Christmas Means Many Things to Many People

THE UNIVERSAL joy of Christianity is wonderfully universal.

The ring bells throughout the north and south, west and east. The
Church is filled with the sound of singing and the strains of organ
music. Everywhere, the message of peace and goodwill is
promulgated.

The Christmas story is a story of love and sacrifice. It is a
story of the Incarnation, the Incarnation of God in the
person of Jesus Christ. It is a story of the Father's love for the
world, of God's love for humanity, of the love of a Father for
his children.

There is no one who does not feel the impact of Christmas. It
is a time of joy and gladness for all people, regardless of
their beliefs or religious affiliations. It is a time of
renewed hope and faith for those who are weary and
wearied.

CITY SELLS $1,150,000 WORTH OF WATER AND SEWERAGE REVENUE BONDS DEC. 18

Twenty-four bidders had an $1,150,000 worth of water and sewerage revenue bonds sold by the City of Statesboro in a public auction at the Court House here on December 18. The proceeds of the sale are to be used to finance the construction of a new water treatment plant.

The auction was held in the main courtroom of the Court House under the direction of Mayor W. J. Simmons. The bids were called out by the Bid Clerk, and the winning bids were determined by the Board of City Commissioners.

The highest bidder was the Georgia Power Company, which bid $1,150,000. The company was the only bidder who placed a written bid.

The other bidders included the Statesboro Bank, the Bulloch County Bank, and the Statesboro Savings and Loan Association.

The sale was conducted under the provisions of the City Charter, which authorizes the City to issue revenue bonds for the purpose of financing capital improvements.

The water treatment plant will be built on the site of the former City Hall, which was razed last year. The plant will be designed to treat 1.5 million gallons of water per day and will be capable of handling a population of 25,000.

The City has been planning the construction of the plant for several years, and has already obtained a state grant of $150,000 to help finance the project.

The City is also planning to begin construction of a new sewerage system, which will replace the old system that has been in use for many years.

The new system will be designed to handle the increased population expected in the next few years.
