Google, Georgia Southern University's Center for Applied Cyber Education to offer free training, one-on-one help from Google staff April 25

APRIL 16, 2018

Save

Georgia Southern University's Center for Applied Cyber Education (CACE) is partnering with Google and other local organizations to present the Grow With Google Savannah event at Service Brewing Company, 574 Indian Street, on April 25.

Grow with Google is an initiative to help those who make up the workforce of today and the students who will drive the workforce of tomorrow, access the best of Google's training and tools to grow their skills, careers and businesses.

Ranked No. 35 for job growth in the U.S. and No. 65 for best place for business and careers by *Forbes*, Savannah is a perfect fit for the Grow with Google event. The tools and resources Grow with Google offers will help Georgians throughout the region develop new skills and help grow their businesses.

"It's a natural fit for CACE to partner with Google to produce the Grow with Google Savannah event," said Scott Scheidt, CACE executive director. "We are dedicated to supporting education that imparts the skills and concepts the 21st-century cyber workforce needs."

CACE is an interdisciplinary center committed to being a leader in promoting cyber education, developing partnerships, educating and training the cyber-workforce. CACE collaborates with the armed services to provide cyber education training to local, regional and national military constituents. Georgia Southern is one of only 14 schools in the country that has both the National Security Agency Center of Academic Excellence in Cyber Defense Education and Department of Defense Cyber Crime Center of Digital Forensics Academic Excellence designations.

Google will host the free event at Service Brewing Company to help job seekers, students, teachers, entrepreneurs and small business owners improve their digital skills. Service Brewing was chosen as the location because of its amazing story. Kevin Ryan, a West Point graduate and former Army commander, was seeking something more from his career. After his wife, Meredith Sutton, gave him brewing supplies, the seed that became Service Brewing was planted. The couple launched Service Brewing with the help of almost two dozen investors—most of them veterans. The organizers of Grow with Google Savannah hope that as many veterans and non-veterans as possible will attend the free event at Service Brewing.

Savannah residents will have the opportunity to engage in interactive demonstrations, hands-on workshops and one-on-one coaching with Google staff. Topics will include online skills for growing small businesses, job search strategies, email basics, online safety and search engine optimization, among other topics. More information and registration for the event can be found [here](#).

Georgia Southern University, a public Carnegie Doctoral/Research institution founded in 1906, offers 141 degree programs serving more than 27,000 students through nine colleges on three campuses in Statesboro, Savannah, Hinesville and online instruction. A leader in higher education in southeast Georgia, the University provides a diverse student population with expert faculty, world-class scholarship and hands-on learning opportunities. Georgia Southern creates lifelong learners who serve as responsible scholars, leaders and stewards in their communities. Visit GeorgiaSouthern.edu.

Department of Mathematical Sciences announces David R. Stone Distinguished Lecture series

TIME: THURSDAY APR 19, 2018
TALK: 5:30 PM & RECEPTION: 5:00 PM

PLACE:
EDUCATION BUILDING - ROOM 1115

The Department of Mathematical Sciences at Georgia Southern University will host the inaugural lecture in the David R. Stone Distinguished Lecture series on the Statesboro Campus Thursday, April 19, at 5:30 p.m. in College of Education Building, Room 1115. A reception will be held prior to the lecture at 5 p.m. in the atrium of the lecture hall.

Sir Vaughn F. R. Jones, distinguished professor of mathematics at Vanderbilt University, known for his work in von Neumann algebras and knot polynomials, will present "What is it about the Plane?" Professor Jones received the 1990 Fields Medal, which is awarded once every four years to mathematicians under the age of 40 for outstanding discoveries in mathematics. The award is widely viewed as the Nobel Prize of mathematics.

The Stone Distinguished Lecture Series is endowed in honor of Professor Emeritus of Mathematics, David R. Stone, Ph.D., who taught at Georgia Southern University for 49 years, arriving in 1968 as an assistant professor, retiring from his full-time position in 2008 and teaching part-time through 2017.

Stone's passion focused on inspiring students to study mathematics. He developed and taught the mathematics course in the Bell Honors Program curriculum, and later taught courses and directed honors thesis projects in the University Honors Program. He was also instrumental in starting the student chapter of the Mathematical Association of America on campus and advised the Math Jeopardy Team for many years.

Stone was a tireless worker within the mathematics education community, working with local schools, coaching math teams for tournaments and serving as state director of the Georgia Partnership for Excellence in Education.

Over the years, Stone was recognized for his many contributions to the profession. He received numerous awards including the 1993 Gladys M. Thomason Award for Distinguished Service and the 2005 John Neff Award from the Georgia Council of Teachers of Mathematics. He also received the Mathematical Association of America's Southeastern Section Awards for Distinguished Service in 1998 and Distinguished Teaching in 2005, as well as the Certificate of Meritorious Service in 2009.

On campus, he received the Georgia Southern Award for Excellence in Contributions to Instruction in 1988 and the Award for Excellence in Service on 2000, one of only a select few faculty members to receive both awards.

Stone's 49 years of teaching and service to Georgia Southern and his service to the profession have been recognized by creating the David R. Stone Senior Mathematics Major Award, which is presented each year to outstanding graduating seniors in the department, and also through an endowment by Stone and his wife, Ann Stone.

MBA Open House scheduled on Armstrong Campus

APRIL 16, 2018

Save

The Georgia Southern College of Business will host an open house on Tuesday, April 24, from 4 to 7 p.m. to provide more information on the accelerated Master of Business Administration (MBA) degree offered in Savannah, Georgia.

During the drop-in event, graduate program representatives will be available to discuss MBA options and the admissions process. Working professionals interested in making an investment that will benefit their careers should plan to attend the event, which will be held in the President's Dining Room in the Student Union on the Armstrong Campus.

Additionally, individual appointments with an MBA representative may be scheduled on any Thursday at the Coastal Georgia Center. To schedule an appointment, please email mba@georgiasouthern.edu or call 912-478-5767.

Georgia Southern University has offered the AACSB International accredited MBA since 1977. The program is designed for working professionals and is a cohort-based, 15-month program.
