To The Farmers of this Area

An Open Letter To My Many Friends

Dear Friends,

Since I was born in idolord a few years ago, it has always been my choice to do and serve every single farmer in this great farming area. I want to ask each of you individually, as the very best job. It is for this reason that I use this free newspaper to tell you about myself. I am a candidate for election as your favorite nitrogen. Thousands of you farmers already know that I can make you more money . . . your bigger yields . . . and save you work. To win this election, how­ever, I need your full support. I believe that, as your next door neighbor (close to you), I can create a better farm for you to live on. I want to fight for a bigger yield from every field. If you'll just use me as recommended, I believe that I can win your best and most reliable source of solid nitrogen. I promise you a fast start . . . and hard-working, growing power right up to harvest . . . if you'll use me as your favorite nitrogen, your pocketbook will be glad you did.

"The Farmers' Friend" DIXIE NITROGEN
SAVANNAH, GEORGIA

I STAND ON MY RECORD

My record speaks for itself. For the past several years I have served thousands of farmers throughout Georgia by providing them with a dependable low cost source of nitrogen from Dixie Nitrogen. I am proud of the fact that I've always served my constituents with double bonded, solid nitrogen. Here it starts up fast and grows the least they need to head for big yields. Never did a greater mass of plants grow power right up to harvest. Remember — always save money when you buy nitrogen on the basis of cost per pound of actual nitrogen. See your fertilizer dealer — today — and compare the cost per pound of actual nitrogen in Dixie Nitrogen with the cost per pound of actual nitrogen in soil. When you do . . . you'll mark your tally for Dixie Nitrogen . . . and your pocketbook will be glad you did.

MY PLEDGE TO YOU

Friends, when I mentioned at your dinner for Dixie Nitrogen, I said you just can't afford to go for broke. Never did a greater mass of plants grow power right up to harvest. Remember — always save money when you buy nitrogen on the basis of cost per pound of actual nitrogen. See your fertilizer dealer — today — and compare the cost per pound of actual nitrogen in Dixie Nitrogen with the cost per pound of actual nitrogen in soil. When you do . . . you'll mark your tally for Dixie Nitrogen . . . and your pocketbook will be glad you did.
