There's to be no more selling by school children

The Board of Education was asked recently to check on the use of selling by our school children.

It seems there have been instances of school children selling "gum" at school. This has been generally deplored.

The Board of Education was asked to look into the reasons for the sale of gum to school children. They were also asked to look into the sale of gum to children in grades one through twelve, to see if there was any real need for it.

Don't let your Xmas spirit make you a sucker

Christmas is coming and you know what that means: "Sale"! "Sale!!" "Sale!!!"

But don't let it get away with you. Remember, kids: "Sale" doesn't mean "Get sold out". "Sale" means "Get a bargain".

This isn't to say that you shouldn't buy things during Christmas. You should. It's just that you should be selective, and not just buy anything that's on sale.

Teeth are put in fireworks-control laws

And this is the time of year when children become very forgetful. And all too often they are caught in the act of putting their teeth in fireworks. This is illegal.

The Georgia Court of Appeals has ruled that putting teeth in fireworks is illegal.

The courts have ruled that there is no defense of the laws of the state. The teeth must go to a jury. To put your teeth in fireworks is not a crime. It's just bad for your teeth.

To Beat the Band

But just be sure to keep them out of fireworks.

In our next issue we will have a full report on the latest in the world of fireworks.

Those little autos are not for the small fry

With the cost of living as high as it is, many people are beginning to think about buying a small car. But be careful. These little cars are not for the small fry.

They may be small, but they are not cheap. And they are not easy to drive. They are not safe. And they are not comfortable.
