Don't let your intelligence be compromised

"Don't let your intelligence be compromised," the sign says. "There's no need to be afraid. The only thing to fear is fear itself."

"But the sign is a lie!" you protest. "I thought that was the saying."

"No, no, no," you correct. "It's 'the only thing to fear is fear itself.'"

"But the sign is wrong!"

"No, you're wrong," you insist. "The sign is correct."

You both argue and argue. Finally, you decide to do something about it. You go to the sign and carefully erase the word "fear." You then write in the word "intelligence." You feel better. You think you've proven your point. But you're not sure if you've actually won.

"But the sign is still wrong," you say, feeling frustrated.

"No, no," you reply. "You've proven your point. You've shown that the sign is wrong."

You both continue to argue. But in the end, you both agree that the sign is wrong. You both feel better. You feel like you've won. And you both feel like you've proven your point. But you're not sure if you've actually won.

BUILDING A BETTER BULLOCH COUNTY

The Churches

BEFORE THERE was a Bulloch County, the founders of liberty in our free land, were constantlyexisting soulEqualizing and soul-stirring principles of the gospel of Christ as they went about caring for a living out of the new earth we now call our Bulloch County.

And those men built churches -- the first ones in 1790. Others followed until today our country has many churches blessed in beautiful sanctuaries, dedicated to the worship and the glorifying of God.

The building of a church is a great act at any time. Through it one acts to affect the total area of the individual and community life, for the church is dealing with the soul, which is mighty in affecting the physical and mental man, since it affects the source of thinking and action.

To build a church is a mighty evidence of loyalty to one's human friends, for it supplies the one supreme basis for the nature of that friendship. It is also a testimony of appreciation of the source and power of such friends -- good government, educational opportunities, and all the ministries to the sick and old and lonely.

No family can hope to be effective as a social unit or relate its qualities of love and permanence, without a substantial quantity of some religion involved in it. The church has been and is now, and will continue to be, the supreme safeguard and contributor to the home.

And in our claim of greatness for Bulloch County, all else is so nothing without our churches which are the foundation of all our strength, the heart, the spirit, the soul, the source for all our troubles, the source of tranquility for our souls, and our only hope for immortality.
