THE STATESBORO STAR.

\$1 A YEAR.

STATESBORO, GA., WEDNESDAY, DECEMBER 13, 1899.

VOL. 7, NO. 80.

Big Fire in Augusta.

Supposed Electric Light Wire was the Cause. The Arlington Destroyed.

Augusta, Ga., Dec. 10.—Augusta's great Sunday morning conflagration will approximate \$1,000,000 in damage. It was the worst fire that Augusta has had in years. It began in the heart of J. B. White's big, dry goods house—the nearest approach Augusta had to a big modern department store. The origin of the fire is unknown but it is surmised that an electric wire may have come in contact with the woodwork after the insulation on it became imperfect, or possibly a spark from a sputtering are light may have tumbled into the dry goods.

As soon as possible after the alarm the firemen were on the ground and the general alarm was turned in by the chief at once. It did not take Chief Roullette a minute to see that he had a conflagration to contend with and as soon as he started his own apparatus to work he wired to Macon and Savannah for aid. Both of these cities responded promptly and started their apparatus on special trains for Augusta.

The Arlington annex and the stores beneath it, all a part of the old Central hotel property, abutted the store of J. B. White on the up-town side and all was involved in the first onslaught of the flames after getting outside of White's big store. Next came the handsome Masonic building. Into this the flames ate their way from the rear.

When this became thoroughly ablaze there was no longer any possibility that the Arlington could escape. It has always had the reputation of being exceedingly vulnerable, and when the flames exploded from the rear of the Masonic building it was soon visible.

The tremendous bonfire was visible for miles in all directions. The fire ignited the roof and windows of the Schneider building, across Eighth street, on the next block, but it was arrested here and barring a few thousand dollars damage to stock, the main loss was confined to the original block bounded by Broad and Ellis streets north and south, and Seventh and Eighth streets, east and west.

It being Sunday, insurance men and property owners would not go to their iron safes for accurate data as to policies, and companies and only furnish the estimated insurance in bulk.

The following figures are estimates made up by three of the leading insurance men in the city, and are believed to be conservative, but are only given as estimates.

Dorr building and stock, \$45,000. Schiadenesi stock of fruits \$5,000. Rice & O'Connor, \$9,000. J. B. White, building and stock, \$410,000. J. Henry Meyer, tobacco and cigars, \$2,000. J. Miller Walker, \$5,000. Stuhl's Restaurant, \$7,000. Exchange Saloon, \$2,000. P. F. Sheron, \$7,000. Miller & Elmore, \$8,000. Arlington Annex, \$2,000. Arlington hotel, \$100,000. Masonic Hall, \$25,000. E. J. O'Connor, \$8,000. Phoenix Printing Co., \$3,000. L. Schaul, \$10,000. M. L. Freeman, \$1,000. Augusta Construction Co., \$1,000. Willet Drug Co., \$5,000. Morris' stable, \$5,000. Richards' stable, \$1,500. Schneiders', \$5,000. Mullarky & Sullivan \$10,000.

Chiefs of the fire departments of Macon and Savannah with men and apparatus, arrived after the conflagration had been arrested and their services were not required.—Macon Telegraph.

The New Pastor.

The South Georgia Conference has assigned Rev. W. J. Flanders to the Statesboro charge during the next year. Mr. Flanders is well known to many of our people, he having served the churches at Savannah and Swainsboro. At the former place he served part of a term of three years and after a year elsewhere was sent back and served the church four years, the limit allowed by the Conference. Those who know him speak in the highest terms. Statesboro will give the new pastor a warm welcome upon his arrival.

The Willingham Bill.

The vote was taken on the Willingham Prohibition Bill in the Georgia State Senate on Friday. The result was a defeat for the bill. It was lost by a vote of 26 against it to 14 for it. Four Senators dodging a vote. Senator Brannen of this district voted and worked against the bill, so did Mr. Franklin, our representative in the House, where it passed by a good majority. This will probably end all the prohibition legislation for this session.

The Boers.

A request has come to The Herald to tell something of the brave natives of the Transvaal who at present are making such a stand against the British.

They are called the Boers. The word in the original Dutch merely means a farmer, or more probably, perhaps, a peasant. They are essentially an agricultural people. They fulfill in an unusual degree the Horatian desire:—

"Happy the man, in busy scenes unskilled.

Who, living simply, like his sires of old,

Tills the few acres which his fathers tilled,

Vexed by no thoughts of usury or gold."

It is possible there is a public misconception in regard to the extent of territory governed by military operations in South Africa at present. It is common, for instance, to refer to the Transvaal and the Orange Free State as two tiny republics engaged in a life-and-death struggle with a great empire.

This is literally true as respects means and resources, but in the matter of territory these republics cover quite a respectable portion of South Africa. British operations against them cover a curving stretch of coast and concentric interior of more than 10,000 miles in length.

In other words, the South African republics can conceivably, and have done so on a few strategic points in Natal and along the western portions of the Transvaal, while the British must be prepared to defend any and all points of a great curving line. From Cape Town British troops must traverse 500 miles to the points south of the Orange river. The region also in which Lord Methuen's expedition is operating is about 500 miles west of Natal and Durban on the coast. When it is further considered that the Boers and the Free Staters are fighting on territory with every inch of which they are familiar, with supplies at hand and the population friendly, their advantage strategically is manifest.

The marriage custom of the Boers is unique. In many instances the Boer knows his intended only by repute as heirless to so many farms and cattle. As a rule it is the desire to possess these farms and cattle that decides him to take the matrimonial plunge. His errand is fully told when he asks leave to "off-saddle." After supper—he times his arrival about sundown—he asks permission to sit up with the girl.

This "upsitting" forms the Boer betrothal ceremony. A long candle is lit and the coffee kettle put on the fire. As long as the candle burns the betrothed exchange confidences. When the light flickers the visitor departs, and this constitutes the engagement. The wedding follows in a month or so. From miles around come relatives and well-wishers.

A firing of guns salutes the return of the bridal party from the "predkant," or preacher. Then follows the great feast, which lasts until sunset. During the clearing away the ladies attire themselves in white muslin, gay with ribbons and brass jewelry.

The fiddlers supply the music, and, led by the bride and groom, dancing begins. The mud floor has been polished with bullock's blood until it glistens like marble. The fun waxing greater, and not until dawn does the company disperse.

Altogether, they are a God-fearing, industrious people, and while there have been reports of misdeeds which contravened the laws of war, it seems to be pretty well authenticated that they are humane and pious in war as well as in peace.—Ex.

Of Some Importance.

The fact that Statesboro had the travelling representatives of two great railway systems as her guests at the same time on Monday, bidding for her business, shows how we are appreciated abroad. The little, sleepy Borough of a few years ago has been transformed into a bustling city of no little importance. Messrs. H. F. Carey of the Southern Railway System and W. G. Brewer of the Central of Georgia were both in town on Monday looking after the interests of their roads.

This would not be surprising to those who are posted on the amount of business handled here. The two roads have all they can handle. A Star reporter noticed a freight train run into Cuyler over the Savannah & Statesboro Railway a few days ago pulling 21 loaded cars and a number of others had been left along the line on the different sidings. This is a regular business. Then a few days ago we came in over the Dover & Statesboro and the train had more cars than it could pull and a number had to be left at Dover.

It is interesting to note that the next day the Statesboro & Savannah Railway was running a train of 21 loaded cars and a number of others had been left along the line on the different sidings. This is a regular business. Then a few days ago we came in over the Dover & Statesboro and the train had more cars than it could pull and a number had to be left at Dover.

The Southern Looks This Way.

Mr. H. F. Carey, Traveling Passenger Agent of the Southern Railway Company spent Monday in this city. His headquarters are at Macon, Ga. He was in Statesboro looking after the interests of his road. He proposes that the Southern shall bid for its share of the through business emanating from this point. His road is now running into Savannah over the Plant System at present until a remaining gap of 54 miles is built from Cheraw, S. C. to Savannah which is being done as fast as money and men can do it. An order has been placed for a large number of new locomotives and 1000 cars. Mr. Carey was pleased with what he saw in the coming town of Wiregrass Georgia and will pay us another visit shortly.

Carried Off More Negroes.

Mr. R. M. Williams left on Monday afternoon with another lot of turpentine negroes which he gathered up around the different stills in Bulloch. He will take them to his still in Alabama. The Central of Georgia Railway Co., brought over two railway cars to take them to their point of destination. There was no hitch between Mr. Williams and the operators here this time as there was on a previous occasion when he was carrying off hands that were engaged to work for other people. It seems that hands are scarce in the business this season and operators are put to no little expense to get men to work their timber with.

Refused to Sign.

We learn that there is a slight hitch in the Turner-McGregor newspaper case. As the public is well aware the case which went against the Times outfit to the amount of six or seven hundred dollars on a mortgage fore-

closure, had been appealed to the Supreme Court. Now, we are informed that Judge Evans has refused to sign "The bill of exceptions," which practically reads McGregor out of court and blocks his passage to the Supreme Court. This will probably lead to a levy and sale if some other turn is not made within a short time.

It seems that the days of the Times are numbered.

Old People Made Young.

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, back ache, nervousness, headache and tired listless, run-down feelings. But there's no need to feel like that. J. W. Garden, of Maville, Ind., says: "Electric Bitters are just the thing for a man when he don't care whether he lives or dies. It gave me new strength and good appetite. I can now eat anything and have a new lease on life." Only 50c at McLean & Co's Drug Store.

Johnson Arrested.

Herchel V. Johnson, postmaster at Claxton and a former citizen of this place, was arrested by a United States Marshal and taken to Savannah on Saturday, charged with embezzling \$180 of the post office funds from the Claxton office. He was given a preliminary hearing and bound over but was able to secure bond among his friends in Savannah. We understand that the amount has been replaced by his bondsmen who have taken charge of the office, as stated in our last issue, but it seems that this does not wipe out the crime. We learn that this is not the first time there has been trouble connected with that office. The same thing occurred during the summer but was patched up in some manner.

Mr. Johnson was under the impression that when the amount was made good to the government that that ended it, but this is not the case it seems. His case stands pretty much the same as that of W. F. Carter, former postmaster at Meldrim. They will be tried during this term of the United States District Court, which is in session now in Savannah. These two parties were old thums in former days and it is a little singular that they both should come to grief just at the same time.

IMPRESSIONS OF GUAM.

WHAT'S TO BE SEEN IN OUR NEW PACIFIC ISLAND.

The first sight of Guam is rather disappointing. There were several small islands in the line, but the first of them was the only one that was not a part of the main island. The rest were small, rocky islets, some of which were covered with dense vegetation, but the main island was a flat, sandy beach, with a few small trees and a few huts scattered here and there. The water was a deep blue, and the sky was a clear, pale blue. The sun was shining brightly, and the air was warm and pleasant. The first sight of Guam was a disappointment, but it was a good one, for it was the first sight of a new world.

Concealing Guam, our new possession in the Pacific Islands, a correspondent of the New York Sun, who went there in the U. S. S. Albatross, writes as follows:

As the ship approached nearer, the low-lying coast came into view, and the groves of coconut trees, which are the chief crop of the island, were seen. The water was a deep blue, and the sky was a clear, pale blue. The sun was shining brightly, and the air was warm and pleasant. The first sight of Guam was a disappointment, but it was a good one, for it was the first sight of a new world.

The harbor of San Luis de Apia is a small, sheltered bay, with a few small trees and a few huts scattered here and there. The water was a deep blue, and the sky was a clear, pale blue. The sun was shining brightly, and the air was warm and pleasant. The first sight of Guam was a disappointment, but it was a good one, for it was the first sight of a new world.

TWO YEARS FOR W. F. CARTER.

Plea Made By Mr. W. F. Pense—Says Money Went Into Populist Fund.

Judge Speer didn't Place Much Confidence in Statement that Money was Used by Director of the Populist Campaign Committee.

Savannah Press.

This morning Judge Speer in the United States court heard the pleas of those who have been indicted by the United States grand jury at this session. Some of those indicted entered pleas of not guilty, though many consented to plead guilty and thus secure sentence of lesser magnitude than might be imposed upon them should they be convicted by a jury trial and then presented to the court for sentence.

Among those who entered a plea of guilty were W. F. Carter, ex-postmaster at Milledgeville, who was about the two years in the Ohio penitentiary by Judge Speer.

Here Judge Speer stopped the lawyer. He told him the person he was calling upon was mythical so far as the court was concerned. He asked what proofs he had that the Populist had advised Carter to take money. He suggested that the attorney had best withdraw his plea he was making. He was aggravating the case. When a man takes funds to help along a political party and admits it, it adds to the gravity of the offense. He suggested that Mr. Pense with the facts correct, he did not see how he could help giving the defendant the full penalty of the law. Mr. Harbridge came to Mr. Pense's assistance and smoothed over some of the things he had remarked to the court.

Judge Speer ordered the accused to stand and sentenced him. In doing so he said that the offense to which Carter had pleaded guilty was a very serious one. Doubtless when the money was taken he believed he could put it back when it was needed.

"From what has been said of you to me by several parties, among others the chancellor of the University of Georgia, you are not a bad man," the judge continued. "Your offense is serious that I could sentence you to the penitentiary for ten years, as well as sentence you to pay back the full amount you stole. I am sorry to hear of your family; sorry, indeed. It distresses me to know of their condition. It is one of the sad and distressing features of judicial life that man appears before us who command our pity. I sentence you to two years' imprisonment and the payment to the government of the amount you are short."

Carter was taken back to jail after writing a note to a member of his family telling of his sentence.

A SMALL SPOT MAY BE CANCER.

MOST VIOLENT CASES HAVE APPEARED AT FIRST AS MERE PIMPLES.

The greatest care should be given to any little sore, pimple or scratch which shows no disposition to heal under ordinary treatment. No one can tell how soon these will develop into Cancer of the worst type. So many people die from Cancer simply because they do not know just what the disease is; they naturally turn themselves over to the doctors, and are forced to submit to a cruel and dangerous operation—the only treatment which the doctors know for Cancer. The disease promptly returns, however, and is even more violent and destructive than before. Cancer is a deadly poison in the blood, and an operation, plaster, or other external treatment can have no effect whatever upon it. The cure must come from within—the last vestige of poison must be eradicated.

Mr. Wm. Walpole, of Waltham, S. D., says: "A little blotch about the size of a pea came under my left eye, gradually growing larger, from which shooting pains at intervals ran in all directions. I became greatly alarmed and consulted a good doctor, who pronounced it Cancer, and advised that it be cut out, but this I could not consent to. I read in my local paper of a cure effected by S. S. S., and decided to try it. It acted like a charm. The Cancer becoming at first irritated, and then discharging very freely. This gradually grew less and then discontinued altogether, leaving a small scar which soon dropped off, and now only a healthy little scar remains where what threatened to destroy my life once held full sway." Positively the only cure for Cancer is Swift's Specific—

S. S. S. FOR THE BLOOD

—because it is the only remedy which can go deep enough to reach the root of the disease and force it out of the system permanently. A surgical operation does not reach the blood—the real seat of the disease—because the blood can not be cut away. Insist upon S. S. S.; nothing can take its place. S. S. S. cures every case of Scrofula, Eczema, Rheumatism, Contagious Blood, Poison, Ulcers, Sores, or any other form of blood disease. Valuable books on Cancer and Blood Disease will be mailed free to any address by Swift Specific Company, Atlanta, Georgia.
