'FANTASTICKS' CAST PAUSES FOR PICTURES

Masquers Present Musical For Summer Performance

The "Fantasticks," a light musical filled with song, humor and action will be presented by the Masquers July 20 and 21, Thursday and Friday nights in McCroan Auditorium, at 9 p.m.

Featuring dancing, fencing, and such songs as, "Why Do Kids Put Beans In Their Ears" and "Try to Remember," the original musical will have a cast of seven performing in a modern setting.

The plot of the story is an attempt of two fathers to reconcile the differences between their daughter and son, who are always fighting. The kids are more content to fight. It is the old story of boy gets girl, boy loses girl and boy gets girl again with a lot of humor and fun added.

The boy's father is portrayed by Marlin Jones, a senior English major from Valdosta, while the girl's father is Ernest

Ewing, a senior speech major from Cordele.

The boy and girl are played by Bill Bishop, sophomore sociology major from Twin City and Jackie Tyler, freshman art major from Atlanta, respectively.

Other members of the cast are the old actor, Parker Cook, a senior speech major from Hazlehurst; the man who dies, Shelly Boyd, a junior music major from Tifton; and the mute, Jan Smith, a junior speech major from Metter.

Directing the play is Miss Marge Thomas, instructor in speech, who is assisted by Don Northrip, music director; Mrs.

Dr. Joseph A. Williams, dean of the College of Education at the University of Georgia, will be the commencement speaker, August 15.

Reba Barnes, choreographer and Mrs. Jane Brown, in charge of publicity. Also helping with the production is Dr. David Ruffin, who is teaching several members of the cast to fence.

Members of the stage crew are Libby Brannen, in charge of costuming; Ralph Jones, in charge of sets and lighting, and Bruce Cox and Chuck Hopper, helping with the set. Tommy Shulmen is in charge of advertising and Bonnie Wilson is the business manager.

The musical was written for a class by two University of Texas students, Tom Jones and Harvey Schmidt, and has enjoyed a long running on off-broadway.

Tickets are \$1.25 and can be purchased at the Music Box or in the Williams' Center.

Team Of Three To Lecture Here

Charles L. Coleman, senior spacemobile lecturer for the John F. Kennedy Space Center (NASA), is scheduled to visit Monday and Tuesday, July 17-18.

His team, Robert E. Wilson and Kenneth H. Watkins, will present a two-day workshop for the general science program being held here this summer. The 20-member class is for science teachers.

Coleman is a native of Georgia and a former member of the Chatham County School System.

The team will lecture on such topics as "Frontiers in Space," "Meteorology from Space," "Communication Satellites," "Project Apollo," and "Educational Challenges of the Space Age."

Dean Announces School Offerings

Academic offerings for the summer and proposals for new academic programs have been announced by Paul F. Carroll, academic dean. A total of 60 degree programs are now offered.

On the undergraduate level, 31 majors are offered in the

five basic degrees. Twenty-one programs are listed on the master level, with seven majors in the six-year program, a one-year period of study beyond the master degree.

Proposals for additional academic offerings on the graduate level are now being considered by the University System Board of Regents. They are Masters of Education for Reading Specialists and in Educational Psychometry, and Six-year Programs for School Psychologist and in School Administration for principals.

Eight proposals are to be submitted to the Regents this fall. Bachelor of Science in biology, mathematics and economics are proposed for four-year study. Also majors in geology leading to the AB degree, economics leading to the BBA degree, and an option in broadcasting technology within the present BS in Industry degree are to be suggested. On the graduate level the Master of Science in Recreation Administration and Master of Business Administration complete the proposal.

These new programs would extend current undergraduate programs to the graduate level, add majors at the undergraduate level, and provide flexibility for students in choosing a degree from their selected field of study.

Nine To Leave For Year Study

Nine faculty members have been approved for official leaves - of - absence for the 1967-68 academic year, for continuing their academic training, performance of research and/or extensive travel.

Those selected are Mrs. Marjorie B. Bell, assistant professor of business education; Mrs. Helen D. Brogdon, assistant professor of health and physical education; Donald M. Davis, instructor in English; James C. Goodwin, assistant professor of general business; and Louis Frank McCoy, instructor in fine arts.

Also, John S. Martin, assistant professor of wood technology; Robert L. Overstreet, assistant professor of speech; Karl E. Peace, instructor in mathematics; and Mrs. Rosalind Ragans, instructor of education at Marvin Pittman Laboratory School.

CHARLES COLEMAN TO LECTURE

Examination Schedule

Summer Quarter, 1967

The place of the examination is the regular meeting place of the class unless otherwise announced by the instructor.

Thursday, August 10, 8:00 a.m. All 1st period classes, 1:00 p.m. All 7th period classes.

Friday, August 11, 8:00 a.m. All 2nd period classes, 1:00 p.m. All 6th period classes.

Saturday, August 12, 8:00 a.m. All 3rd period classes, 1:00 p.m. All 5th period classes.

Monday, August 14, 8:00 a.m. All 4th period classes.

The examination must be held as scheduled unless otherwise authorized by the Dean of the College.

Masquers Put Final Touches On 'Fantastics'

Faculty Receive Research Grant

Twenty-two individual programs of research have been

begun, continued, or completed at Georgia Southern College during the 1966-67 academic year, according to the summer report of the Georgia Southern College Research Committee. A total of four thousand dollars was made available by the committee for the 22 projects.

Students Are Natives Of Various Places

Georgia is well represented this summer within the student enrollment with 131 counties being claimed by the 1,888 students. Additionally, 150 students are in Statesboro from seven other states including Texas, Massachusetts, Michigan, New Jersey and Ohio.

Brazil, Greece and India are also represented.

Many of the students attending Georgia Southern from out-of-state are involved in the numerous special programs, workshops and institutes under subsidy from Federal grants. One such program is the NDEA Institute, offering ten weeks of training in the field of manufacturing. Twenty-three teachers and principals representing 11 southeastern states are here now.

The two leading Georgia counties are Bulloch with 200 students and Chatham with 150. The Atlanta area has 105 students in Statesboro and the entire Coastal Empire of South Georgia, 308 students.

Summer quarter is considered the fourth official quarter of the 1966-67 academic year at Georgia Southern. It lasts ten weeks, with graduation exercises being held on Aug. 15.

This system of small grant-aids to individual faculty members has been in operation since 1961. Within the 22 research projects, fields of biology, language, music, education, business, history, and political science were included. The research committee is a standing committee of the Graduate Council, which controls the policies under which the grant-aid program operates.

An additional twenty faculty members published professionally during the academic year, and forty-seven were recipients of special state, regional, and national honors.

BSU CENTER IS UNDER CONSTRUCTION

Students Have College 'Be-in'

(ACP) — The Be-in has been. It "has been" at many universities across the country but perhaps was never quite as "in" as at the University of North Carolina, Chapel Hill.

There, reports the **Daily Tar Heel**, the One-Eyed Jacks started it off, the Jug Band picked it up, and several thousand people carried it through.

It looked like a giant masquerade party, with medieval costumes, Indian mini-skirts, Roman togas, clowns, fish-net hose, dogs wearing paisley ties, aluminum foil dresses, and everything else the college mind could conjure.

There were paint-ins, chalk-ins, sing-ins, dress-ins, climb-ins, and even a laugh-in. The latter occurred when some 20 students lay on each other in various positions and just laughed.

There was Adolph Hitler on tape and Hitler personified from a second floor window, shouting, "Sieg Heil" while extending his arm. A dead pine tree was erected and decorated with balloons and dogwood blossoms. In the quad a lawn chess game was played using humans as pawns and other figures in the chess hierarchy. The odor of incense wafted through the air and a student named Fritz ate dog biscuits.

A group of students sitting in a boat was asked to explain its behavior. Observed one: "Everyone else has missed the point. This is supposed to be a Be-in and we have something to be in."

There was more watching

than being early in the afternoon, but by 2 o'clock everybody was doing something — playing hopscotch, jumping rope, climbing trees, juggling oranges, eating bananas, smearing the statue of Silent Sam with shaving cream, or just running around in circles holding hands. Models sat on tubs while instant artists meticulously painted their noses, legs, and belly buttons. Pyramids were big for a while, until blanket tossing took over.

But perhaps most characteristic of the mood of the Be-In was the pretty blonde in snug slacks who looked over the shoulder of a **Daily Tar Heel** reporter as he was taking notes. "What are you doing?" asked the reporter.

"I'm watching you write a poem," replied the girl. It was like that.

Congress Packs Viet Nam Books

Books to be sent to Viet Nam from the Student Congress book drive last spring quarter are now being packed for mailing, according to Robin Olmstead, past second vice president of Student Congress.

The packing is being done in the Hanner Gym. Anyone interested in helping is invited to come.

Center to Open

The new Baptist Student Center is scheduled to open this fall, serving as an area for recreation and meetings.

The building is open to anyone and also provides such facilities as food areas, a chapel, prayer rooms and study areas. The center includes living quarters for a director, but will not at this time be used by the present director.

A new student officer, the Baptist student center director, will be chosen next year, although the duties have not been established.

Air Force To Visit

U. S. Air Force representatives from Jacksonville, Fla. will be in the William's Center July 19-20, and will give the Air Force Officer qualification test the 20th.

The representatives will be available from 9 a.m. until 3 p.m. to talk with prospective students interested in becoming a commissioned officer in the Air Force. Emphasis will be on women officer applicants, according to T/Sgt. Jim Pearce, local representative. The Air Force can offer nearly twice as many commissions to women this year as compared to last year, due to a recent ruling by the defense department.

Although the current demand is for women applicants and applicants in the scientific and engineering fields, applications will be accepted in all areas.

ETV Is On Campus

Did you know that students on this campus are producing, starring in, and filming television programs?

Members of the Education 651 class are experimenting with the video tape recorder as well as other teaching materials. Learning how an educational television show is compiled, includes for this Newer Teaching Media class writing the script, presenting the lecture, filming the action, supplying props and criticizing the program according to presenta-

tion, subject matter, and accomplishment.

The video tape recorder is being used for taping materials other than lectures. It is effective in child study projects, helpful to athletic directors and useful in teaching the bed-ridden child or transient students, according to Dr. Justice, instructor for the course.

The class is composed of teachers and principals working on the graduate level.

Other plans are being made for some special projects using the video tape recorder for teaching purposes.

Southern Belle

This cute blue-eyed blonde is Jenny Lynn Andrews, an early education major from Atlanta. An "Army brat," Jenny loves to travel and spent her adolescence hopping all over the States and Europe. Jenny, with her warm smile and friendly personality, is this week's Southern Belle.

Institute Continues

The second three-day session of the current \$59,000 Educational Leadership Institute will be held July 10-12 in Statesboro, having as its theme, "The School Staff Faces Cultural Change." The institute, financed by the U. S. Office of Education, is a one-year study in quality education and leadership for the Coastal Empire region of Georgia.

Dr. Vernon F. Haubrich, professor of education at the University of Wisconsin, Madison, Wis., will be special lecturer and will discuss the "Role of the Teacher in Working with the Disadvantaged."

Other speakers for that day are Dr. Thelma Harmond, chairman of the division of education at Savannah State College, and Dr. Richard Ottinger, director of the Intense Learning Center of the Glynn County Schools, Brunswick, Ga.

The second and third days will consist of three classes each day, led by Dr. Leon Culpepper, director of instruction of the Waycross City Schools; Mrs. Jannette Hayes, principal, Moses J. Jackson Elementary School, Savannah; Dr. Harold T. Johnson, director of the institute and professor of education; and Dr. Haskin Pounds, assistant professor of education

at the University of Georgia.

Other "teachers" are R. Stafford Clark, Title IV consultant staff at Auburn University; Dr. Charles Gomillion, professor of sociology, Tuskegee Institute; and James H. Williams, director of the S. E. regional office of the NEA.

Price Gets Office

Larry E. Price, associate professor of banking, has been appointed to a two-year term with the Savannah Export Expansion Council by U. S. Secretary of Commerce, A. B. Trowbridge this week in Washington, D. C. His term of office began on July 1 of this year.

The Commerce field office director in Savannah serves as executive secretary of the council in this area. Price will join other prominent business and professional leaders in support of export expansion.

Region Councils play a vital role in achieving national objectives by motivating more American firms to enter world markets. They also assist exporters in improving and expanding their operation.

The Savannah Council is one of 42 Regional Offices set up throughout the nation.

Guthrie Speaks At Meet

Dr. Fain A. Guthrie, professor of education at the University of Alabama, was the featured speaker for the sixth annual First District and Summer School Counselor's Conference on July 13. His topic was "Comprehensive Guidance in Our Schools - Kindergarten through Grade 12."

Guthrie is the author of many professional publications and is associated with the American Personnel and Guidance Association and the American Psychological Association. He received his B.A. degree from Vanderbilt, his M. A. degree from the University of Alabama, and his Ed. D. degree from the University of Florida.

Prior to his joining the faculty at the University of Alabama, he held teaching positions at Wood Junior College in Mississippi, at the University of Florida, and at Georgia State College. For four years he was the Director of School Psychology and Counseling Services in the Atlanta School System.

Julian Deal, instructor of mathematics, is attending Vanderbilt University this summer as one of thirty college teachers of mathematics selected by the National Science Foundation.

Johnson Writes Chapter

Dr. Harold Johnson, associate professor of education, has written a chapter in the pamphlet, "The Role of the Curriculum Worker in Georgia" which was published by the Georgia Association for supervision and Curriculum Development.

The chapters, "Duties and Responsibilities of the Local Curriculum Worker," is a report of a research study done by the Research and Publications Committee of the Georgia ASCD of which Johnson is a member.

He was recently appointed as chairman of this committee for next year by Dr. Leon Culpepper, president of the Georgia ASCD and director of instruction in the Waycross Schools.

Educators Attend Meet

Dr. Elizabeth Hardin, Dr. Harold Johnson and Dr. Shelby Monroe of the education division attended the Georgia Association for Supervision and Curriculum Development meeting at the Georgia Center for Continuing Education on the campus of the University of Georgia, July 13 and 14.

Dr. Monroe was the reactor for a speech by Dr. Thelma M. Harmond, chairman of the education division at Savannah State College.

Dr. Johnson served as chairman of the research and publications committee of the conference.

The theme for this 12th annual conference was "Humanizing Education: The Person in the Process."
