Web of Science Has a New Look!

January 14, 2014

Web of Science has been redesigned to offer a new, simplified search interface. No changes to the content or to the search index have been

made, but users will now find it easier to start a search, to review results, and to discover related research with linked data.

Enhancements

include improved page layout and readability, clearer identification of the database being searched, and simplified navigation. More

information about the new interface is available [here](#). Training is available on the [Web of Science YouTube channel](#).

Web of Science can be accessed via [GALILEO](#) or directly with this [link](#).
