TOP PERFORMANCE:
The Shell test crew reveals five ways to test your car for top performance—and how the 9 ingredients in today's Super Shell can help you get it

1. Did you get your car properly prepared for driving?
2. Did your car perform properly after driving?
3. Did you have a proper inflation in your tires?
4. Did you keep your car in proper condition?
5. Did you have a proper fuel supply?
6. Did you have a proper oil supply?
7. Did you have a proper filter supply?
8. Did you have a proper coolant supply?
9. Did you have a proper lubrication supply?

Shell Fills gap by uncovering new possibilities. Remember that the Shell mark is your only assurance of quality and the Shell mark quality is your assurance of quality.

WHAT'S HAPPENING IN THE GEORGIA DAIRY INDUSTRY

By Bruce Evans

The Georgia Dairy Industry is one of the state's leading industries. Our farmers produce a variety of dairy products, including milk, cheese, butter, and yogurt. The industry is important to the state's economy, providing employment and income to many families. In recent years, the industry has experienced growth and expansion, with new technologies and practices being adopted to increase productivity and efficiency. The Georgia Dairy Industry Association (GDIA) is dedicated to promoting the industry and ensuring its continued success.

Dr. John H. Barnsley, Jr.

The Georgia Dairy Industry Association (GDIA) is dedicated to promoting the industry and ensuring its continued success.
