GEORGIA NORMAL OPENS
Over 500 students assembled in
the auditorium of the Georgia Normal
Schooll for the opening exercises
of the first six week's summer
School. The speaker of the occasion
was Kyle Alfriend, secretary of the
Georgia Education Association, who
pleaded with the teachers to keep
faith, keep their head up and tell
the world that they are engaged in
the noblest profession of today.

Monday and Tuesday was taken up with registration for the first six weeks' courses and today something over 500 have completed their registration. At this time last car the registration had not reached the mark that it has today. The first summer school of last year had a student body of 550, this coded to the second six weeks' summer school gave a total enrollment of thos taking summer work last year, 629.

The first year after the creation of the Normal College the summer school enrolled 287, the following summer 244, in 1927-28 the enroll-ment reached 429 and last summer 29. The summer school last summer was the most extensive and successful in the history of the school. This year the college has made. Special plans to take care of an even larger summer school. Several new instructors have been added, most of whom have graduate degrees. Many other improvements, including new buildings, campus beautification tennis and croquet courts, etc., have been made since last summer.

Mr. Alfriend in his address this morning appealed to the teachers to take a lead in the activities of the community to which they will return and the communities in which they will go this fall as teachers. He stressed the fact that they are representatives of a noble profession and that they should sell this fact to the state.

MESSAGE TO THE SUMMER SCHOOL STUDENTS
MR. WELLS.

It is our desire, if I can speak the sentiments of the Instructors of the College, to help each student here live as richly as possible the six weeks he is here. We want you to call on us when we can help you.

All of us have spare time between classes and if you think we can help you with your problems bring them to us. Each teacher has a tree or office where he can meet you.

Use the Training School when you have some spare hours. Do not leave the Training School except when the class is dismissed. Ask Miss Bagwell and Miss Allgood to help you.

Don't study too hard. Take time for recreation. Join in the games in the afternoon. You will feel li like studying after the plays, the games and singing.

It is our desire that we make your staynhere one grand sweet song when memoriss will remain forever pleasant.

NEW STUDENTS

One of the finest indications we have that the college is growing is the many new students that are with us. We mean by that students that have never been to Georgia Normal before. It is good to have them with us. Some one has said, "Association in equality is the law of human progress," which to our minds contains quite a bit of truth.

We are always glad to welcome New students into our midst. They bring new ideas and nes thoughts and add variety to our stay here. Were it not for this monotonous indeed.

We are proud of Georgia Normal
We are proud of her progress.
We are proud of the work she is
doing and the people she is serving all over the state to feel
proud with us. After all the
students make a school and a good
bit of the future success of
Georgia Normal will be the result of the opinions you form
while you are with us this summer. May we join again in
saying we hope you all the success you deserve, which we feel
is worlds of it.

VESPER

Last Sunday evening a very interesting program was given. This program consisted of special music by the quartet, and a violin solo by Mr. William Deal. This was followed by a most interesting and inspiring talk given by Mr. Ralph Newton.

All students and teachers are urged to attend these services. There is a worth whole message in every program.

A NEW PUPILS IMPRESSION OF G. N. S.

My impression as a new pupol has been most pleasing at Georgia Normal.

The friendly spirit of both teachers and pupils that permeates the social atmosphere is strikingly dominant.

Opportunities for growth in culture, knowledge, art, science, so-ciology, and many other activities which are the essentials of educationI are characteristic of this institutioh.

The clinging vines on the buildings; the luxuriant shrubbery that embellishes the base of the buildings; the tropical palms that adorn the entrance of the buildings; the My god and I shall interknit beds of various flowers; the wind- As rain and ocean breath and air ing avenues through the leveled cam- And Oh, the luring though of it. pus--all these are the embodiment of aestheticism.

There are numbers of us who It is customary for most schools have been attending summer school to extend our greetings to the hos of new students.

Last Sunday evening a very interesting program was given. This come you to dear old Georgia Nor-mal. In the words of a student:

In our heart of hearts for you; We've kept it pure and fragrant With a friendship fresh and new.
We've tried to make it cozy
So that you might come within
And feel that you are welcome As a true and cherished friend.

"You're welcome to the corner Our hearts are open wide And we'll close the gate of friend ship When once you've come inside. So if we work together Life will open like a door And hold a different meaning That we've never known before.
