Enhancements to WorldCat Discovery & Temporary Restoration of WorldCat FirstSearch

August 17, 2015

The library is continuing work on enhancements to the new [WorldCat Discovery](#) interface, including improving real-time availability information for items in our collection.

If you experience any difficulty using WorldCat Discovery, you may access WorldCat's public interface by clicking on the "[WorldCat.org \(public interface\)](#)" link in the [A-Z Database list](#), or simply search for www.worldcat.org in your browser.

Alternately, access to OCLC's [WorldCat FirstSearch](#) platform has been temporarily restored via the library's [A-Z Database list](#). However, given OCLC's intent to permanently replace WorldCat FirstSearch with WorldCat Discovery, it is unclear how long FirstSearch will remain available.

Please contact the Information Desk (tel:912-478-5645) with any questions.
