Stay home Sunday P.M.

When the letterman and the cheerleader, the band director and the Sunday school teacher, are all off duty, the normal routine of church activities is suspended, and the church becomes a safe haven for those who would not normally be seen there. Sunday, the day when church attendance is lowest, is a time when the church can truly be a place of spiritual renewal and inspiration.

This week's Meditation

By Jerry Doyle

Meditation is a practice that has been around for centuries, and its benefits are well-documented. It is a way of quieting the mind and focusing on the present moment, which can help reduce stress and improve overall well-being. The key to effective meditation is to set aside time each day for quiet reflection and to practice the habit regularly.

Dyeing

Dyeing is an essential part of the textile industry, and there are many different types of dyes and techniques that can be used.
