This Is Us

Shauna Bock

Shauna is the Assistant Principal at Journeys Secondary School, a Federal Setting IV High School in St. Paul as well as all the care and treatment sites within St. Paul Public Schools. She has a Bachelor’s Degree in Social Science, a Master’s Degree in Special Education with an emphasis on Learning Disabilities and holds a K-12 Principal License. She’s worked in education for over 15 years in both General and Special Education settings. She is also a member of the Mounds View, MN school board and has been with the Alternative To Expulsion program since its inception.

Dan Wolff

Dan is the Principal at Journeys Secondary School, and the care and treatment sites, working along side Shauna. He has a Bachelor’s Degree in Child Psychology, a Master’s Degree in Special Education with an emphasis on Emotional/Behavioral Disabilities and holds a K-12 Principal License. He’s worked in education for nearly 30 years, exclusively in Special Education Settings. He has also been with the Alternative To Expulsion program since its inception.

• MCA scores up 5 percentage points from 2013.
The kids who need the most love will ask for it in the most unloving ways.
Expulsion

In St. Paul Public Schools refers students for expulsion for one of the following reasons:

• Possession of a weapon on school grounds
• Possession of drugs or alcohol
• Inflicting severe bodily harm
Consequences of Expulsion

For Families
- Out of the district for one calendar year
- Unfortunate reality, complicated search for new school
- Drop out rates significantly increase for students who are expelled
- Life expectancy for students who are expelled is 6-9 years shorter
- Lifetime earnings for these students is on average $450,000-$470,000 less than a typical high school graduate

For Districts/Communities
- Loss of funding and enrollment
- Strained Relationships with students and Families
- Schools who expel and suspend at high rates have issues with school climate, lower academic quality and lower test scores
- Significant disparity in regards to which students are expelled leads to racial tension and distrust
- Zero-tolerance policies are not effective deterrents for negative behavior
The Process

Student violates behavior policy related to weapons, drugs or significant bodily harm.

Students case is heard at the St. Paul Public Schools transfer committee

If criteria for expulsion is met, student is recommended to the School Board for expulsion

Families are notified of the decision by District leadership

Typically, families are given the opportunity to withdraw from St. Paul Public Schools to avoid being expelled

Students may re-enroll in St. Paul Schools after one calendar year has passed
The Reality

Families with resources are more successful than families without resources to avoid the expulsion process all together.

Typically, our families of color have a difficult time finding a new school and will just not attend school for a year.

School Districts “talk”

Unless families are moving into a new district, they will need to find their own transportation.

The tendencies for Charter Schools to accept new students are far more positive before December 1st.

Laws regarding students receiving Special Education services.
SO WHAT.
NOW WHAT?
The Why

• **Council of Great City Schools Report**
  - This report highlighted St. Paul’s deficit in providing a strategic framework for meeting the needs of **ALL** students. From this report, significant emphasis was focused upon the creation of wrap-around services.

• **SPPS Equity Work**
  - Our goal is to eliminate racial disproportionality and the predictability of achievement by accelerating the achievement of our lowest performing students and increasing achievement for all students.

**Retain families**
- Each year St. Paul Schools faces declining enrollment

**Analyze practices**
- H.A.N.S. Plan, Suspension numbers, expulsion numbers and restorative practices
Inspiration

We had spent the previous four years as a staff embracing the work of Larry Brendtro, Martin Brokenleg and Steve Van Bockern, through the study of their book *RECLAIMING YOUTH AT RISK* and attending the conference of the same name in the Black Hills.
Inspiration

- Relating to the Reluctant
  - Building Positive Relationships

- Brain-Friendly Learning
  - Alternative Learning Experiences

- Discipline for Responsibility
  - Positive Youth Involvement

- The Courage to Care
  - Pro-Social Values and behavior
Circle of Courage

**Belonging**
A sense of community, loving others, and being

**Mastery**
Competence in many areas: cognitive, physical, social, and spiritual. Having self-control, responsibility, striving to achieve personal goals rather than superiority.

**Independence**
Making one’s own decisions and being responsible for failure or success, setting one’s own goals, disciplining one’s self.

**Generosity**
Looking forward to being able to contribute to others, be able to give cherished things to others.
