The Story of Bulloch County

by BARNEY and ELIZABETH COLEMAN

This Is

Stateboro

Editor's Note: This week we continue "The Story of Bulloch County," which we began in August 20. This week we present the story of the city of Statesboro.

Statesboro

Old Statesboro was located near the mouth of the Savannah River. It was named after the States family, who were early settlers in the area. The town was originally called "Georgia," but it was later renamed "Statesboro." It was incorporated as a town in 1858.

The town of Statesboro was originally a small trading center, but it grew rapidly with the advent of the railroad in the 1880s. The first steam train arrived in Statesboro in 1886, and it quickly became a major transportation hub for the region.

Statesboro was hit hard by the Great Depression of the 1930s, but it rebounded in the post-World War II era. The city developed a strong manufacturing base, and it became a center for education and healthcare.

Today, Statesboro is a thriving community with a population of over 20,000. It is home to Georgia Southern University, which is the largest and most prestigious institution of higher education in the region.

The cotton growers in Bulloch County will soon receive their acreage allotments.
Editorials

There's an election

There is to be no election here in St. Peter, December 9, but there will be in some. And it is important for all the interested parties in the election cause to get their votes in before the deadline. Without questions, the candidates who have done the best job of getting their votes in on time are likely to have the most success in the election.

As a citizen of this community, I urge everyone to vote. It is important for our city to have a strong and representative government, and we can only achieve this by casting our ballots in the election.

Recreation

This week's Recreation column

This week's Recreation column is dedicated to sharing some of the local events and activities happening in our community. We encourage everyone to participate in these activities and to volunteer their time and energy to help make our community a better place.
