American Memory

American Memory is an online archive of over 100 collections of rare and unique items important to America’s heritage. The collections contain more than 7 million primary source documents, photographs, films, and recordings that reflect the collective American memory. They are a treasure trove of unique personal items from another period in time – perhaps old records, letters with exquisite penmanship and arcane language, clothing, keepsakes, or faded photographs. These collections are ‘snapshots’ providing a glimpse into America’s past.
