The rains during the weekend have slowed down the farmers who had been making some headway at getting their land ready for farming.

This is the first week in April and we, along with many of our farming neighbors, have not even finished breaking ground for planting. Usually, by this month, we have already planted corn, and peanuts, and setting tobacco.

Some few farmers have planted corn already but water is standing on the low spots of the fields, and will do the corn some harm, if it remains for very long. This morning the clouds look as if it may rain some more, but the sun peeps through the clouds and shines a few minutes at the time.

For one, an hoping the sun will win out, and shine all day, but the weather man said there'd be scattered showers today. Let's hope he is wrong and that the sun will shine for a while.

**Rockwell News**

Pittsburgh—A Pittsburgh industrialist, just returned from a four week trip to eight Asian and Pacific countries, urged American business to "look in to the bright prospects of this burgeoning market."

William F. Rockwell, president of Rockwell Manufacturing Company, said that his company is seriously considering establishing manufacturing and warehousing facilities in the Far East.

"Our first concern is further service to present customers in the area. Our second is new markets. We cannot now compete with our products manufactured in the U. S."

In encouraging his fellow industrialists to invest in the emerging nations of the Far East, Mr. Rockwell emphasized two points:

"First, such investments makes good business sense. The market is immense; the per capita income is rising rapidly; and the risk of expropriation is little, if any greater than in other parts of the world.

"Secondly, these countries need capital investment. Unlike governmental assistance (which is usually a one-shot affair, private capital will help provide the solid economic base which people of this area want so desperately."

Finally, American private investment in the so-called neutral countries of the Far East is the best insurance we can buy against the encroachment of Communism and the growing threat of Red China."

Mr. Rockwell cautioned against considering the Far East as a homogeneous whole. He pointed out that while Japan's level of industrial technology compares favorably with the U. S., in such countries as Thailand and Cambodia, the level of the simplest sort is virtually unknown.

Taxes also widely, Mr. Rockwell said, Japan and India's rates exceed those in effect in the U. S. while Hong Kong levies only a flat 12 1/2 per cent corporate income tax.

The manufacturer commented at length on India:

"This energetic nation of 400 million persons plans to double its per capita income in the next decade. The Indian business and the American busi-

## We feel it's cultural impact

When you are asked "Where do you live", your answer may give you something like this: "We live at Statesboro, in Savannah Georgia, not far from Savannah". That sort of pin points the geographical location.

But you hasten to add that it is situated in one of the finest sections in the nation, and in the next moment or two you manage to work into your conversation the statement, "We have a fine college, with an enrollment of more than a thousand students."

Now you make that statement not because of the economic impact it has on our community, but because the presence of a college here adds prestige, status to us and Statesboro and Bulloch County.

And that prestige and status is based upon the solid foundation built by careful selection of faculty members, careful studies of the academic program, care-

ful placing of administrative personnel and wise use of funds providing for the building program.

All these add up to give our community one of the greatest cultural assets a community can possess.

Because the college is here we are given opportunities nearly as immediately recognized as a fine community.

Because the college is here we are given opportunities nearly as immediately recognized as a fine community.

Because the college is here we are given opportunities nearly as immediately recognized as a fine community.

Because the members of the college teaching staff and administrative staff come here and make Statesboro home and become a part of our community we come under its influence.

Because our children attend Georgia Southern College we feel its influence.

Because the college is here we are a better community.

Let's not forget it.

## They are working

This does not apply to all our readers. But those to whom it will quickly recognize themselves.

Let there be no more criticism. But recognize the responsibility which has been given those who are representing you as a businessman and as part of our community.

## The library is yours

This week we are in the middle of the local and national observance of National Library Week.

In another addition on this page we have focused attention on the cultural value the college has for our community. In the Statesboro Regional Library we have another facet of culture which plays a very important part in the growth and development of a community like ours.

With nearly 40,000 books on the shelves of our library, there for the asking, the circulation last year was more than 150,758 books.

Through its Bookmobile the local library reaches nearly every nick and corner or rural Bulloch County, serving homes and schools alike.

It offers access to an extensive film library and a record library. And if you can't find what you want in the nature of reading matter, the library can secure it for you, given a little time.

It's a part of our community and its influence goes into the factors which make it a great place in which to live.

## Welcome Kiwanians

Tomorrow night another group of men officially bind themselves together to add their organized strength to the forces working for home.

the progress and advancement of the community which is their tomorrow night in special ceremonies at Georgia Southern College, the new Statesboro Kiwanis Club will receive its charter.

Made up of business leaders the new club will add its strength to that of the other civic and business organizations in the community.

We congratulate them upon receiving their charter and commend them to the community of which they are a part.

**UNITE TO CONTROL CANCER**

**NATIONAL CANCER CONTROL MONTH**

UPON OUR return from our vacation a friend of ours handed us this clipping which he got from the Providence Journal. It's a definition which reads thus: "Cancer—2 weeks that are 2 short, and when it's over you are 2 tired 2 work but 2 broke no 2."

RECENTLY we did a close inspection tour of the Statesboro High School Band Building.

We found there conditions which stimulates wonder that the parents of the children in the band have not screamed to the heavens.

Windows out, leaking roof, insufficient lighting, cracks in the floor, cracks in the ceilings, cramped quarters, shortage of storage space, poor ventilation, the Blue Devil Band Building is "shot to pieces" and it should be condemned.

But enthusiastic young people will put up with most anything when their elders fail to provide them with that which is conspicuous with the service to the community they perform.

It is to the credit to members of the band and their director that the band at our high school rates as one of the best in the state. We claim credit for our school for many things and we point out with pride to our

branches and laying them before the hoofs of a little brown donkey, who carried on his back a kindly-faced Galilean, dressed in a plain white robe. The crowd was singing: "Hail to the King, blessed is he who comes in the name of the Lord."

WE ACCEPT THIS historical incident as Jesus' triumphal entry into Jerusalem. However, in a matter of hours, these same people were in the angry mood and official opening of the Golden Gate and called for his crucifixion. He was KING, but only for a day!

We must not make the common mistake of letting the New Testament become a far-away page in world history. The truth is, we can gather in our churches on Sunday to celebrate His triumphal entry, and make Him King just for a day. We can rise to the singing of Handel's "Hallelujah Chorus," and then settle to an existence which removes Christ from the throne of life.

It would be difficult to estimate the fabulous amount of money spent on this type of program. The winner was made queen, taken to a lavish hotel, outfitted in the latest fashions, etc. But, she was queen just for a day.

This is not really a new idea. Actually, it was conceived hundreds of years ago before the idea of television, radio, or even newspapers had ever been conceived.

UPON OUR return from our vacation a friend of ours handed us this clipping which he got from the Providence Journal. It's a definition which reads thus: "Cancer—2 weeks that are 2 short, and when it's over you are 2 tired 2 work but 2 broke no 2."

RECENTLY we did a close inspection tour of the Statesboro High School Band Building.

We found there conditions which stimulates wonder that the parents of the children in the band have not screamed to the heavens.

Windows out, leaking roof, insufficient lighting, cracks in the floor, cracks in the ceilings, cramped quarters, shortage of storage space, poor ventilation, the Blue Devil Band Building is "shot to pieces" and it should be condemned.

But enthusiastic young people will put up with most anything when their elders fail to provide them with that which is conspicuous with the service to the community they perform.

It is to the credit to members of the band and their director that the band at our high school rates as one of the best in the state. We claim credit for our school for many things and we point out with pride to our

band, but we can't claim credit for the position it holds over the state as a high school band. That belongs strictly to the band members themselves, their director, Dale Jensen, and the parents.

They march in parades in Savannah, Augusta, Sylvania, Swainsboro; they follow the Blue Devil football team, at their own expense and put on high-time shows of high quality—all in the name of Statesboro—and all on their own.

No, we have not forgotten that the citizens of our community make contributions from time to time when the band needs a new tuba, or a new set of drums, or several new uniforms. Those drives cannot proceed without the help of those who need to plan for the future. The membership of the band will jump tremendously by next year and there'll be members parading in street clothes while others may have uniforms. That'll be a sight to behold.

**Woman's Club sees movie on Senic Georgia**

The Statesboro Woman's Club opened its meeting March 17th at the Recreation Center with the movie, "Senic Georgia." The movie, given by Mrs. Allen Lanier. The plot of the movie was given, and the Georgia Song sung with Mrs. Jake Smith at the piano.

Since we have a balance of \$201.50 in the treasury, it was recommended we spend \$120.00 of it for the boy's dormitory at Tallulah Falls School. This gives us \$80.00 toward the \$420.00 which would be our quota if we gave \$4.00 per member.

To acquire the \$320.00 the club had a "p1n" and Sweet Sale" March 26 in Bill Bowen's Annex from 9 a. m. to 12:30. Coffee and cake were sold to those who want to take their coffee break there.

We wanted to reach our quota by March 22, in order to be recognized at the Convention which will be held in Macon at the Dempsey Hotel from 2:30 p. m. April 5 to 1:00 p. m. April 7.

Two of the resolutions to be considered are the "Allocation of Motor Fuel Tax for Roads" and "Granting of a Psychiatric Scholarship."

There was a district meeting at Sylvania on March 24, beginning at 10 a. m. At this meeting, each club was asked to enter a dried arrangement for judging. The winner is eligible for the State Contest. Five voting delegates can go to the Convention from the Statesboro Club.

Mrs. Raymond Barge and Mrs. Dean Patch had charge of the "Plant and Sweet Sale." Mrs. Edna Hoefel was winner of the door prize, which was a gift from Grimes Jewelry Store.

National Library Week will be the first week in April. Let us all visit the Library during that week.

Mrs. W.W. Brannen, chairman of the Community Affairs Department, had charge of the program. The theme "Knowledge Plus Enthusiasm—Service" was brought out by a film of "Senic Georgia" that is put out by the Standard Oil Company. Anyone viewing this film, certainly become enthusiastic about our state, and want to do all they can for it. It began by showing what a great industrial center Savannah is. In a bit of history, the Pink Houses, the fair House, the Juliette Love Home, the Pirates House, and the Exchange were shown and explained. The film caught the beauty of Savannah in Camellia and Azalea blooming time. The harbor was pictured and the narrator told how the

Visiting the Capitol I found our representatives in government hard at work in the Senate. I found Mr. Talmadge sitting in the chair of the President of the Senate presiding over that body with Mr. Russell in a very active role from the floor. Of course the senators don't like the job of presiding and so the younger members of the senate are forced to take over the chore.

I had a real reunion in Mr. Preston's office and enjoyed talking with the Congressman. As busy as he was he seemed to have time to make me feel welcome. The First District is well represented in Washington. I had dinner with the opportunity to read one of Mr. Preston's speeches made last week in the House and I think without any doubt it contains some facts which are the most important so far in the Civil Rights debate.

All this and more when you drive a Volga State Park is horseback riding and swimming at the Ida Gason Callahan State Park. There are large lawns, there is a mixture of limestone, sand, and oyster shells.

Oglethorpe's soldiers ambushed the enemy at St. Simon's and now that is a beautiful playground. Sea Island and Jekyll Island were also mentioned—the latter now a State Park.

In rose time, there is a parade which celebrates it.

The industries were also depicted—gathering resin from the innumerable pine forests, using the logs for building, paper, and rayon. Replanting the seedlings is done with a lot of machinery. Cotton is picked mechanically, as is tobacco. Formerly, peans were knocked off the trees with a long pole. Now a machine makes the tree shimmy and all the peans drop down. The food is fed into chicken houses by mechanization.

Georgia is a wonderful year-round pasture-for-cattle. Watermelons are raised in abundance, and bees are packaged for market. One queen has been wing clipped and is placed in a container with several workers to tend to her and shipped to customers. Of course, peaches are grown here, as everyone knows, and it makes one of the chief industries.

**ACCIDENTS GETS HIM TWO CHAIRS**  
Thomas Wilner of Bulloch County was watching an exciting TV program when the chair on which he was sitting suddenly collapsed. Strangely enough he was not too unhappy about the accident. In fact it decided the question of whether or not to receive the old chair or buy a new one. In shopping around with his wife he had seen a wonderfully comfortable platform rocker at Bowen Furniture Company. And the best part of it was the price. Mr. and Mrs. Wilner could buy two of these chairs for only \$39.50. A quick phone call to the Salesman, Jimmy Gunter, and the chair was delivered. Bowen's will be happy to do the same for you, or better, still, come to 16 South Main Street and see the many colors available.

BULLOCH COUNTY PTA COUNCIL TO MEET SATURDAY, APRIL 23  
Mrs. Cluse Smith, president of the Bulloch County Council of the PTA, announced this week

that the council meeting to have been held at the regular time has been re-scheduled for Saturday, April 23, at 10 o'clock in the morning. The meeting will be at the Marva Pittman High School on the Georgia Southern

campus. The weather man promises cooperation by providing pretty weather. The Masters officials make this tournament the best for the spectators, providing many features that no other tournament offers.

Non-golfers will attend to absorb sunshine and witness the beauty of the Augusta National Golf course that was built in an area that once was a famous nursery and natural beauty spot growing flowers and trees that make the south famous for its Spring-beauty.

Arnold Palmer has been established as "favorite", but that term is used loosely as the Masters is famous for up-ending the established favorite. No Masters tournament has been won in consecutive years by one golfer.

Baseball is just around the corner for the boys of Statesboro and Bulloch County. The 8, 9 and 10 year-olds started their season on Tuesday, Wednesday and again this Saturday morning at 10 A. M.

The 11 and 12 year-olds are working out for the District Track Meet to be held on Savannah April 30. Their baseball program won't start until later in the month.

Another important event going on at the center is the "King of the Mountains" tournament. These are latter tournaments in the month of March, table tennis and tennis. The age groups have been divided up into 10 and under 13 and over groups to give every boy a chance.

One other important event coming up this month is the Fishing Rodeo to be held at Robbins Pond April 23. Some very nice prizes will be awarded for such winners as the boy catching the first fish, the most fish, the biggest fish and several others.

Last week turned out to be a good week for the girls basketball. On Wednesday, March 23, the girls basketball tournament began. The Blue and Red played each other and the Green and Gold each other.

In the first game between the Red and Blue, the Blue won, 26 to 0. Judy Grimes was high-scoring with 14 points. Unfortunately the Red's were unable to score.

In the second game between the Gold and Green was very exciting. The Green's won by seven points, 17 to 10. Both teams really played hard. Marcia Lanier was high-scoring for the Green's with 8 points. Latrelle Murphy, capt. of the Gold, made the first ten and only ten points for her team.

On Saturday morning, the Blue and Green played for 1st and 2nd place. The Gold and Red played for 3rd and 4th place.

The game between the Blue's and Green's was a tough game. Unfortunately the Blue's lost by 3 points, taking second place. The score was 11 to 8. They had not lost a game all season. The Green's had only won one game all season. Marcia Lanier was high-scoring for the Green with 8 points. For the Blue's Florence Ann Robertson was high scorer with 6 points.

The Gold and Red teams played a tough game too. The Gold's beat the Red's, 5 to 3. Latrelle Murphy was high for the Gold's with 5 points. The Red's high-scoring was Florence, Ann Robertson on a substitute, with 2 points.

As their coaches, we would like to thank the girls for the wonderful way they participated in the games.
