Eleven members of Nevis Home Demonstration Club go to Atlanta

International Blue Key Fraternity Will Become Local Organization

The theme of the Blue Key International Conference held in New York City was "Leadership Through Education". The F. M. Anderson chapter of the International Blue Key Fraternity met last Tuesday night at the home of Mrs. John H. Mooney, and its activities for the coming year were planned.

Mr. Anderson presided over the meeting and after the business business was over, led the group in a song. Mrs. Mooney, who is in charge of the chapter, presented the program for the week. The program included a discussion of the national leadership program of the Blue Key Fraternity. She also emphasized the importance of leadership in the lives of all students, not only in the academic field, but also in the community and in the world at large.

Mrs. Mooney's presentation was well received and the members of the chapter were enthusiastic about the upcoming activities. The chapter plans to hold monthly meetings and to sponsor various events throughout the year.

The meeting concluded with a vote to hold an initiation ceremony for new members. The ceremony will be held on a future date.

While the chapter's activities are centered in the Nevis area, its members have a network of contacts throughout the world. This allows them to bring in speakers and leaders from various fields to share their insights and experiences with the chapter members.

In closing, Mr. Anderson expressed gratitude to Mrs. Mooney for her dedication to the chapter. He also thanked all the members for their participation and for their commitment to leadership and education.
