What did you like best about the course?

Learning how to write an effective paper, and do research, two things that I will be able to put to use for the rest of my classes.

Taught many aspects of the online and library environment and showed really what all the Brenau Library has to offer!

I think this class is of utmost importance and should be required...

I loved how this course and AS110 complimented each other, the instructors and the structure of both classes. The format and organization was excellent!

This was a tough class but well worth it.

THANK YOU!
