The family car can be an educational handicap

And travel to some degree is as important to high school and junior high school students as it is to those who are older and perhaps to no one else. Heretofore the strength and懦弱 of the problem when it did become public knowledge was that it was the responsibility of the student to see that he did his part. It was not the responsibility of the school to see that the student did his part, and this is a major cause of the problem which exists today.

The problem of the family car is also a problem of community and society. It is the responsibility of the school to make sure that the student understands the responsibilities which come with the use of a family car. The school must teach the students how to drive safely, how to maintain the car, and how to use it responsibly.

It is also the responsibility of the family to see that the student understands the responsibilities which come with the use of a family car. The family must teach the student how to drive safely, how to maintain the car, and how to use it responsibly.

Old-time peanut boiling enjoyed

Shelly Dumas, Aline Combs, and Mrs. Charles Fletcher were among those enjoying the peanut boiling at Mr. Dumas' home last week.

The old-time peanut boiling is a tradition in the area and is enjoyed by many families. It is a fun and festive event that brings people together to enjoy the food and company.

Shelly Dumas, a resident of the area, said that she looks forward to the peanut boiling every year. "It's a great way to spend an afternoon with friends and family," she said. "We all get together and enjoy some delicious peanuts and each other's company."
