# Field borders becoming important soil practice

By E. T. "RED" MULLIS  
Soil Conservation Service

Cooperators of the Ogeechee River Soil Conservation District are fast coming to a practice that to me, is as important as any other. This is the practice of field borders. Field borders, bordered down to their basic meaning, are strips of perennial vegetation - either grasses or legumes - or both - bordering a cultivated field next to woods or fences.

I think I must give my reasons for thinking so highly of field borders in the first place, this area is usually wasted land anyway, and will save time and expense in harrowing to keep down weeds. When planted to bahia grass, sericea, or bicolor, and weeds cannot grow, the borders are ideal for getting around the fields with modern machinery and turning around on them when planting, cultivating, and gathering. And last, but not least, these borders offer good protection and food for birds on the top of the list of our best friends.

Now let's see what farmers have to say about these field borders - farmers who have tried them. Theron Neal, a District cooperater in the Suwannee Community, says that his borders make it mighty convenient to get to any part of the field at any time and in any weather. (His bahia grass sod will hold up equipment even in extremely wet weather.)

# Safe drivers to get new insurance rate

A "safe driver" insurance plan, under which motorists will pay automobile insurance rates based on their driving records, was approved for Georgia by Insurance Commissioner Zack D. Cravay on March 10.

The plan is being offered by the National Bureau of Casualty Underwriters and the National Automobile Underwriters Association on behalf of their more than 200 member and subscriber companies writing automobile insurance in the state.

The insurance information institute reported that Georgia is the 34th state to adopt the plan as proposed by these two national rating organizations.

Insurance Commissioner Zack D. Cravay said that the State Department of Public Safety has estimated that approximately 82 per cent of Georgia's drivers would be eligible for the 15 per cent "safe driver" discount.

Under the "safe driver" plan, the premium for a private passenger car would depend on the three-year driving record of those who drive the car, said the Insurance Information Institute here.

The policy rates for which the household qualified would be figured on a "point" basis. Points would be charged against the applicant for the accidents and traffic violations during the past three years.

The policy rates for which the household qualified would be figured on a "point" basis. Points would be charged against the applicant for the accidents and traffic violations during the past three years.

Each chargeable accident which resulted in bodily injury or more than \$50 damage to property - including property of the owner - would result in one point. Two or more chargeable accidents, each of which resulted in property damage of \$50 or less, would result in one point.

Two-point penalties would be imposed for:

- Reckless driving.
- Driving while intoxicated or under the influence of drugs.
- Failure to stop and report when involved in an accident.
- Homicide or assault resulting from operation of a motor vehicle.
- Driving while license is suspended or revoked.

In addition, one point would be charged for any other motor vehicle violation which requires filing of evidence to show financial responsibility.

THREE POINTS would be charged for:

- Driving while intoxicated or under the influence of drugs.
- Failure to stop and report when involved in an accident.
- Homicide or assault resulting from operation of a motor vehicle.
- Driving while license is suspended or revoked.

A CLEAN RECORD for the three-year period - no points charged against those who drive the car being insured - would bring a 15 per cent reduction in the basic premium.

One point would mean paying the basic premium, plus five per cent.

Two points would cost the applicant 50 per cent above the basic premium; three points would double the basic premium, and four points would require the basic premium, plus 150 per cent.

NO POINTS would be charged against motorists in some instances. These include damages caused by "hit and run" drivers, provided the accident is reported within 24 hours; accidents in which the policyholder's car was legally parked; being struck from behind by another car if the driver of the struck car is not convicted of a "moving" violation in connection with it; accidents in which the policyholder or other operator in his household is not convicted of a moving violation but the driver of the other vehicle is convicted.

An accident also would be point-free if the driver or owner of the car he was driving got reimbursed or obtained judgment from another person responsible for the accident.

# Local citizen may get income taxes paid free

Someone in this community may have his 1960 income tax paid for him - free.

This prediction comes from the Willy "Wiredhand" Smith, who today pledged to make returns to 100 lucky taxpayers who win a simple contest.

The oil firm will market new, high quality gasoline under a new name.

Contestants are asked to choose one of five names proposed for the new product. These are TOR, TORCO, OCTE, EN, TENNECO, or BAY PLUS. All those who select the name which the company will adopt for the gasoline will be eligible for a drawing on April 26. Winners will be determined by the drawing.

The contest opened Wednesday, March 8. Interested persons may obtain free entry blanks at local Bay gasoline service stations. All entries must be postmarked by April 17.

Bay is conducting these contests in stations throughout the country and estimates it will spend up to \$200,000 to give the tax refunds. A maximum of \$2,000 has been set for each payment.

Officials of the petroleum company explained the contests were being held "to help celebrate the fact that we are the fastest growing petroleum company in the nation. We've achieved this dynamic growth through the help of our wonderful customers. Now we want to do something special for them. We want to pay the taxes of 100 of our friends and neighbors and at the same time inform them of our new gasoline and new name."

The Bay Station in Statesboro is located on Fair Ground Road at Brannen Street (just before you get to the Rec. Center).

which the policyholder's car was legally parked; being struck from behind by another car if the driver of the struck car is not convicted of a "moving" violation in connection with it; accidents in which the policyholder or other operator in his household is not convicted of a moving violation but the driver of the other vehicle is convicted.

# PTA Council to hear panel on teen marriages

"Teen-Age Marriage" will be the subject of a panel discussion at the Saturday morning, April 8, meeting of the Bulloch County Council of Parent-Teachers Association, beginning at 10:30 o'clock. The meeting will be held at the Statesboro High School.

Panel members will be Mrs. Carmen Morris, representing mothers; Mrs. Dorothy Youngblood, representing the teachers; the Rev. C. E. Cariker, pastor of the First Methodist Church, representing the ministers; Lynn Roldick of Portal and Mary Alice Belcher of Brooklet, representing the young people. Dr. Ralph Tyson of Georgia Southern College and Principal James L. Sharpe of the Statesboro High School will serve as co-ordinators of the discussion.

J. Brantley Johnson, president of the Statesboro High School PTA, H. P. Womack, County School Superintendent, and Mr. Sharpe will be giving greetings to the delegates.

The group will be luncheon guests of the Statesboro High School PTA at 12:30 o'clock.

Mrs. Cluise Smith, president of the PTA Council, will preside during the business meeting.

At least ten representatives from each PTA in the county are expected at the meeting.

# Central Ga. Gas plans to move to new address

The Central Georgia Gas Company, at an early date, will move its Statesboro office from East Main Street to a new location at 14 North Walnut Street in the Simmons Shopping Center.

The announcement was made by Charles P. Olliff Jr., district manager for Southern Propane Company, the parent organization of the Central Georgia Gas Company.

The Central Georgia Gas Company moved here from Swainsboro in 1942 after being established here in 1939. It was purchased by Lehman Franklin and the late Gordon Franklin. In 1946 Mr. Olliff purchased an interest in the company. In 1956 the Central Georgia Gas Company was purchased by the Southern Propane Company whose headquarters are in Joseph. Mr. Olliff was named district manager over the territory including Statesboro, Swainsboro, Millen, Wadley, Claxton and Metts. The company has forty-one offices through the tobacco belt from Wadley to Tensaw, Florida.

Mr. J. B. Her is manager of the Statesboro office of the Central Georgia Gas Company.

Others with the Statesboro office are Mrs. J. I. Clements, Mrs. James Rushing, Francis Hunter, Robert Helmut, Bobbly Kinsey, Bobby Stringer, Lester Daniel, Arthur Chester, Wynan Deal, G. R. Lee, Joe Nathan Johnson and Willie Turner, Norris Moore and James Jackson. Claxton and Metts are occupied by the Bulloch Tire and Supply Company in Simmons Shopping Company, is being renovated for the move.

# Rockwell to celebrate Fifth Anniversary here on April 7

"Open House" at Rockwell tomorrow afternoon from 3 to 7:30 p.m. will be like "Old Home Week" when the friends and neighbors of the Rockwell Statesboro Corporation visit the plant to inspect the growth and progress of the company as its officials, staff and employees celebrate their Fifth Anniversary at the community of Statesboro and Bulloch County.

It was on Monday night, January 23, 1956, that Mr. W. F. Rockwell Jr., president of the Rockwell Manufacturing Company of Pittsburgh, Pa., received the keys to the brand new building on U. S. 301, from Thad J. Morris, president of the Bulloch County Development Corporation. Here from Mr. Thad J. Morris, president of the Bulloch County Development Corporation. Here from Pittsburgh, with Mr. Rockwell to take part in the "key-passing ceremony," were Mr. L. A. Dixon Sr., executive vice president, and Mr. W. Rowand, assistant to the vice president in charge of the Meter and Valve Division of the Company. Mr. Rowand is now vice president of the Rockwell Statesboro Corporation and general manager of the Statesboro plant.

On April 2, 1956 the company began operations. The building, formerly appearing on page three of this week's issue.

It is with a great deal of pride that the publishers of the Herald welcomes the Aldred Food Mart to its growing list of advertisers.

# Architects named for new post office

The Bulloch Herald learned this week that General Services Administration has selected A. D. Stevens and Wilkinson of 157 Luckie Street, Atlanta, as the architects for the new post office and federal building in Statesboro. It was also learned that appraisals of the property in the southeast corner of North Main Street and Sharpe Streets are being made and that negotiations for purchase of the property will be undertaken shortly.

# Temperature Highs and Lows

Mon, March 27	Tue, March 28	Wed, March 29	Thurs, March 30	Fri, March 31	Sat, April 1	Sun, April 2
84 47	83 56	85 58	83 55	78 62	67 55	69 41

Rainfall for the week was 1.88 inches. Total rainfall for the month of March was 3.83 inches. Normal rainfall for March is 3.80 inches.

# GSC's biggest sporting event in its history here April 7-8

Plans are now complete for staging the U.S.A. Invitational Gymnastic Championships at the W. S. Hanner Building on the Georgia Southern College campus April 7th and 8th. This competition will draw over 200 entries from all parts of the nation and will be one of the largest sporting events in Statesboro.

The competition which is divided into six classifications according to age and ability will draw a number of the finest gymnasts, both men and women in the United States and will also find many teams fighting for the respective championships of their division.

Leading the early entries who will perform on the Georgia Southern Campus is a delegation from Baton Rouge Louisiana headed by 19-year-old Janice Landry. The Georgia Southern Campus is a member of the American Team in the annual North-South Meet held in Sarasota, Florida each December.

The world's greatest tumbler in the person of 13-year-old Judy Wills of Gulfport, Mississippi will easily be favored to walk away with the All Around Championship in the Age-Group Division for Girls under 15 years. Judy has never been defeated in tumbling competition in nine years of action. This past summer at the Olympic Games in Rome, Judy although too young to compete, practiced with the American Team and applied in one time- and labor-saving application. It's economical, too! The cost of treatment can be paid many times over in bigger, better cotton yields.

Make this season's cotton the best yet. Use Nemagon Soil Fumigant and knock out nematodes before they cause serious damage. When nematodes attack fight back with Nemagon Soil Fumigant. Be prepared—order your supply today.

**"I made 35% more cotton per acre by using Nemagon Soil Fumigant"**

Reports Mr. Gene McQueen, Route 6, Moultrie, Georgia

Mr. McQueen tells it better than we can! "I have been using Nemagon Soil Fumigant for 2 years. I think Nemagon Soil Fumigant is the difference between making a profit or not making a profit on nematode-infested land. Before Nemagon my cotton crop died at the rate of 80%. Since I started using Nemagon I have a perfect stand."

Like so many other growers, Mr. McQueen found that Nemagon Soil Fumigant crop died at the rate of 80%. Since I started using Nemagon I have a perfect stand."

DEDICATED TO THE PROGRESS OF STATESBORO AND BULLOCH COUNTY

VOLUME XX—Established March 26, 1937—P.O. Box 210  
STATESBORO, GEORGIA, THURSDAY, APRIL 6, 1961  
NUMBER 21

# PTA Council to hear panel on teen marriages

"Teen-Age Marriage" will be the subject of a panel discussion at the Saturday morning, April 8, meeting of the Bulloch County Council of Parent-Teachers Association, beginning at 10:30 o'clock. The meeting will be held at the Statesboro High School.

Panel members will be Mrs. Carmen Morris, representing mothers; Mrs. Dorothy Youngblood, representing the teachers; the Rev. C. E. Cariker, pastor of the First Methodist Church, representing the ministers; Lynn Roldick of Portal and Mary Alice Belcher of Brooklet, representing the young people. Dr. Ralph Tyson of Georgia Southern College and Principal James L. Sharpe of the Statesboro High School will serve as co-ordinators of the discussion.

J. Brantley Johnson, president of the Statesboro High School PTA, H. P. Womack, County School Superintendent, and Mr. Sharpe will be giving greetings to the delegates.

The group will be luncheon guests of the Statesboro High School PTA at 12:30 o'clock.

Mrs. Cluise Smith, president of the PTA Council, will preside during the business meeting.

At least ten representatives from each PTA in the county are expected at the meeting.

# Central Ga. Gas plans to move to new address

The Central Georgia Gas Company, at an early date, will move its Statesboro office from East Main Street to a new location at 14 North Walnut Street in the Simmons Shopping Center.

The announcement was made by Charles P. Olliff Jr., district manager for Southern Propane Company, the parent organization of the Central Georgia Gas Company.

The Central Georgia Gas Company moved here from Swainsboro in 1942 after being established here in 1939. It was purchased by Lehman Franklin and the late Gordon Franklin. In 1946 Mr. Olliff purchased an interest in the company. In 1956 the Central Georgia Gas Company was purchased by the Southern Propane Company whose headquarters are in Joseph. Mr. Olliff was named district manager over the territory including Statesboro, Swainsboro, Millen, Wadley, Claxton and Metts. The company has forty-one offices through the tobacco belt from Wadley to Tensaw, Florida.

Mr. J. B. Her is manager of the Statesboro office of the Central Georgia Gas Company.

Others with the Statesboro office are Mrs. J. I. Clements, Mrs. James Rushing, Francis Hunter, Robert Helmut, Bobbly Kinsey, Bobby Stringer, Lester Daniel, Arthur Chester, Wynan Deal, G. R. Lee, Joe Nathan Johnson and Willie Turner, Norris Moore and James Jackson. Claxton and Metts are occupied by the Bulloch Tire and Supply Company in Simmons Shopping Company, is being renovated for the move.

# Rockwell to celebrate Fifth Anniversary here on April 7

"Open House" at Rockwell tomorrow afternoon from 3 to 7:30 p.m. will be like "Old Home Week" when the friends and neighbors of the Rockwell Statesboro Corporation visit the plant to inspect the growth and progress of the company as its officials, staff and employees celebrate their Fifth Anniversary at the community of Statesboro and Bulloch County.

It was on Monday night, January 23, 1956, that Mr. W. F. Rockwell Jr., president of the Rockwell Manufacturing Company of Pittsburgh, Pa., received the keys to the brand new building on U. S. 301, from Thad J. Morris, president of the Bulloch County Development Corporation. Here from Mr. Thad J. Morris, president of the Bulloch County Development Corporation. Here from Pittsburgh, with Mr. Rockwell to take part in the "key-passing ceremony," were Mr. L. A. Dixon Sr., executive vice president, and Mr. W. Rowand, assistant to the vice president in charge of the Meter and Valve Division of the Company. Mr. Rowand is now vice president of the Rockwell Statesboro Corporation and general manager of the Statesboro plant.

On April 2, 1956 the company began operations. The building, formerly appearing on page three of this week's issue.

It is with a great deal of pride that the publishers of the Herald welcomes the Aldred Food Mart to its growing list of advertisers.

# Architects named for new post office

The Bulloch Herald learned this week that General Services Administration has selected A. D. Stevens and Wilkinson of 157 Luckie Street, Atlanta, as the architects for the new post office and federal building in Statesboro. It was also learned that appraisals of the property in the southeast corner of North Main Street and Sharpe Streets are being made and that negotiations for purchase of the property will be undertaken shortly.

New Castle News  
**New Castle HD club observes work day**

By MRS. D. D. ANDERSON  
Tuesday, March 28, the New Castle Home Demonstration Club held a work-day on their regular meeting date at the club house. There were nineteen women composites made by the club ladies Mrs. Gear and Mrs. Delmas Rushing Jr. were present.  
At noon a covered dish luncheon was served. In the afternoon the meeting was called to order by the president, Mrs. G. B. Bowen, who gave the devotional. After a short business session, Mrs. Delmas Rushing Sr. directed several games that were enjoyed by the group.  
Mrs. Gordon Anderson, who has been a student at the University of Georgia in Athens this past session, was here a Taylor, and the Rev. J. W. Grooms conducting burial was in the church cemetery.  
Active pallbearers were her nephews.  
She is survived by her husband, Worth Skinner, Statesboro; Harry Lee Skinner, Statesboro; John Wesley Skinner, Statesboro; three daughters, Mrs. W. J. Cartee, Mrs. J. W. Barnwell, Virginia Beach, Va.; Mrs. Max L. Akins, Pikeville, Ky.; four sisters, Mrs. Willibell Deal, Mrs. R. F. Lee, Savannah; Mrs. Harry Stephens, Statesboro; Mrs. Woodrow Key, Blitchton; a brother, Lehman Akins, Blitchton; ten grandchildren and several nieces and nephews.  
Smith-Tillman Mortuary was in charge of arrangements.

**Rites held for Mrs. Skinner at Friendship**

Mrs. Worth Akins Skinner, 50, died early Monday morning, April 3, in the Bulloch County Hospital after a brief illness.  
Funeral services were held Tuesday afternoon from the Friendship Baptist Church, with the pastor, the Rev. Marvin Taylor, and the Rev. J. W. Grooms conducting burial was in the church cemetery.  
Active pallbearers were her nephews.  
She is survived by her husband, Worth Skinner, Statesboro; Harry Lee Skinner, Statesboro; John Wesley Skinner, Statesboro; three daughters, Mrs. W. J. Cartee, Mrs. J. W. Barnwell, Virginia Beach, Va.; Mrs. Max L. Akins, Pikeville, Ky.; four sisters, Mrs. Willibell Deal, Mrs. R. F. Lee, Savannah; Mrs. Harry Stephens, Statesboro; Mrs. Woodrow Key, Blitchton; a brother, Lehman Akins, Blitchton; ten grandchildren and several nieces and nephews.  
Smith-Tillman Mortuary was in charge of arrangements.

Rites held for **Pat L. Beasley of Nevils**

Funeral services were held at the Statesboro Primitive Baptist Church on Sunday, April 2, for Pat L. Beasley, 60, who was buried in the Beasley cemetery.  
Pat L. Beasley, 60, died Friday night in the Bulloch County Hospital after a short illness.

## Rockwell celebrates Fifth Anniversary

Five years ago we became conscious that "industry" was moving in. Despite the presence of several small industries within our community we thought of them more in terms of hometown "industries."

Then Rockwell moved in—here was "big industry". A manufacturing plant with millions of dollars invested in buildings and machinery in our community, employing our people.

And Statesboro and Bulloch County began accelerating its move toward the goal of a balanced economy with agriculture at one end of the scales and industry, at the other with the community the fulcrum.

On February 1, 1956, the first Bulloch County was employed by Rockwell Statesboro Corporation to work in its new plant located on U. S. Highway 301.

In five years since that day Rockwell has ceased being Rockwell Statesboro Corporation and is now "Our Rockwell". It has become an established part of the community of Statesboro and

Bulloch County. Rockwell and Statesboro and Bulloch County belong to each other. Part of our pride in our community includes Rockwell. Part of Rockwell's pride includes Statesboro and Bulloch County. And this mutual pride and respect forms the foundation of a healthy relationship which contributes to the growth and progress of our industry and our community.

To celebrate their Fifth Anniversary as part of our community Rockwell's staff and employees are holding "Open House" tomorrow, April 7, from 3 p.m. until 7:30 p.m. They wish the citizens of this section to visit them to observe the plant in operation, to see their friends and neighbors operating some of their complicated machinery in the process of production. They wish the citizens of this section to meet Rockwell's staff. Informally will be the keynote of the celebration.

And so this week we say HAPPY BIRTHDAY to Rockwell and all its people, our friends and neighbors.

## Don't leave your children unprotected

Are you waiting for the oral polio vaccine to give your children to protect them from the terrifying assault of polio? Are you waiting because you think it'll be easier for your children to take or because you do not have complete faith in the Salk Vaccine?

Well, we have news for you—according to Dr. John Mooney, acting director of the Bulloch County Department of Public Health, authorities estimate that the oral vaccine will not be available before the end of 1962.

In the light of this estimate, it is extremely foolish for parents to leave their children exposed and unprotected from crippling polio until then.

Parents in Chatham County were warned last week of the possible sharp increase in polio in that county. The Chatham County health commissioner, Dr. W. D. Lundquist, reported that a two-year old Negro boy had been stricken with polio and is in a Savannah hospital totally paralyzed from the waist down. He had not been given the protection provided by the polio shots.

Parents, be warned. Don't let polio strike down your children! Have them inoculated immediately. Children and teen-agers up to nineteen years of age and pre-natal patients may receive the Salk Vaccine at the Bulloch County Health Department free—all four shots.

## Hog cholera

While warning parents of the dangers which surround their children who do not have the protection of the Salk Vaccine, farmers are being warned of outbreaks of hog cholera.

30,000 to 40,000 hogs were lost to cholera in Georgia last year, costing hog farmers approximately a half million dollars. Commissioner of Agriculture Phil Campbell predicts greater loss this year unless farmers take every possible precaution against this hog-killing disease.

Once hogs are infected there is nothing that can be done to save them.

See to it that your hogs are inoculated immediately.

## A Much Taller Youngster

## This Week's Meditation

By Rev. Lawrence E. Houston Jr.

IN THE LONG AGO, God said to Moses: "The place on which you stand is holy ground." For any of us, the experiences of the past several weeks have made us feel we have been standing on "holy ground."

Permit me to share several impressions: First, the value and effect of prayer has become more of a spiritual reality. All across the community, Christians have prepared themselves for revival and the triumphant Easter Day, through prayer.

My impression is that prayer meetings can be spiritually vital if we keep them on a small, intimate, cell-like basis. Let Christians in a geographical zone bind themselves together in a prayer fellowship.

I SUGGEST there be no sermons, and as little small talk as possible. Instead, let all that is said be directed toward bringing the group into a spirit of mutual honesty and concern and into vital contact with God.

The element of praise and thanksgiving should return to our prayers. Confession of sin and a need for the presence of Christ should be expressed. Petitions must be tempered with an honest appraisal of self-need. The almost forgotten element of intercession (praying for others) should assume a larger place in our prayers.

IF WE ARE to let the Church be the Church, then we must permit sincere and effective prayer to take its rightful place in the life of the people. Our folk are ready. Now is the time.

## AA helps those who come seeking help

By DR. JOHN MOONEY

TURNING FROM our discussion of alcoholism, let us this week review some of the important evidence against drinking at all.

Following is a condensation of an article entitled, "What Drinking Drivers Don't Know," from the Spring 1961 issue of Home Safety Review, a publication of the National Safety Council.

"On His way home from a cocktail party during a light rain and fog, a man plowed into the back of a string of cars at high speed. One person was killed, others injured. In explaining his alcoholic breath to police, the driver delivered the classic alibi 'only two drinks.'"

Even insisted he be given a blood chemical test to prove it. No court in the country could hold this man guilty of driving under the influence.

But was he? How much did the alcohol blunt his judgment, blur his eyesight and slow down his reactions? Would he, despite foggy conditions, have seen the car which was in his time if he had been cold sober?

CONTRARY to popular belief, this man who "had been drinking" is a greater menace on the highway than the so-called drunk everyone recognizes and fears. According to nationwide traffic reports to the National Safety Council, the moderate drinker is involved in three times as many fatal accidents as the intoxicated driver. Together these drinking drivers are involved in at least a third of all

Another impression grips me. It has to do with the idea of the prayer vigil. This is an attempt at concentrated prayer. The prayer vigil works in this manner: A time schedule is set up. Either twelve or twenty-four hours can be the extent of the effort. Usually, the schedule calls for thirty-minute prayer periods. In our church, we found it rather easy to get the periods filled. Some parts of the vigil found more than one person in the sanctuary, lifting their hearts in prayer.

AN HONEST QUESTION always arises in preparation for a prayer vigil. "I am not sure I can pray on my knees for a full thirty minutes." An honest answer to an honest question: "You can't have to pray all the time." In fact, God may want to say something to you. Here is where the practice of silent meditation is helpful.

Our Commission on Membership and Evangelism provided some resource material for the vigil, along with a copy of the Bible, and a list of the families of our church. Such aids to prayer evaporated the time problem involved.

OF ALL the preparation we made for our Week seven vigil, I think was the most meaningful, I commend it heartily to all churches and all Christians. I wish we would attempt it on a community basis at appropriate times of the year.

When you pray with other people, you come to love and understand them. And love is of God.

## the editor's uneasy chair

WHEN A STATESBORO business rates "Dealer of the Month" status by his associates over a two-state area, we figure he is doing business as usual.

Emitt, known as "raub" by his fellow-Rotarians, and his two sons, Lewell and Roy L. known as "Bucky," doing business as "W. C. Akins and Son Hardware," are featured in the March issue of Georgia-Florida Hardware News.

The full page story, together with pictures of the Akins showing them in their recently re-modified store, tells how the business was established on October 4, 1919, by Mr. W. C. Akins. Emitt was associated with his father from the beginning and in 1935, when Mr. W. C. retired, Emitt assumed complete control.

It was in 1953 that Lewell and Bucky joined their father in the business. Then things began to pop. Changes became the order of the day and in no time they transformed the store, with

its antiquated lighting system and display counters, and the Victorian front, into a modern building, while at the same time preserving the flavor of the family business.

So we toss our hat high into the air for Georgia-Florida Hardware "Dealer of the Month" for March.

WE'RE GLAD that the idea of cutting a mammoth Confederate flag on the face of Stone Mountain has been abandoned. It was a fantastic idea from its inception and would have profaned the grandeur of that masterpiece of nature.

WE BORROW this story from Leo Akiman of the Atlanta Constitution. He admits to borrowing it from John Willey of Indianapolis, Indiana. It goes like this:

The preacher driving down the highway saw the man in front weaving dangerously, lane to lane. Obviously, the man was influenced by something other

than the safe-driving code. "I am my brother's keeper," the preacher said to himself. "I must save him. Ahead is a sharp curve and a cliff. I do not get him stopped, he will go off the road and down the bluff."

The minister stepped on the gas and got ahead of the errant driver. Every time the waver- ing one zigged, the preacher zigged. Every time the fellow zagged so did the preacher. When they came to the curve, the preacher, intent on his mission, was looking back. So he ran off the road himself and crashily-banged down the cliff.

The drunk stopped his own car carefully, went to the trunk and yelled, "Are you hurt?" "No," the preacher shouted back, brushing himself off and feeling his bruises. "I'm not hurt. The Lord is with me."

"Shay," said the drunk, "you'd better let Him ride with me. The way you drive, you're gonna kill Him."

it seems to me...  
max lockwood

THE SIXTH ANNUAL Fishing Roddeo is all set for Saturday, April 29 and all indications are that it is going to be the biggest and best we have ever had. Last year, Bill Allen, outdoor sports writer for a number of publications, said that it was the biggest he had ever seen. Bill was real carried away for it is the kind of thing that he has been trying to get folks to do all along.

He probably helped things along more than he knows for after his articles appeared we were swamped with letters from other places wanting to know all about our Roddeo.

EVERY YEAR our merchants make it possible for us to give a number of prizes to the contestants. We hope that again they will give us some calls asking us to come by and select a gift for some of our winners.

Boys from all over the Coastal Empire will be on hand for the sixth annual event, which this year, will be open to all ages. Boys from the first through the seventh grades. Boys in the first grade should be accompanied by an adult.

WE ARE HOPING that when the sun breaks through on the morning of the 29th that more

enjoy yourself, whether you are a fisherman or whether you just came to join the fun, the Robbings folk will be serving those famous Robbings Hot Dogs and Iced Cokes all during the Roddeo. It's worth a trip from anywhere in the First District just to cash in on this part of the program.

MR. MARION ROBBINS SR., Head man at Robbin's Company, rates this event sponsored by the Company as first on their list. He works all year to see that the lake is well stocked and cared for and stops the fishing by everyone ten days ahead of the contest to have the fish quiet and ready to get on the hook. He will fire the starting gun at exactly 10 A.M.

All the folks at Robbin's Packing Company and all the recreation staff issue you a special invitation to be present for the big event.

BASEBALL will get in full swing within the next few weeks. On Monday the 10th, Pony League will begin play.

The following Monday, the 17th, the Babe Ruth League will get under way. This League is something new which should provide much fun in a good brand of baseball.

JUST TO BE SURE that you

## Thru the P's of Urgan-a-Russell

ONE MIGHT have thought that the King of England or the president of the United States of America was expected at a certain house, considering the house-cleaning and the preparations that went on.

By Saturday morning, there was tenseness in the entire family membership. Too much was planned and not enough time in which to accomplish it.

Fortunately, the weather man prevented the cooking out, so that made cleaning outside unnecessary.

A LAST, things were pretty shabby and nearly ready when the guests arrived. After unpacking the car and getting settled, we reacquainted ourselves with the honored guest, our grandson, who brought along his parents. (They were simply incidental.)

For a little over twenty-four hours all of the households devoted itself to the whims of this thirteen-months-old "wonder." (All grandparents will understand such a remark. It isn't boasting when grandparents tell the truth, is it?)

THE ENTIRE week, previous to this happy visit, the family was subjected to scrambled eggs with egg shells because grandmother blew the eggs out of the shells each morning so that the young one could have congealed eggs (the egg shells were filled with custard to which gelatin was added.) A thirteen-months-old child isn't impressed with a congealed dessert in eating. The rest of the family had a hilarious time over the eggs, each making a separate joke about the hen that laid them.

There was the "milk plate" rabbit in the center of the table that the family laughingly commented on how he seemed to be straining. The looks brought the results for the next morning there were eggs everywhere. We handed the little one the new band-aid with the artificial blood and took him by the hand to hunt the eggs. We even had to put them in the basket. He immediately dumped the eggs

AS MIGHT be expected, the drivers in the post-alcohol test thought they were performing better; their self-confidence soared, which aptly illustrates an item in the road code of New Zealand. "A little alcohol has the double effect of making a

# How Rockwell evaluates community in selecting best site for plant

**EDITOR'S NOTE:**—It was a little more than five years ago that officials of Rockwell Manufacturing Company began manufacturing an interest in Statesboro and Bulloch County as a site for a new plant. Selection of Statesboro was not an accident. Selection of Statesboro was not made on "snap judgement." The final decision to make Statesboro the site of another of its plants came after careful study, careful inspection, all according to standards based upon experience and knowledge. On the fifth anniversary of the establishment of the Rockwell plant in Statesboro we believe it will be of interest to our citizens to get a picture of what goes into the selection of a site for an industrial plant with extreme high standards like those held by Rockwell. Written by Mr. H. Cambell Stuckeman, vice president of Rockwell Manufacturing Company, he calls it "Community Evaluation in Site Selection."

The problem and makes the field trips which are so essential. However, plant location is a difficult problem faced by many American companies today. Many different factors - many pitfalls - are involved. Selecting a plant site is like choosing a wife - while it is possible to change later, the change may be both expensive and unpleasant.

It is certainly better to make a good choice the first time - and this takes sound planning. The right location is the place where it will be possible to manufacture the desired product and place it in the hands of the customer at less cost than it can be supplied by an existing or potential competitor.

There are many reasons why new plants are built. But - whatever the reason - the same factors must be considered. Among these are:

1. A satisfactory labor supply must be available.
2. The community must fit the company's needs.
3. Technical requirements, such as waste disposal facilities or large amounts of fuel or water must be met.
4. Transportation facilities must be adequate, and
5. Taxes, utilities, operating costs and housing must all be weighed.

Most companies prepare a comprehensive list of factors which must be considered in selecting any plant site. First they must decide what they need before they can evaluate any site. The failure to define needs properly is the single biggest cause of trouble in plant site selection.

Once that decision is made, how do we at Rockwell go about selecting the right site? To begin with - because we are only a medium-size company - we do not maintain a permanent staff for this purpose.

In our company usually a one- or two-man team studies

over, productivity and other labor relations yardsticks.

We also consider the labor situation of the community. Has it been satisfactory? Does the state have a "Right to Work" law? Has there been general labor tranquility in the area for a number of years? What is the influence of local industry on labor? We conduct a scientific wage survey among the local businessmen and employers in the surrounding area to determine the actual wage rates and existing practices.

Employers are usually suspicious of what a newcomer will do to wage rates. Even local merchants who stand to gain much from a new plant often wonder if they may not be better off with a status quo situation. They are fearful of the specter of their best people leaving their employ to accept employment at highly inflated wage rates in a spanking new industrial plant.

Here again, a direct approach brings the most satisfactory results.

By having our management people talk to Rotary, Kiwanis, Lions or Chamber of Commerce meetings, we deliver the message that we did not select this particular location for the purpose of disrupting the local economy.

Incidentally, our Edward Valve products, as well as the controls manufactured by the Republic Flow Meter Company, one of our subsidiaries, are widely used in power plants throughout this country and the world.

Transportation facilities are important.

We want a major railroad near the plant site so as to

1. Main line railroad
2. Satisfactory highway system
3. Adequate water supply
4. Natural gas
5. Suitable site

If a city meets these basic standards, we then study its economics and compile all relevant data in considerable detail.

At this point, I think the most helpful thing I can do is to list some of the more important of these considerations by category - together with random examples of how they apply:

The first category is markets. Our newer plants are all located in major market areas. For example, we have a valve plant in Sulphur Springs because of the many customers in this general area.

An even more important category is labor.

Is there sufficient labor? We normally receive a minimum of 3 to 4 applications for every job. This, we feel, has one major benefit. It enables us to be extremely choosy in picking our initial work force. As a result, our new plants have been exceptionally good from the standpoint of absenteeism, labor turn-

over, productivity and other labor relations yardsticks.

We also consider the labor situation of the community. Has it been satisfactory? Does the state have a "Right to Work" law? Has there been general labor tranquility in the area for a number of years? What is the influence of local industry on labor? We conduct a scientific wage survey among the local businessmen and employers in the surrounding area to determine the actual wage rates and existing practices.

Employers are usually suspicious of what a newcomer will do to wage rates. Even local merchants who stand to gain much from a new plant often wonder if they may not be better off with a status quo situation. They are fearful of the specter of their best people leaving their employ to accept employment at highly inflated wage rates in a spanking new industrial plant.

Here again, a direct approach brings the most satisfactory results.

By having our management people talk to Rotary, Kiwanis, Lions or Chamber of Commerce meetings, we deliver the message that we did not select this particular location for the purpose of disrupting the local economy.

Incidentally, our Edward Valve products, as well as the controls manufactured by the Republic Flow Meter Company, one of our subsidiaries, are widely used in power plants throughout this country and the world.

Transportation facilities are important.

We want a major railroad near the plant site so as to

1. Future operation facilities should be limited to employment in the 300 to 500 range.
2. The markets for the majority of our products are nationwide.
3. Raw materials, and their location in relation to our plants, is relatively unimportant.
4. Large volumes of process water are not required. Once the specifications for the new plant have been set up, a general area is chosen. It may encompass a whole state, a group of states or only a few square miles. We then collect economic, engineering and cost data on the various states under consideration - and the general area is then reviewed by an outside professional factory locating service. These people are thoroughly familiar with the advantages of a particular area and are able to summarize quickly the most favorable locations.

Most states and most municipalities have in the past few years established rather extensive industrial development departments or committees. Our consultants review pertinent data from these organizations and finally recommend several locations for us to inspect personally. We then send several teams at different times to anonymously inspect each community.

We normally consider the smaller towns as being the right size for us because we prefer small plant operations. Such a community, generally speaking, would be able to supply an adequate labor force without placing an undue burden of employment responsibility on us. In places that are too small, we believe we have too great a responsibility for the economic welfare of the community. We

of insight into community attitudes in communities is so highly organized these days that it is difficult to avoid the welcoming committees that greet industrial newcomers. In fact, the extravagances of some of these committees have caused us to look elsewhere in more than one instance. Although we appreciate the efforts on the part of some communities to do a job of superlateness, we shy away from them when they start leaning on "give-aways" and unrealistic special inducements. We are particularly wary when communities start making special offers even before they learn our identity.

We go into new communities when (1) we know new industries are carefully screened before they are invited; (2) we can pay our fair share - no more or less - of the tax collection necessary to maintain adequate community services and schools; and (3) we know we are wanted.

Of the three qualifications, the one that is usually hardest for us to determine is knowing whether we are really wanted. For what reason we make a special point of meeting with local governmental and civic officials in advance of selecting a location. From them we have been able to gain a good deal

Statesboro, Georgia, Thursday, April 6, 1961

minimize the expense of constructing a spur track.

In some communities we have investigated, not one site shown to us could be served by rail because of the prohibitive cost of constructing a spur. Likewise we do not want to be on a spur line of a railroad which provides spasmodic service.

Truck transportation is extremely important, too. We try to select a community which is on a main highway and is served by several truck lines. There is an additional reason for this. We are proud of all our plants and want them located prominently on main highways where they can be seen.

Airline transportation in the immediate vicinity is most desirable. If it is not available, we at least like to be close to some kind of airport which can be

# ROCKWELL STATESBORO CORPORATION

## Celebrates 5 Years of Growth and Achievement

### Picture Story of 5 Year Growth

W. F. ROCKWELL JR., president of Rockwell Manufacturing Company, receives the keys to the new Rockwell building on U. S. 301 five years ago from Mr. Thad Morris, president of the Bulloch Development Corporation. Left to right are Norman Rowland, general manager of the Statesboro plant; Mr. Morris, Mr. Rockwell and L. A. Dixon Sr., executive vice president of the Rockwell Manufacturing Company.

HERE IS A scene inside the Rockwell plant on U. S. 301. Visitors to "Open House" tomorrow, April 7, will see the plant in operation.

SOMETHING NEW IS ADDED—Here is the new section which was recently completed, increasing the floor space of the Rockwell plant here in Statesboro to 120,000 square feet.

ROCKWELL'S new testing facilities at work in front of the plant which may be seen by motorists from U. S. 301 and by visitors to the plant.

The ROCKWELL MANUFACTURING Company Statesboro Division invites you to be its guest at an OPEN HOUSE celebrating its Fifth Anniversary in Statesboro, Ga. on Friday, April 7, 1961 Continuous Tours 3:00 p.m. - 7:30 p.m.

### FACTS AND FIGURES ABOUT OUR OPERATIONS

And What They Mean to This Community

A FIVE YEAR REPORT

**Wages - - - - - \$4,651,035.00**

In the past 5 years our payroll has totalled \$4,651,035.00. This compares with a \$355,658.00 payroll for our first year of operation in 1956. All of this money has been distributed throughout the community to the benefit of merchants for food, clothing and other necessities of life, builders of homes, automobile dealers and service stations, the utilities, and banks for savings and investment.

**Area Purchases - \$1,732,034.00**

Counting the cost of the building and the building addition, local purchases through the year 1960 totalled \$1,732,034.00. This has led to expanded operations and increased employment in this area by those who sell to us. Of course, most of the money we spend is again channeled throughout the trading zone to the benefit of all.

**Utility Purchases - \$233,268.00**

Our purchases for gas, electricity, water, telephone and telegraph totalled \$233,268.00 during the past five years. Our growing use of these services has led to increased employment by the utilities, increased local purchases of equipment and supplies by them and again, of course, more money going into local circulation.

**Taxes Paid - - - - \$439,370.00**

Among the principal beneficiaries of our Statesboro operations are the tax collectors. Over the past five years we have paid out in direct taxes \$439,370.00. This figure includes taxes at the local level for properties and land, Unemployment Funds for the protection of employees as well as levies imposed by the State of Georgia in the form of Corporate Income Taxes and Capital Stock Taxes.

**Employee Health Benefits - \$136,771.98**

Our insurance program has contributed to the welfare of employees by paying \$136,771.98 for employee hospital and medical care during the past five years. From this we have gained a healthier group of employees. Our people have gained through being relieved, in a large measure, of financial stress during periods of illness. And the Statesboro community as a whole has benefited from this expenditure through improved facilities and more professional people to care for the sick.

Garden Club hosts Chapter DAC  
attend state meet

St. Philip's Parish Chapter was well represented at the thirty-ninth annual State Meeting of the Daughters of the American Colonists which was held in Atlanta, March 21 at the Woman's Club on Peachtree Street where the State Regent, Mrs. Linton D. Baggs, of Macon presided.

Following the Advance of Colors, the Invocation, Pledge of Allegiance and the American's Creed, the singing of the Star Spangled Banner was led by Mrs. W. L. Brannon, Mrs. Thomas B. Monroe gave the address of welcome to which Mrs. T. H. McDowell responded. Among the distinguished guests present were the Honorary National President, Mrs. Thomas Coke Mell and Mrs. L. W. McConnell, Past National Corresponding Secretary.

Following the reports of the officers and chairmen, the reports of the seven chapters in the state were given. St. Philip's Parish Chapter was awarded silver trophies for the greatest increase in membership and for the greatest number of Golden Acorns, and honorable mention for the greatest percentage of membership subscribing to the D. A. C. magazine, The Colonial Courier. Congratulations were extended to the chapter for the establishment of the C. A. C. Scholarship in American History being placed at the Georgia Southern College.

Music was rendered during the luncheon by the cellist, Mrs. Leroy E. Loemaker, accompanied by Miss Marie Smith. Mrs. Joel P. Pruitt introduced the speaker, Major General Joseph H. Harper, U. S. A. retired, who made a most informative address.

St. Philip's Parish Chapter was represented by the Regent, Mrs. W. L. Brannon, who is also State Chairman of Golden Acorns, Mrs. J. B. Averitt, State Auditor, Mrs. E. L. Prentiss, State Secretary, Mrs. R. G. Daniel Jr., Golden Acorn and Mrs. Page, Miss Zada Byrnes Johnson, Miss Anna Bird, Mrs.

Green Johnson, Mrs. T. Burdett Lane, Mrs. O. A. Bell and Mrs. Nathan M. Johnson Sr.

Mrs. Percy Bland entertains at series of parties

On Tuesday afternoon, March 28, Mrs. Percy Bland entertained her bridge club, The Double Deck, at her home on Savannah Avenue.

Camellias and azaleas were used. Her decorations and pastel colors were accented in an Easter motif introduced in table appointments and prizes. A dessert course and coffee were served.

Mrs. Lloyd Brannen was top scorer in the club; Mrs. Willis Cobb was visitor's high; Mrs. Everett Williams, second high, and Mrs. Harry Brunson low. Their prize were dainty hand-made handkerchiefs, in pastel colors and lace trimmed. Mrs. Bonnie Morris received an Easter basket filled with eggs nestled in colorful straw for low.

On Wednesday afternoon Mrs. Bland invited guests for seven tables of bridge. Decorations and refreshments were similar to those at her party on Tuesday.

Mrs. Arnold Anderson won high; Mrs. Bruce Olliff followed with second high; Mrs. C. P. Olliff Sr. scored low and Mrs. Albert Braswell won cut.

Mrs. Arnold Anderson, winning the floating prize, received the Easter basket of eggs. Other prize winners selected the lovely handkerchiefs in the colors they preferred.

They were served macaroon pie and coffee.

Mr. and Mrs. Cromley celebrate golden wedding anniversary

BROCKLET—A lovely affair last Sunday afternoon was the Fiftyth Wedding Anniversary of Mr. and Mrs. W. C. Cromley at their home here.

The guests were greeted by Mrs. J. H. Hinton, and Mrs. Herbert Kingery of Statesboro introduced them to the receiving line; Mr. and Mrs. Cromley, their daughter, Mrs. David Jeffords of Sylvester and Mrs. Ernest Jenkins of Savannah, and their son, W. C. Cromley Jr. and Mrs. Cromley. From the receiving line, the guest were directed to the dining room by Mrs. John C. Cromley and they were greeted by the dining room hostess, Mrs. Edgar Parrish of Fortal.

The dining room table was covered with a white-cut-work cloth over a gold cloth, centered with a lovely wedding cake, surrounded by tulip and orange blossoms, flanked by yellow roses and golden candelabra. The buffet was centered with an epergne of gold snap dragons.

On the serving table, the punch bowl was surrounded by fern and orange blossoms, from which Misses Jane and Julia Jeffords of Sylvester, Jenny Jenkins of Savannah and Anne Cromley served gold punch with white cake squares embossed with Gold 50. Carole Cromley passed the doilies to the guests, and Mrs. Carl B. Lanier, Mrs. W. L. Hendrix and Mrs. Claude E. Robertson arranged the refreshments.

From the dining room, the guests were ushered by Mrs. Hunter Robertson of Statesboro

# God... Or The Greatest Fraud That Ever Lived!

Most people will agree that Jesus Christ was a great man... that He was an inspired spiritual leader... that He performed miracles never performed before or since His time by anyone else.

But today... as Christ's trial before the high priest Caiaphas... many are unwilling to accept Our Lord's claim to be the divine Son of Almighty God.

For nearly 2,000 years the Catholic Church has maintained that, as Jesus claimed, "He and the Father are one." On the basis of what He said and did... what He claimed and what He fulfilled... He had to be the Son of God and the greatest fraud that ever lived.

The scattered through the books of the Old Testament are numerous prophecies of the coming of the Savior—written as such 1,000 years before Christ's birth. They described the family from which He was to come... the circumstances of His birth... His life of preaching and miracles... and finally, His passion and death for the sins of mankind.

All these prophecies apply to only one man in all the annals of human history—Jesus Christ alone.

If we are to accept Christ as the center and essence of our religious faith, the least we can believe of Him is that what He said was true. And under cross-examination by Caiaphas, when asked to declare if He was "the Christ, the Son of God," Our Lord replied: "Thou hast said it" (Matthew XXVI, 63-64).

A man who only claims to be the Son of God could not have

# SEBH Future Homemakers promote tests for TB

By Mrs. John A. Robertson

The Future Homemakers of America chose to work in cooperation with the Bulloch County Health Department in an effort to have every student at Southeast Bulloch High School take a skin test for tuberculosis. The tuberculin test is an easy, simple way to find out whether or not a person is infected with tuberculosis or has been in contact with the disease.

Mrs. Jewel C. Owens, Public Health Nurse at the Bulloch County Health Department, and Mrs. J. H. Hinton, Advisor for the F.H.A. Chapter, met with Mr. W. E. Gear, Principal of Southeast Bulloch High School, and explained the project to him and asked permission to conduct this project at the school.

Each teacher in the school was given information about this project so that each one could encourage the students to participate in the tuberculin test. A letter was sent by the Future Homemakers to each parent urging the support of this project and asking for their permission to have each child receive this test at school.

On December 6, 1960, Mrs. Owens and Mrs. Frances A. Sanders gave skin tests to 267 students. Two hundred thirty-seven had negative reactions and thirteen students had positive reactions.

Mrs. Owens contacted the families of the positive reactors and urged them to report to the Health Department for skin tests and x-rays. The thirteen students were represented by their families for skin tests at the Health Department.

On March 29, 1961, the thirteen students and thirteen students with positive reactions to the test were given x-rays at the Health Department making 100 per cent participation in this project.

**SOUTHEAST BULLOCH PTA HOLDS MARCH MEETING**

The March meeting of the Parent-Teacher Association of Southeast Bulloch High School was held in the Library and Audio-Visual room of the school. The program, "Strengthening The Home Through Appreciation of Art and Music," was arranged by Mrs. L. M. Cloniz, chairman. Mrs. D. Lee, Mrs. Arthur Buncie, Mrs. Ben Thompson, Mrs. James Rushing, Mrs. Pearl Pollard, and Mrs. Ann Deal were the featured artists. The program was presented as follows: Devotional, Delores Williams, Introduction, Mrs. Ruel Clifton, Moderator, Kathleen Hodges; Music Appreciation Theme, Lou Ann Trappell, Fashion Show, Helen Belcher, Taper Setting, Brenda Strickland and Wanda Peake; Flower Arrangement, Sandra McDonald, Art Display, Sandi Newman, Center Piece Arrangement, Sharon Carter, Interior and Exterior Decorating, Jamie Williams and Mrs. Turner, Landscaping, Larry Rogers, Donnie Mallard and Kathleen Hodges; Film, "Grandma Moses," Helen Belcher.

Following the program, Mrs. Brooks Lanier presided at the business meeting. The social committee was Mrs. M. P. Martin, Jr., Mrs. Allison Shuman, Mrs. B. E. Sherrard, Mrs. Alton Bell, Mrs. B. E. Turner, Mrs. Donna Brown, Mrs. Lehman Atkins and Mrs. W. R. McClelland.

**RITES HELD FOR DENARD DENTON IN SAVANNAH**

Funeral services for Denard Denton, age 37, of 43-C Chatham City, formerly of Brooklet, were conducted Tuesday by Rev. Francis J. Donahue, at Our Lady of Lourdes Church.

Mr. DeNitto, a produce dealer at the Farmers Market, was a graduate of the Brooklet High School. He is survived by his wife, two sons, his parents, Mr. and Mrs. John DeNitto, a sister, Mrs. Harold T. Jenkins, and one brother, Paul J. DeNitto and four nieces.

Following services in Savannah, burial was in East Side Cemetery, Statesboro.

The following members of the Senior Class at Georgia Southern College who are doing their practice teaching at S.E.B.H. School are: Mrs. Mary Frances Brandon, Statesboro, English, under Mrs. Hamp Smith; Ralph Cook, Cochran, Physical Education, under Mrs. George Roebuck; Robert Hobbs, Dexter, Math, Mrs. V. L. Mitchell; Miss Beverly Joyner, Statesboro, Business, Miss Jimmie Lou Williams; Miss Danalya Lee, Stilson, Junior High.

The guest speaker at the morning service at the Methodist Church last Sunday was Mr. Russell Jacobs of Sylvania. This was the last service of the ten-week series.

The Virginia Cobb Circle of the First Baptist Church will meet Monday night, April 10, at 7:30 at the home of Mrs. Robben Belcher. The program will be arranged by Mrs. James Lanier.

The April meeting of the Garden Club will be held next Wednesday afternoon, the 12, with Mrs. Rustie Rogers, Mrs. J. Harry Lee and Miss Frances Lee hostesses. The program will be arranged on "Wild Flowers" with different members participating.

The members of the W.M.S. of the First Baptist Church met Monday afternoon at the church for a period of Bible Study Prayer and Mission.

Mrs. W. D. Lee, of the music department of S.E.B.H. School, presented two students in their Senior Recital Wednesday night. The young ladies were Miss Mary Alice Bader, daughter of Mr. and Mrs. Robbie Belcher, and Miss Amelia Sue Waters, daughter of Mr. and Mrs. Morgan Waters. The students were assisted by the members of the S. E. B. H. School Glee Club.

**Stilson school enters district science fair**

Each class at the Stilson Elementary School entered an exhibit in the First District Science Fair, which was held in planning and work went into making these exhibits a success. The school brought home five blue ribbons were won by Mrs. John Mays' third grade unit was on Living Things, and Mrs. Archie Smith's fourth grade whose unit was on the Solar System.

Blue ribbons were won by Mrs. John Mays' third grade unit was on Living Things, and Mrs. Archie Smith's fourth grade whose unit was on the Solar System.

**17 BC students make dean's list at Ga. Southern**

Seventeen Bulloch County students at Georgia Southern College were included in the 133 students making the dean's list at Ga. Southern.

A requisition for \$10,000.00 has been recently completed by the director of the Georgia State Teachers Scholarship Program for students at Georgia Southern College during the spring quarter.

When these funds are received it will bring the total to more than \$33,000 received from this fund in scholarships for GSC students during the 1960-61 school year.

The money represents teacher scholarship funds for 48 Georgia Southern students participating in the plan during the winter quarter.

The Teacher Scholarship Plan, administered at Georgia Southern College by Ralph K. Tyson, dean of students, was initiated by the State Department of Education to encourage worthy and needy students to enter the teaching profession.

To be eligible for the scholarship, high school seniors must be citizens of Georgia and be within the upper 20 per cent of their class. Students already in college and interested in teaching must have an overall "B" average. The "B" average must be maintained by all students receiving the scholarship.

**The Bulloch Herald — Page 14**  
Statesboro, Georgia, Thursday, April 6, 1961

**33,000 Total Received Here For Scholarships**

The Bulloch County students making the list are: Sara Elizabeth Adams, daughter of Mr. and Mrs. Bill Adams; Jackie Shelton Anderson, daughter of Mr. and Mrs. L. D. Anderson; Sara Neville Bennett, daughter of Mr. and Mrs. W. G. Neville; Diane Brannen, daughter of Mr. and Mrs. Bill Brannen; Dorothy Anne Cromley, daughter of Mr. and Mrs. W. C. Cromley of Brooklet; Jack Brannen Deal, son of Mr. and Mrs. B. E. Deal; Mary Etta Dekle, daughter of Mr. and Mrs. J. L. Dekle; Ruth E. Dixon, daughter of Mr. and Mrs. N. C. Dixon; Jane Denson, daughter of Mr. and Mrs. H. L. Denson; Sue Ellis, daughter of Mr. and Mrs. W. Louis Ellis; Roberta Halpern, daughter of Mr. and Mrs. Nathan Halpern; Glenda Sue Harden, daughter of Mr. and Mrs. J. L. Harden; Grace Miller, daughter of Mr. and Mrs. Carl Miller; Ida Jane Nevil, daughter of Mr. and Mrs. C. M. Nevil; Mary Frances Brandon, daughter of Mr. and Mrs. Shebby H. Monroe; David Russell Smith, son of Mr. and Mrs. John H. Smith; Sandra Jewell Williams, daughter of Mr. and Mrs. C. M. Williams.

**Jackie Proctor and Billy Raymond students at Emory University, were weekend guests of Mr. and Mrs. John Proctor.**

Mrs. Gene Southerland and little son, Ronnie, of Jackson, Tennessee, spent last weekend with her parents, Mr. and Mrs. F. A. Atkins.

Mr. and Mrs. Willis Williams, of Donalsonville, Georgia, visited Harold Lasseter and Hal Lasseter of Columbus, Georgia, and Mr. and Mrs. Hugh Belcher and Leslie Belcher of Hoboken, N.J. Mr. and Mrs. Ed Hearn and sons of Savannah were weekend guests of Mr. and Mrs. W. L. Beasley.

Mr. and Mrs. John Yarbrough of Atlanta and Mr. and Mrs. Billy Robertson and children of Lyons were weekend guests of Mr. and Mrs. W. R. Robertson Jr.

Mr. and Mrs. Oran Bacon of Atlanta and Pembroke and Mrs. Beverly Bacon, student at Short College, Rome, were Easter guests of Mr. and Mrs. M. O. Prosser.

Weekend guests of Mr. and Mrs. F. W. Hughes were Miss Myrtle Stevens and Miss Susan Nixon, members of the Extension of the Richmond Hill High School.

Mr. and Mrs. M. E. Groover of LaGrange, Georgia, visited Mr. and Mrs. John A. Robertson last Wednesday.

Miss Doris Parrish of the Elberton High School faculty was the weekend guest of her parents, Mr. and Mrs. H. G. Parrish.

Mr. and Mrs. David Jeffords and family of Sylvester and Mr. and Mrs. Ernie Jenkins and family of Savannah spent the weekend with Mr. and Mrs. W. C. Cromley.

Mr. and Mrs. M. O. Prosser were recent guests of Mrs. Oran Lasseter in Pembroke.

Mrs. Russell Bell and daughter, Stephanie of Baltimore, and Mrs. G. R. Knight of Miami have returned to their homes after spending some time here with their mother, Mrs. L. S. Lee.

Guests last week of Mr. and Mrs. J. D. Alderman were Mr. and Mrs. J. A. Wynns, and Aubrey Wynn of Fort Lauderdale; Ploam and Mr. Mrs. Robert Alderman and son, Bob, of Columbus, Georgia.

Miss Jimmie Lou Williams spent the weekend at the home of her cousin, Mrs. Earl Hester Jr., and Mr. Hester in Savannah during the week-end.

Mr. and Mrs. Burnie McCormick and Fred Control of Brookfield, Massachusetts were guests last week of Mrs. L. S. Lee.

Dr. and Mrs. J. A. Powell and children of Athens, Tennessee, spent Easter holidays with her mother, Mrs. E. C. Watkins.

Mrs. G. R. Lanier is spending several weeks in Statesboro, Florida with Mr. and Mrs. David Roebuck.

If your cattle are shedding hair or spending too much time rubbing on trees, fences, or posts, there is a good chance that they are lousy, says Dr. O. G. Daniel, head, Extension husbandry department at the University of Georgia College of Agriculture, takes a bit of feed to offset the damage done from lice. Spray or dust for lice can be purchased at most any farm store. It is a worthwhile investment that will pay off in extra pounds of milk and beef.

# Ga. Power sponsors farm wiring clinic

A Bulloch County farm recently featured in the Georgia State Department of Education's vocational agriculture division. The farm chosen was that of James H. Smith, Brooklet, Statesboro. The initial portion of the clinic, a vogue class on farm shop wiring, was held on Wednesday and Thursday, March 22 and 23. The actual demonstration was held Friday, March 24, at the Smith farm.

Jerry Kennedy, special teacher of agriculture at Southeast Bulloch High School, arranged for the class and clinic. F. F. Fiddler, a teacher of vogue, Statesboro, taught the group. He was assisted by Georgia Power Company rural engineers, Walter M. Lovett, Augusta division rural engineer, and Don Henderson, rural engineer of the company's Atlanta division.

At the demonstration the power company presented to Mr. Smith a two-gang electric meter and a power press. In addition to demonstration of the air compressor, the clinic featured complete wiring of the Smith farm shop.

Only two months ago the farm was so inadequately wired that Mr. Smith found it nearly impossible to utilize electricity efficiently for the many farm tasks required in normal operation. Now, however, the farm has 200-ampere central service meter pole service, a 200-ampere service entrance in the residence, and a 200-ampere service entrance in the pig parlor, a 100-ampere grain switch for grain processing, and a 60-ampere entrance in the storage shed and car garage.

An experienced and well-known Bulloch County farmer, Mr. Smith operates 550 acres. In addition to row-crop farming, he raises beef cattle and hogs. Mr. Smith is a member of the Young Farmers Organization and was selected by the Statesboro Junior Chamber of Commerce as the Outstanding Young Farmer of the Year for 1959.

The demonstration clinic on the Smith farm is one of 20 being conducted by a team of officials in cooperation with the Georgia Power Company throughout the state this year. Each qualified farmer on whose farm the demonstration is conducted is given a choice of an electric welder, bench grinder, electric press, or air compressor. The piece of equipment chosen by the farmer is installed during the demonstration.

J. G. Bryant, state supervisor, agricultural education, lauded Bulloch County agricultural workers for their interest in the farm shop wiring clinics and also praised the Georgia Power Company for its activities in the farm shop wiring field.

"We have come to realize today," Mr. Bryant said, "that a well-equipped farm shop is no longer a luxury. Instead, it is vital necessity to a farmer's livelihood. These clinics are of extreme value in that they emphasize proper maintenance of farm machinery as a key factor in obtaining maximum equipment use at maximum expense."

**FULL EARLY UNIFORM STANDS**

without replanting and in damp weather!

SECRET OF ORTHOCIDE SOIL TREATER X SUCCESS: famous "circle of protection" around young cotton root wards off soil-borne diseases—damping off, sore shank, sore shin and root rot. Young cotton takes hold, grows strong and uniform through dampness and rain. Without replanting, a full stand is well underway. Cotton protected by ORTHOCIDE Soil Treater X pays off weeks early!

Protection pays 4 ways:

1. Eliminates replanting costs. 2. Gives high-priced, early cotton.
3. Gives full stands (90% to 100%). 4. Gives uniform stands that harvest fast mechanically.

# Rockwell evaluates

Is the community tax picture well balanced between residential, industrial and commercial sources? Is the community income tax fair and equitable and reasonable in comparison with other states?

How is the climate? What are the geographical extremes? Are there unusual wet or dry conditions? This is of some concern particularly where you are considering air conditioning plants.

This is a broad review of the many factors which every industry investigates in selecting a plant site. There are many more specific questions which must be answered under these main headings, but I am sure they are most obvious to you. In our company's detailed data usually compiled on five communities and each community is carefully inspected personally by several different groups of company personnel.

We also think it is advantageous to have the prospective plant manager participate in the final factors of a plant city or at the least to give his concurrence. This gives tangible meaning to the question our management asks itself: "Would you like to live in this community with your family?" And we think it has some influence on others in the organization who are asked to relocate their families.

So let us just add that after all these factors are weighed we still usually come up with a list of several communities which meet our practical standards.

How about community business? Are local officials sympathetic and enthusiastic toward existing as well as new industry? Does everyone work together to promote improved business conditions? Is the past and present record of local government honest and efficient? Are industrial leaders and the business leaders in general active in promoting a better business climate for the community and the state?

How about the state business climate? Does the state have a good reputation for fair treatment of industry? Are the state legislative, executive and judiciary branches performing as well as other state governments? What are there any other factors?

How about health and medical care? Are there satisfactory medical and health services such as hospitals, doctors, dentists and other requirements as a fully rounded in a dynamic community? And culture and recreation? Are there a variety of local outdoor recreational facilities, parks and playgrounds? Are there shopping centers, attractions, libraries and other community buildings?

How about the zoning? Does the community have an active and forward-looking city planning commission? Can new industry prosper in the community against undesirable neighbors? Can industry locate in any area or is this controlled by proper zoning ordinances? In one town in which we have located a plant, the city many years ago attempted a strip on either side of all the main highways leading into the community. It controlled the type of structures erected along these highways. This has prevented jerry-built gas stations, junk yards, and hot dog stands from cluttering these highways with unsightly structures.

Does the quality of construction and maintenance of the local road and street system indicate an efficient highway department? Can all of the available sites be served by the city sewage system? In our opinion, where a plant employs 300 to 500 people, separate industrial sewage treatment plants are served by a city sewer system. It has been necessary in a number of cases to extend the sewage system to service these plants. We believe this absolutely necessary and must be done to attract industry.

How about the physical appearance of your town? Is it pleasant? Are there good hotels, motels and restaurants? Are shipping and commercial districts well laid out for parking facilities and easy flow of traffic?

Don't forget your police and fire departments. Do they have high standards of personnel equipment, training and morale? Is police patrol service provided for industrial properties? Can satisfactory policing arrangements be made for plants outside the city limits? Is the community fire insurance classification satisfactory? Is the water pressure sufficient and are there adequate fire hydrants and proper-sized mains?

How about community finances? "Taxpayers who fail to report taxable income are liable to be called to account for it," Director Ross warned. "They may be subject not only to the tax, but also to interest and penalties."

While the forms themselves and the accompanying instruction booklets set forth several of the more common types of income which must be reported," Mr. Ross said, "taxpayers are reminded that interest on savings accounts and Series 'U' U. S. Saving Bonds, tips and similar gratuities, most dividends and profits on sales of real or personal property, are taxable income.

"Taxpayers who fail to report taxable income are liable to be called to account for it," Director Ross warned. "They may be subject not only to the tax, but also to interest and penalties."

**WMS. HOLLOWAY ENTERTAINS HER BRIDGE CLUB**

Mrs. Otis Holloway entertained for the members of her bridge club at her home on Tuesday night. Beautiful arrangements of spring flowers and plants were on hand. The guests were served home made chocolate chiffon pie and ice cream, after punch, cookies and nuts were enjoyed.

High score went to Mrs. L. J. Holloway receiving glazed potato; low score went to Mrs. Fabie Riggs receiving wall plaques and for cut prizes went to Mrs. Reginald Anderson receiving a towel and bath cloth set.

Others playing were Mrs. H. H. Olliff Jr., Mrs. John Ed Brannen, Mrs. O. E. Gay, Mrs. J. B. Johnson and Mrs. Otis Holloway.

Mr. and Mrs. J. B. Pullens of Atlanta visited Mr. and Mrs. H. H. Olliff Jr. and family during the week.

Mr. and Mrs. J. B. Johnson and family recently visited by her brother Mrs. and Mr. C. W. Anderson returned to her home during the week after an extended visit with her daughter, Mr. and Mrs. Paul Watson of Pahoehoe, Florida.

Mrs. J. A. Stephens spent several days last week with her daughter, Mr. and Mrs. Albert Atkins and daughter of Thompson.

**LEGIBLE WRITING OR PRINTING SERVICE**

Legible printing of taxpayers' names and addresses on the top lines of 1960 individual Federal income tax returns will assist both the taxpayers and Internal Revenue Service. A. C. Ross, District Director for Georgia, said today.

"A carefully printed or typewritten identification of the person or persons filing will make it immediately possible for the Revenue Service to credit the return and any accompanying payment to the right source," Mr. Ross said.

It also will help speed refunds to those whose returns call for refund checks, he added.

"When taxpayers move, filing period, they should make sure the postmaster gets their forwarding address, especially if they are due refunds."

The taxpayer who has printed and signed legibly knows his return will be properly processed. The IRS in turn can do that with processing with greater speed and accuracy, Mr. Ross stressed.

Numerous types of income besides salaries and wages must be included in the preparation of 1960 Federal income tax returns if received, District Director Ross advised today.

"While the forms themselves and the accompanying instruction booklets set forth several of the more common types of income which must be reported," Mr. Ross said, "taxpayers are reminded that interest on savings accounts and Series 'U' U. S. Saving Bonds, tips and similar gratuities, most dividends and profits on sales of real or personal property, are taxable income.

"Taxpayers who fail to report taxable income are liable to be called to account for it," Director Ross warned. "They may be subject not only to the tax, but also to interest and penalties."

The seasons records remain the same.

**THAT'S RIGHT.** Nearly 20 cents out of every dollar the Georgia Power Company receives from you in payment for electric service goes to pay our federal, state and local taxes.

In 1960 our tax bills totaled more than \$29,875,000—nearly \$82,000 for each day of the year! This averages more than \$41 for every customer we serve.

In fact, tax payments are the company's largest item of expense, exceeding operating payroll by \$0 per cent.

Since taxes help to meet the cost of government, they benefit every citizen of Georgia. Among other things, they help pay for schools for your children, police protection for your family and fire protection for your home.

Yes, like you, the Georgia Power Company pays taxes—in full measure. It's part of being a good citizen.

# More People Are Buying Chevrolets Than Any Other Make!

When one car outstalls all the rest the way this new Chevrolet is doing—there's got to be a reason. And we can think of some pretty good ones. The clean-etched looks of the new Body by Fisher, for example. The eager brand of "jet" that's under the hood. The easy way it handles. Plus the added advantage of extra-cost options like triple-turbine Turbohide.

But to sample all these reasons together, you have to get a Chevrolet out on the road. And there's where that Jet-smooth ride takes over with its own gentle kind of persuasion. If you weren't absolutely sure, you'd imagine you were riding in a far costlier car.

No wonder people are buying more Chevrolets than any other make! Chevrolets have more of what it takes to please people!

\*Official R. L. Polk & Co. registration figures show full-sized Chevrolets outsold the second-choice make by a record-breaking margin in 1960—and Chevrolets continue to set the pace for the industry this year!

**AND JUST ONE JET-SMOOTH RIDE WILL SHOW YOU WHY!**

See the new Chevrolet cars, Chevy Corvairs and the new Corvettes at your local authorized Chevrolet dealer's

# Study course held at Harville church

By MRS. H. H. ZETTEROWER

A successful study course was held at Harville Church last week. Mr. and Mrs. Don Scarborough of Statesboro led the adults. Mrs. Morgan Waters was for the Intermediate. Mrs. Franklin Zetterower, Juniors and Sgt. R. W. Andrews the Young Folks. Mrs. Horace Mitchell is Training Union Leader.

A large crowd of children of Harville Church and the Community enjoyed an Easter Egg Hunt Saturday afternoon at the church, sponsored by the W.M.U. Games were played. After the egg hunt, refreshments were served.

Mr. and Mrs. Sulas Williams and little son and Mr. and Mrs. P. A. Herdon of Woodbury, Georgia spent the Spring Holidays with Mr. and Mrs. Ullus Williams.

Howard Williams spent the spring holidays with relatives in Savannah.

Mr. and Mrs. Emory Lamb of Valdosta were recent visitors of Mr. and Mrs. J. L. Lamb.

Mr. and Mrs. J. L. Lamb were guests of Mr. and Mrs. J. T. Creasy Jr. during the week.

Mrs. J. J. E. Anderson and Mrs. Johnson of Statesboro were guests of Mr. and Mrs. J. T. Creasy Jr. during the week.

Mr. and Mrs. W. W. Jones had a Sunday dinner guests, Rev. and Mrs. Alvin Lynn and son and Mr. and Mrs. Cloyce Martin and Tew and Mrs. M. and Mrs. Wm. H. Zetterower and Linda visited relatives in Savannah Sunday.

Mr. and Mrs. H. H. Zetterower were Saturday night supper guests of Mr. and Mrs. C. C. DeLoach and Bill were Mr. Douglas DeLoach of Columbus, S. C. and Mrs. Richard DeLoach of Savannah.

Mr. and Mrs. Harvey Royal of Pooler spent Sunday with Mr. and Mrs. O. E. Royal.

Mr. Walter Royal attended a Feed Mixing Convention last week in Birmingham, Alabama.

Mr. and Mrs. W. W. Jones were Friday night supper guests of Mr. and Mrs. H. H. Zetterower.

Mr. and Mrs. Sulas Williams and little son and Mr. and Mrs. P. A. Herdon of Woodbury, Georgia spent the Spring Holidays with Mr. and Mrs. Ullus Williams.

Howard Williams spent the spring holidays with relatives in Savannah.

Mr. and Mrs. Emory Lamb of Valdosta were recent visitors of Mr. and Mrs. J. L. Lamb.

Mr. and Mrs. J. L. Lamb were guests of Mr. and Mrs. J. T. Creasy Jr. during the week.

THIS IS HOW THEY DO IT AT ROCKWELL—Shown here is a scene in a section of the plant of Rockwell Statesboro Corporation which will be open to visitors on Friday, April 7 from 3 to 7:30 when the plant will hold Open House to which all the citizens of this section are invited to help the company and its employees celebrate their Fifth Anniversary in Statesboro.

## Farm and Family Features

### Plant best seed to get best results

By ROY POWELL, Agriculture Editor

To get good yields of soybeans, Bulloch County Farmers should plant certified seed, if possible, and should plant the right varieties for this area. A lot of progress has been made by your University of Georgia College of Agriculture in recent years in soybean varieties. Newer varieties are resistant to nematodes and diseases, grow well under our conditions, do not shatter readily, are easily harvested, and produce good yields of beans high in oil and protein.

Recommended soybean varieties in Bulloch County are Jackover, Roanoke, C-N-S-4, and I.E.W. 45.

Stand is important in soybeans. The way to get a stand is to plant quality seed of high germination. The way to get a yield is to plant a recommended variety that has yielded better in the past.

These recommended varieties have been tested by Georgia Experiment Stations and have proven their superiority in yield and lodging resistance. Good seed is good insurance with a soybean crop. It guarantees a

loss from this disease can run into thousands of dollars each year. The cankers seldom kill plants directly, but they weaken them and reduce their value for products requiring strong wood.

As a preventive measure, spray seedlings and twigs of pine five years old or less with ferrous chemical at the rate of two

pounds per 100 gallons of water. This should be done when you discover the disease on oaks.

Stop by at my office for complete details on this disease.

POULTRY DISEASE Poultrymen should be especially watchful for C-R-D and coccidiosis diseases in the broiler and laying houses for the next weeks.

Many broiler and layer houses have wet litter which provides an ideal environment for the development and spread of these troublesome diseases.

It's important to head these two diseases off before they can get a good start in the flock. Removing wet litter and replacing it with dry material is a good prevention measure.

Proper ventilation will keep down moisture conditions in the houses which usually allow C-R-D and Coccidiosis to become a serious problem. Proper sanitation and good management are big factors in prevention also.

### Rites held for Mrs. L. Johnson of Stilson

Mrs. Lula Glasco Johnson, 86, died Saturday, April 1, in Athens where she was visiting relatives.

A native of Bulloch County, she was a member of New Hope Methodist Church, Stilson.

Survivors are three sisters, Mrs. Cora Hendley, Mrs. Maggie Minick, Stilson, Mrs. John Overstreet, Graniteville, S. C.; five sons, P. D. and Henry T. Johnson, New Jersey, C. M. and Gerald Johnson, Macon, Jesse Johnson, Decatur; 12 grandchildren and eight great-grandchildren.

### ATLAS AGRICULTURAL CHEMICAL CO. Waynesboro, Ga.

### GET MORE EARS TO THE ROW KILL SOIL INSECTS WITH aldrin

Increase yields economically by controlling soil insects with aldrin. One application of aldrin pays for itself through bigger, better yields of quality corn.

Aldrin is easy to use. You can apply it as a spray, granules or mixed with starter fertilizers.

Order your supply today and by harvest you'll see why aldrin stands for bigger yields.

### Just What The Doctor Ordered For You - - -

Pharmacy is a most exacting science . . .

The "B" on your prescription literally means "recipe." Here it is precisely followed by a man who has long, specialized professional training and who is continuously studying to keep abreast of what's new in pharmaceutical circles. That's why we say with confidence, "Bring us your next prescription!"

Like so many other growers, Mr. McQueen found that Nemagon Soil Fumigant says off in bigger, better yields at harvest.

Nemagon is easy to use. It can be applied as a liquid, granules or mixed with fertilizer and applied in one time- and labor-saving application. It's economical, too! The cost of treatment can be paid many times over in bigger, better cotton yields.

Make this season's cotton the best yet. Use Nemagon Soil Fumigant and knock out nematodes before they cause serious damage. When nematodes attack, fight back with Nemagon Soil Fumigant. Be prepared—order your supply today.

Displays at several points along the tour-route focused attention on the item manufactured by the company in the Statesboro plant.

Refreshments were served during the afternoon.

On Thursday, April 6, members of the press and the neighboring counties were guests of the company at a luncheon and a tour of the plant.

Newspaper publishers and radio broadcasters present were Mr. and Mrs. Frank Miller of Pembroke Journal, Mr. Harry Rhoden of the Lyons Progress, Mr. Clyde Hollingsworth of the Savannah Telephone, Mr. Frank Edensfield of the Millen News, Mr. R. G. Daniel of the Metter Advertiser, Mr. Hubert Calloway of the county commissioner's at Jekyll Island on March Savannah Morning News, also.

### SHS Band sends six to All-State Jr. High Band

On Friday of this week, Dublin will be host to the All-State Junior High Band. This band will be made up of students from the high schools of the All-State band, which performed at the GEA Convention last month. Students from grades 6 to 9 from all over the state audition, and the best ones are selected for this honor band.

The band meets Friday afternoon and all day Saturday, and presents a concert Saturday night. Their conductor is a nationally famous educator. A wonderful musical experience is thus provided for the lucky few from each school who are eligible to go.

The Statesboro High School Band was fortunate to have six musicians selected to go to Dublin. This is more than ever in the past, and exceeded in number only by the large bands in Atlanta. These six fine young players are Celia Huff, eighth grade daughter of Dr. and Mrs. Lawrence Huff; Barbara Deal, eighth grade daughter of Dr. and Mrs. ollen Deal; Johnny Tucker, eighth grade son of Mr. and Mrs. Tommy Tucker; Hal Burke, eighth grade son of Mr. and Mrs. Wendell H. Burke; Stevie Gay, eighth grade son of Mr. and Mrs. Bernon Gay; and Leah Milled, seventh grade daughter of Mr. and Mrs. Frank Milled.

These students play, respectively, flute, tenor sax, trumpet, baritone and clarinet. Any who wish to attend the concert may do so, of course. The admission is free, and the concert will begin at 7 p.m. in the Dublin High School Auditorium, on Saturday, the 15th of April.

She said that a special invitation is being issued to all ladies and their clubs in the county. She added that those who wish to attend in groups should contact Mrs. W. W. Brannen, hostess chairman, or Mrs. Acquilla Warnock, program chairman.

Wendell Brannen, the First District Essay Winner, will be a guest of the club.

The meeting will be at the Recreation Center at 3:30 o'clock on the afternoon of April 20.

### Funds are set up for new Armory for Guard

Senator Herman Talmadge and Representative G. Elliott Hagan, advised the editors of the Bulloch Herald by telegram last week that federal funds have been appropriated and released to the National Guard Bureau for the purpose of constructing a National Guard Armory in Statesboro.

According to the information from Senator Talmadge and Representative Hagan the estimated federal contribution toward the construction of the two-unit plus Armory will be \$120,000. The construction will be carried out under state contract with Federal funds being released to the state when the state has completed a certificate of matching state funds, certificate of title to and adequate and suitable site vicinity sketch, plot plan, federal-state agreement, approved plans and specifications and bids received and approved.

The City of Statesboro and the County Commissioners have taken all the steps necessary to assure the building of the new Armory here.

James Eli Hodges, son of Mr. and Mrs. Eli Hodges of Statesboro, was named on the Dean's List of the University of Georgia's College of Business Administration for the winter quarter. Announcement was made this week by the news bureau of the University.

### Chair for Bulloch's first judge was hand-made job

Bulloch County's first judge's chair, known to be over 150 years old, is now preserved in a glass case and on display here in the office of the clerk of the courts.

The old chair, which had been in the office many years, was placed in the specially built case by Miss Hattie Powell, veteran clerk of the courts until her retirement, the first of the year. The chair is hand-made with a cowhide bottom. Its lower rung shows the usage that came its way, for it is almost worn in half.

Bulloch County was created from the counties of Screven and Bryan in 1786. At that time the court was held by legislative act, in the home of Stephen Mills until a public building could be completed. In 1801, George Sibbald of Augusta conveyed 200 acres for the "seat of public buildings." In 1806 a plot of the "Plan of the Town of Statesboro" was made by Josiah Everett, C. S. and recorded in the Superior Court records. The exact date that the first courthouse was built is not known. It was a log structure built before 1806. The chair now under glass was in the court house built in 1806. In the grand jury presentations dated Dec. 3, 1806, the following statement is found: "We, the Grand Jury of the County of Bulloch, present the following grievances (viz) "This county has sustained considerable damages by the keeper of this courthouse by making use of the same as a ball room and threshing floor etc and we find the benches and tables almost entirely destroyed and not fit for the reception of the Courts."

Evidently the old judge's chair was not burned and was moved from courthouse to courthouse until it found its way into the clerk's office of the present courthouse.

MISS HATTIE POWELL, retired Clerk of Bulloch Superior Court, is shown here in the vault of the clerk's office searching the records for information on the ancient chair at the right. From this chair early judges of the court in Bulloch County dispensed justice. It is the first chair to be used by a Bulloch county judge. It now stands in a glass case against one of the walls in the clerk's office in the county courthouse. — Herald Photo
