Replanting of Newly Expanded Parking Lot

Submitted by: Robert Costomiris

10/29/2018

Question(s):

When will the parking lot between the Center for Wildlife Education and the Military Science building be planted with new trees?

Rationale:

When this parking lot was redone last summer many mature oaks and pines were removed. We were assured that for every tree removed two would be planted in their place. As of the end of October not a single tree or shrub has been planted, even though the parking lot opened to cars in August.

Response:

11/9/2018: There was a written response to this before the previous May meeting. The SEC will forward this to the Planning, Budget, & Facilities committee for a further update.
