated sections will be checked by a college official. Offenders will pay a fine of \$2.00 to the business within 24 hours after being notified. Failure to do so will result in suspension from class attendance until the matter is cleared.

Campus Capers

By MARY ANN HARRELL

After such a nice vacation it is really nice to be back at school. I hope all of you have had a wonderful Christmas and are back ready to really work.

The thing that seemed to appear under Christmas trees more than anything else, was engagement rings for all the girls, or most of them anyway. Some of the couples are: Charlotte Owens and Cliff White; Carol Goff and Lowell Russell; Sara Groover and Billy Shepherd; Mary Alice Taff and Darrell Green; Linda Hardie and Eddie Collins; Many of you will remember Ramona Wall and Phil Yarbrough, former GTC students. They are to be married February 1. I know all of their friends join me in wishing them the very best of luck and success.

The dance last Saturday night was sponsored by the Big Sisters Club. Those who were there certainly seemed to enjoy it.

I want to take this opportunity to say how much the band appreciates the excellent student

response when they play for the ball games. We hope it adds to everyone's enjoyment and school spirit. Thanks for all the yells for DIXIE.

Masquers have begun try-outs for their winter production, and I understand a play has been picked, although I don't know just what it is. I will have this information for you next week. There are many transfer students and I extend a welcome to them on behalf of all the "old students." We are happy to have you with us, and hope that you like GTC as much as we do.

The Philharmonic Choir will present THE FORTUNE TELLER, a light operetta by Victor Herbert. Plan now to attend—it is really going to be good.

As I write this same kid in Lewis is driving me nuts trying to play a ukelele. Never let it be said that I criticize anyone, but I do ask that if any of you have a book on how to play the ukelele someone in 210 sure needs it.

Here's a silly little joke I heard

GTC's Radio Club Presents P'gram

The Radio Club of Georgia Teachers College will continue to present "On Campus," a program about the ideas and activities of GTC students or visiting celebrities this quarter. Since the founding of the club last fall quarter under the sponsorship of Mr. Clyde Faries and leadership of Charles McLendon, it has presented more than forty programs.

Willis Moore opened the quarter with a presentation of opinions of several GTC students on the subject of what legislative act should be passed by the national Congress. Following this unusual program will be musical, dramatic, scientific, and sports presentations—just to include a few of the various fields covered by these broadcasts.

If you are wondering what is being done on the Georgia Teachers College campus, read the George-Anne and listen to "On Campus" each Sunday over WWNS at 1:30.

Hicks' Highlights

By GARLAND and RAY HICKS

(This week's column is written by Lani Schewe and Mike Poole, assistant sports editors)

Carlton Gill, 6-5 freshman forward, displayed backboard wizardry in getting 34 rebounds to break the school record formerly held by Ronnie Rush with 33. Carlton got the record-breaking rebound with 30 seconds left in the game against the Toronto Blues here last Monday night. He has been doing an outstanding job on defense for the Profs all during this season.

Carlton hails from Richmond Hill, Georgia. He played center for Richmond Hill and was co-captain of the South team in the annual Georgia all-star game. Gill plans to go into the engineering field upon graduation.

Carlton is picked as one of the top freshman prospects for stardom at GTC. He can play both the forward and center positions.

Hats off and congratulations to you, Carlton Gill, for your fine performance.

Well, one of Chester Webb's records has been tied. This record is for the most free throws made without missing. Chester Curry accomplished this feat during the Jacksonville University game on December 4. This came when Curry was fouled and on the one and one ruling. On making the first one, he tied the record at 44 and, on the record-breaking one, he missed. We know that everyone is proud of you, Chester, so keep up the good work.

Thus far this season the Profs' high for a single game is 98.

Mercer U. Bears Bow To Professors 98-62

By LANI SCHEWE

The Profs, led by Whitey Verstraete, Chester Curry, and Connie Lewis, completely routed the Mercer University Bears of Macon, Ga. by the score of 98-62. The Profs took an early lead and were never in serious danger.

When the half ended, a large homecrowd saw the Profs out front by the tune of 50-23.

Connie Lewis, the freshmen from Millen, was the team as well as the game leader in points scored with a total of 26 points.

Twenty of these came in his torrid first half.

The Profs hit 37 out of 81 field goal tries for a .457 percentage while Mercer hit 23 out of 73 tries for a .315 percentage.

INTRAMURAL BASKETBALL is again underway on the GTC campus.

Unbeaten Belmont Abbey, GTC Vie

The undefeated Belmont Abbey Crusaders will invade Georgia Teachers College on Saturday night and attempt to make the Professors their 11th straight victim of the season. Game time will be 8 p. m.

The Crusaders, coached by former pro star Al McGuire, number among their victims Mercer, Jacksonville U., Lenoir-Rhyne, Mt. St. Mary's and Hampden-Sydney. The Profs also beat Mercer, but lost to Jacksonville.

With the possible exception of Kentucky Wesleyan, Belmont Abbey will have the tallest squad playing in Statesboro this year. Led by 6-10 center John Von Bargen, and colorful Danny (King) Doyle, a 6-7 forward, the starting lineup averages 6-6. Doyle's pre-game antics made a big hit with Statesboro fans last year.

The Professors played two games in Florida earlier this week, defeating Rollins College on Thursday, 93 to 77, and losing to Stetson University Wednesday night, 62 to 60. Whitey Verstraete paced the Profs on the trip with 53 points in the two games to raise his season average to 20 points per game. Chester Curry added 40 in the two contests, and his season average is now 16.7.

Coach J. B. Searce is expected to start his tallest lineup in an attempt to nullify Belmont Abbey's rebounding advantage. Verstraete, 6-3, and Connie Lewis, 6-5, will be the forwards, 6-5 Carlton Gill, who recently set a new school rebounding record of 33, will start at center, and 6-2 Cary Moore are expected to be the guards.

IM Basketball Now Underway

According to Coach Jess White Intramural basketball will begin on January 14 for the men and on January 15 for the women. Some of the games will be played in the old gym and some of the games will be played in the new gym. The schedule for both men and women is as follows:

Curry Sets Pace For Profs Seventh Win

Georgia Teachers College routed Rollins College 93-77 in Winter Park, Florida, Tuesday night under the sharpshooting barrage led by Whitey Verstraete and Chester Curry.

Teachers Drop Toronto Blues

By MIKE POOLE

The Profs of GTC completely out played and out classed the Blues of the University of Toronto of Canada. They took the Blues 86-65 before a large home crowd. It was the Profs' game all the way. They left at the half leading 44-26.

The high man in the points department for the Profs was Chester Curry with 16. Whitey Verstraete was a close second with 14. Connie Lewis and Robert Hobbs both played a fine offensive game. Coach Searce played the entire Prof team.

The exciting part of the game came during the last minutes of play when the announcement was made that Carlton Gill, a 6-5 forward from Richmond Hill, Ga., had tied the school record for rebounds. The student body then got behind Gill hoping he would break the record. He got the record-breaking rebound with 30 seconds left in the game. Carlton is only a freshman so you can look for great things in the future for this lad. Gill got 34 rebounds to break the record.

The high man for the Blues was Rollie Goldring, their center, with 19 points. Ruby Richman was outstanding on defense for the blues.

GTC jumped to a quick 15-point lead during the first half but saw it dwindle to seven when Rollins sub Jack Ruggles came in and sparked a last-minute rally.

At halftime the scoreboard read 53 for GTC and 33 for Rollins.

The Profs broke up the ball game in the opening minutes of the second half. Verstraete sank his first four shots and the rout was on.

Chester Curry led the Profs with a total of 24 points. Verstraete had 22, Gill had 19, Moore had 19, and Lewis had 9.

This was the seventh win for the Profs and the third in a row. When these two teams met at Collegeboro, GTC also won the game by a 16-point margin.

Anachronism?

Not really. 'Cause if Coke had been around in Caesar's day, Caesar would have treated himself to the sparkling good taste, the welcome lift of Coke! Caesar's motto—"I came, I saw, I conquered." Pretty good motto for Coke too—the prime favorite in over 100 countries today!

"The one person who is really entitled to take a vacation because the weather disagrees with him is the weather man."

Loose talk often causes much trouble and embarrassment, all of which is very unnecessary. There is an expression that isn't the best grammar of a well educated person, but it has some good philosophy. "If you can't say something good about anybody, don't say nothing at all."

It is also true that "the mouth, being a moist place, often slips when running too fast." Many of us would profit by bearing this in mind. We don't realize, when we begin talking about a person, how fast and how much we can harm him in the eyes of his acquaintances. A person can build a reputation over a period of years and it can be torn down by a few idle words. Even though he may still be of good character and can disprove the rumors, by his life, they do leave their mark.

One could hardly be proud of the fact that we are too often eager to hear some "dirt" and spread it. On the other hand we go unmoved when we hear a good word and then fail to pass it on to a friend or even tell the person himself, of his good points.

One might say that it is foolish to be optimistic. It is just as foolish to be pessimistic, if you don't plan to do something to improve the situation. Anyone, if he looks long enough and hard enough, can find a bad side to a person. We are all human, we all make mistakes, so why "rub salt into a raw wound?" A recent popular song is en-

titled, "To Know Him Is To Love Him." If you really know someone you can understand the reasons for his peculiar, or seemingly peculiar actions. Thus you will be able to overlook his shortcomings. The best way to stop gossip is not repeat it.

Predestination To be Discussed

PREDESTINATION! This much debated doctrine will be informally discussed at the January 20 meeting of the Westminster Fellowship, at the home of Miss Pat Shely and Mrs. Joan Parkinson at 6:30 p.m.

Many GTC students, other than Fellowship members, have expressed a sincere desire to take part in such a discussion.

The group's advisor, the Rev. Miles Wood, has suggested that participants in the discussion anonymously contribute any questions they might have on the topic.

All students who plan to attend this discussion are asked to meet in front of East Hall promptly at 6:15 p.m. Tuesday.

A future project of the organization will be a series of talks given by Dr. Samuel T. Habel, associate professor of social science at GTC, on "The Twelve Apostles."

GEORGE-ANNE GIRL OF THE WEEK—Sandra Tindol is the George-Anne's first selection as Girl of the Week. Sandra's flashing smile greets you as you enter the Collegeboro film library where she serves as part-time secretary. This popular senior has received many honors during her four years at GTC.

Dr. Farkas to Get Americanism Medal

Dr. Zoltan Julius Farkas, associate professor of modern languages at Georgia Teachers College, will be presented the Americanism Medal by the Daughters of the American Revolution, Savannah chapter, at a regular school assembly next week.

According to Mrs. Robert V. Burgess, Regent for the Bonaventure Chapter in Savannah, this award is annually given to someone who has proven to be a very worthy citizen of the United States. Mrs. Burgess will make the award to Dr. Farkas at 10:30 a. m. on Monday, January 19.

Dr. Farkas is a native of Budapest, Hungary, and came to the U. S. in 1949. He settled permanently in Savannah as office manager of the Diamond Construction Co., and taught night classes in German and French at Armstrong College. He became an American citizen three years ago.

He speaks English, German, French, Hungarian, and Italian,

Statesboro High Play Wins Region

Statesboro High School won first place in the Region 2-A One-Act Play Contest held in McCroan Auditorium, Tuesday. Second place went to Swainsboro High School. Screven County and Sandersville placed third and fourth, respectively.

Sara Adams, from Statesboro High School, was judged as best actress; and the best actor award went to Phil Pelacego, from Swainsboro High School.

Mrs. Carmen Morris coached the winning play "Eoldedera" for Statesboro, and the Swainsboro play "Infanta" was directed by Mrs. M. L. Reid.

Other schools participating in the contest were: Blackshear, Cochran, and Effingham County.

ray's way...

By RAY WILSON

Centuries ago primitive man made a frightful discovery... fire. The men of that day were amazed and looked upon fire as both a weapon for destruction and a means of advancing civilization.

In reality fire is both a weapon of destruction and a benefactor to mankind. Can one picture the great fires that rage through our forest unchecked or the great Chicago fire?

As history shows man learned to use this factor well. We have harnessed the power of this force in our great factories as well as in our everyday walk of life. Can modern life be contemplated without its use in some conceivable manner?

Now man's inventive genius is so great that it cannot be spoken of in everyday terminology. That force is nuclear power.

Use of nuclear power can be the greatest mode ever known for advancing civilization. But we have thus seen only its wartime aspects.

The atomic bomb exploded at Hiroshima and Nagasaki should be a warning to America and the world of what can happen. These two bombs were only approximately 20-kilotons in size and were exploded at a height of 1,850 feet above the earth's surface. But look at the destruction that took place from shock and burns. The casualties due to fallout (radioactive particles) were completely absent.

These were only small devices. What would happen if a nuclear explosion to today's magnitude occurred near the earth? On March 1, 1954, a powerful nuclear device was exploded at Bikini Atoll. The result was a fallout causing harmful effects over an area over 7,000 square miles.

But this is only a wartime aspect of nuclear power. The great promise lies in its use, as has now been proven, to power submarines, ships, generate electricity, and provide the force behind our thundering planes.

Can we learn to use this force as wisely as man did fire? The answer lies in the forces that govern man. Man is a rational creature and of all in nature he alone has the power to think and reason.

Is this the beginning or the end? The answer lies with man... and his tomorrow.

and is qualified to teach these subjects as well as others in the field of economics, psychology, and photography.

Dr. Farkas has traveled extensively in Europe, covering Austria, France, Germany, Switzerland, Italy, Holland, Belgium, England, The Balkans, and Turkey.

His teaching career began in 1931 with two years as tutor to the children of the Hungarian ambassador in Ankara, Turkey, and includes three years at Presbyterian College in Budapest eight years at Wesselenyi Commercial College in Budapest, and four years with the Exiled Hungarian Boy Scout Association.

Dr. Fielding D. Russell, professor and chairman of the division of languages, will represent GTC at the presentation. The Rev. L. E. Houston, pastor of the Pittman Park Methodist Church in Statesboro, will deliver the invocation.

Upon being advised of the honor, Dr. Farkas said: "The Medal of the Daughters of the American Revolution is a great honor for me, and I accept it with humble gratefulness. I think, however, that the best way to show my gratitude to my country, to friends, to colleagues, to my students, and to the donors of this award, is if I keep trying to do a good work. This I shall do."
