SOCIETY OF MISSIONARY INQUIRY.

The members of the "Society of Missionary Inquiry", formerly the Student Volunteer Band, had their meeting Sunday night. Mrs. A. A. Singley led the discussion for the evening. The topic was "Prayer".

A study of the special prayers of the old and new testaments was made; also the value of prayer was discussed.

REVIVAL AT METHODIST CHURCH.

The S. G. T. C. students have been having for the past week a wonderful opportunity of attending the services at the Methodist Church.

The preacher conducting the services is Rev. Acroy of Cordele. He is not only a great man spiritually, but is a winning orator and a scholar. We are grateful indeed to the town people for making it convenient for the college students to attend this series of meeting.

We were very fortunate to have Mr. Acroy talk to us in chapel Tuesday morning.

BOOST THE COLLEGE

What a short time has elapsed since our college was a mere District Agricultural School! Few colleges in our state have grown so rapidly. Of this fact we like to boast, but after all, its progress and advancement are due to its able and efficient president, Mr. Guy H. Wells who has worked faithfully to make it South Georgia Teachers College.

There is an atmosphere of friendliness and democracy in the college that is scarcely surpassed in the State of Georgia. It is this that has attracted the students and caused the student body to treble its original number.

S. G. T. C. is the only college in this immediate part of the state; therefore we should boost it and encourage students to attend and support it instead of seeking more distant institutions where the cost is greater and the training instilled no better.

Let us during the spring holidays talk for the College and, through our loyalty and spirit, help to make next year the best in the history of the College.

Proverbs are short sentences drawn from long and wise experience.---Cicero.

When a man's life is despicable, it follows that his preaching also is despised.---St. Gregory.

It is in general more profitable to reckon up our defects than to boast of our attainments.---Carlyle.

It is sometimes necessary to play the fool to avoid being deceived by cunning men.---La Rochefoucauld.

THE CAMPUS BEAUTIFUL

Old fables are often times the very essence of a modern truth. A good example is the lines in Gay's Fable of the Peacock, Turkey and Goose, as follows:

"In beauty, faults are conspicuous grow;
The smallest speck is seen on snow."
Now, let us take these few lines and apply them to our college or in other words, "bring them home." If there is a member of this student body who has not heard at least forty lectures on keeping our campus attractive he has evidently never been to chapel, or never met our president. I remembered that when I started writing this editorial and at first I felt most unworthy at attempting to expound upon so familiar a subject formerly discussed by my intellectual superiors.

Never the less, I took heart when I glanced at the beautiful carpet of green that spring has laid on the ground surrounding our buildings and true to the old adage my eye was rudely stopped in its pleasing survey by a tiny speck of paper.

Loyal students, let us rise up against this destroyer of beauty; let us make our actions and opinions be so evident that when an unthoughtful person casts a paper down our swift move to recover it will act as a silent rebuke.
