Motion:

Faculty Governance OWG 5-1 recommends a change in the senate leader title to Senate President to replace title of Senate Moderator. Recommended change will be reflected in the new GSU bylaws. The SEC moves to change the title of Senate Moderator to Senate President. Additionally all title changes concerning the Senate Moderator to Senate President will be reflected in the new GSU bylaws

Rationale:

The OWG 5-1 Faculty Governance met to discuss merging bylaws for the new Georgia Southern University. In an effort to foster an environment of collaboration and promote continual improvement in bridging relationships between campuses, members of the OWG negotiated the structure of faculty senate and revised the bylaws of the old GSU to reflect modifications. The first negotiated item is the senate leadership title with a recommended change from Senate Moderator to Senate President. The title of Senate President is consistent with other universities throughout the state of Georgia (See University of Georgia, Georgia State University and Kennesaw University websites below).
