No. 2

## Douglas Taylor Catches Greased Pig for Title

For once in the history of the college, every freshman girl was glad she wasn't a man. Over 100 freshmen met in Sanford Lounge Friday night, clad in dungarees and prepared themselves for anything that might happen. Upperclassmen called the roll and marched them (double-time) to the local football stadium to witness the Statesboro-Baxley game.

During the game, between cheers for the home team, TC and Baxley, the frosh sat shivering, and waiting for the unknown fate that would befall them at half time. Then they discovered the reason for the unconventional clothes they had been instructed to wear. A greasy pig (grown to the size of a hog) was turned loose in midfield and the freshmen had to try to catch the slippery beast or else . . .

The pig had run less than 40 yards when it was smothered by the frosh. When the dust, grease, and freshmen had been cleared away, Douglas Taylor, Hinesville, and an unidentified individual from Metter were left holding the pig. The Metterite, upon being asked if he were a student, explained that he lived in Room 4, Sanford, and had lost his rat cap. After Douglas had been carried off the field on the shoulders of upperclassmen, the other claimant refused to leave. He said it was his "hawg" 'cause he caught it and they couldn't take it away. What more, he wanted transportation carry it home. It was explained him that the greasy pig belonged to the college and had been used only as a stunt.

In assembly last Monday morning, Student Council Member Jack Brady presented Taylor with a certificate of merit which guaranteed him a bright future in the hog-catching profession; a carton of cigarettes, and a beautiful white-visored rat cap.

On being asked to speak, Taylor replied, "The subject is too easy. I couldn't grasp it."

### CORRECTION

Correction on story on editorial page: Masquers meeting on Friday morning.

Addition to 2 one-act plays on front page: The cast is subject to change.

### Be Sure of Facts Then Wire Story

Any faculty member or student turning information in to the George-Anne, please be sure the contents are authentic and the source is correctly quoted. As no newspaper is wholly accurate, this one is no exception. Errors are made and no one knows who is to blame. We can have a fairly accurate paper, even if it doesn't come out until almost a week after everything has happened, if everyone will keep this in mind.

### Alumniscopes—TC Grads All Over

Alvin McLendon and family are now living Vidalia, where Alvin is associated with the Bethany Home as public relations representative.

Sue Snipes is leaving Bulloch county. She will teach elementary education at Shorter College, Rome, Ga.

Lucy Jones is teaching third grade at Dublin.

Mary Webb is working as field representative for the Georgia Citizens Council.

Harris Harville is director of secondary education, Troy State Teachers College.

J. D. Cherry, who is superintendent of the DeKalb County School, was recently pictured with his family in the Atlanta Journal. J. D. is one of TC's graduates, who is an educator by choice and tends to stay in the field of education.

Byrd Ivester is director of the Habersham-Stephens Regional Library at Clarksville.

"Dick" Alexander is with the Division of General Extension of the University of Georgia.

Jane Quarterman Comer is teaching seventh grade in Moultrie.

Myrtle Carpenter teaches in Columbus, Ga. She has been there since she left TC.

Annette Alexander is principal at Damascus in Early county.

DOUGLAS TAYLOR  
(Pig Catcher)

### First of Council Plans in Effect

One of the first plans of the student council to go into effect is the activity hour each week-day night from 6:15 to 7 in the gymnasium. At that time there will be dancing, table tennis, checkers, and other forms of recreation. Also planned is a rally before the first basketball game in December. This rally includes a bon-fire, fireworks, and the burning of an effigy.

Other plans include beautification of the campus, music in the dining hall for each evening meal, and many projects which are still incomplete.

The student council is eager to take an active part in anything that concerns the student activity life and to aid and assist all campus organizations and clubs.

### Statesboro Citizens Aid Concert Series

For the coming season the citizens of Statesboro are joining with the college to present a community artist series. The increased budget resulting from the sale of season tickets to Statesboroians will permit the securing of finer artists to appear here. A joint "talent committee" of college faculty and townspeople will select the artists within the next week or so, and announcement of the series will be made later.

All students will be admitted to these concerts on presentation of identification cards, since the series comes under the Student Activity Fee paid at registration.

Dr. Ronald J. Neil is chairman of the college committee.

### Eddie Ort Resigns as Advertising Manager

Eddie Ort has announced that due to pressing duties, he would have to give up his position as business manager of the George-Anne. Gene Henderson, last year's business manager, will replace him under the rule made by student council that the person receiving second highest number of votes will fill vacancies.

We are sorry to lose Eddie, but welcome back, Gene.

## Mason Clements Elected President Senior Class

### Wanted—Editor for 1949-1950 Reflector

Members of the senior class were asked by Mason Clements, president, last Monday to be looking around for a capable person to edit the 49-50 Reflector. If you are a senior and are interested in seeing that this year's annual is the best ever, see Mason and get your name on the ballot. The election time has not been announced but will take place at an early date.

### Film Library for SE Georgia at TC

A film library, which stocks audio-visual equipment for use in schools of southeast Georgia, will begin operation at Teachers College by January 1.

Plans for establishment of the library under the auspices of the State Department of Education were disclosed last week by Carl C. Bagley, director of Audio-Visual Education Service in Georgia.

At least \$50,000 worth of film will be made available for loan to public schools and to departments of the Teacher College. Mr. Bagley advised President Zach S. Henderson.

The library will carry a staff of six persons. It will be housed in the college library building.

### Students and Faculty Held Present Play

College students and faculty joined with the Junior Womans Club to present "Jack and the Beanstalk", a play for children, on Thursday afternoon and night.

Miss Freida Gernant, art teacher, served as chairman of the sets committee.

Students appearing in the production were Robert P. Stephens Jr. as the butcher; Fain Green, Martha Jean Eason, and Jean Williams as cloud dancers.

Results of last Monday's election of class officers saw Mason Clements as president of the senior class; Alec White, president of the junior class, and Sonny Clements, president of the sophomore class.

Mason Clements, of Ray City, Ga., transferred from Cumberland College, Cumberland, Ky. Mason is active in the field of athletics. Alec White, a transfer from Middle Georgia and Mercer University, is from Fitzgerald. Sonny Clements, from Rhine, was the only freshman member of the varsity basketball and baseball teams last year.

Other officers of the senior class are Zack Williams, of Barney, vice president; Robert Abell, Richland, treasurer; and Alethia Stuckey, Brunswick, secretary.

The junior class elected Joe Musselwhite, Cordele, vice president; Peggy Purser, Cochran, secretary, and Burch Haynes, of Columbus, treasurer. All of the junior class officers are transfers from Middle Georgia College.

Sophomore officers are Alvin Moreland, Wrens, vice president, and Mrs. Lucy Abell, secretary and treasurer.

### 'Who Says Can't' to Be Masquers' First

The first plays to be presented by the Masquers will be "Who Says Can't," by Kathryn McCluse, and "The Glittering Gate," by Lord Dunsany. These two one-act plays are among many other features on Video Varieties, which will be presented on October 27 at 8 o'clock in the college auditorium.

The casting for "Who Says Can't" is:

Edith Wright, Mary Lillard; Mrs. Wright, Jean Fordham; Mr. Wright, Tillman Newson; Robert Wright, William C. Wyatt; Tommy (Robert's pal), Joe Stubbs; Isabel (Edith's chum), Lola Robbins.

The cast of "The Glittering Gate" will be Charles Jackson and Al Coursey.

All proceeds taken in from the Video Varieties presentation will be used to redecorate the Masquers' room.

## T. C. CALENDAR

### Monday, October 10—

Art Club (Art room)—8 p.m.  
House Council—10 p.m.  
C.C.A. Council (R. 21)—7 p.m.  
Science (Chem. Bldg.)—7 p.m.  
"T" Club (R. 21)—6:15 p.m.

### Tuesday, October 11—

Chorus (Aud.)—6:30 p.m.  
Dance Orchestra (Aud.)—7:30 p.m.

Dining Hall Helpers—6:15 p.m.  
Industrial Arts (Shop)—7 p.m.  
Men's Chorus (Sanford)—4 p.m.  
Student Council (R. 21)—8 p.m.  
Vets (Sanford Lounge)—8 p.m.  
Wesley Foundation—7:30 p.m.

### Wednesday, October 12—

Band (Aud.)—9 to 11 a.m.  
George-Anne (George Anne office)—2 p.m.  
Men's Chorus (Sanford)—4 p.m.  
S.C.A. (Aud.)—7 p.m.  
Band (Aud.)—10 a.m. to 12 noon.

Chorus (Aud.)—6 p.m.  
I.R.C. (Audio Vis.)—7:10 p.m.  
Organ Guild (Aud.)—7:30 p.m.

### Friday, October 14—

B.S.U. Council—6:15 p.m.  
Dance Orchestra (Aud.)—7:30 p.m.  
P. B. Y. F. (Elementary Lab School)—6:15 p.m.  
Everyday (BSU Twilight)—6:15 p.m.

## T. C. RADIO HOUR

The GTC Radio Hour will be back on the air this fall beginning October 19. This is a weekly program presented by the faculty and students at the college each Wednesday evening at 7 to 7:30 throughout the school year.

The announcers for the '49-50 season will be Al Moreland, Dan Biggers, Bobby Griffin, Judge Sorrel, Charles Jackson.

The program has been set up through January 25 as follows:

October 19—Andy Odum.  
October 26 — Interview of Statesboro students.  
Nov. 2—Mu Sigma.

November 9 — Veterans Club (Armistice Program).

November 16—Masquers.

November 23—Dr. Neil.

November 30—Statesboro H. S.

December 7—Mens Chorus.

December 14—Miss Luke and Lab Children.

December 21—Mr. Broucek.

December 28—Father Smith.

January 4—Mr. Rasmussen, Mr. Johnson.

January 11—I.R.C.

January 18—Music Majors.

January 25—Home Ec and Art Clubs.

## A Letter to the Editor

Dear Editor:

I am a freshman staying in Sanford Hall who wishes to protest against the cruel and unfair treatment we are getting. To begin with, this business of having to wear rat caps is awful. I can't get a date because this old rat cap makes me look so silly and all these upperclassmen are getting priority.

And I got rather angry last week when we had to go to that football game and chase after that pig. It was unfair because I don't

like anything but softball and golf, not football, and also:

Chasing a pig is beneath my dignity. You said in last week's George-Anne that rat caps should be "worn with dignity"—who can be dignified running his pants off after an old greasy hog? Most of us couldn't catch him anyway, and just got dirty and sweaty.

Well, I better quit before I really get steamed up. It all makes me mad. This is the one agency thru which I can speak my mind.  
A FRESHMAN.

## Reply to Letter to the Editor

BE A SPORT! Most schools have far worse initiations. This is the first form of initiation that has been imposed on the Freshmen class since before the war. You are one of a class that is helping rebuild a tradition here at T.C. (You will appreciate being an upperclassman more next year). Also if wearing your rat cap and running your pants off after greasy pigs help build up school spirit, it's worth it—at least it give you something to talk about.

Always look to the bright side of college life and you'll find that rat caps and greasy pigs can be fun. Later on, you'll look back on your freshman year and you'll be glad you were treated "cruelly." Can't you just see yourself making next year's Freshmen "step around." Scores of us upperclassmen regret that we didn't have some type of initiation; it would have given us more school spirit and a feeling of "belonging."

Be glad you are a boy! Look at the dormitory and dating regulations the girls have to abide by all year plus having to wear rat caps; they can't even pull them off in buildings like you can.

I don't know the situation concerning the lack of dates, but the fact that there are more men on the campus than women might have something to do with it. . . . surely you can't blame that on your rat cap.

Think your problems over and look at them in an optimistic way; I'm sure you'll change your mind. I repeat . . . Wear your rat cap with dignity, and be proud you are a Freshman."

THE EDITOR.

## Ramblings . . .

By EDITH CARPENTER

BEING A CURIOUS person, this reporter thought that it would be interesting to discover just what the students on the campus, freshmen and upperclassmen alike, were discussing. The following are only a few of the facts gleaned from—ahem! Let's be honest and say "snooping."

That the new lighting in West Hall is grand; that some of the Junior and Senior boys are "out of the world"; that some of the Junior and Senior boys are conceited; that the dining hall serves terrible food one day and heavenly food the next; that blue caps are needless, provoking, and do not go well with blond, brunette, or red hair; that I.D. cards have a habit of always being in your room when you reach the chow-hall line; that certain of the new teachers are "cute"; that Physical Science and Biology were invented by an idle genius with an evil mind; that there's no time to find for study; that certain freshmen girls are fast workers; that there are too many meetings to attend; that some Monitors are insufferable and others are angels; that there's no way to get acquainted with the pretty girl in front of you when the professor doesn't call the roll; that the folks back home must have forgotten the mail still goes through "snow, sleet, and hail"; that the new gym suits are too long; that 7 o'clock is too early for breakfast; that the boys with the cutest grins are (darn it) going steady; that it's a lot of trouble, the boys say, to put a raincoat over your gym suit to walk ten feet; that shorts do absolutely nothing for the average TC male figure; that the new dining hall colors reflect personability (whose we couldn't discover); and that the new "no visiting" regulation in the library is sure to cause dozens of failures.

These are only a few of the things the students are saying. Let's just hope that they know when to stop saying.

## ? Which Club ?

We are going to present to you a few of the various clubs and organizations on our campus and the work that they do. Maybe this will help you decide which club most needs your talent.

Members of the Masquers will have to put their classical noses to the grindstone. Bettye Lewis, president, has announced that future theatrical "stars" on our campus who joined the Masquers Thursday night, will have to work if they remain in the club. Among various things required of The Thespians are handling stage property, helping with costumes and grease paint, lighting aid, even "emoting."

Do you often have the urge to set down, on paper, your inner most thoughts? Have you considered joining the Creative Writers Club? The Creative Writers do much to brighten our daily existence by inserting literary tidbits into our campus life.

Now to consider another one of our clubs. The Home Economics Clubs, one of the most active clubs on the campus, is planning big doings for this year. Teas, receptions, bazaars, house warmings, fashion shows; all help to complete the year's agenda for the H.E. Club.

Those of us who are greatly in deed of having our grammar corrected, should be very interested in the English Club. All majors and minors in English are eligible for membership.

Art majors and minors with a flair for drawing and painting are eligible for membership in the Art Club. All those cute costumes and the beautiful scenery you see in various plays can be credited to the Art Club.

On the entertainment side, we have the Band, Orchestra, Chorus, and Men's Chorus. If you can play some instrument (be it a big bass drum or a piccolo) or just sing like a lark, you are welcome in these organizations. Mu Sigma and the Organ Guild are honorary music fraternities for music majors and minors who participate in these activities.

The Science Club is of special interest to science lovers. Their chief topic of conversation is various new developments in the field of science.

The I.R.C. helps promote an intelligent understanding of international affairs by discussing present-day problems.

A very new organization on the campus is the Dining Hall Workers. They help clear up everyday problems that arise in the dining hall.

Remember, if you join — you must work.

# Here Began a Revolution In Naval Stores Industry

By ANNE MOORE, TC Graduate of '49

(These words, taken from a bronze plaque, spell pride to a Georgia college, appreciative of the importance of naval stores and the genius of Dr. Charles Holmes Herty.)

(Drawing her story from heretofore unpublished notes from one of Dr. Herty's notebooks and telling how her alma mater is showing its pride in being associated with the great scientist, Miss Moore, produces a scholarly but highly readable article of documentary significance.)

"PLANS ARE UNDERWAY for the construction of a museum and memorial on the campus of Georgia Teachers College, in honor of the late Dr. Charles Holmes Herty, whose work in the development of industry from the Southern pine is without parallel in the history of the South.

Georgia Teachers College, located at Statesboro, Ga., in the heart of some of the South's most luxurious pine growths, has an especial interest in one phase of Dr. Herty's work. It was on the premises, now occupied by the college, that Dr. Herty perfected and hung the first of the cups, for the collection of crude turpentine, which were to create a revolution in the naval stores industry. The tree on which the first cup was hung is still preserved on the Teachers College campus, and one of the most prized relics in the possession of the college is a notebook presented the college by Dr. Herty himself, which tells, in facts and figures, the story behind what TC students know as "The Herty Pine."

With both Statesboro and Georgia Teachers College proud of the part Bulloch county played in preserving the naval stores industry, the college plans to play homage to the great Southern scientist in the near future. The trunk of the first tree, on which a Herty Cup was placed, the so-called "Herty Pine," and a bronze plaque which was placed on the spot in 1935, will form the focal point of the Herty Shrine to be erected on TC's spacious campus.

"HERE BEGAN A REVOLUTION . . ."

The original presentation of the plaque was made in April of 1935, by the late Mrs. M. E. Judd, of Dalton, Ga., who donated the plaque in recognition of Dr. Herty's outstanding contribution to the turpentine industry. Dr. Herty, and his assistant, Frank Klarpp, were honored by appropriate ceremonies at the college at that time, and it was then that the notebook was presented to the college. The plaque itself bears this inscription:

ON THIS TREE ON JULY 20, 1901, THE FIRST CUP AND GUTTER FOR COLLECTING GUM TURPENTINE WAS PLACED BY DR. CHARLES H. HERTY AND HIS ASSISTANT FRANK KLARPP. HERE BEGAN A REVOLUTION IN THE NAVAL STORES INDUSTRY.

Plans under consideration by the Alumni Association of the college call for a memorial driveway to be erected at the east entrance at the college grounds in the near future, dedicated to the memory of the brilliant scientist who worked here before the college was founded. A memorial driveway is already in use, running from the east gate up to the main campus, which is bordered with redwood, magnolia, dogwood, crepe myrtle, and, of course, Georgia pines. The contributions of interested friends and the Alumni Association are making possible the fulfillment of this long-standing dream of the college authorities, and it is hoped that, before long, the dream will have become a reality.

Charles Holmes Herty, eminent Southern chemist, who was later to be celebrated in his hometown of Milledgeville, Ga., as the "man who made America chemically self-sufficient," was, at the turn of the century, perturbed by the appalling waste entailed in the process of collecting gum from the pines of the South. Today's naval stores men need hardly be reminded that the custom which prevailed throughout the South at that time was that of "boxing the tree," a method whereby the gum was collected from a cup-like cavity, a gash, or "box," cut deep into the body of the pine itself for the sole purpose of receiving the resin which flowed from the scarified-face of the tree-trunk above it. The box was an unnecessary wound driven into the body of the tree at its most vital point, not only weakening the tree and lessening its power to withstand the force of wind and rain, but, at the same time, opening the trunk to disease and creating an immense fire hazard. A forest, which had been heavily turpented by this method, had before it only decay and death. . . .

September 24, 1949—Naval Stores Review.

# GOALS

Looks like I won't have any good news concerning the intramural program for this quarter for a while yet. It seems that everyone is too busy to get it started and the ones who are not busy don't know anything about it.

I got one answer this week from Coach Searce when I asked about it. "It hasn't started yet," said Coach. So, Guys and Gals, that is the answer to your question about the program, "It hasn't started yet."

Sorta looked over the touch football game in front of Sanford the other afternoon. Some of the boys looked pretty good from where I sat. Tommy Wren, from B.P.I., may not have been the best player on the field, but he did put on the best show. Next time you go by, stop and see for yourself.

Man oh man, talking to the basketball players is rough on me this year. Don't seem to be able to keep from getting a crick in my neck. They sho are tall. The next time you students go home and your old High School has trouble with officials for football or basketball games, put in a plug for the boys here. We have a good many boys that really know the game and are registered with the Georgia High School Athletic Association. It will give them a break and will also assure the High School of impartial officials that are good.

Lawrence Mountjoy, a senior from Danville, Ky., is a regular returning from last year's squad. Lawrence is 23 years old and 5 feet 9 inches tall, and a veteran of the Marine Corps. He played basketball two years in high school and two years at Cumberland Jr. College in Kentucky. This is his second year playing for TC after transferring from Cumberland.

Last player of last year's squad is George Lindsey. George stands 5 feet 10 inches tall, and is out for his third letter at TC. George comes from Rntz, Ga., where he played three years as a first string forward. He is at his best

## 'T' Club Elects Mason Clements President

The "T" Club got underway last Tuesday with the election of new officers. Mason Clements is the new president; George Roebuck, vice-president; Carroll Edwards, secretary, and George Lindsey, treasurer.

President Clements said that he did not know what the club would do to help promote sports on the campus first. But I would like to go on record as saying that whatever these men do, it will be something that the entire student body will be proud of.

## Veterans Club Makes Plans for Cage Team

President Allen Rodgers disclosed plans for the Veterans Club basketball team today. Rodgers said that a meeting will be held Tuesday night at 8 p.m. in Sanford Hall. The club will elect a coach and a athletic committee for the year.

The Vets' team will be made up of 12 to 15 men and will play a full schedule. Many of the players from last year's team that won 12 and lost six, will be back, but the team needs new material. No man is assured of a starting berth until he has survived the tryouts and makes the squad.

when the game is fast. It is still a mystery to us how he can get down the court and under the basket so fast. George is one of the little men on the squad, but he has one of the biggest competitive hearts in ball that we have ever seen.

# TC Basketball Practice Begins With 30 Out

With 30 men out, Coach Searce officially started practice. He told the players that he was not looking for the best players on the floor today, but he was looking for the best men for December 1.

The boys looked pretty good in spots, but naturally they were ragged due to vacation.

Congratulations to "Rog" Parsons for bringing his brother Ralph to school at TC. Ralph and Roger make a fine team of "Shooting Parsons."

Jim Moore, of B.P.I. fame, looked pretty good to us today. Jim seemed to be pretty good in rebounds.

Tuesday's practice session was much more impressive than that of the day before. This was probably due to the fact that some of the "weeds" had been removed in the process of cutting the team to traveling size. The shooting was the most noticeable of the improvements of the squad.

Some of the "rookies" looked ragged in some respects, but they seemed to be trying hard and with a coach like Mr. Searce pushing them, we think they will come across.

As a whole, the material from which TC's basketball representatives will be taken this year, looks pretty good. And with so many regulars returning from last year's team, we believe that TC will have a fine chance against any competition.

## Home Ec Club Plans Tentative Program

The Home Economics Club had as their guests Tuesday night, girls who are interested in home economics. A tentative program of the year was presented.

A report on the trip to the Province 3 Workshop was made by Harrison, delegate to the meeting. The Georgia Teachers College department was commended highly for its community project work at the local health clinic by the field secretary of the AHEA.

A social hour concluded the meeting.

## TC Band Now Has 36 Members; 45 Goal

Have you had the inclination to start marching during chapel period on Wednesday or Thursday? If so, it is probably due to the stirring marches of the TC Concert Band. The band now has 36 members, and Mr. Rasmussen, director, states that he expects 45 by the winter quarter. Plans are already being formed for concerts in Brunswick, Swainsboro, Waynesboro, and other towns near by. One of the highlights of this year's program is the Spring Concert to be presented near the end of the winter quarter. The band is in desperate need of majorettes. If enough are interested, classes in baton-twirling will be conducted.

Mr. Johnson, formerly of Illinois, is teaching brass instruments and sight-singing. Mr. Rasmussen is teaching reed and percussion instruments and method courses. Anyone interested in playing in the concert band is asked to contact Mr. Rasmussen.

## Music Program Is Arranged for 7:30

Are you a music lover? If so, there is a program especially for you each evening at 7:30 in the audio-visual room. The program is in two parts. First, a planned program, which has a particular theme; second, a request program the audience.

The schedule is posted each day on the library bulletin board. Billy Moore and Bobby Pickens are in charge of the "Music Hour."

## Women's PE Dept. To Sponsor Dancing

The women's physical education department is sponsoring classes in social dancing this quarter. The first few lessons will be devoted to fox trots and waltzes.

Other classes offered are soccer, field hockey, and folk dancing.

The women's physical education department, with the help of the W.A.A., is also planning a program of intramural sports.

## Dr. Pittman to Meet In 10 GEA Meets

Dr. Marvin S. Pittman, President Emeritus of Georgia Teachers, will leave on October 12 to visit all ten of the sectional meets of the Georgia Education Association.

The first meeting will be held at Rome on the thirteenth of October and will end at Decatur on November 2.

During his trip, Dr. Pittman will try to find where the 1,250 alumni of G.T.C. are residing at the present time and what jobs they are now holding. In fact, he will know practically everything about our alumni when he returns. All this information will be filed in his office and will be a service agency for alumni.

## TC Professors Off To Good Dance Start

With the dance last Saturday night, the Professors, TC's dance orchestra, got off to another year of music making. The orchestra has been cut in size so that it will be easier to transport to dances off the campus. They will concentrate more on "sweet music than on "jump and jive." The members of The Professors are Sax section — Eddie Ort, J. L. Screws, Don Wilkes, and Charlie Turner; brass section — Richard Hawkins, Linton Sammons, and John Barr; rhythm section — Andy Odom, Douglas Moore, and Cliff Key.

# Have You Heard?

The melodious sounds of the tonette? There must be millions.

Why all the cheering in Bunny's room when North Carolina made their first touchdown?

That some of these girls wonder why Mr. Caldwell comes in the dining hall to eat by himself. They would be more than delighted to keep him company.

Where Tom J. is going long week-end?

Of any stray hogs on the campus, if so, notify Douglas T., the champion hog catcher of Bulloch county.

Whether or not Doris T. will ever settle down to one steady?

Who is that secret admirer that sent Norma and Mary R. big bouquet of roses?

Rosemary finds it more convenient to place her dresser before the door to discourage late-comers to her midnight parties.

Margaret H. still has that gleam in her eyes as a result of a certain visitor. Oh, that Robert.

What it is in Waynesboro that is so attractive to Kathryn C.

Why Bobbye Q. is so disappointed that Ga. Tech lost the football game.

Whether Sandra ever received that kiss her mother sent her by Alex W.?

Frankie has requested another P.O. box since the one she has isn't large enough to hold all her mail.

What methods use to fascinate those West Hall freshmen? (One in particular.)

Who the boy is in Sanford who has one side of his wall plastered with pin-up girls?

Who is the king of "20 Questions" in Sanford.

Those most likely to be seen together are Nolie and Ray, Irish and H. A., Roseline and Jimmy, Angie and Al, Dot and Burt, Betty Jean and Alvin, Marion and Bill, Betty and Casey.

Why Earl C. has to play the field and can't be satisfied with just 10 or 12 girls.

In the list of newlyweds in last week's edition we overlooked Pat Quattlebaum. Why were you so quiet, Pat?

Which Phd. on the campus has a hard time convincing the upper-classmen that he doesn't have to wear a "Rat Cap?"

Why an inmate of Sanford Hall, second floor, has sworn off French fries?

## TC Philharmonic Choir To Present Old Numbers

The choir is working again on two of their numbers, which were particularly successful last year; "Preludes To Eternity" by Liszt, and the Negro Spiritual "Dry Bones." Several Bach Chorales will be included in their repertoire this year. One number of special interest is "Voix Celestes" in which the humming voices of the choir imitate the tones of the pipe organ. Another outstanding number is "Hymn to the Madonna," in which Miss Ann Trice will be featured as soloist accompanied by the choir. Both piano and organ will be used with this latter number. These numbers are all being prepared for the Christmas concert, which will be given by the choir early in December.

After careful consideration, these people were chosen to be in the chorus:

Sopranos—Sandra Adams, Dorothy Alman, Marilyn Barwick, Joyce Blanton, Louise Burch, Elizabeth Butler, June Cantrell, Martha J. Eason, Walton Ewing,

Miriam Hall, Betty Hart, Margie Jackson, Gay Kimbrough, Dot Lancaster, Iris Lee, Burney A. Mann, Madlyn Meeks, Dell Morris, Bobbye Quick, Peggy Robinson, Lois Smith, Mary Ruth Smith, Ninette Sturgis, Claire Thomas, Ann Trice, Minnie J. Walters, Carolyn Wommack, Sara White, Marty Webb, Betty J. Williams, Reba Wilson.

Altos—Virginia Braddy, Jo Ann Darden, Martha Driskell, Rexford Nesmith, Mary Lu Powell, Trudie Ann Pridgen, Mary Frances Smith, Allene Timmerman, Anna Marie Tippins, Marjorie Wetherford.

Tenors—Richard Cohan, Robert Griffin, Richard Hawkins, Douglas Moore, William R. Moore, William R. Moore, Harry Newman, Tillman Newson, William Pharis, Bob Trice.

Basses — Robert Cone, Gene Henderson, Gilbert Hughes, Forrest Howard, Bobby Humphrey, Winton Lacey, Eddie Ort, Robert Pickens, Chester Poole, William Sirmans, Joseph Smith, I. E. Thigpen.

## Dr. Tom Alexander Is New TC SS Head

Dr. Thomas B. Alexander, new head of the Social Science Department, attended public schools in Nashville, Tenn. He later found his way to Vanderbilt, where he received his BA in 1939, MA in 1940, and his PhD in History in 1947.

In the years between 1942 and 1946 he served in the United States Naval Reserve as a supply officer. "Supply officers," he adds, "were tossed ashore in England and the English Channel and never heard a shot fired in anger." While in service, he taught at the Supply Operational Training Center at Bayonne, N. J.

After his release, he was on the faculty at Clemson College, South Carolina, where he remained until 1949. He also taught in summer school at Emory and Henry College, Va. In addition, he was at Washington College Schools in Tennessee, a Presbyterian-sponsored institution, and last summer taught at Wofford College at Spartanburg, S. C.

He was married in 1941 to Miss Elise H. Pritchett. Dr. Alexander has three children, Wynne 5, Elaine 3, and Carol 4 months. His only sport is golf, but his professional field is also his avocation. For example, as a hobby, he does research in history. He has done editorial work and has written a book, **Political Reconstruction in Tennessee**, to be published by Vanderbilt University. The subject with which he had the greatest difficulty in college is German. He has had little experience teaching girls. In fact, the greater portion of his experience with instructing the fairer sex was during his graduate work at Vanderbilt, where he taught mathematics. This is a decided handicap when he is the only male in a household of five women and a female dog, but has made him an expert on minority rights.

In conclusion, he adds, he has always been informed that his sister dropped him when he was only a few months old, on his head on an iron radiator. From this, he says, you may draw your own conclusions.

## 93 Counties Are Represented at TC

TC can now boast of students from 93 counties in Georgia, seven other states, and two foreign countries, Germany and Cuba, according to the records of Miss Viola Perry, Registrar.

## Student Teaching Is Not So Bad, According to LHS

By BOBBYE QUICK

Student-teaching really isn't a course to be dreaded. From all reports, the student-teachers over at the Laboratory School are having a very enjoyable, as well as a very educational experience. Under the direction of Dr. Thomas Little, Mr. Shelby Monroe, and Mr. Yewell Thompson, the program over there has undergone many changes.

Mr. Selby Monroe, new coordinator in Laboratory High School, gives us the overall purpose of the student-teaching program as, "The purpose of the student-teaching program is to help the student teachers to clarify and extend their concepts of the purpose of education in our democracy and the role of the teacher in the teaching-learning situation. It is also to enable the student-teachers to develop techniques of directing the teaching-learning situation."

The group of student teachers meets one hour each day at 8, but most of the work is being done in conferences and seminar groups. In these meetings the student-teachers are learning the techniques of teaching—just now they are demonstrating the demonstration and panel discussions as methods of presenting subject matter. There are, along with the demonstrations, discussion of the procedures.

One of the things most frequently stressed in the teaching profession is that the teacher really is a human being and not just a "stuffed shirt" standing behind a desk. These "human beings" began this quarter in proving this statement by attending a fish-fry at Dashers, where all supervising teachers and student teachers became acquainted.

Student teaching should be considered the most important course that one takes while he is here at Teachers College. The program is so set up that a student will get all the experience that can possibly be gotten that will help in going out to the teaching profession. In talking with the student-teachers we find that they are very well pleased with the set-up over in the lab school.

The list of student teachers for this fall quarter are as follows:

Jack Biles, from Statesboro, Biology; Billy Bohnanon, Hilltonia Social Studies; Roy Bragg, Pinehurst, Physical Education; Calvi Brewton, Claxton, Physical Education; James Calhoun, Tarrytown, Commerce; Warren Capton, Savannah, Science; Mitchell Conner, Harlem, Physical Education; Ester Croley, Williamsburg, Ky., Industrial Arts; Andy Cuneo, Rockaway, N. J., Industrial Arts; Marvin Dixon, Millen, Government; W. F. Dixon, Kite, Physical Education; Jesse Durden, Graymont, Industrial Arts; Homer Foreman, Norman Park, Physical Education;

John Groover, Statesboro, Science; Leon Hall, Swainsboro, Physical Education; Cyril Hamm, Sylvania, Social Science; Van Harrison, Adrian, Physical Education; William Hickson, Millen, Commerce; Joseph Houston, St. Augustine, Fla., Science; Charles Kelley, Sylvania, Social Science; George Lee, Statesboro, Commerce; J. C. Lindsey Jr., Rentz, Physical Education; Burney Anne Mann, Glenville, English; Craig Marsh, Portal, Mathematics;

Andy Odum, Albany, Music; Roger Parsons, Demorest, Physical Education; Bobbye Quick, Midville, English; Albert Shuman, Statesboro, Commerce; Hel Simpson, Lyons, English; Caroline Smith, Metter, English; Ruth Smith, Reidsville, Home Economics; Roy Styles, Claxton, Industrial Arts; Leon Thigpen, Lakeland, Mathematics; Robert Tyre, Odum, Social Science; Donald Wilkes, Rome, Music; and Alvin Williams, Pulaski, Physical Education.

## CHAPEL POEM

This little item was composed by a member of the George-Anne staff during a chapel program last year. Let us hope the same verse will not apply to the programs presented this year.

## CHAPEL

Oh, what fate can conquer me  
So much as to be bored,  
Bored to tears that do not flow  
To tears I can't afford.
