SHOWN ABOVE are the members of the GTC Trumpet Trio who will perform at the annual Fall Band Concert to be given in McCran Auditorium on November 24. Standing from left to right are Tommy Rogers, Buena Vista, Tommy Fouche, St. Simons, and Jack Willis, Albany. The band, under the direction of Mr. Fred K. Grumley, will be featured in a wide variety of compositions on the program.

Trumpet Trio To Perform At Fall Band Concert Here

By MARY ANN HARRELL

When the Georgia Teachers College Band presents the annual Fall Concert on November 24, one of the highlights of the evening will be Don Jacoby's "Carnival Variations" a trumpet trio. Members of the trio are Jack Willis, Tommy Rogers, and Tommy Fouche.

Willis, a senior music education major from Albany, is married to the former Pat Garrett and now resides in Statesboro. He is manager of the Professors Dance Band, a member of the combo, and is past president of Phi Mu Alpha. Besides these activities, he has been on the Student Council, Social Committee, treasurer of the Music Educators Club, a member of the Philharmonic Choir, and an officer of the band.

Tommy Rogers, from Buena Vista, is also a senior music major from St. Simons, is the third member of the trio. He is a member of the Philharmonic Choir, an officer of the band, a member of the Music Educators Club, and the Science Club.

Besides this interesting trio, the band will be featured in a wide variety of compositions. Included on the program will be "Coat of Arms" a concert march, by Kenny; "Fanfare and Allegro" by Williams; "Begone for Bands" by Osler; "Selections from the Music Man" by Willson; "From Heritage" by Latham; "Short Classic Suite for Band" by Purcell; and "Sea Portraits" by LaCasse.

The band under the direction of Fred K. Grumley will appear on Tuesday evening, November 24, at 8 p. m. in McCran Auditorium. The public is invited to attend.

BROWNIE TROOP NO. 3 VISIT JULIETTE LOW HOUSE IN SAVANNAH

The Brownie Troop No. 3 made an all-day trip to Savannah on October 24. They visited the Juliette Gordon Low birthplace, enjoying seeing all the rooms in the house.

Mrs. Low's niece told them

many things about Mrs. Low and her life there.

Accompanying the Brownies on the trip were Mrs. Hazel Bazemore, Mrs. Rudolph Hodges and Mrs. Hayden Carmichael.

TB Christmas Seals mailed out this week

Miss Ann Williford, chairman of the Bulloch County annual TB Christmas Seal drive, announced today that Christmas Seals for Bulloch Counties were mailed to be received on Monday of this week.

Miss Williford urges all citizens of the county to read the letter and "decide in the privacy of your homes if you want to

give to the Christmas Seal Sale and how much you wish to give. Any contribution is important," she said.

She added that "Red" Schoendienst, star second basemen of the Milwaukee Braves baseball club, is national chairman of the annual sale of Christmas seals.

Dr. Pierce Harris, Atlanta pastor, is honorary state chairman.

Washington County stopped the Statesboro threats in the running attempt at their own 21 at the start of the fourth quarter cost the Hawks. Archer was stopped for no gain and Statesboro took over at the 21. With fourth down and 13 to go, freshman quarterback Aaron Youmans threw a screen pass to fullback Jimmy Cason who moved it 19 yards to the five. Cason gained two, and then McGlamery scored. Scaree to the right and scored. Scaree converted and Statesboro lead, 20-6.

Go to the polls on Wed. Nov. 18 and VOTE!

Because we feel deeply about our right to vote in free elections, and because we have a profound respect for the power of the ballot, and because we are concerned about the seeming apathy on the part of the people of Bulloch County to go to the polls and vote on election days, we are making a special effort to put the Bulloch Herald in the post office on Tuesday in order that our readers be reminded that Wednesday, November 18 is ELECTION DAY.

According to the records approximately 10,000 citizens of our county are eligible to vote in the November 18 primary. On September 10, 1958, the last election held in the county in which our state officers were elected, only 4,770 citizens voted. In the last county election held in 1955 in which local officials were elected a total of 5,912 voted.

In the 1958 election the percentage of qualified voters who exercised their right to cast a ballot was less than 50 per cent. In the 1955 election the percentage was higher because it was a county election to name officials, but even so, the percentage was approximately 80 percent.

There's no reason this percentage should not run as high as 80 to 90 percent of the total eligible electorate.

Our government is a people's government, made for the people, made by the people, and answerable to the people. But when only one-half or less of the people take a hand in making their government, there exists a danger that it will no longer be a people's government.

We call our government, even

TB plays no favorites—Buy your Xmas Seals

You may have heard that tuberculosis gets its stronghold mostly among the underprivileged. But case records show that TB can strike anyone, anywhere. That's because everyone with undischarged TB is a potential source of infection.

The man at the next desk, the woman next in line at the supermarket check-out counter, the teenager holding on to the adjacent strap in the bus—these may be harboring the deadly TB bacillus. Anyone of them may have active TB, unaware that he is spreading the disease. Christmas Seal funds are used to protect you and yours from this ever-present danger of tubercu-

losis. Your Christmas Seal money helps to inform people about TB itself and about the need to have tuberculin tests and chest X-rays. Christmas Seals help to get active cases into TB hospitals—and out again, cured. Christmas Seals are behind the search for better drugs, for methods of prevention.

You have received a letter containing Christmas Seals from your Bulloch County TB Association. Send in your Christmas Seal contribution today and use those Seals on every piece of Christmas mail you send out, as a reminder to others to protect themselves—and automatically, you and yours—against tuberculosis.

AS A MATTER of fact, with our beginning band students, and the advanced grade school students, there will be approximately twenty-five new band next year! This will give us a band of over sixty. This is very encouraging, but a little frightening, too. We were expecting growth but not quite this fast, and we are not prepared. We need more instruments, and uniforms, and music. The new uniforms that we are getting this week will just barely cover this year's band, and next year's group will have twenty more in it than this year. That means twenty additional uniforms, as well as every one that we now have. Also, that size band needs more drums to sound good on the march, and more bass instruments. We will have to get a tuba, a baritone, a tenor saxophone, and a bass clarinet.

WITH THESE things in mind, our Band Parents' Club has already begun several projects to help meet our needs. The band members at Sallie Zetterover and Mattie Lively elementary schools are selling boxes of Breakwater Soap, to raise money for an instrument in each school. This soap sells for \$1.10 for a big box with eight bars in it. The soap is scented, and very finely milled, which means that it is good quality soap. It is attractively packaged, and would be ideal for a gift at Christmas, or any time of the year.

OUR BAND BOOSTERS Day last year was a smash success. We were so pleased with the results that we are making plans for a bigger and better day this year. The date has been set for the 12th of December, a Saturday. Those who con-

tribute to the band fund will receive a decal, being made especially for us to our own design, and a ticket to our Annual Christmas Band Concert, which is on Sunday, the 13th of December. As last year, during the Booster Day, the band will perform in downtown, on courthouse square.

In the days to come, you will be hearing more about our grade school soap campaign, and the Band Boosters Day. We hope that Statesboro and Bulloch County will support us in these efforts to improve the Blue Devil Band.

I think perhaps the greatest danger lies on the county level. There are many counties to

which we can point in our state and say that county is controlled by a machine. The end result in that county which is so controlled has been government by the few for the few. It is a long and painful process to correct an evil such as can be brought about by public indifference. The surest way to keep men who are interested in this kind of government from ever attempting to take control is for them to know that the great majority of our registered voters are going to the polls on election day. They realize the impossibility of controlling the vote when most of the people are going to weigh the issues involved and cast an intelligent ballot.

WE DO OF course have men and women who are present when the votes are tallied. They are present out of interest in the election and not with the idea or the fear that the votes will not be correctly tabulated. This is just something which we take for granted in Bulloch. It is something which cannot be taken for granted always and only with the interest of a great majority of our people can we gradually see these people in these countries and states that have given up their rights to self government.

Here in Bulloch County, over the years, we have had good government. We have had men of quality in most of our positions of leadership. The result has been years of progress, years without "bickering" in which the community itself profits. There are few counties in the state which can match our approach to our government. Can you imagine the time in Bulloch when we will have to have "watchers" at the polls? It will be quite obviously true that not those who have been entrusted with the counting of the votes.

IN THE election being held in Bulloch County here Wednesday, Nov. 18, there is another reason why all of us should vote. We are extremely fortunate that men of great quality have offered themselves to public service. Certainly we owe it to these men to show them the courtesy of consideration and in so doing will encourage others in future years to offer their services through public office.

Winter's First Big Snow
 "HE THAT HATH ears to hear, let him hear." This exhortation tumbled from Jesus' lips more often than one chooses to count. Perhaps his use of the phrase was grounded in the Old Testament prophet's conception of God's golden age. Among the gifts of the Messiah was the restoration of hearing. Said Isaiah: "The ears of the deaf shall be unstopped." When John the Baptist was puzzling over the fact of Jesus as the Messiah, the Master sent his disciples back with the conclusive proof: "... the deaf hear."

HEALING of the deaf has primary appeal in our day. Between ten and twenty millions of North Americans, it is estimated, suffer from some sort of impaired hearing.

Much more distressing, however, are those with normal physical hearing who are morally and spiritually deaf. How God must sigh when He sees this unnecessary spiritual deafness. This is our Father's world, yet to how many of us does "all nature sings and round us rings

of His praise?" The death rattle of our civilization or the birth pangs of God's new day? It is Christ who offers us the best spiritual hearing aid. It is He who makes us hear the overtones "on the other side of silence."

"Lord, I was deaf, I could not hear."
 "The thrilling music of thy voice,
 And now I hear thee and rejoice,
 All thine uttered words are dear."

To Beat the Band

By DALE JENSEN

Football season is over, and what a way to end! The team did itself proud. The band presented their members from the grade schools, as an introduction to next year's band. All but three of them were in the seventh grade, so will be in the high school band next year. They are already playing very well.

AS A MATTER of fact, with our beginning band students, and the advanced grade school students, there will be approximately twenty-five new band next year! This will give us a band of over sixty. The Editor's Uneasy Chair

On November 10 Morris McLemore, son of Mr. and Mrs. O. L. McLemore of Statesboro, left Washington D. C. in a group of six newsmen with a plenitude of men for Christmas, New Zealand, from where they went to the U. S. Navy's base at McMurdo Sound (800 miles from the South Pole)—a 2,000-mile flight—by an Air Force Globemaster that weighs 90 tons and will land on ice sixteen feet thick.

On November 9 Mr. McLemore began a series of stories on his trip which are appearing in the Miami News in Florida. In his first story dated from Washington on November 10, Morris wrote:

"We know now the daring attacks on the northern polar regions made possible the study of weather that affects the world, the establishment of air routes that bind together nations that otherwise might have little direct commerce. The pioneers appeared foolish to millions at one time—and no doubt their families got sick and tired of their wandering off to nowhere in fur suits—but in our relations with Russia alone, we would be in a twist, indeed. If these men had not fed our knowledge with their bravery," Morris writes that there are eight ships three-dozen airplanes and 3,000 men under U. S. Navy control in today's "Operation Deep Freeze 60" which is the title attached to the operation on which he is going as a newspaperman and "I hope to... come closer to the answer to what makes these brave men tick," he says.

THOSE OF YOU in Bulloch County who were up early this morning and who have already gone to the polls and cast your ballot, congratulations to you and you can forget about reading this column this week.

Those of you who have just gotten your mail, opened up your paper and perhaps have turned to the editorial page, to this column is respectfully solicited.

SOMETIM DURING this day Wednesday, November 18, certainly you will want to exercise a great privilege which is yours. In some of our more important elections from year to year about half of you have taken the trouble to speak in support of the candidate of your choice.

About half of you have failed to exercise your right and thus have failed to assume the share that responsibility which is yours. In some other states, in some counties, there have been people who have failed in this responsibility. Year after year they have failed with a fewer percentage voting each year.

Gradually these people in these other counties and states that have given up their rights to self government.

Here in Bulloch County, over the years, we have had good government. We have had men of quality in most of our positions of leadership. The result has been years of progress, years without "bickering" in which the community itself profits. There are few counties in the state which can match our approach to our government. Buster Bowen opens new Econ-O-Wash

ECON-O-WASH, a new 24-hour, coin-operated, self-service laundry, begins operation this week at Statesboro on South Main street. The event will be marked by a two-day Grand Opening Friday and Saturday, November 20 and 21. Free washing and drying will be offered to customers on each of these days between 9 A. M. and 8 P. M.

The new ECON-O-WASH will be unattended day and night. Customers can use as many of the laundry's agitator-type washers as they need to do the whole week's wash at once. Drying is a speedy operation, too, with each big commercial dryer holding up to four washer loads of clothes. Experience has shown that an average week's wash can be done in less than 24 hours. Soap and bleach are dispensed in handy packets, or customers can bring their own.

The coin-operated laundry is currently the fastest growing innovation in the laundry industry. Businessmen find them profitable to own, easy to operate. Consumers find them convenient and economical to use without the investment and upkeep of a home laundry.

In a statement by Mr. Bowen, the ECON-O-WASH is an addition to the service offered to the public and that the same laundry and dry cleaning service afforded by the Model Laundry and the College Laundry and Laundrette will continue.

The new ECON-O-WASH at Statesboro is owned by Buster Bowen, owner and operator of the Model Laundry.

QUEEN OF HEARTS MEETS WITH ANN COENE. On Thursday afternoon, Nov. 12, Mrs. Edward Coe entertained the Queen of Hearts bridge club at her home on Oak St.

Others playing were Mrs. Eugene Ozburn, Mrs. Inman Hodges, Mrs. Edward Scott, Mrs. Mark Toole, Mrs. Frank Gettis, Mrs. John Wood, Mrs. Wendell Rockett and Mrs. Thurman Lanier.

FACULTY DANCE MEET AT STUDENT CENTER. The Faculty Dances met last Wednesday night at the F. I. Williams Student Center at the college. Hostesses were Mrs. Ralph Tyson, Mrs. John Lindley, Mrs. Tom Smith, Mrs. Lawrence Huff, Mrs. Hubert Bice and Mrs. George Martin.

WE GO PLACES. Miss Dorothy Durden and Miss Mary Frances Cox of Atlanta spent the week with Dot's parents, Mr. and Mrs. L. M. Durden. Dot had to get back to Atlanta, but her friend stayed through the week. Mrs. Durden and Miss Cox were invited out for lunch several times, which brought from Miss Cox this comment, "Statesboro is a wonderful place—everyone is so friendly."

BAKE SALE SATURDAY. The Women of Trinity Episcopal Church are having a Bake Sale Saturday, November 21, at 30 Siebald St. between the hours of 10:00 o'clock A. M. and 12:00 noon.

Register News

EDITOR'S NOTE: This week we introduce our news correspondent for the Register community, Mrs. Walden Deal, who writes:

"I am Mrs. Walden. I was born in Register, Grace Elaine Giggis, the daughter of the late N. Gordon Riggs and Shellie Greene Riggs. I have spent all of my life in Bulloch County, most of it in Register, having graduated from High School there then attended Georgia Teachers College. Some thirteen years ago I married Walden Deal and at the present time we are engaged in farming. We have four children, Raymond, Hoyt Anne, Derrick and Shellie. They all attend the Register Elementary School.

Mr. and Mrs. E. M. Kennedy of Savannah were the weekend guests of her parents Mr. and Mrs. J. W. Holland.

Mr. and Mrs. George T. Holloway and children of Midville were visitors of Mrs. R. S. Holland.

Register Watson is visiting his mother Mrs. K. E. Watson. He has recently returned to the States after spending three years with the U. S. Army in Germany.

Miss Berrie Holland of Jacksonville, Fla. is visiting with relatives here.

Walden Deal was surprised by members of this family, on November 10, the occasion being his birthday. There were twenty-seven members of his family present for supper.

Among those going to Athens Saturday for the Georgia-Auburn game were Jeff Moore and son Dennis, H. Erastus Akins, Hilton Banks and Clashed Deal.

Blue Devils defeat Groves High of Savannah 47-0 on November 6

Statesboro scored in every quarter Fri. night, Nov. 6, to win a surprisingly easy 47-0 victory over Groves High. The powerful Blue Devils made 20 first downs on the way to a 20-yard rushing, their top line running out the clock, threatening only once, reaching the Statesboro five-yard line with six minutes remaining in the first half.

Johnston intercepted a Leon Ricketson pass and took it 45 yards for a score. Then after a fumble was recovered at the 24, at 3:30 o'clock at the school cafeteria. All parents and friends of the school are urged to attend.

THE STATISTICS. STATESBORO GROVES 20 First downs 11 47-0 Rushing yardage 141 47-0 Passing yardage 28 47-0 Fumbles 3-11 47-0 Interceptions 2 47-0 Punting 6-33.7 47-0 Fumble lost 2 47-0 Yards penalized 20 47-0

With six minutes left in the first half of Saturday's game, the Blue Devils were leading Groves 47-0. The game was a defensive battle, with the Blue Devils making 20 first downs and Groves making only one.

The tea table, overlaid with a white linen cloth, was centered with yellow pom poms and greenery arranged in silver epergnes, interspersed with yellow candles. Pouring coffee from silver services at each end of the table were Mrs. L. M. Durden and Mrs. Jake Smith. Individual white cakes, embossed in green motif, and mints were served by members of each club.

We Go Places

MR. AND MRS. H. P. JONES SR., MR. AND MRS. HORACE SMITH attended the wedding of a cousin, MRS. KATE REAGAN, and Mr. Horace Smith drove on to Gainesville to visit their daughter, Mrs. Robert Jennings and her husband Dr. Jennings.

MR. AND MRS. CHARLES M. ROBBINS JR. left Thursday by plane from Atlanta for New Orleans where they attended the National Meal Packers Association convention there.

MR. AND MRS. FLOYD OLLIFF and son, BILL, returned Wednesday Nov. 11 from Calhoun where they visited Mrs. Olliff's father, MR. HENRY WILLIAMS and her sister and MRS. ROYD COCHRAN and Mr. Cochran. They were accompanied home by Mr. Williams who will visit them for a while.

MRS. BILL MIKELL (Christine) entered the St. Joseph Hospital in Augusta Monday 16 for major surgery.

MISS ANN WILLIFORD spent the week-end with her sister, Mrs. Joe Hagan in Warren, Ga.

MRS. MINNIE LEE JOHNSON, ZULA NELL GODFREY, MISS ZULA GAMMAGE and MISS ALMA HOPPER were guests Saturday night of the Augusta Business and Professional Woman's Club at a buffet supper.

On Sunday they attended the Fourth District meeting of B. P. W. Mrs. Graham is president of District 4. Mrs. Johnson is State Director, Miss Hopper is president, and Miss Gammage is vice-president and Public Relations chairman for the local club.

MRS. F. I. WILLIAMS and MRS. EVERETT WILLIAMS returned Thursday from Fairfax, Va. where they visited MR. AND MRS. FRANK WILLIAMS JR. and Frank, the third. They traveled by bus and were quite comfortable. They shopped all over Washington, D. C. and made sightseeing tours. They were quite proud (naturally) of Frank Williams Jr. who is at present employed as the construction engineer on Bethlehem Steel's new \$7,000,000 building in Washington, D. C.

GENE FLETCHER, son of MR. AND MRS. JESSE FLETCHER, accompanied by MR. AND MRS. HUBERT MIKELL, left Statesboro by car for the week-end with GENE MIKELL of Canton. Gene Mikell took his parents and his friend Gene, in his car through the Great Smokies and spent Saturday night in Gallenburg and stopped on the way at New Found Gap and Clingman Dome on through Cherokee and back to Canton by way of Tallulah Falls. They spent Sunday in Canton, returning to Statesboro Monday. Mr. and Mrs. Mikell were happy to hear such good reports and high praise of their son from the people in Canton.

We acknowledge cards from MR. AND MRS. CECIL KENNEDY who left Statesboro October 23 to attend a Superior Courts Convention at Las Vegas, Nevada. A card dated October 30th puts them in Grand Canyon for two days. A card dated November 9 states that "we are at the Statler Hilton in Los Angeles." Taking eight seeing tours from here. We spent Friday in Disneyland. It really is fantastic made a tour of Hollywood home movie studios. We will be flying back to Atlanta by jet sometime during the week and will spend a few days with June and her family before coming home.

To People of Bulloch County from W. G. Neville

As a candidate for Solicitor of the City Court of Statesboro in the Primary Election, November 18, 1959, I will very much appreciate your vote and support.

From working with you in the past, and dwelling among you for many years, I feel that I know the conditions in Bulloch County and the desires of our people in upholding justice, law and order.

My life has been here among you, except while in school at Brewton-Parker College; and Law School at Mercer University in Macon, Georgia.

The Public Service you have helped me to render has been in Georgia Law, and in Georgia Courts for our people.

It is my earnest desire to render a full measure of Public Service to all of you, with fairness and respect to all; and to cooperate fully with our Courts, peace officers and probation officers; with first duty always to the public, as Solicitor of City Court of Statesboro.

Sincerely,
W. G. Neville

Nineteen Southeast Bulloch senior girls in 'Family Living' class

By MRS. JOHN A. ROBERTSON

Nineteen of the Senior girls of Southeast Bulloch High School, who are students in "A Family Living" Class have recently enrolled in "The Mothers and Baby Care" class which is a division of the American Red Cross Home Nursing Course.

It has been made available through the cooperation and services of the Bulloch County Public Health Department, with Mrs. Jewel Owens, public health nurse, as director.

The course will extend over a period of twelve days, and will consist of a series of lectures and demonstrations through group participation in the activities providing and adequate diet for the mother, preparing the baby's formula, providing adequate clothing for the mother and child, proper methods of feeding and handling the baby, and bathing the baby.

The Public Service you have helped me to render has been in Georgia Law, and in Georgia Courts for our people.

It is my earnest desire to render a full measure of Public Service to all of you, with fairness and respect to all; and to cooperate fully with our Courts, peace officers and probation officers; with first duty always to the public, as Solicitor of City Court of Statesboro.

SOIL CONSERVATION

By E. T. "Red" Mullis
Soil Conservation Service

Complete soil and water conservation plans have recently been developed for the farms of Lincoln Womack and W. C. Hodges in the Middleground Community. For Mr. Hodges this was a plan on his individual farm which he acquired in the last few years. He already has plans on his other farms which he has recently had revised.

Mr. Womack is rapidly converting his farms into pine trees with cattle, some row-crops, and wildlife rounding out his program. Under the Soil Bank program, he is diverting cropland out of cultivation into timber production and reduce surplus. However, Mr. Womack is holding on to his pastures and plans to stay in the cattle business. He has a good setup of pastures and ponds already for his cows.

Mr. Hodges is also planning pines on old areas and eroded and steep land. He plans to manage his woodland for maximum returns including proper thinning, harvesting, and release cutting.

25,000,000 Americans use Rockwell voting machines

by W. F. Rockwell, Jr., President

Rockwell Manufacturing Co. This month, about twenty-five million Americans have used one of our products: voting machines. In so doing, they have demonstrated several things very important to free people.

First, they have voted in absolute secrecy, with no possible way for anyone ever to tell how they voted, and with no chance of their vote being thrown out because of a technical error. (If you make a mistake on a paper ballot, such as voting for six councilmen instead of five, your vote is thrown out and you never know it. This is impossible on our voting machines. You can even "erase" and change your vote before leaving the booth, without jeopardizing it.) And they will have voted in far less time than the cost of an election is reduced by from one-half to one-third due to savings in number of polling places needed, number of paid officials in each place, in printing millions of official ballots, and in the long task of vote counting.

Also—and this is very important—the American Institute of Public Opinion (Gallup Poll) has documented the fact that a higher percentage of eligible voters vote where machines are used than by the hand method. While many Americans have never used a voting machine, others have been using them for many years. Our subsidiary, Automatic Voting Machine Company, has been designing and building voting machines for more than sixty years. This has become a more and more exacting job as our lives, our government, and our election laws have become more and more complicated. The perfect coordination of more than 23,000 working parts enables our voting machines to accommodate the widely diverse requirements of every state, county, and city in the nation.

As a measuring device, the voting machine makes more demands on accuracy, perhaps than any meter or other registering device we make. At stake, in its use, is more than

product or money—the vote of free men and women.

Since it took us more than thirty centuries to win the right to vote freely, and in secret, this is probably our most precious possession. Our people who make and service voting machines never forget that.

The first use of our machines in a union election was in 1922. During the thirties, because of the privacy and accuracy of machine voting, the National Labor Relations Board urged their use in holding referenda to decide the bargaining agencies for employees. Today, they are used regularly by more than 250 union organizations.

New use for voting machines: This Fall we used our voting machines in conducting our periodic employee attitude survey. Respected employees' confidence in the secrecy of the vote and accuracy of the counting and lower cost in tabulating the results. As far as we know, this is the first such use for voting machines, but it may well open a whole new field for them in industry.

NEW YORK, N. Y. — Col. Willard F. Rockwell, chairman of the board of Rockwell Manufacturing Company was reelected a member of the National Industrial Conference Board for a one-year term.

The reelection of Col. Rockwell, who is also a trustee of the Conference Board, was made recently at the Board's 397th meeting in New York.

Under the direction of the Conference Board is an independent and nonprofit institution for business and industrial fact-finding through scientific research. In terms of everyday usefulness, the Board is a source of facts and figures bearing on all aspects of industry, and has more than 3,700 subscribing associ-

Dr. Charles H. Herty used GTC campus in early experiments

By Roberta Halpern GTC George-Anne Editor

It wasn't too many years ago that Dr. Charles H. Herty, a famous scientist, used what is now the Georgia Teachers' College campus for his experiments with pine trees that led to his invention of the Herty turpentine cup.

Today the classroom building, now nearing completion on the campus, has been named in his honor. The new Herty Building will house the science, business education, and the home economics divisions. Other places in this area named for Dr. Herty include Herty Drive located in the Pittman Park area, the Herty Gates at the back entrance of the college, and the Herty Pines located near Sanford Hall.

Dr. Herty, born in Milledgeville, Georgia in 1864, graduated from the University of Georgia in 1886 and received his Ph. D. from John Hopkins in 1890.

Following his work with the Georgia State Experiment Station and the Bureau of Forestry under the United States Department of Agriculture, Dr. Herty became professor of chemistry at the University of North Carolina from 1905 until 1916.

Editor of the "Journal of Industrial and Engineering Chemistry" between 1917 and 1921, Dr. Herty was chairman of a committee of noted scientists that published "The Future Independence and Progress of American Chemistry in the Age of Chemistry," as a result of an editorial that appeared in his journal in 1918. The publication of this report, which pointed out the need for intensive chemical

Dr. Herty established the Savannah Pulp and Paper Laboratory where he performed experiments with newsprint. On November 20, 1933, nine leading Georgia newspapers appeared on paper from young Georgia pines. Testimonies of the publishers made public by the Associated Press the following day revealed a satisfactory behavior of the paper in the pressroom. The paper required less ink for printing and was more pliable than the average commercial newsprint. At this time Canadian spruce pine was selling at ten dollars a ton while Herty trees were selling at three dollars a ton.

In 1936, Alexander Calder, president of the Union Bag and Paper Corporation, stated that his corporation had come to Savannah as a result of the work of the Herty Laboratory. Before the construction of this mill was completed, 14 new pulp and paper mills were being built in the South.

The Tax Books Of BULLOCH COUNTY NOW OPEN For Payment of State and County TAXES FOR 1959

The books will remain open until December 20, after which Taxes become past due and you will be liable for interest. COME IN AND PAY NOW WINFIELD LEE Tax Commissioner, Bulloch County

An Open Letter To the Voters of Bulloch County:

Subject to the rules of the Democratic Primary to be held on Wednesday, November 18, 1959, I hereby announce my Candidacy for the office of Chairman of the Board of County Commissioners of Roads and Revenues of Bulloch County.

Though it will be impossible for me to see every voter before election, I want the general public to know through his medium that if I am elected I will diligently and earnestly discharge the duties of this office and always to the very best of my ability.

For more than 20 years I have served in various executive capacities in the Armed Forces. This experience coupled with my years of service both as an employee and as the owner of a wholesale grocery and notions business, I feel, helps qualify me in being able to discharge the duties demanded of this office. I have worked over the years with the various church, civic and service organizations of the community and have been an active supporter of the Chamber of Commerce and its program.

If honored with this office, I pledge myself to conduct its affairs in a fair and impartial manner to all of our citizens and to apply my best efforts towards getting the most for our county that is available through state and Federal agencies.

I will appreciate your support and your vote. If I am elected I will be humble and grateful and will constantly strive to merit the confidence placed in me.

Respectfully,
HENRY J. ELLIS

Let's go 1st class on concrete!

AT NIGHT YOU SEE LIKE A CAT when you drive on light-reflecting, modern concrete!

On light-colored concrete you can really see where you're going and you won't find yourself constantly "outriving your headlights." Concrete gives you far better visibility at night than any dark surface.

This high night visibility level saves tax money on lighting. Fewer fixtures are needed. It cuts the highway electric bill, too—up to \$720 per mile per year.

Concrete also gives you a grainy surface for dependable added resistance and a smooth, flat ride. Initial cost is moderate, yet modern concrete will last an expected 50 years and more. Upkeep costs will be as much as 60% less than for asphalt.

No wonder modern concrete is the preferred pavement for the Interstate System. A new booklet about highways is yours for the asking.

120 Days Around the World on The Flying Hawk....

EDITOR'S NOTE: This is one of a series of accounts written by Guy Wells of Statesboro about the trip he and Mrs. Wells made around the world aboard the freighter "The Flying Hawk" They left the U. S. on February 26, 1959 and returned July 7, 1959.

Mr. Wells and I left Statesboro about the last of February for New York to board the ship named "The Flying Hawk" for this tour. The ship is known as a passenger cargo and is owned by the Ibradent Company of New York. It is a C-2, built in 1941, at a cost of about seven million dollars.

The company sails a similar ship every two weeks from New York carrying twelve passengers, and a cargo usually bringing in approximately a million dollars, at a cost of about half this amount for expenses. There are forty-four members of the crew. Several nationalities are represented in this number. Our Captain is Mr. Shivers from Georgia. The ship is 452 feet long and draws about 32 feet of water when loaded. There are four of five stories or floors beneath the passenger cabins.

Each ship has four large double cabins and four single cabins, all with private bath and ample closet space. There is a large dining room for the passengers and officers of the crew, also two public lounges on each side of the dining room for games and conversation. The decks contain deck chairs, shuffle boards, tennis, and pingpong. Our chef is very good. He was formerly chef on the CONSTITUTION, a very large passenger liner, and he quit to accept an easier work. Our food is excellent.

There's nothing like a new car—and no new car like a Chevrolet. This is a 1960 Chevrolet Bel Air Sport Coupel.

PEOPLE SAY THESE ARE THE THINGS THEY WANT IN A CAR...and CHEVROLET '60 comes closest to meeting every need!

Interviews with thousands of car owners across the country show clearly what they like or dislike about their present cars... and what they want most in their 1960 cars. Here's what the people tell us they want... and here's how Chevrolet meets their needs.

"Price, that's what's uppermost in my mind." All Impalas and Bel Airs with V8 engines are lower in price, as are automatic transmissions. Many other popular options. Also Biscayne now include as standard equipment conveniences formerly optional at extra cost.

Chevrolet. You've got big, sturdy brakes underfoot, for example, that last longer. As it has been for years, safety is standard equipment in Chevy.

1960 is no exception. But really, this kind of lightness and precision you've simply got to enjoy for yourself.

"And how about operating economy? And resale value?" You keep right on saving after you buy your favorite Chevrolet, too. And Chevrolet's traditionally higher resale value means you'll get more back when you trade.

"It's a car you can look at and be smug about buying it." Chevrolet for 1960 leaves the low-price field far behind when it comes to fashion. But you're the best judge of styling, so take a good close look at Chevrolet. We warn you: you're about to fall in love.

"And performance. Let's have a hot one!" Chevy's spirited V8's have set the standard for ultra-efficient power in American-built passenger car engines. You've got a long list of performance-minded transmissions to pick from, too.

"Give me plenty of good old-fashioned comfort." There's comfort and then some in this one. Chevy's long on space, for one thing. Once you're under way you'll know just how comfortable Full Coil suspension makes your ride.

"I want a car that will stand up to the driving I do." For proof of Chevy's staying power, just spend a minute watching the nearest road. You'll see more Chevrolets traveling on it than any other car—evidence on wheels of Chevrolet durability. (And that higher resale value attests to it, too.)

"Me for a sweet-handling car." Handling's always been Chevy's forte, and

GTC Professors Have Just Two Weeks To Prepare Cage Lessons

Coach J. B. Searece and the Georgia Teachers College Professors have just 19 "working days" before they square-off with the University of Georgia Bulldogs here on Wednesday, December 2. The locals began workouts on Monday, October 18. Practice scrimmages this week began to show the effects of the drills, and the outlook for the season begins to be downright bright and sunny.

Virtually the same team that reached the N. A. I. A.'s final round of eight at Kansas City last March returns. Add to this 8-5 junior center Jim Long, junior college transfer Tracy Rivers and J. E. Rowe from Drew-Parker, the added year's experience to the seven letter winners, and basketball buffs cannot fail to await this season with relish.

Coach Searece says "Our long suits this year are depth and overall squad height. Unfortunately for us, however, every team on our schedule seems to be improved over last year. All-in-all, though, I think we can have a successful season, barring injuries to key players."

Forty Faculty Members Start SHS Honor Roll for first period

Principal James L. Sharpe of the Statesboro High School this week released the honor roll for the first period of the eighth through the twelfth grades. It is as follows: Clubs, a group with 10,000 clubs and 60,000 members. Ironically, the opening meeting was held on the 30th anniversary of the famous Stock market Crash on Wall Street on Oct. 29, 1929, the event that triggered the depression of the thirties.

HOW MUCH IS YOUR TV SET WORTH?

It would take a lot of money to make most folks forgo the entertainment they get from their TV sets. But how much will it be worth then? If your only interest is getting back a picture without regard for the quality of that picture, you can save money by buying a cut-rate, off-brand TV set. But nationwide tests show that the average brightness of cut-rate tubes is so low, you might set your TV reception back as much as five years.

THE BULLOCH HERALD

WINTERIZE FOR SAFETY
Does your tractor start easily or does it barely turn over when you touch the starter button. Are your electric tank heaters well grounded and are your fuel tank heaters in good repair? Winter is coming and with it comes the hazards of cold weather. Pipes that are not protected may freeze and thereby add to the problem of securing water should a fire occur. Blow torches, electric heating devices, and hot ashes may thaw pipes, but they also start fires. Instead of having to thaw your pipes, protect them from freezing now.

Tractors and automobiles that are not properly prepared for winter, try a driver's patience and his safety awareness as well.

Along with winterizing your farm, remember to winterize your driving techniques. Adjust your speed to road and weather conditions. Keep the windshield and windows clean.

Pump your brakes. This is the best technique for stopping on snow or ice while maintaining full control of your car. Keep well back of the vehicle ahead so that you will have plenty of room to stop.

It takes three to twelve times as far to stop on snow and ice as it does on dry days.

A Message to the Voters of Bulloch County

Since it is impossible for me to personally contact each voter in the county, I want to convey this message in soliciting the vote and support of the voters for the office of Clerk of the Superior Court of Bulloch County.

I will begin with the reason why I have announced for this office. I feel that it is the duty of every American who desires political office that are in good standing mentally and morally, to offer himself as a public servant at some time during his life.

Also to promote during that service in office as well as out of office a better government which we should live, and above all, to protect the Constitution of our country and the individual rights of its people.

MY PLATFORM is to, if possible, make it easier for records to be traced. To give quick efficient service to the public when they come to this office for help.

To execute all the duties of this office to the fullest capacity.

MY BACKGROUND—I was born and reared in Bulloch County. My ancestors were among the first settlers that came here at the end of the Revolutionary War. My father is Mitchell M. Rigdon, the son of the late David L. Rigdon and Mary Jane Lester Rigdon.

My mother was Belle Brannen Rigdon and the daughter of the late J. Austin Brannen and Carrie Darden Brannen. I attended Statesboro schools and graduated from Statesboro High School in 1940, after which I spent two years in college in Atlanta.

World War II interrupted my college training and I saw service with the United States Army Signal Corps in the Atlantic theater of war and the North African campaign. Due to the injuries received in the service I was returned to the United States and was honorably discharged.

I returned to Bulloch County and later worked with the Department of the Navy at Savannah, Ga., until the end of the war. After the war I returned to Bulloch County and started in the plumbing and electrical contracting business, which I have been engaged in since 1946.

I am married and have four small children. We live in Brooklet, Ga. My wife is the former Sally Fordham, the daughter of Beulah Akins Fordham and the late Robert Dewey Fordham.

PROMISES—I wish to say concerning promises, if elected, to fulfill the duties of this office in general benefit to all the people of Bulloch County and not for any one group or special individual.

I urge you, the voters to turn out and vote on November 18th for the candidate of your choice.

It is our duty to vote and we certainly should exercise this privilege. I hope if it be the will of God, you will select me as your next Clerk of Superior Court and if I am, I pledge to you honest and faithful service.

Peanut growers referendum on market quotas for 1960 is Dec. 15

by Roy Powell, County Agent

The USDA announces that the referendum on market quotas for the 1960, 1961, and 1962 crops of peanuts will take place December 15. If as many as two-thirds of the growers voting, favor quotas, they will become effective in each of the 3 years. If more than one-third vote against quotas, quotas will not take effect in 1960, and another referendum will be held next year for the following 3 years.

During cold spells many of us have used boxes, plastic bags, and other various fabrics to cover and protect valuable ornamental plants. Recent research at the University of Georgia indicates that if these covers are left over some ornamental plants too long they are harmful to them.

In the tests to determine effects of the covers azaleas plants were used. Damage to these plants increased according to the length of coverage time. Even three days of covering caused damage, and one week of coverage caused considerably more damage. In the 1-week test, 36 percent of the flower buds were killed on plants under black plastic, 35 percent when under clear plastic, 17 percent when under cardboard boxes, and 1 percent on the non-covered plants.

In conclusion, the investigators say that although the tests dealt primarily with azaleas plants, it is possible that other shrubs would react in a similar fashion to these covers. The researchers say that if covers are used at all, they should be taken off during the days.

INCOME TAX MANAGEMENT
Today, when cutting costs is so important to earning profit in farming, farmers should not only be experts on efficient farming practices, but also experts on income tax. With good management, income taxes—like many other costs—can be reduced. The government does not expect to receive more than the amount due. Managing farm business in such a way that the amount of taxes paid over a period of years is no more than the legal minimum is just good business.

One important way of reducing taxes is to spread the annual net income as evenly as possible over a period of years. Methods of depreciation, a n d transactions involving non-business property are other important considerations.

COASTAL BERMUDA
More than 530,000 acres of Georgia farm-land are now planted in Coastal Bermuda. Farmers have found Coastal drought resistant, highly nutritious, and high yielding. In research tests over a 5-year period at the Coastal Plain Experiment Station, Coastal Bermuda produced a yearly average of 116 pounds more beef per acre than common Bermuda in adjacent pastures on the same soil type. None of these pastures were heavily fertilized.

If you plan to plant some Coastal Bermuda, be sure to consider these points for best results:

1. Prepare soil thoroughly and wait for rain before planting sprigs.
2. Coastal Bermuda may be planted on uplands and well-drained lowland soils. In South Georgia, plant anytime when soil is moist. In North Georgia, plant in spring to mid-summer.
3. Apply lime and fertilizer according to soil tests. Keep sprigs from coming into contact with fertilizer. On soils of medium fertility or higher, fertilizer should not be applied until Coastal is established to keep down growth of weeds and other grass.
4. For chemical weed control, use two pounds of 2,4-D acid-equivalent in 30 to 40 gallons of water per acre immediately following planting. After it is established, one-half to one and one-half pounds of 2,4-D acid-equivalent in 30 to 40 gallons of water per acre will help control broad leaf weeds.
5. Plant fresh moist sprigs in 6-foot rows and 1-foot in drill. Plant immediately after a rain. The sprigs should be covered no deeper than necessary to keep them moist. Firm the soil by rolling. It is best to leave a 1/2 inch of the soil above the ground. Plant same day or by all means, within two days of digging sprigs.
6. Coastal sprigs may be planted by dropping the sprigs and pushing them into soil, or dropping the sprigs in a shallow furrow and then covering and firming by rolling. Another method is to have one man turn the land, with a second man following and dropping the sprigs. Plant transplanters and tree-planters are considered best of the mechanical planters.
7. Apply 15 to 20 inches of water nitrogen per acre along rows when plants have made 6 inches of growth.
8. Cultivate to control weeds and grass.
9. Each year fertilize according to soil tests. Split applications of nitrogen are best.
10. Cut hay when 15 to 18 inches high. For quality grazing, keep mowed or grazed down.

National Farm-City Week is proclaimed for November 20-26

National Farm-City Week, November 20-26, will place the emphasis this year on water conservation. The observance is planned to provide an unusual opportunity for farm and urban people and the fact that this combined effort has led to a better public understanding of the needs, problems, and opportunities of our country's agriculture and the necessity for well-trained capable young men and women.

The President requests the Department, the land-grant colleges, the Agricultural Extension Service, and all other appropriate agencies and officials of Government to cooperate in the observance of this—the fifth annual National Farm-City Week.

President Eisenhower points out in the proclamation that the productivity of farms and industry provides food, fiber, tools, and services that have given our Nation the highest standard of living ever enjoyed by any people. "I also request urban groups to join in this observance, along with farm groups, as evidence of American's appreciation of all those on the farms and in the cities who provide us with our daily bread and all the other necessities of life," the President said.

NOW! OLIVER Raydex Shares—to Fit Your Soil, Cut Costs

Here's another way Oliver slices your plowing costs—with plowshares that match your needs. Raydex shares come in a grade, type and style to fit your soil and plowing conditions perfectly. Your choice of Super or Standard grade, curved or flat top, short or regular style.

For example, Standard-grade Raydex shares make it more economical than ever to plow with an Oliver. They're made by a special, low-cost process. The savings are passed along to you. Besides, Standard shares are extra tough, springy and long-lasting.

See the world's most copied plowshare—Raydex—originated by Oliver. It runs true, holds even furrow depth, reduces draft. You can count on it—plowing costs go down when you switch to an Oliver with Raydex.

As Southern as Grits

No institution is more deeply rooted in the South than our Company. Since our founding 73 years ago, we have concentrated on serving the South, and only the South, with dependable petroleum and allied products.

Our officers, directors and all members of our organization are Southerners. Two-thirds of the Company's dividends are paid to more than 14,000 of its stockholders living in the five Southern states we serve. Our profits are reinvested where we make them—in the South.

We like to believe that the continued sales leadership of our products is due to two things: 1) their dependable quality; and 2) the fact that we are Southerners who think Southern, act Southern and inherently observe the customs and courtesies which Southerners appreciate. We're proud to be "As Southern as grits."

Elect Edgar Wynn For Chairman of the Bulloch County BOARD OF COMMISSIONERS

On Wednesday, November 18, the qualified voters of Bulloch County will go to the polls and elect their county officers.

It is only fair to expect that the citizens who will exercise their privilege of voting are interested in those who are offering themselves as candidates for the several offices.

I am a candidate to succeed myself as Chairman of the County Board of Commissioners. I have been seeing and talking to as many people of the county as my duties will allow. I have answered their questions with complete honesty and frankness. I wish to assure those who I have not yet seen, and who I may not be able to see, that I am never satisfied with the accomplishments of your Commissioners' office. If I should arrive at that point where I am satisfied, then there would be nothing left to be done. New problems, new goals continue to challenge us, and demand careful consideration and study.

I can assure you that your County Commissioners office has the prime objective of serving all sections of the county with prejudice to none.

You can know that your county has received it's fair and proper share of funds to perform the services you deserve and demand.

I stand on my record, believing that that is the best test of what a public official can do.

And on that record I seek your vote and support of

Proclamation

WHEREAS, the members of every homeowner and home-maker to secure as many dogwood trees as they will and set the most beautiful in this section out that their beauty might enhance the attractiveness of our community.

WHEREAS, the people of our city are proud of their lovely dogwood trees in the areas between our streets and sidewalks; and

WHEREAS, there is no tree more lovely in the springtime with its beautiful blooms and in the fall when its leaves turn a lovely red, then the dogwood tree; and

WHEREAS, the dogwood tree is native to our wonderful section of the nation,

NOW THEREFORE I, William A. Bowen, Mayor of the City of Statesboro, do hereby proclaim and set aside November 10 to November 15 as "DOGWOOD WEEK," and do urge say.

Editor's Note: The Hoe and Hope Garden Club announce this week that its members will set dogwood trees this year during Dogwood Week as they have done in the past. "But we do wish to express the sincere hope that during the second week of November, during Dogwood Week, the citizens of Statesboro and Bulloch County will plant this beautiful tree to beautify their home grounds and property."

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the City of Statesboro to be affixed, this 7th day of November, 1958. W. A. BOWEN, Mayor.

Local Guard Has openings

Officers in the 2nd Gun Battalion, 214th Artillery, (Formerly the 101st AAA Battalion), Georgia National Guard, located in the Army on highway 301 North, Statesboro, recently announced that there are still several openings in the local guard units for men who are qualified or who desire to learn by attending Army Service Schools.

The list of those skills needed include the fields of communications - electronics - mechanics - drafting - and many other skills that ex-service men might have acquired while on active duty.

The young man of today who still has his military commitment to fulfill can do so as a member of the National Guard and at the same time learn a skill or trade that can greatly assist him when he becomes a member of the civilian community.

Eligible men of this community, who are interested in this program should call PO 4-2780 or visit the army on highway 301 N. and find out how they can add to their civilian income and earn valuable retirement benefits - while serving their country in the Army National Guard.

Mr. Ugly crowned at SHS

By KAY MINKOVITZ

"Mr. Ugly" of 1959 will be crowned in Assembly at Statesboro High School, Friday, November 13, as the climax of the "Y" Club-sponsored World Service Campaign.

Candidates have been enthusiastically campaigning since Wednesday morning, after posters went up all over the school building at 3:15 Tuesday. Each candidate and his campaign managers carry a jar around before school, between classes, during the lunch hour, and after school (on campus) in the attempt to get the most money from his supporters.

Candidates are Carl Akins, senior; Jerry Higgins, junior; Elmer Holloway, sophomore; Paul Ross, freshman; and Jimmy Wiggins, sub-freshman.

Use of probation services, especially for misdemeanants, and job placement for prisoners eligible for parole.

The telegram was signed "Mrs. E. L. Barnes, president, Georgia Federation of Women's Clubs."

Mrs. Barnes said Tuesday afternoon of this week that Mr. Forrester had answered her telegram and had asked for suggestions to help work out these problems.

The Georgia Federation of Women's Clubs, through their president, Mrs. E. L. Barnes of Statesboro has called for reforms in the prisons of Georgia.

Mrs. Barnes sent a telegram to Jack Forrester, director of the State Board of Correction, on Monday while the board was holding a meeting.

Mrs. Helice Clark, executive director of the federation, said the telegram was prompted by Atlanta Journal reporter John Pennington's series of articles now appearing in the Journal on conditions in the prisons.

"Our organization is looking to you and your staff to develop and implement broad programs to improve our antiquated correctional system. We are on record demanding reform of sub-human treatment of prisoners in solitary confinement cells in state prisons and county work camps."

HYMAN MINKOVITZ Founder and Chairman of the Board of Directors

Hyman Minkovitz Business Founder

Hyman Minkovitz, founder of this mercantile business, came to Brooklet, Georgia, in 1911 from New York City. He now serves as Chairman of the Board for the firm's varied interests. His policies of volume sales of quality merchandise at the lowest possible price is still firmly adhered to, and is responsible for the splendid loyalty of thousands of fine Minkovitz customers throughout the entire Southeast.

Mr. Minkovitz often tells of the many fine friends in Brooklet who were so wonderful during periods of illness in the family and during the difficult days of five cents cotton and script money. In 1915, feeling that there might be a greater opportunity in a larger town, he moved his family and stock of merchandise to Sylvania, Ga.

Faith in the future of this area and appreciation for his many friends was responsible for the expansion of his business during the next forty-four years. Additional branches of affiliated stores were opened in Sylvania; two in Statesboro; a department store and later, a men's store, in Savannah; and in Douglas, Ga.

Mr. Minkovitz is married to the former Miss Gusie Mason. They have three sons and a daughter. The Minkovitz family is connected with the various branches of affiliated firms.

Ike Minkovitz is President and General Manager of H. Minkovitz and Sons. Born in New York and reared in Brooklet and Sylvania, he is a graduate of the University of Georgia. He and his wife, the former Miss Elizabeth DeLoach of Statesboro, have four children.

Interior Designers Still Working At Minkovitz

In plans made several months ago for this grand Opening Celebration we did not anticipate there would be any doubt about us being completely finished with our remodeling program by November 27th. Due to unforeseen circumstances, strikes, weather, delays of one kind or another, some of the equipment has not yet arrived. We humbly ask that our friends and customers be patient with us a little while longer in the completion of our beautiful store which has been designed to truly make shopping an exciting experience.

The Bulloch Herald Statesboro, Georgia, Thursday, November 19, 1959 Aging recognized as a community responsibility

By Charles T. Brown Medical Director, Seventh District, Headquarters in Statesboro, Ga.

During recent months a renewed interest is being taken in our older population. Groups working locally are cooperating with state and federal agencies in an effort to determine what can be done on a community level to assist our older citizens in living a more productive and happy life beyond the years of retirement.

Growing old gracefully is not a virtue attained by all of us as the years come and go. Lack of hobbies, declining health, loss of income, and the feeling of not being wanted cause many to approach old age with fear and repitiation. Loneliness, rejection, and the feeling of being put on the shelf are some of the sociological factors which undermine the health of the elderly. Good health is far more than the absence of disease or infirmity. A state of well being socially and mentally must also exist if we are to be really happy and healthy. This situation applies to every human being especially to our older people.

The older citizens want essentially the same things that the rest of us want—to be loved, to belong, and to be a part of our society and to feel that their skills and talents attained after many years of experience will be used and appreciated. The vast majority of our older people do not want to be wards of anyone but rather retain their dignity and self-respect. They want a helping hand at times if needed but not a hand out. Any factor that undermines the self-respect of man or woman undermines the health and saps the will of life.

To live fully and richly old people must care, but they will not care unless society makes it clear that it cares; that everyone in the community values the wisdom and experience of the elderly and is anxious to use them. At the present time there are more than 15,000,000 Americans who are 65 years or older. As our population increases, the proportion of our older people will continue to rise also. If longer and healthier lives are to be a blessing, these added years must be full and rewarding. Our life span has increased twenty years but these twenty extra years of life are an empty gift if they mean nothing more than a prolonged exercise in grim endurance. Society must help prepare the individual through education for retirement and old age. Society must replace the compulsory retirement with a more flexible approach based on ability and not chronological age.

Communities must prepare to meet the older persons particular
