# Library Resource Updates for June

June 14, 2019

The University Libraries announce the following updates to our collections:

## **Educational Research Abstracts Online**

The University Libraries support Georgia Southern University by providing access to information, collections, and services designed to meet the scholarly needs of the University and the general public. As part of this effort, the Libraries continually review our database subscriptions to ensure that we provide the best possible mix of resources and research tools.

As part of this review, Educational Research Abstracts Online has been identified for cancellation effective immediately. All links to Educational Research Abstracts Online will be removed from the library website June 21<sup>st</sup>, 2019.

## **HighWire, MedlinePlus (at National Institutes of Medicine / National Institutes of Health), and NAICS**

Also, as part of the University Libraries' effort to provide support for Open Access resources that meet the scholarly needs of the University and the general public, the Libraries continually review the Open Access databases we include on our A-Z database list.

As part of this review, HighWire, MedlinePlus (at National Institutes of Medicine / National Institutes of Health), and NAICS have been identified for removal from the Libraries' A-Z database list effective June 21<sup>st</sup>, 2019. These resources will remain available via the [GIL-Find catalog](#), [Discover @ Georgia Southern](#), and select [library guides](#).
