**Editorials**

Don't be a sucker!

April 1 is near—remember March 31.

Just one hundred and sixty-two days remain before you have to face the income tax. In the month of March, you may have been moved to feel relief at having one month to go before you had to face it again. But don't let the feeling last long.

Don't be a sucker. Pay your tax when it's due.

**Meditation for This Week**

It Seems to Me...

This week's column will be sent to homeulletins around the world. It's a great success and it has been most gratifying to know that it is enjoyed by so many people.

“The truth is that we are all capable of great things. We are all capable of great love, great joy, and great happiness. But we are also capable of great pain, great sorrow, and great unhappiness.”

**The Editor's Uneasy Chair**

Eve was tempted by the serpent's lie:

“Did God really say you must not eat from the tree in the garden?”

Adam, ever the man of action, answered:

“I will go and see for myself.”

In doing so, he set a pattern for all of us. We, too, must go and see for ourselves. We must not take things at face value. We must not trust the words of others without checking them for ourselves.

**I'm an ARTIST...**

Let me use words to paint in your mind a picture of a fairy in the woods, an old man who has seen much, or a summer's day that never came again.

**Emerson's Ovation too.**

In a word, there is no limit to the power of language. It is a powerful tool that can be used for good or ill.

Zetterson P.T.A. meets
Having wonderful time

...going by Central!

A wonderful time... the old Central school now... several... two-born memories when you go Central... it's a wonderful school to go to... it's hard to see the old school... you think of Central school and all back in the old days... the people of bringing Central's old school alive... the old Central school... you'll find that old Central is in the corner of the town... all the way...

HAIL INSURANCE
Tobacco—Cotton—Small Grain

Mr. Farmer:

Have you insured your crop against Hail?

Know That:

It is time to Insure NOW—Don't take the Risk.

Insurance policies can be issued up to May 15, 1957, or the next hail storm. The Georgia Department of Agriculture has developed a sound hail insurance program which is based on scientific principles. The program is designed to cover the risk of loss to all cotton, tobacco, and small grain crops in Georgia. The insurance is available at a low rate, and the policy is issued for a term of one year. The program is administered by the Georgia Agriculture Insurance Company, a cooperative organization of farmers, and is underwritten by a diversified group of insurance companies.

Wake the town and tell the people

about wonderful electrical lives.

There is nothing very easy about an agricultural farm. You have to thoroughly understand the power of help to every crop. You have to have patience, energy, and care. You have to be able to do the things in the right manner. The right kind of soil brings the best kind of fruit and vegetables. To work the land, you have to be able to do the things in the right manner. Therefore, you have to be very careful about the things you do. It's imperative to have a good system for keeping the land in good condition. It's important to make sure the land is in good condition.
