Orientation Program To Start May 7

According to a statement made by H. P. Womack, county school superintendent, the "First Grade Orientation Program" begins in Bulloch County this year. All first graders who are six years old or older before December 23, 1959, are eligible to enter school for the first time in September of this year.

All parents are urged to go with their child to school on "Orientation Day," when the instructional supervisor, Miss Leona Newton, the visiting teacher, Miss Mable White, and the county health nurse, Mrs. Thelma Aaron, will talk with the parents about the school program, the child to be expected for the child and the responsibility of parent and child in the school.

Beginning at 9:00 o'clock on each day the following schedule will be followed:

Port School, Thursday, May 7th.
Middleton School, Friday, May 8th.
Regin School, Monday, May 11th.
Nevils School, Tuesday, May 12th.
Sallie Zetterower School, Wednesday, May 13th.
Brooklet School, Thursday, May 14th.
Silton School, Friday, May 15th.
Mattie Livitt School, Thursday, May 21st.

The Marvin Pittman School will have registration day on Thursday afternoon, May 14th, at 2:30 o'clock. Wednesday, May 27th, will be the last day of this school term. Elementary children will not report cards on the last day.

Mulch Farming Demonstration

A demonstration of Mulch Farming will be held at Frank Proctor's farm about 5 miles east of Statesboro on the Oliver Road next Monday, May 11, at 2:30 p.m. Mr. Proctor has demonstrated that you can increase yields also by minimum tillage methods. In addition to soybeans planted with well deeded grain, he is also planting corn without much land preparation.

J. T. McAllister, "Father of Mulch Farming," will conduct the demonstration. In addition to mulch farming, Mr. Proctor has a new, early maturing, orange which may be interested in seeing. It is fully two weeks earlier than our other varieties. Its name also sounds good—"Moregrain."

The problem of any problem in the field can be solved by the use of mulch farming.

COKER'S YELNANDA SOYBEANS

YELNANDA is a new and improved late-maturing yellow soybean developed by Coker plant breeders for late planting in the southeastern Coastal Plains. It is especially well-suited for planting after small grain or for planting in early June. Under these conditions, Yelanda reaches its maximum height for combining, sets a good seed crop and still matures before frost in normal seasons.

A High Yielder... Resists Shattering!

YELNANDA has averaged 30 bushels per acre for three years in 22 U.S.A. Tests, and made 30 or more bushels per acre for many of our customers in field-scale plantings. It is easy to combine, and has more resistance to shattering than any other adapted soybean in its maturity! So make your next crop your best crop. PLANT COKER'S YELNANDA in '59.

Guarantees Freedom

Thoughtful men and women should oppose any tendency in this country to place limitations upon the individual's right to think and express his thoughts regardless of the topic discussed.

Tolerance of discussion, based upon sincerity of belief, is the foundation alike of both democratic government and the maintenance of human liberty.

A Television Success

There is much on television we do not care to watch these days and we often comment—quite frankly—on the quality of the viewing available.

Envious Ella

There she goes again! Poor Bill. No wonder he looks dejected, wishes he were somewhere else.

Ella ought to be honest with herself, try to figure out what makes her so frustrated.

Bill might ask himself if he still loves Ella the little attention every woman needs.

If Ella would use her energy to make a pleasant home for Bill, if she would think in terms of Ella needs rather than her own, she would be a happier woman.

fishing fun

By Paxton Rimes

Every day, or that is almost every day, I listen to the fish stories. Somehow, being a fisherman, none of them bore me.

Saturday of last week, Mr. George M. and P. I. Shearouse, spent the day with the May Shad.

The total catch was two nice roe and six buck. They were trolling from Dasher's Fishing Camp, and the May Shad were striking like mad.

Mr. Thurman Lanier hung a nice ten pound soft-shell turtle in a local pond last week.

The reports for this week have been fair. The creeks have been dropping too fast for good fishing.

The rivers are a bit muddy from the fact that all of the water, but the fish are hungry, and it takes the "know-how" to get them to bite.

A good rain would help. Soon as the streams "level off" we can expect the fishing to be tops.

Don't give up when the catch is slim—go again—and take a boy fishing.

LET'S LIVE TODAY

By Maude Brannen

WHAT'S HAPPENED TO THE DEVIL?

When I was young I believed in a Devil with big horns and fire streaming from his nose and mouth.

He was Beelzebub, the archangel who was pitched out of Heaven because of his insubordination.

The preachers kept us reminded of him.

A favorite subject for debate in my youth was: Is the fear of punishment more effective than the hope of reward?

One night per year we might pay tribute to the mosquito.

The most logical way would be for humans with good red corpuscles to sit out of doors without lethal mosquito weapons.

Who carries his business on? His hoof tracks can be seen every where you look, so I know he's still skulking around.

Evil and good have always been present in this world, and have been continually at war.

Another very nice thing would be to have National Cook Out Night.

By Paxton Rimes

Every day, or that is almost every day, I listen to the fish stories.

Saturday of last week, Mr. George M. and P. I. Shearouse, spent the day with the May Shad.

The total catch was two nice roe and six buck. They were trolling from Dasher's Fishing Camp, and the May Shad were striking like mad.

Mr. Thurman Lanier hung a nice ten pound soft-shell turtle in a local pond last week.

The reports for this week have been fair. The creeks have been dropping too fast for good fishing.

The rivers are a bit muddy from the fact that all of the water, but the fish are hungry, and it takes the "know-how" to get them to bite.

A good rain would help. Soon as the streams "level off" we can expect the fishing to be tops.

Don't give up when the catch is slim—go again—and take a boy fishing.

Today's MEDITATION

From The World's Most Widely Used Devotional Guide

Jesus saith unto him, I am the way, the truth and the life. (John 14:6)

When teaching in another state, I left my first grade classroom for only a few moments one day.

Quickly I said, "What is this? What's the matter?"

With a most sincere face - angelic with childlike faith - he said, "Oh! I was just asking, the children how many love Jesus?"

Here was a simple testimony given by a child in the presence of all his classmates in the first grade!

I smiled at him as he left my desk, and returned to his place. I offered a silent prayer to God for his testimony that indicated his love for Jesus.

PRAYER Lord, give us faith to trust Thee, as little children trust Thee. We thank Thee for giving to us little ones who show forth Christ in heart and life. We pray in the name of Jesus who said, "Whoever shall not receive the kingdom of God as a little child shall in no wise enter therein." Amen.

THOUGHT FOR THE DAY Through faith in God we become instruments of His love to others.

Mrs. Clarence W. Harris, Homemaker (South Carolina) World - Wide Bible Reading - 1 Kings 8:27-33.

LITTLE LEAGUE MAJORS

Friday, May 8, the Jaycees defeated the Lions Club by a score of 10 to 5 behind the fine pitching of Robert Mallard and Wayne Howard. The losing pitcher for the Lions was Jimmy Wiggins, who was also the big bat for the Lions as he had two doubles in three trips to the plate. Larry Deal hit a home run with no one on base for the Jaycees in the fourth.

MEN'S SOFTBALL LEAGUE

The game of the week in the Men's Softball League was Thursday night in the first game, when the College Pharmacy defeated Franklin's Restaurant, 6 to 2. The game was tied twice, 1 to 1 in the fifth and 2 to 2 until the sixth inning, when Jess White for the College Pharmacy hit a grand slam homer and the game ended 6 to 2. The College Pharmacy had very fine pitching by Dr. Brier as he gave up only two hits during the entire game. SI Watson got both hits off Brier. The losing pitcher for Franklin's was Franklin Deal.

Rural Mail Box Improvement

The Statesboro Post Office has announced Rural Mail Box Improvement Week, May 10 to 26. During this week all rural patrons are requested to inspect their mail boxes with the view of providing suitable boxes, erected and maintained for easy access and readability, presenting a neat appearance and affording protection to the mail. Special attention is called to the height of the box which should be 42 inches from the bottom of the box to the ground. Boxes and boxes that do not meet the name and number should be plainly painted on the side of the box as the carrier approaches. In that case boxes are grouped. In that case they should be painted on the door.

The Post Office Department requires that all boxes be located on the right side of the road as the carrier approaches. This regulation is being enforced to avoid confusion and to insure the safety of the carrier.

The local post office urges the cooperation of all rural patrons during the week of May 10-26, in the replacement, repair and maintenance of their mail boxes. It is hoped by June 1 that considerable improvement will be noticed in the condition and appearance of the rural mail boxes in Bulloch County," said Frank Hock, assistant postmaster.

HERMAN TALMADGE Reports From WASHINGTON

ALMOST FIVE YEARS to the day after the Supreme Court usurped the constitutional right of the people of the South to run their public schools as they see fit, the South this week was accorded its first opportunity to make an affirmative presentation of its viewpoint before a committee of Congress.

The Subcommittee on Constitutional Amendments of the Senate Committee on the Judiciary on Tuesday opened three days of hearings on the proposed constitutional amendment which entitles no college or university to receive state or local control over public education. The change to be made for change in the Constitution is to be made by the Supreme Court instead of the Congress as proposed in the amendment.

New Soybean For This Area

Yelanada, an improved high yielding soybean with outstanding shatter resistance, has been released for 1959 planting by Celesco's Pedigreed Seed Co., Hartsville, S. C. Adapted to the Southeastern Coastal Plains, the new variety was developed especially for planting after small grain or corn.

The tendency of most soybean varieties to shatter badly in the field when harvesting is delayed has, in the past, limited the expansion of this crop in many areas. The new Yelanada variety is said to greatly reduce such field losses, having more break-in resistance to shattering than any other soybean of its maturity recommended for the Coastal Plains.

Hard Ground Planting Is Increasing

(By John B. Hungerford, Agricultural Agronomist, USDA - GCS, Tifton, Georgia, and E. T. Mullis, Work Unit Conservationist, Statesboro, Georgia)

Planting in hard ground with little or no prior land preparation is being done in South Georgia this year by practical farmers.

There will be enough of this work done that any interested farmer can go and see the operation for himself.

Cooperating in the Ogeechee River Soil Conservation District, who have tried this method here in Bulloch County are: Frank Proctor, Henry Blitch, John N. Rishard, Jr., P. F. Martin, Paul Nesmith, J. R. Kelly, Cliff Brundage, Marlee Parrish, O. E. Gray, Walter Zetterower, C. B. Altman and others.

POST OFFICE NOTICE
