B. & P.W. revises program of service for year

At the March meeting of the Bulloch County Extension Women’s Club the revised program for the present year was presented. The program was designed to help meet the food needs of the county. The extension Agent, Mrs. Willa Lee Johnson, said the problems as follows:

1. We must know the resource of wholesome foods.
2. We must know the market price of foods.
3. We must know the shelf life of foods.
4. We must use foods wisely.
5. We must also prepare foods wisely.

The class was to try every day to make our foods to the best advantage. We must not waste foods, but prepare foods to the best advantage. We must use foods wisely and prepare foods wisely. We must use foods wisely and prepare foods wisely. We must use foods wisely and prepare foods wisely. We must use foods wisely and prepare foods wisely. We must use foods wisely and prepare foods wisely.

Coastal Bermuda good for grazing, hay and silage says county agent

Herman Talmadge

THE THOMAS COMMITTEE

THE SHERIFF

The Talmadge farm near Washington was used as an example by Herman Talmadge, assistant county agent, when he demonstrated the use of Bermuda grass in the demonstration plots at the county agent's field day. 

Limitations, reports that SAVE-PHONE reserve Day.

Most of the Bermuda grass used in the demonstration plots was grown from seed and should be used to enrich the soil with nitrogen.
