Editorials

The jail and clerks' office need improvements

In correspondence of the October term of the Superior Court, the jail and clerks' office came up for discussion. A jail is the place that the county jail and make provisions to keep it running smoothly.

Not many of us have desired to see jail conditions at their present state. The problem has been the result of excessive costs that were caused by the Grand Juries. Now, the General Council recommends the number of Grand Juries to be reduced.

Vote December 5

Three members of the City Council went to the elections on Friday, December 4. And must be in attendance at the General Election on Tuesday, December 8. The city elections are December 8.

If you have not already voted, please do so. It is the law to vote in every city election.

We think our employers in choosing the right lane for the right reasons.

It is the responsibility of each voter to educate himself on the important information.

An entirely new Cadillac classic in styling, luxury and performance!

By the way — we also gather that the 1966 Cadillac will be introduced later next year. It will be built in two body styles, the coupe and the sedan. The coupe will be available in both the standard and the convertible models. The sedan will be available in the standard model only. The convertible will be introduced later.

Details of the new car have not been released, but it is expected to be a significant improvement over the current models. The car will feature a new engine and transmission, as well as improved suspension and handling. The interior will be updated with new materials and finishes. The car will be offered in several trim levels, with the top-of-the-line model to feature a new level of luxury and comfort.

In addition to the design improvements, the new car will also feature a number of new technologies, including adaptive cruise control, automatic emergency braking, and a rear-view camera with a 360-degree view. The car will be built using the latest in advanced manufacturing techniques, including robotic welders and advanced paint systems.

The new car will be unveiled at the Detroit Auto Show later this year, and production will begin shortly thereafter. Sales are expected to begin in early 2023. The new car will be available in both the coupe and sedan body styles, and will be priced at a premium over the current models.

Bohler, Fair Store
(a store)

Next to the house to him

First brick store is built

at the corner of South and First Main Street. In the early 1890's, a store was built on a lot owned by Mr. Smith, located at the corner of South and First Main Street. The cornerstone for the store was laid on September 6, 1892.

The store was a three-story building, constructed of brick and mortar. The ground floor was occupied by a hardware store, while the second and third floors housed a variety of businesses.

The building was named Bohler, Fair Store, after its owners, Mr. Bohler and Mr. Fair. The store sold a variety of goods, including groceries, hardware, and clothing.

The store was a popular destination for the local community, offering a wide selection of merchandise and attracting customers from all over the area. It remained in operation for many years, contributing to the economic growth and development of the town.

To be continued.

The 58 Ford is here now...

there's nothing newer in the world

This year, we are proud to present the latest model Ford, the 58. It is the epitome of modern design and technology, offering unparalleled performance and style. With its sleek lines and advanced features, the 58 Ford is the ultimate choice for anyone looking for a vehicle that stands out from the crowd.

Trouble is always marked
