Support The Big M Pasture Program

The Bulloch Herald

LIME is basic to profitable pasture lands. When lime is applied to the soil, the organisms that break down the large rocks can be more active in breaking down other material in the soil, and as a result the growth of grass and other plants is improved.

Early Bulloch County farmers did not have Pasture Problem

Three fertilizer grades are recommended for pastures

Terracing operations in full swing in Bulloch County

Big M means more money to county farmers

The Big M Pasture Program to prevent rabies began in county

The Big M Pasture Program is designed to give the landowner better pasture and additional income to his farm. The program is based on the fact that many farmers do not have enough pasture land for their cattle and must buy hay to sustain them during the winter months. The Big M Pasture Program will help the landowner to improve his pasture land and increase his income.

The program is designed to help the landowner to improve his pasture land and increase his income.

THE STATESBORO HI-OWL

Our model school
By John Bickel

In the past there have been people who have lived in that school, They may be one of them and be part of our school. If anybody were to look at the enrollment numbers, they would see that the school is steadily growing. More and more students are coming from the community, and they are eager to be part of the Hi-Owl family. The Hi-Owl is the official newspaper of Statesboro High School, and we are proud to be a part of that tradition. Our school is known for its academic excellence, as well as its strong sporting programs. We have a dedicated faculty and staff who work tirelessly to ensure that our students are given every opportunity to succeed. We are proud to be a part of the Statesboro Community and will continue to strive for excellence in all areas.
