## Rev. Peebles Speaks At S. G. T. C.

One of the special numbers of our recent chapel programs was the talk made by Rev. J. D. Peebles Monday. We commend the high school in securing such a capable speaker for the occasion.

The substance of the talk was a commendation to Robert E. Lee. The subject was handled well. Many phases of General Lee's life was discussed, such as; his moral life, his life in time of war, and his life in time of peace.

We were glad, too, to have Mr. Peebles visit our classrooms during the day. We are expecting him to visit us throughout the year.

## Soccer Tie Broken.

A most thrilling game was witnessed by a fair percent of the student body on T. C.'s soccer field Thursday. The Freshmen have won the Soccer Championship for the season.

This deciding game has been the anticipation of the Freshmen and Sophmores since their game previous to the holidays. Not until now has it been possible to play off the tie.

At the beginning of the game the teams were matched. For the first quarter both teams fought; but no goals were kicked; the second quarter over and still no goal. Mamie Riner of the Freshman team kicked a goal during the third quarter, which brought shouts and yells from the side line. Before their echoes had time to drown, the Freshmen won their second goal through Lucile Suddath giving them the championship's title with a score of 2 to 1.

Those who played in the tournament were:

## Read Newspapers.

A part of your time that is not spent in sleeping, studying, and attending classes will be well spent in reading newspapers.

Everyone should take an interest and be well informed in what is going on, in the progress of the world, in modern inventions and in world activities. Reading newspapers is one of the best means of keeping informed on these matters.

After you have been a newspaper reader-- a thorough one, for a reasonable time--you will be able to make your own selection as to general reading. The interest in many things you have acquired will lead you to the books you need.

We know no habitual newspaper reader who is not able to talk intelligently, and who does not think intelligently, provided he reads newspaper which are not purely sensation mongers.

If you are not a regular newspaper reader, be one as an experiment. Er are sure the Experiment will become a continuous one.
