EXAMINATIONS.

Every student on this campus this week will face a testing time. For some this testing time will appear easy, others will have a hard time. Some will be tempted and yield. Others will be able to withstand the temptations. One group will be weaker and the other will be stronger at the end of the week. The person who has wasted his time will face the greater temptation. He will cram this week and will try to make good on the term reports by using one twelfth of the time. If he finds that he can't pass without cheating the temptation is too great and in a number of cases he yields.

I hope each student will read the following and do the things that will help build character.

What are our character dimensions? Wallace Dunbar Vincent, in the Christian Index, asks some searching questions. An honest answer will aid us to take our measure.

"How high are you? Where is your thinking done?
Close to the earth, or upward near the sun?
Do petty things absorb your every thought--
The game, the latest crime, what's sold and bought?
Do noble deeds and lives inspire your zeal,
Or are you more concerned about a meal?
How high, or low, is your most cherished plan?
The answer marks your stature as a man.

How broad are you? Where does your good-will end--
Does race or creed determine who's your friend?
To your snap-judgments do you cling with pride,
Or do you listen to the other side?
Quick to condemn are you---
prompt with the rod,
Or do you leave the chastening to God?

How loyal is your heart to mankind?
The answer marks the broadness of your mind.

How deep are you? Where does your honor start?
Is it embedded in your inmost heart?
Do you count virtue a convenient thing
To practice, or, sore tired, aside to fling?
Have you the courage by your code to hide,
And fight for right, thought on the losing side?
'Tis thus God reckons, through life's little span,
The veritable measure of a man."

THE SENIOR CLASS HAD CHARGE OF CHAPEL FRIDAY.

The members of the Senior Class were responsible for the inspiring program presented to the Faculty and student body in chapel last Friday morning.

The Program was as follows:

Devotional---Rev. Morgan, from the Methodist Church of Statesboro.

His theme was "Kindness."

Vocal Solo--"Mother MacCree"

Mr. Hinton Booth.

Piano Duet-- Marie Hendrix and Miss Brannen.

Mrs. Henderson then held the audience breathless by singing a number of appropriate "Smilt" songs.

Mr. Wells at supper said that he would recommend eight boys who would be interested in joining the coast Artillery, which is going to start here in Statesboro this week.

The coast Artillery is a branch of the National Guard.

Examination Time

It is about time for examinations. To a few students this doubtless means that they have "run a good race, or "Fought a good fight", and the remainder of the quarter and its culmination in examination hold no particular dread for them. They have spent their time profitably; they have not of necessity missed any of the fun on the campus; but they have worked when they did work; have concentrated their attention on the matters before them; and have played when they did play. Their efforts will be regarded by the gratification of their parents over their quarter's report--the parents who might have done without the new pair of shoes or that overcoat in order that they might have the advantages of a college education.

On the other hand, we dare say, that a number of students will suffer much anguish of the mind and spirit withingthese next few days because they realize that they have not prepared themselves for the final test. Some have gone throughthe three months just behind them with the feeling "Oh, I'll get by somdhow", which has now changed to a sorrowful lamentation over the time wasted and the opportunities lost.

As examination time approached probably many of us wonder why examinations are necessary. There are several reasons. It is stock-taking time. Such an inventory will show profits or losses for the quarter; profits in mastery of time, subject and self; losses, heavy and irretrievable, in time, opportunities, and personal growth.

Just as the end of the calendar year is the time for business to take stock, so the end of a term is a time for us to check over our work and see how much has been learned. The examination mark is merely a valuation of the work accomplished. It is part of the grade that shows in a permanent record what has been done.

Examinations stimulate study. Some students, realizing that at a future time they must show what they have learned, study harder and do better work during the quarter because of that. They no longer learn "for the day" only because of them. That in itself justifies examinations. They cause students to organize their knowledge through reviews. Other important facts have been overlooked, and in reviewing for finals these will be brought out and the more important impressed upon the mind.

Let us approach, then, the coming time of testing in a spirit of eagerness to do our best, to pass or fail, but in either case to do it honestly, and learn what the term has brought to us--Profits or Losses.

Our Friend, March

Blustery and brusque and quite
x a bit

Of noisy bluffer he has been,
Lacking the fervor of the Summer
fit

For no such triumphs Winters
win,

With never languid, genial
warmth of spring,

As May reveals--But, counting
everything,

A jolly sport at that,

Playing at give-and-take and
tit-for-tat,

A rough-and-tumble kind of fol-
low he,

Humanest of all the months--
like you and me!

His Name

It was when winter was doing his
last battle with summer --

That March came--

And was named for Mars, the God
of War.

Rule for Success

From North to South

If fame You'd find,

Just shut your mouth

And open your mind.

Mrs. MacPherson : (Just at meal
time) Sandy, we have guests at
the door.

Sandy: Grab a toothpick, quick!
