NUMBER 21

Approximate 12 Percent Of Students Make Dean's List Eagles Meet Four Teams Here For Southern IGL Classic Tomorrow

Two hundred and seven students, or approximately twelve per cent of the student body made the Dean's List for the winter quarter of 1962, according to Paul F. Carroll, dean of the college.

To be eligible for the Dean's List a student must carry a normal load of fifteen hours and make a grade point ratio of 3.5 or higher.

Those who attained Dean's List standing are as follows: Emile G. Abbott, 3.75; James Paul Abernathy, 3.63; Dahlia Allen, 3.78; Margaret Akridge, 3.83; Anita Ambrosen, 3.83; Ruth Anderson, 3.5; Mary L. Bagley, 3.5.

Also, Versilla Ann Bailey, 3.83; James A. Barnes, 4.0; Marjorie D. Barnes, 4.0; Martha A. Barnes, 3.66; Treasure Batchelor, 3.5; Altimon Doy Beck, 3.5; Sara Neville Bennett, 3.83.

Also, David Conner Berry, 3.5; Helen Virginia Blackman, 3.66; John Pierce Blanchard, 3.66; Kathrine Blanchard, 3.66; Early Wayne Bland, 3.5; William Harold Bolen, 4.33; Carole Bowen, 3.66.

Also, Sarah Bradford, 4.0; Marilyn Branch, 3.66; Diane Brannen, 4.0; Janice Brazier, 3.66; Barbara C. Brinkley, 4.0; Robert Louis Brooks, 3.5.

Also, Edith Sherian Brown, 4.0; John Aubrey Brown, 4.0; Ruth Marie Brown, 3.5; Sarilyn Brown, 3.66; Doyle Russell Burch, 3.75; Milton E. Callaway,

4.10; Raybon Cannon, 3.66. Also, Mary E. Carter, 3.83; Charles Cartwright, 4.0; Linda Luellen Chambers, 3.66; Frank Chew, 3.66; Albert C. Clark Jr., 3.66; Linda E. Coalson, 3.5; Sally Jane Coleman, 3.5.

Also, Barbara F. Connell, 4.0; Sandra Jo Coston, 3.83; Charlotte Crittenden, 4.0; Dorothy Anne Cromley, 3.66; Melda Ann Daughtry, 3.5; James Lamar Davidson, 3.83; Ellen G. Davis, 3.83.

Also, Larry E. Davis, 3.66; Sharon K. Davis, 4.0; Jack Brannen Deal, 4.0; Mary Etta Dekle, 3.66; Ray T. Dekle, 4.0; Ira Dent Jr., 4.10; Catherine Dixon, 4.0.

Also, Edward B. Dixon, 3.5; Frances E. Donaldson, 3.66; James W. Dowdy, 3.5; Mary H. Driggers, 4.0; John Peysson Drinkard, 3.83; James Donald Dryden, 3.66; Chester Clifton Dubois, 3.62.

Also, Fannie Sue Ellis, 4.16; Nancy Nell Ellis, 4.0; Demond Ezra Exley, 3.5; Agnes Farkas, 3.83; William W. Flournoy, 4.0; Dorothy Freeman, 3.5.

Also, Joyce P. Gallardy, 4.0; Henry L. Gibbs, 4.0; Danelle Giddens, 3.85; Jane T. Gilbert, 3.83; Mary Kent Gillenwater, 3.5; Henrietta Glisson, 3.74; Bobby Lord Green, 3.66.

Also, Jesse J. Griffin, 3.66; Sarah Frances Griner, 3.5; William M. Gruber, 3.5; James D. Hagin Jr., 4.0; Sidney Hardy, 4.0; Shird Bradford Hartley,

3.83; Patricia Ann Harvey, 3.7. Also Dean Dillard Hayes, 3.79; Carlene Rose Henson, 4.0; Grover C. Herrington, 3.66; Mary Jane Hightower, 4.0; Linda Pound Hill, 4.0; Sandra Faye Hobby, 3.62; Helen N. Jernigan, 3.5.

Also, Lillie Carolyn Jenkins, 3.5; H. F. Johnson Jr., 4.0; Iawanna Johnson, 4.02; Same Porter Jones Jr., 3.79; Jack L. Kennedy, 3.5; Diane Kent, 3.83; Elizabeth N. Kent, 4.0.

Also, Carol Ann Kinard, 3.66; Charlotte L. King, 4.0; James T. Kirkland, 3.79; Sally Hartley Klenac, 3.62; Frances L. Landman, 3.83; Martha Ann Law, 4.0; Joyce Ann Letchworth, 3.5.

Also, Hugh G. Lentile, 4.12; T. J. Lord, 3.87; Nell Grace McClelland, 3.66; R. Jean McCrary, 3.5; Carolyn Brewster McKenzie, 3.5; Peggy Joyce McLendon, 3.66; Ethelynn McMillan, 4.0.

Also, Cecil Martin, 3.66; Sally Magee, 3.63; Ruth H. Maupin, 3.5; Jimmy C. Maynard, 3.83; Lois K. Meadows, 4.0; Roderick Medders, 3.08; Mariben Mikell, 3.5; Virginia Mobley, 4.0; Wallace Moody, 4.0.

Also, Vera Virginia Morgan, 3.5; Lillian Morris, 3.73; Barbara Elaine Motes, 3.61; Joe Carlton Mullis Jr., 3.5; Emilee Joyce Nelms, 3.83; Donald Martin Nelson, 4.0; Arthur Jean Nessmith, 3.83.

Also, M. Douglas Newton, 3.75; Beverly P. Noel, 3.66; Charlie W. Norwood, 3.5; Helen Anita Nowack, 3.66; Vivian Overstreet, 3.5; Joyce Pate, 3.5; Edwina Paul, 4.0; Karl Peace, 4.12.

Also, Sara Catherine Peacock, 3.5; Angeline Peavy, 4.0; Larry Philpott, 3.7; Nancy Pocock, 3.6; William Pollak, 3.5; Grace Ponder, 3.83; Gracie Rahn, 3.5.

ROLAND PAGE

MARIE EUBANKS

Page, Eubanks Named To George-Anne Posts

Roland Page, Madeira Beach, Florida, and Marie Eubanks, of Clarkston, Georgia, have been named managing editor and news editor respectively of the George-Anne staff according to editor Jim Pollak.

Page, a sophomore, will replace Midge Lasky, of Savannah, who will be student teaching this quarter. He has been a member of the George-Anne staff since the beginning of his freshman year and has served as news editor since the beginning of fall quarter of 1961. He is a history major and was on

the dean's list twice during his freshman year. Page is also the secretary of Alpha Gamma Pi, a freshman honorary fraternity, and is an active member of Phi Mu Alpha Sinfonia.

Miss Eubanks, also a sophomore, has been a member of the George-Anne staff since the beginning of her freshman year. She is also a history major and made the dean's list last fall quarter. She is an active member of Gamma Sigma Upsilon and the Archaeology Society, and she is now the acting president of the Newman Club.

Deadline Nears For Applications For MP Award

Application for the Marvin Pittman Scholarship to be awarded on Honors Day, May 7, must be submitted to Dean Carroll not later than midnight, April 21.

The Scholarship, established in 1955 by the First Federal Savings and Loan Association of Statesboro in memory of Dr. Marvin S. Pittman, provides full tuition, room, board and all fees for the academic year, beginning in September and concluding in June. For the 1962-63 year it is valued at \$693.00.

Present juniors are eligible. Selection of the recipient is made by a committee appointed by the First Federal Savings and Loan Association of Statesboro on the basis of scholastic rank, character, qualities of leadership, achievement, physical health and vigor and promise of future distinction.

Additional information and application blanks may be obtained from Dean Carroll.

Former Student Takes On Duties In Library Here

James Warren Dowdy, who completed his work for his B.S. in Education degree in the winter quarter here at Georgia Southern College, has been employed as an Assistant Librarian for the spring and summer quarters at the Rosenwald Library on this campus. He also made the Dean's List for the winter quarter with a grade point average of 3.5.

Dowdy is the son of Mrs. Luther M. Dowdy of Baxley, Georgia, and he graduated from Appaling County High School in 1953. While a student at Georgia Southern, he majored in English with a minor in Library Science and was a member of the English Club, French Club, Baptist Student Union, Gamma Sigma Upsilon, and Masquers Dramatics Club.

Graduate Degree Programs Are Told By Carroll

Graduate degree programs which are now being offered at Georgia Southern College were announced recently by Dean Paul F. Carroll.

Graduate work leading to the Master of Arts Degree with a major in history may begin this summer and will continue through the school year of 1962-1963.

Work leading to the Master of Education is now being offered with a major in Business Education, Elementary Education, English, Health and Physical Education, Industrial Education, Mathematics, Music, Science, Social Science, and Counseling.

Six-year programs with majors in Elementary Education, English, Industrial Arts, Science, and Social Studies are now being offered according to Dean Carroll.

For information pertaining to these degree offerings, one may write to the Dean of the college. All credentials should be submitted not later than May 23, by those who intend to do graduate work this summer.

Seven GSC Coeds To Compete In Pageant

Seven GSC coeds entered in the upcoming "Miss Statesboro Pageant" are: Diane Breland, Brunswick; Angela Whittington, Savannah; Betsy Neal, Warren; Beverly Webb, Lafayette; Peggy Alexander, Nashville; Gwendolyn Wells, Marietta; and Martha Jane Barton, Savannah.

Alpha Phi Omega Extends Honor To Peder Lunde

Peter Lunde, GSC's exchange student from Oslo, Norway, received honorary membership in Alpha Phi Omega Wednesday night, according to Jack Smoot, president.

Alpha Phi Omega is a national service fraternity for men. Lunde was admitted to Georgia Southern's Nu Epsilon chapter.

Lunde came to GSC last fall quarter on a Rotary Club scholarship. He holds an Olympic gold medal for yachting and is currently a member of the Georgia Southern gymnastics squad.

He entered the World Championship Yachting races in St. Petersburg, Fla., recently and finished fourth.

He hopes to be a businessman in Norway someday. This will be his last quarter at Georgia Southern after which he will return to Oslo.

Two local entries who are not GSC students are Vinnie Tankersley of Statesboro and Nancy Parrish of Brooklet.

The curtain will rise on the second annual Miss Statesboro Beauty Pageant next Saturday night, March 31, at 8:15 p.m., in the McCroan Auditorium. Sponsored by the Statesboro Jaycees, this event will provide an evening of beauty, talent, and a program of entertainment.

Mr. Mike McDougald of Gadsden, Alabama, will act as emcee of the program. And he will introduce the three acts, swim suits, talent and evening gowns, as beauty, talent, and personality will be on display that night.

Miss Glenda Brunson, Miss Georgia of 1961, will participate in the program. She will speak to the pageant and will take part in the crowning of Miss Statesboro '62.

Miss Trina Davis, who is now Mrs. Howard Tracy Rivers, will relinquish her 1961 crown to the new Miss Statesboro.

Entertainment will be seen in three acts, which "is the best there is," according to Curt Steinberger, staging chairman. Miss Emma Kelly will provide the musical accompaniment.

Mr. Curt Steinberger is planning for a professional presentation of the pageant. Plans have been underway for months concerning the technicalities. Spotlights have been ordered and ramps and walkways are being constructed.

"This pageant was well received last year," says Eddie Rushing, president of the Statesboro Jaycees, "and we are going to do our best to present another program which will equal if not surpass last year's. We urge all of Statesboro to turn out and attend this second annual Jaycee Miss Statesboro Beauty Pageant."

The winner of this pageant will attend the Columbus pageant in April to vie for the title of Miss Georgia '62.

Deans Announce Orientation Plan

Deans Gettys and Tyson outlined plans for orientation of new students and also gave tentative planned changes for next year's orientation.

Orientation plans for this quarter include meeting with student advisors who help new students to arrange their schedules and to locate classes. There are also orientation sessions in the residence halls and freshman testing in the fields of math, science, social science, and reading.

Next year each dormitory will formulate its own plan for orienting students not only in residence hall regulations but in other matters also.

Hester Newton Award Offered Again To Juniors

The Hester Newton Award is being offered by the social science division in honor of Hester Newton, professor of history for 25 years at Georgia Southern, for the second year according to Dr. Jack N. Averitt.

The award plus "Honors Credit" is offered annually to the student who demonstrates a superior degree of ability and industry in his major field and submits the best original essay in one of the special fields of the social sciences.

Any junior may apply for the award. Applicants are not limited to social science majors. Information and instructions may be obtained from Dr. J. N. Averitt, chairman of the division of social science.

Miss Newton graduated from Brenau, received M.A. degree from Peabody, and did doctoral work at Duke University. Her special field was Georgia History.

Miss Newton was a primary factor in the organization of the academic department of history and the division of social science at GCC.

I.M. Program Is Now Sponsored By W. R. Assoc.

The Women's Recreation Association, which is now planning and directing all the activities previously sponsored by the intramural department, held its first meeting this quarter at the W. S. Hanner Building on Monday at 7:30.

The officers of the W.R.A. are: Peggy Alexander, president, Nashville; Jody Sutlive, vice-president, Savannah; Judy Shephard, secretary, Sardis.

The purpose of this organization is to encourage recreational activity for the women at GSC. The activities planned for this quarter include: softball, under the leadership of Beth Vanlandingham; a bridge tournament, conducted by Barbara Blalock; tennis, under the direction of June Davis; and a horse shoe tournament, directed by Grace McClullan. The W.R.A. also plans a dance, hay ride, and dinner party for late April.

These activities are open to all college women.

HERE WE GO AGAIN! Or are we? Registration at GSC was conducted in a new, experimental procedure Monday. The entire student body was divided at random into different periods of the day. Judging from the picture above, the new system seems to have eliminated the long lines. See the Inquiring Reporter (page 2) for some of the student's opinions of this new procedure.

By HOYT CANADY

Five visiting schools will be converging on the GSC campus today in preparation for the 11th annual Southern Intercollegiate Gymnastics League championships which will be held at the W. S. Hanner Building tomorrow morning at 8:30 and tomorrow evening at 7:30. This important meet is for the championship of the Deep South and may be compared to the Big Ten or Eastern Championships.

It will be one of the major athletic events held on the campus this year and will feature six of the South's finest gymnastic teams and some of the top individual performers in this part of the country. The six teams entered in the meet are Georgia, Florida, The Citadel, Florida State, Georgia Tech and Georgia Southern.

Florida State Favored
The strongest team coming into the meet will be the Florida

Construction To Begin Next Week on New Dorms

The construction of two new dormitories at GSC is scheduled to begin next week, according to Dr. Zach S. Henderson, president of the college.

Rivers E. Worrell Co., Inc., of Savannah, have signed the contract to construct two seventy-five room dormitories, one for men and one for women.

Dr. Henderson stated that it is hoped the dormitories, which will house 150 students apiece, will be ready for use by the fall quarter of 1963.

The women's residence hall will be built between the Marvin Pittman School and Mamie Veasey Hall. The men's dormitory will be located behind Cone Hall on the hill facing the baseball field. Each building will be approximately 300 feet long.

Bids on the construction were opened on February 20 of this year and the bid was officiated by the Building Authority of the University System.

These two buildings plus the Lewis Hall annex now under construction will place an additional one million dollars worth of buildings on the campus of Georgia Southern during the 1962-63 term.

State Seminoles with Georgia Tech and Georgia Southern expected to win their share of the points according to GSC coach Fat Yeager.

This meet will be conducted in a different manner from the previous meets witnessed in the Hanner building. In this meet all contestants must compete in the morning qualification trials, and only the top six men in each event will be eligible to compete in the evening finals. Team and individual points will be counted only in the evening finals. All places in the finals will count with the first place man receiving seven points.

Trophies will be awarded to the teams finishing first, second, and third in the meet. Medals of gold, silver, and bronze will be given to each man finishing first, second, and third respectively in each event. A medal will also be awarded to the best all-around performer in the meet.

Tech Power Anticipated
Favored to win the all-around title this year will be R. L. Snider of Georgia Tech, who was ineligible until this quarter when he became a sophomore; freshmen are not eligible for varsity competition at Tech. Shooting for the all-around title

Georgia Southern opened its 1962 baseball season with twin victories over the University of South Carolina here Thursday afternoon, 1-0, 5-2.

for the Eagles will be D. C. Tunison. Tunison has been a leading figure all year in the Eagles' meets and leads the team in scoring with 145 points. He will be the key to coach Yeager's victory hopes tomorrow when the meet begins.

GSC has defeated all the teams that will be in the meet except Florida, whom they haven't faced. The Eagles de-

125 Are Student Teaching From GSC During Spring

By JOY LETCHWORTH

During the spring quarter, 125 GSC students will be student teaching in twenty-three high schools and nine elementary schools.

They are as follows: Marvin Pittman Elementary School, Statesboro; Judy Strickland,

first grade; Genevieve Pardue, second grade; Patricia Lord, third grade; Myrtle Tucker, fourth grade; Lynn Sandwich, fifth grade; and Beverly Noel, seventh grade.

Marvin Pittman High School, Statesboro: Harriet Van Norte, business education; Rosalyn Landman, social science; Floyd Smith, industrial arts; T. J. Lord, science; David Patton, physical education; Carol Mobley, physical education; Sue Ellis, home economics; Sue Ellis, math; Charlotte Crittenden, English; and Mariben Mikell, English.

Mattie Lively Elementary School, Statesboro: Shirley McCoy, first grade; Jean Dwelle, second grade; and Bobbie Tingley, fourth grade; Sallie Zetterover Elementary School, Statesboro: Barbara Ragan, first grade; Carolyn Hayes, second grade; and Peggy Park, sixth grade.

Southeast Bulloch High School, Brooklet: Talmadge Cook, social science; Jackie Anderson, math; James Horne, physical education; William Monts, English; and Diane Brannen, business education.

Statesboro High School, Statesboro: Amogene Head, English; H. F. Johnson Jr., English and Latin; Beverly McCormick, home economics; Emmie Robie Langham, home economics; Kent Guske, English and science; Margaret Akridge, business education; Martha Peterson, math English, French and Library; John Tirone, industrial arts; James S. McCallar, physical education; Midge Lasky, social science; and Hampton Kicklighter, music.

Groves High School, Savan-

nah: James Long, physical education; Patricia Hart, health and physical education; Judith Anne Burkhalter, English; Carolyn Mobley, business education; and William Gruber, English.

Herschel V. Jenkins High School, Savannah: Walter L. Strickland, social science; Sharon Jane Thigpen, science; Ethel Kathryn Kelly, English; Marianne Sheppard, business; Dorothy David, English; Nanette Jernigan, math; Lynda Ellis, business education; Ronnie Lee Rush, physical education.

Herty Elementary School, Savannah: Marian Cheney, fourth grade; Isle of Hope Elementary School, Savannah: Carolyn McKenzie, first grade; Gloria Conner, fifth grade; Judy Jones, sixth grade; and Sandra Bowen, sixth grade. Jacob Smith Elementary School, Savannah: Sally Klecan, first grade.

Lee Roy Myers Junior High School, Savannah: Joseph Williams, social science. Savannah High School, Juanda: Newbern, social science; Jackie Adams, business education; and Faye Tiner, business education. Virginia Heard Elementary School, Savannah: Harriet Burch, first grade; and Beverly Hursey, third and fourth grade.

White Bluff Elementary School, Savannah: Rowena Dooley, second grade; Shannon Scott, third grade; and Beth Mock, sixth grade. Coffee County High School, Douglas: Ronald Williams, physical education; William Stanley, physical education; Robert Smith, physical education; and Pauline Robinson, physical education.

Moultrie High School, Moultrie: Barbara Fletcher Connell,

Exemption From Finals For "A" Students

Finals are over and forgotten but only for a few weeks. In about nine or ten weeks they will appear on the horizon once again. We wonder how many students went into a final exam with and "A" and came out with a "B."

It seems logical to us that some persons should be exempt from the excruciating experience of final tests. The most probable persons to be excused from finals would be those persons with "A's." In order to obtain that grade, they have worked hard all quarter and some just reward should be given for their work.

Reasons are always requested to back up any such statement as this. One we've already stated is that exemption would be a reward for working hard all quarter.

Secondly, if the student has maintained an "A" average for the quarter, he shouldn't have to

prove his knowledge on a final exam. Also, studying for that final in a course in which he has an "A" is taking valuable time away from his other courses. A little extra time spent studying might help to bring up a lower grade in a course in which he has a "B" or lower.

It's almost unnecessary to mention the fact that giving less final examinations means less tests to grade by the instructors. They would agree with this advantage we're sure.

To us this sounds like a good idea and it must be feasible since exemption from final examinations is practiced at so many other colleges. We're almost sure that if a poll were taken a great many students and teachers would agree with our idea. We wanted to suggest it now so that those persons responsible may begin working to effect this idea immediately.

Service Above And Beyond . . .

Once in a while, some bright-eyed freshman slips into the GEORGE-ANNE office, rolls up her sleeves, and eventually makes her name synonymous with that of the GEORGE-ANNE.

This happened four years ago when Midge Lasky of Savannah asked if she could be of service to this paper. The eager young freshman was admitted to the staff and since that time, she has unselfishly dedicated her entire college career to both the GEORGE-ANNE and the REFLECTOR.

To list all the contributions Miss Lasky has made to Georgia Southern would probably fill this entire editorial column. We shall therefore speak only of her work with the student publications.

During her freshman year, she was a reporter with the GEORGE-ANNE. For the first two quarters of her sophomore year, she served as news editor. She became managing editor during the final quarter of that year. She assumed the responsibilities of editor as a junior. During the fall and winter quarters of this year, she again served as managing editor. She is now student teaching at Statesboro High.

Give Our Elections New Blood

This is the quarter of student council elections. Although they will not come until late in the quarter there are a few suggestions which we would like to make at this time.

It is not our intention here to degrade the council members of this year or those of any other year. Instead we wish to make a few proposals.

Too many people still have the feeling that our college organizations are toys for a select few to play with. In very few cases is there any REAL responsibility or authority to be found on the student level.

When questions arise the student council has no right to actually make a decision. They should be given some decision making powers. Other clubs have found that in order to do anything they must first get the okay from the student council. But when they

have approached the council they only find that it is necessary to go to a faculty or administrative committee. The okay of the student council in reality means nothing.

What we are proposing is the student council be given the right to actually make decisions relying on the administration solely for advice when it is necessary.

The council should have the final voice in the making of college rules. Only when our college population begins to be treated as mature responsible adults will we prove that we are such.

The way this all ties in with upcoming student council elections is simple. This year we would like to see some candidates nominated and backed by those who would like to see the student council receive authority and become an actual governing body.

LITTLE MAN ON CAMPUS

—AND, UNLESS YOU MAINTAIN A MORE SCHOLARLY ATTITUDE, I WILL SEE TO IT THAT YOU ARE EXPELLED FROM CLASS.

REGIONAL CAMPUS...

By WINFRED L. GODWIN
Director Southern Regional Education Board

Sometime this spring a cylinder shaped satellite will take off from Cape Canaveral, Florida, to launch the world's first international satellite project.

At the moment, the historic United Kingdom-United States satellite is called simply S-51, and the cylinder won't be named until it reaches orbit and begins sending back to earth scientific information it was sent after.

S-51 is being launched to further study the ionosphere — a region of electrically charged air beginning about 25 miles above the surface of the earth, through which radio waves are transmitted for great distances.

To Provide Safety

Information from the satellite will be processed by American and British scientists and their findings will be applied to make space travel safer, to make communications easier and to stimulate still more research.

Out of the universities and colleges of the United States and Great Britain came the information which makes it possible to launch the S-51 and to supply it with instruments which can gather and process scientific information. Into those same universities and colleges will go information from the satellite to be studied, analyzed and acted upon in the production of new knowledge.

The unanswered questions about space and its composition, and the exploration of space have become major projects in Southern colleges and universities. From their laboratories have come many of the ideas which make today's news and tomorrow's headlines.

This summer colorful, artificially created clouds will hang over parts of the South as Georgia Tech scientists begin Project Firefly — an intense investigation of the earth's upper atmosphere.

Nike-Cajun missiles will carry canisters of chemicals upward to between 50 and 90 miles above the earth. There the canisters will explode and will form luminous clouds, "fireflies in space." Special cameras, radar and radio equipment will spy on the clouds to record their development and every move.

Data from these observations will give scientists more information about hurricane-force winds, discovered in earlier tests, that rend the rarefied air; about curious shock waves generated by explosions in space and about determining attitude and position of special objects.

To Probe Mars

At Florida State University, scientists are making ready to probe the red planet Mars for answers to questions about circulation of the earth's atmosphere. Mars has an atmospheric circulation similar to that of the earth, but apparently much simpler. FSU scientists say. This circulation has previously been studied by watching the Martian clouds, which are infrequent and short-lived. Now FSU hopes to study Mars with instrument-bearing space vehicles.

Mars will be within striking distance of the earth in 1964 when the first attempt will be made to get instruments to the planet. If that attempt fails, another try will be made in 1966.

Communism And YOU

Prepared by the United States Air Force Chaplain Board at the Air University, Maxwell Air Force Base, Alabama. All articles have been read and approved by Chaplain, Major General, Terrence P. Finnegan, Chief of Chaplains, USAF.

X: Communism in China
Many an American fighting on the battlefronts of Korea in the early 1950's wondered what he was doing there. A few short years before, China had been an ally of his country. Now Chinese and North Korean forces were ranged against him. What had happened during those years?

China has fought Japan for fourteen years and at the end of World War II her soldiers and her people were weary. It was a shock to their leader, Chiang Kai-shek, to discover that at Yalta Russia had been granted the rights of a co-victor in Manchuria — and this after six days of active warfare against Japan!

A pocket of Chinese Communist soldiers were still under arms in the northwest when Chiang began to push for democracy in his country. But the Communists wanted in! A "Coalition Government," includ-

ing Nationalists and Communists, seemed a possibility. Mao Tse-tung, the Communist leader, even met with Chiang and an agreement was reached in 1946. The two factions were not destined to come to a peaceful agreement for civil war broke out in the same year, Chinese against Chinese.

By 1947, the Nationalists forces had lost morale and late in 1948 came their collapse — sudden and complete. "The People's Republic of China" was established in 1949 as Chiang and his forces fled to Formosa. The Chinese mainland was entirely in the hands of the Communists. Some 450,000,000 people were absorbed into the Soviet orbit.

When the forces of North Korea crossed the 38th Parallel in 1950, they knew that the powerful Chinese Communist armies were behind them simply waiting the call to action. The call was not long in coming and the first clash of United Nations versus the Communists became a reality.

The Nationalists, under Chiang, still hold Formosa, but an ever-expanding force of their own race threatens constantly from the mainland.

NEXT WEEK: COMMUNIST PARTY, USA.

Editor JIM POLLAK

GOES

behind the headlines big and small

SOMETIMES NOT AT ALL . . .

Spring quarter has arrived. Looking back over the year in some respects it seems hard to figure out where all the time has gone. Yet, on the other hand, in some ways it seems as though classes and the regular college routine have been going on forever.

Not the regular grind is underway again. For some, this is the beginning of the end of a college career. Others are just beginning and still others may feel caught in the middle of a hopeless battle. No matter how far along the way one is, there can be a bright outlook.

Graduation is the goal all have in mind and according to some information passed on to us recently it is a very worthwhile goal. When the traditional spring fever catches hold and tells us to get to the beach, lake, or even out under a tree for a snooze we should consider a few facts first.

Beach Trips Expensive
An article in a publication of the Ginn and Company points out that the average college graduate earns \$240 for each day spent attending classes. So beach trips could become quite expensive in the long run.

Dr. Frank S. Endicott, of Northwestern University, said

that according to Census reports the average college graduate will earn \$175,000 more in his lifetime than a high school graduate will earn. This article, which originally was taken from the Northwestern University News Service pointed out that a student will earn \$44,000 more for each year of college. If the temptation to give up seems to become stronger these may be good facts to keep in mind.

Teachers Contribute
Those who plan to become teachers need not despair either. Even though teacher salaries are low there is a rewarding way to look at that profession. On the basis of the figures presented above, in 30 years of teaching the professor adds a total of \$13,200,000 to the earning power of college graduates. As the article concludes "Who else in our society makes so great a contribution to the economic welfare of people?"

To date, this year has turned out to be far from what it could have been. In the fall, with such an influx of new students, the optimistic thought that a wave of new ideas and attitudes would be a bonus. Yet, Georgia Southern continues to crawl along in many respects. Progress is still the key word in enrollment figures and in many phases of the building program, but in other areas there is still little to brag about. It will take some awakening on the part of the folks connected

with Georgia Southern before the real strides are made.

Easy Way Out
One attitude is still prevalent and it MUST be changed as soon as possible. Too many people still think of this school as being the place to go for the easy way out. One new student here was told by a friend from another school to "have as good a time at Georgia Southern as is possible, because you'll never have it so easy again." This, by the way, is not just an isolated case. It is still a typical feeling of many.

Although this attitude is that of someone who may have no connection with Georgia Southern, we must begin to ask ourselves what gives people such an opinion. Chances are that attitudes such as these are created in the minds of others by we who ARE Georgia Southern.

This college could not stand alone and serve a purpose. It takes people to make it. And the impressions which the folks from Georgia Southern give to others are what will make or break us. It is time that we all stop to take a re-evaluation and decide whether we ourselves are to be progressive or should we be content to grow in numbers and facilities only?

Our thoughts, words, and actions can all be indicators of progress. The decision is ours. We MUST make the correct choice or be left standing in the cold.

A Square Deal

By BILLY DEAL

There comes a time in the life of every college student when he must write a term paper.

Of course, some departments assign more papers than others, but no matter what your major you will write a research paper before you get that elusive diploma.

Each department has its own style, and all papers must fit it. It has been suggested that each college adopt a single term paper style and do away with all the departmental confusion. Some department styles differ so much that they make the United States Constitution and Communist Manifesto seem identical in comparison.

As we begin the new quarter, things like term papers, summer vacations and that D last quarter are uppermost in our minds. So, it is fitting that we discuss term papers until this space runs out - or until you stop reading.

We will now list the term paper requirements in the history department at the University of Bosnia . . .

Minimum of 30,000 words, maximum of 30,050 words. Each page must have exactly 25 double spaced typed lines and a margin of one and one-eighth inches at top and bottom. A 75-

space line must be used in typing.

Typewriter ribbon must be chartrreuse, not more than three months old. Standard typing paper — 12 x 14 inches in size; blue in color.

Footnotes are extremely important. Each typed page should have four footnotes. You may not footnote more than once from the same source. For a paper of 30,000 words, you should have a bibliography of at least 480 references. For a paper of 30,050 words, you should have a minimum of 509 sources. All sources, of course, must be primary material.

Term papers are due the second week of each quarter. If you have published a history book, it will be accepted for any term paper assignment — provided it is typed to fit the above standards.

Any paper that does not completely fulfill these requirements will not be accepted. Only two grades will be given. Numerical grades 97-100 will be C-plus, and anything below a 97 will be F. All term papers count two-thirds of the final grade.

We of the history staff at the University of Bosnia feel that each term paper assignment could be completed within 11 weeks, so no one should encounter any difficulty.

Papers may be reclaimed three years after the date they are due.

How about that? I must admit some of those requirements sound familiar. I wonder if any

of the instructors on this campus have been reading the Bosnia Bulletin?

Now for a few local observations . . .

After taking a poll of two persons, I found that half of the people interviewed are unhappy with the streets, er, roads, around our campus. One student said, "I'm sure glad they took all that time before Christmas to fix the road back of the Student Center. Otherwise it would now be impassable. As it is you take your life in your hands when you travel over it. But if you make it through without completely demolishing your car, you know you've accomplished something."

And how about the road between Sanford and Cone Halls? Some of the guys who park their cars in back have started calling it the General Motors Testing Grounds. Some of those craters look like they have been tested with TNT. But that's progress. Who has time to fill holes in the roads? That's minor. What we really should be worrying about is how we can find a new registration system so that everybody can register when they want to.

Just as a closing note, I think it was found this quarter. And those poor, law abiding people who were supposed to register at 2:30 p.m. and did, well . . . tough luck about all those classes being filled.

But you should have wised up and signed up at 8:30 a.m. like everybody else did.

Inquiring Reporter

By MARIE EUBANKS

Spring quarter a new system of registration was employed at Georgia Southern College in which students were indiscriminately sent colored cards. The color of the card determined what time the student would register. Those receiving white cards registered at 8 a.m., green cards at 10 a.m., blue cards at 1 p.m., and yellow cards at 2:30 p.m. Registration according to classes was the method of registration used previously.

This week we asked the students the following question: What do you think of the new system of registration as compared to the previous method used?

Ruth Anderson, Forsyth — "I liked it, but I really don't have a basis of comparison as I am a first quarter freshman."

Bobby Cleveland, Hartwell — "I thought it was much less confusing, but some way should be found to keep those registering last from having such a poor choice of classes."

Charles Smith, Atlanta — "I

like it a lot better because there was more time to register, and it was a lot less confusing."

Frank Chew, Bartow — "Frankly, I can't see where it made any difference. One system was by classes; one was by random choice. Why did they do it?"

Genelda Vines, Moultrie — "It worked out nicely for me, and it certainly wasn't as crowded."

Joy Hilliard, Glennville — "I think it's great."

Eddie Rogers, Glennville — "Very fine, as long as I can get a white or green card."

Loretta Allen, Thomson — "The registration procedure was very effective for many, but many others had to take what was left in the evening registration."

Sara Wolfe, Uvalde — "I didn't like it for too many students were closed out of all three of their classes."

Marsha Tyson, Warner Robins — "Was better than the one they had last time. I wasn't closed out of any classes, as I always was before."

Ralph Swords, Augusta — "There is still room for much improvement."

Elaine Walden, Lumber City — "I don't think there was as much confusion, but I think that the registration system at GSC could best be improved by having preregistration."

Mike Poole, Warner Robins — "I don't think it was any improvement over the system used last quarter."

Bob Wilson, Richmond Hill — "I don't like it at all. I do not think it is beneficial for seniors, because they were closed out of classes they need. Also it causes harsh feelings between students and professors."

Chuck McDonald, Rome — "For people who had white cards it was fine, but people who had blue and yellow cards were at a disadvantage. I think registration by classification would satisfy more people."

Mack Shivers, Sardis — "I don't think it was beneficial to anyone except the students who got white or green cards."

Scoring WITH Scott

by Johnny Scott

BASEBALL GETS UNDERWAY

This week the Eagles opened their baseball schedule with David Lipscomb College in the first of 27 games slated for this season. There will be 18 home contests, so diamond fans at GSC will have a chance to see plenty of action.

10 LETTERMEN RETURN

Coach J. I. Clements' Eagles will have 10 returning lettermen from last year's squad, which posted a won-lost record of 15-11. Senior right-handed pitcher Clyde Miller will head the returnees. Last year, Miller had a record of 2-0 and an earned run average of 2.76. The pitching staff will be further supported by the return of sophomore Larry Crouch, who compiled a record of 2-1 and an ERA of 2.48, while being used mostly in relief. Other lettermen include Mike Keasler, a sophomore outfielder who led the 1961 squad at the plate with an average of .354; senior infielder Buzzy McMillan; junior Tommy Howland, catcher; Charles Tarpley, sophomore first baseman; and Miller Finley, a junior slugger who plays in the outfield.

These lettermen, along with several promising newcomers, have caused Coach Clements to speak with optimism about the squad. The Eagles will miss the services of Tracy Rivers, a pitcher who had a 6-3 record last year as a senior, and J. E. Rowe, outfielder who tied Keasler for the batting lead of .354 in his final campaign. The team's leading pitcher last season, Ed (Doc) Brown, will not be playing this season due to scholastic ineligibility. Brown posted a record of five wins and three losses, while leading the pitchers with an earned run average with 2.11.

WAKE FOREST, BUCKEYES VIE

Tonight, the NCAA Basketball Tournament will move into its semi-final round. Wake Forest will vie with Ohio State in one game, while returning champs Cincinnati will meet UCLA in the other game. The Buckeyes, who hold a season record of 25-1, defeated Wake Forest earlier this season, so the Deacons will be out for revenge. However, the Buckeyes will be eyeing the final round and another chance to meet the Cincinnati Bearcats, who defeated them in the '61 final, and will be hard for the Deacons' Len Chapel and company to overcome. In all probability the final round of the tourney will pit the Buckeyes, with three time All-American Jerry Lucas playing his last college game, against the Bearcats from Cincinnati.

A FOND FAREWELL

For those of you, if there are any of you, who have been faithfully reading this corner of the GEORGE-ANNE for the past two quarters, I would like to express my appreciation. This week marks the end of Scoring With Scott, because of an overworked schedule and other duties on the paper by yours truly. To those of you who might have enjoyed it, I extend my appreciation and goodbye.

Eagles Plagued; Play Double-header Opener

PICTURED ABOVE is Jim Hampton, Florida State University's "all around" contestant in the Southern Intercollegiate Gymnastics Championships to be staged here tomorrow night. Hampton will be representing one of the five colleges and universities entering the competition. Qualification trials begin at 8:00 tomorrow morning and the final competition starts at 7:30 that night.

New Directory Lists Summer Job Possibilities

A directory which lists summer jobs for college students throughout the United States is now available.

The SUMMER EMPLOYMENT DIRECTORY gives the names and addresses of 1,367 organizations which want to employ college students. It also gives the positions open, salary, and suggestions on how to make application — a sample letter of application and a personal data sheet.

There are all types of summer camp jobs listed in every state; there are jobs at resorts in the New England States, the Northeastern States, the Great Lakes area, and the Western States. College students are needed in 20 national parks and national monuments, 34 ranches in the West and New York State, summer theatres in 15 states, business and industry at scattered locations, and various departments of the government. In addition to these popular summer employers, many other organizations list their needs for summer help.

Students wishing summer work make application to the employers listed in the directory. Employers are included at their own request, and they invite applications from college students.

The SUMMER EMPLOYMENT DIRECTORY is available, at most colleges, in the student employment office, the library, or the Dean's office. Also, a considerable number of public libraries now have a copy of this directory.

Students who wish to have a SUMMER EMPLOYMENT DIRECTORY for their own use may obtain a copy by sending 3.00 to the publisher: National Directory Service, Dept. C, Box 32065, Cincinnati 32, Ohio.

Eagles Meet ...

continued from page 1

leated Florida State and other teams in the Florida AAU before the Christmas holidays; afterward they trounced Georgia and The Citadel before bowing to Georgia Tech by a seven point decision in Atlanta. A week later they repaid the Jackets with a 56-40 home victory.

The Eagles' record stands at 7-2 going into tomorrow's meet. However, this is a meet in which all season and past records can be discarded, for the 1962 SIGL championship will go to the winner of tomorrow night's finals.

Andrews and Shaeffer Out GSC will be without the much needed services of their captain, Sam Andrews, who was ruled scholastically ineligible. Florida State faces the same problem with their top all-around performer, Ray Schaeffer. The Eagles' hopes, however, received a boost with the addition of Buddy Harris, an outstanding high-bar performer from Atlanta.

The trials will begin tomorrow morning at 8:30 and the finals tomorrow evening at 7:30. Student tickets are on sale for 50 cents

By DON GALE

The weather continued to plague the Georgia Southern Eagles Baseball team this week when the opening game of the season with the University of South Carolina was washed out by a swift but plentiful rain storm.

The S. C. team is scheduled for a two game stay this week and this allows the canceled game to be rescheduled for Thursday afternoon at 1:30 to give the Eagle fans a chance to see the first doubleheader of the year.

Weather is not the only factor giving the Eagle team a hard time. Two of the Eagles have been lost for this year when Sandy Wells returned home when a knee injury sidelined him for the season while Ed Brown, who led the pitching staff last year with a hot earned-run average of 2.11 and a 5-3 record, became scholastically ineligible.

Mike Keasler is sidelined with an injury and his services are lost for at least the first four games this season. Keasler tied for the team batting championship last year with J. E. Rowe when he finished the season at a .354 batting clip.

On the brighter side the Eagles in their last inter-squad game looked like a good work-

ing team, and the pitching staff was rounding into good shape.

With the first 11 games this year on friendly grounds the Eagles will have the opportunity to jell into a experience team.

The Eagles will play David Lipscomb College here Friday with game time set at 3 p.m. and on Saturday the University of North Carolina will invade Eagles grounds for a game starting at 1:30 p.m.

This coming week the Eagles will be playing five matches starting off with a single game against Davidson College Thursday, March 29th. On Friday an unusual double-header is set with the Eagles meeting Davidson in the first game and then end the day with the second match against Catawba College.

On Saturday Eagles fans will again have a chance to see two visiting teams when the GSC team run up against Catawba in the first of a twosome and then Furman University for the second game.

How would you forecast your next few years?

Today, the young man planning his life realizes as never before that in today's world his own future is tied inevitably to America's future. How can he serve both? Many college graduates, both men and women, are finding a rewarding answer on the Aerospace Team — as officers in the U. S. Air Force. Here is a career that is compelling in its challenge and opportunity. And it is a way of life

that holds the unsurpassed satisfactions that come with service to country.

As a college student, how can you become an Air Force Officer?

If you have not completed Air Force ROTC, Officer Training School provides an opportunity to qualify for a variety of vitally needed jobs in the Aerospace Age. A graduate of this three-month course earns a commission as a second lieutenant. Also open to college men is the Navigator Training program.

For full information — including the chance to obtain graduate degrees at Air Force expense — see the Air Force Selection Team when it visits your college. Or write: Officer Career Information, Dept. SC23, Box 805, New York 1, N. Y.

TOMORROW'S THE BIG DAY for the Eagle gymnasts! These are the men who will be battling to bring more athletic honors to Georgia Southern tomorrow night. Coach Pat Yeager's gymnastics squad has compiled a season record of 7 wins and 2 losses. They are one of the top contenders to take championship honors in the SIGL competition.

SREB Director Predicts Region Growth, Spending

by Winfred L. Godwin
Director, Southern Regional
Education Board

Atlanta, Ga. — By 1970, the 16 states of the Southern region will have to spend \$2,900,000,000 annually for a college enrollment of 1,700,000.

Colleges and universities of the region now spend \$1,000,000,000 a year to educate 883,000 students. These significant figures were released today by the Southern Regional Education Board in its publication, "Financing Higher Education." The Pamphlet, entitled "State Support and Long Range Goals"

is tenth in a series about financing higher education. The \$2 billion-plus figure needed for 1970 will amount to 1.9 percent of the region's total income compared with 1.3 per cent now spent. Much of this support will come from legislatures of the region, the SREB noted.

South Spends Less

State support of higher education in the South grew from \$381 million in 1959-60 to \$448 million in 1961-62, and 18 percent increase. But still most southern states spend less of their total state funds on higher education than do states in other parts of the nation.

Exceptions are Kentucky, Tennessee, and West Virginia which devoted more of their state revenue to higher education than the national average. Mississippi, South Carolina and Virginia came close to the national average, SREB reported. "Gains in support of higher education are encouraging," said Dr. Winfred L. Godwin, director of SREB, "but there is evidence that the gap between regional expenditures for higher education and national expenditures is growing. We started from behind in the race, and we cannot afford to drop still further backward."

Applications For Nat'l. Defense Loans Received

The office of the Dean of Students is already receiving applications for the National Defense Student Loans for 1962-63, according to W. H. Holcomb, Dean of Men.

In the 3 years that GSC has been under this program, 265 persons have received loans totaling \$100,000. Most of this amount comes from the Federal Government. GSC must match this donation with one ninth of the amount.

American Legion Post 90 has given \$500 in matching funds, and the Statesboro Rotary Club has supplied \$1,081.45.

Loans may be granted up to \$600 per year, at 3 per cent interest. Recipients must begin repayment of the loan one year after graduation. Those teaching will have 10 percent of the amount deducted for each year they teach. A maximum 50 percent deduction is permitted.

The standards for eligibility have recently been revised. A definite need for the loan must be established. The College Scholarship Service will assist in determining this. Recipients must maintain a C average. Should the student earn less than a C in any subject, he will be placed on probation status.

Also, recipients must have scored among the upper 50 per cent in the Scholastic Aptitude Test, and be in the upper half of their high school class. Recipients are chosen by the student Loan Committee, according to the need and the amount of money available.

Interested students should apply through the Dean of Students.

Meth. Bishop To Talk Here Soon

Bishop John Owen Smith, resident bishop of the Atlanta Episcopal Area of the Methodist Church, will be at GSC Wednesday, March 28th. He will speak to the Methodist students and faculty following a dinner at 6 p.m. in the Dining Hall.
