Mary Lou Cowart - Early Love  
Bothwell Johnson

The George-Anne During Summer Session.

The Summer School will publish each week the news items that are of interest to the teachers and students who are here. You will want to put a copy of each issue in your note book. If you have items that you would like to see in this paper give it to any of above staff.

## IDEALS OF GEORGIA NORMAL

Every school must have ideals if it is to render a great service to its students. The very atmosphere on the campus must be permeated with the distinctive purpose of the Institution. Teachers and pupils must breathe this air until their very being permeates with a common sympathetic unison to the music of the whole school. It means the students must be loyal and love the school - the teachers and the pupils and every nook and corner of the buildings and campus. Realizing the importance of a conscious ideal the students and teachers have thought and agreed upon the following points which they wish every student to possess before leaving the grounds of Georgia Normal College.

1. Systematic Habits in all Activities.
2. A Disposition and Skill to Solve Problems.
3. The Ability to Think Independently.
4. An Appreciation for the Beautiful, the True, the Good.
5. A Pleasing, Courteous, Personality.
6. Absolute Honesty and Truthfulness.
7. Good Scholarship.
8. A Sense of Clean Wholesome Humor.
9. The Ability to Use the English Language Correctly

10. A feeling of Responsibility.
11. An Enthusiastic Love for Work.
12. Habits of Wise Economy.
13. A Democratic and Loyal Spirit.
14. A Master-Like Character.

## A LITTLE HISTORY

Woodrow Wilson gave the world a good definition of an educated man.

"An educated man is a sort of spiritual knight who goes out upon his adventures to carry the torch that has been put into his hands so that other men may have the path illuminated for them that leads to truth, justice and liberty. A man proves his right to the title of being educated by being a friend of mankind, a helper to the human race, a light in the midst of darkness."

From this definition President Wells, the teachers and the students began studying and analyzing the various characteristics of an educated man. From this study the above fourteen points were valued.

The summer session of the Georgia Normal began Monday morning with an enrollment of AROUND FIVE HUNDRED students. This is by far the largest number yet to attend the summer session. The students are enrolled in elementary, high school and college classes. The larger part of the students are taking college credit course.

The first faculty meeting of the summer session was held in the library Monday night. President Wells presided. Director Matthews made a number of announcements of interest to the teachers. Around twenty members of the faculty were present. The State Department of Education is furnishing teachers to give instruction in elementary school subjects.

The homes in town, many of them have relieved the congestion caused by the very large enrollment by taking the

teachers for the summer term. The College appreciates this on the part of the people of Statesboro.

Mrs. Wells gave the faculty a genuine treat Monday night after the faculty meeting by serving them with punch and ice cream. The teachers present voted her a bundle of thanks and included an amendment by naming Prof. Monts and Rountree to serve the faculty with similar treatment at the next faculty meeting. The amendment was unanimously accepted.

Mr. Pete Donaldson has developed into a Rodeheaver of the first magnitude from the way he conducted the singing at chapel on Tuesday. He will conduct the singing at the chapel exercises as frequently as he can find the time to attend. The entire group enjoyed his leadership.

The Editor of the Bulloch Times was a visitor at chapel on Tuesday. He did not say exactly when he would come again but we had the assurance that he would entertain us at an early date. This means a genuine treat for the student body.

Two members of the faculty are located near the Jail for the summer session. These two members are Prof. Rountree, a member of the State Board of Education and Supt. Kizer of the Claxton Public School.

Director Matthews has been the busiest man on the campus for the first week. He did his work with precision and in a hurry. It is no easy task to register five hundred teachers

The faculty gave the student body a reception on the campus Tuesday evening at seven thirty o'clock. The faculty was in the receiving line. An enjoyable social hour getting acquainted was spent.

Prof. Rosier, County Supt. of Dodge County has started something that other superintendents ought to take up-bringing his county teachers to summer school without expense to them. He brought about thirty five or forty of the Dodge teachers. They will be better teachers next year and they will also think more of Dodge County and will give it better service.

Senator Howell Cone was the chapel speaker on Monday of the second week. His address showed careful thought on a very vital subject: An interpretation of the philosophy of life. The teachers enjoyed his address.

The Lindberghers are ahead. How could they fail to keep ahead with the name they have?

Supervisors Paul Ellison, L. S. Smith and Physical Education Director Miss Lane were visitors in the school last week. Each of them had something to say and congratulations on the success of the summer school.

President Wells attended a rally at Tifton Thursday of last week.

It is a matter for congratulation that Bulloch County leads all the counties in the subject of attendance at summer school. One hundred and nine students are enrolled from this county.

WANTED. Some young man or woman who can draw cartoons. This would be a pleasing feature for the paper each week. See any member of the staff if you can do such work. Do not be too modest about it.

Mr. Donaldson is eager for every student in the school during the summer to work up a notebook containing songs and poems which are being used at chapel exercises. This notebook should be kept.

Some of the teachers have been enquiring the name of the young man who upon reaching the school placed a bunch of flowers in his room.

The play-period after supper is the cause of much rivalry among the different groups.

The library is so much in demand that additional rooms have been turned over for the accommodations of the students.

The tennis court is now in condition to play and a number of teachers have expressed themselves as wanting to play this fascinating game.

All the county papers in the first district is reported carried news items about the fine beginning

There is nothing like a college education if you are going to teach school. Make your plans to finish - age is no deterrent. Keep at it.

A good habit: Read the daily papers this summer while you are here. The Atlanta Journal, The Atlanta Georgian, the Savannah News, and the Macon Telegraph are in the library. We note with a great deal of regret the absence of the Atlanta Constitution from the group. We are sure that the Constitution would be glad to send a complimentary copy. Anyhow get into the habit of reading the daily newspapers and keeping up with the times.

The school appreciates the kindness of the local theater in giving special rates to all the students at two of its performances last week.

The entire class answered, "Nu-Grape."

HUY HERBERT WELLS, A.B., A.M. -  
President  
Z. S. HENDERSON, A.B. - Dean -  
Education  
BURRUS MATTHEWS, A.B., M.A. -
