No. 8

## Governor Sanders Appreciation Day at Armstrong

### Work On New Campus Progresses

How is the new campus progressing? When will we move out there? These are two questions that seem to be in the minds of us all these days. Well, to find out how something is coming along, you have to go to an authority. The authority on this subject is our president, Dr. Henry Ashmore.

Dr. Ashmore says that the new Armstrong State campus is progressing very well. He says we cannot move into the campus until all of the buildings are complete. We ought to be able to move into the new facilities in December at the end of the Fall Quarter, 1965, barring any unforeseen circumstances. We will open the Winter Quarter on our new campus.

The new library is the most completed of the new buildings. When the time comes to move, the students will be called upon to help move the books from Hodgson Hall to our new library.

The seating capacity of the new gymnasium is 1200. In the gym, there will be two courts so that two separate Physical Education classes can be conducted at the same time. A swimming pool will be constructed. Also, plans are made for six tennis courts.

The new auditorium will be used for lectures and drama purposes. The other buildings planned are the science building, a regular classroom building, an administration building and a maintenance building.

A small student center is being built. In it will be a dining room to serve regular meals. Also, there will be a snack bar and book store in the Student Center.

At the present time, there are no plans for dormitories since there is a Board of Regents' ruling against it.

When we move into the new facilities everything will be new and finished. All the paving, curbing, utilities and buildings will be complete.

There will be parking space for 1600 cars. Health services will go into effect when we move, and a nurse will be on duty at all times.

All the buildings will have colonial columns and will face in-

ward toward a mall. The later buildings will have columns facing outward. The administration building will have columns on the front and the back.

The new campus has 240 acres so that the college may eventually expand. Dr. Ashmore says that in the future with dormitories and new buildings we may accommodate 10,000 students.

When we move out of the present facilities, the Board of Regents will have a real estate agency appraise the old buildings separately and together. They will be out for public bids. The money obtained from sale of the old buildings will be put into the new campus.

### Students Warned

An increasing quantity of promotional material from foreign schools and colleges has prompted the Southern Association of Colleges and Schools to urge students to investigate thoroughly foreign institutions before enrolling.

A Southern Association statement said some foreign colleges and schools are using high pressure tactics to sell programs of questionable academic quality and have deceived American students and some college officials.

Students planning to study abroad and who plan to transfer the credit to an American institution should first determine whether the college or university in the United States will accept the credits, the statement continued.

Failure to check in advance the acceptability of courses offered by foreign institutions can easily result in the loss of credits, it was pointed out.

The Southern Association, the accrediting agency for colleges and schools in 11 Southern states, also issued a similar warning to high school students planning to enroll in summer programs offered by foreign high schools.

"This warning," the statement said, "should not be considered a blanket indictment of foreign institutions for many of these schools and colleges offer quality educational programs."

The Student Senate, representing the Student body, has proclaimed May 10, 1965, as "Governor Carl E. Sanders Appreciation Day". A special assembly is planned to honor the Governor when he comes.

The purpose of the day is to show our appreciation as students for his successful efforts toward establishing Armstrong as a four-year college. Largely through the efforts of Governor Sanders, many of us will be able to graduate from Armstrong in 1968 with four year degrees.

It is fitting and proper that we honor the Governor this year since next year we will move into our new facilities. Also, next year we will officially become a four year college as we leave a two-year status and an old campus. It is largely because of the efforts of Governor Sanders that we are able to do this. We honor Governor Sanders for his work to better Armstrong, but in a sense, we are honoring him for the effort he has made to improve education all over the state. Many of the college campuses in Georgia have benefited because of his deep insight into the problems and needs of education. Many of us, who will transfer to other colleges, will profit because of his programs. We, therefore, feel that we should honor him as Armstrong students for all students in Georgia.

The program for the day will begin with a motorcade to and from the airport to greet the Gov-

ernor. The motorcade will be organized to include all the groups on campus. The motorcade will be made up of cars representing the various organizations on campus. Each club that desires to donate a car will be represented. There will be four lead cars, convertibles, which will carry the dignitaries, such as the Governor, President Ashmore, the President of the Student Body and other student officials.

When the Governor arrives at the campus, the students will honor him with the special program. He will be presented with a gift and a scroll. These will express our deep appreciation for all he has done for us.

The Master of Ceremonies for the day will be Charles Claxton. The Invocation will be given by Louis Harkins. Lake Holt will present the Governor with our gift to him, while James Davis will give him the scroll. The Honorable Malcolm MacClean, Mayor of Savannah, will introduce the Governor. Special recognition should be given to the Young Democrats who are responsible for extending to Governor Sanders the invitation to visit Savannah. The club is headed by Barbara Sutker and Ronald Ginsberg who have devoted much time and effort to the planning of the program for Governor Sanders Day. This project was conceived and is being carried out solely by the students under the leadership of Miss Sutker and Mr. Ginsberg.

Governor Sanders

# GOVERNOR CARL E. SANDERS APPRECIATION DAY

The students of Armstrong State College, through the Student Senate and other student organizations, have designated May 10, 1965 as "Carl E. Sanders Appreciation Day". The purpose of this is to give the students an opportunity to express their personal appreciation to Governor Sanders for his part in helping make a four-year college education possible at Armstrong State College and for helping to provide some of the funds for building a new campus. The idea was conceived by the students and the program will be executed by them. The schedule of events will be as follows:

1. The arrival of Governor Sanders at Travis Airport at 9:00 A.M.
2. Student motorcade to the present college site.
3. The Program will take place on Bull Street in front of the Administration Building at 9:30 A.M.
4. The program will be as follows:
  - (a) Invocation
  - (b) Reading of the proclamation by Mayor Malcolm Maclean
  - (c) Presentation of gift to Governor Sanders from the student body.
  - (d) Presentation of scroll to the Governor
  - (e) Response by Governor Sanders
  - (f) Benediction

The planning of the program is being done by James Davis, President of the Student Senate, Barbara Sutker and Ronald Ginsberg.
