Keep Our School Funds Clean

"WHEN WE ARE to spend \$200,000,000 we ought to have some guide or formula by which to spend it, the tax money of the people of the State of Georgia."

So said Roscoe Coleman, member of the Georgia Senate from Richmond county, at a meeting of the Statesboro Rotary Club recently.

Mr. Coleman was speaking of \$5,000,000 a year for 20 years, to be spent on school buildings in the counties of Georgia.

Before making that statement he filled in the background by reviewing the history of the Minimum Foundation Program for Education which became law in 1949. Then in 1951 the program was financed with the passage of the sales tax measure, and in the same year the legislature appropriated \$5,000,000 and created the School Building Authority to aid counties to modernize their school plants and buildings. Since that time it was determined that this was only half enough, so another \$5,000,000 was made available to do more for the high school building program.

In the final days of the 1952 session of the legislature the House and Senate differed on how to spend this money. The difference was never resolved and the legislature adjourned without settling it. The next day Governor Talmadge made the money available under Section II of

the Minimum Foundation Program for Education, which simply means that the money will be spent on the so-called "hardship" basis which is contrary to the position the Senate took.

The Senate would have the funds allocated to the various educational systems under a formula prescribed by law.

Mr. Coleman believes that with the funds to be handled on the basis as decided by Governor Talmadge there's room for playing politics with the people's schools and tax money.

He believes that this will become an issue in the next election and wants it known that he is committed to "let's spend our money by law, not by a group of men."

It pleases us that our own Senator Everett Williams feels as Mr. Coleman does on the issue.

Senator Williams, who is deeply interested in the schools, not only of Bulloch county but also the schools of Georgia, feels that your money and our money should be allocated and spent according to law, a formula prescribed by law. We agree.

Two hundred million dollars to be spent at the rate of \$10,000,000 a year is a lot of money. We want to see it spent wisely and without the dirty hands of politics touching it.

With Their Support, a Better Community

Editor's Uneasy Chair

BEALY SMITH, country boy still making good in the city, was in Statesboro Tuesday with Bill Walden of Swainsboro.

Bealy is the youngest of D. C. Smith's four young sons. There is Elwin, Will, Harry, and then along came Bealy. All these Smith boys were very popular while they lived in Statesboro—and with reason. Mr. D. C. was superintendent of the Savannah and Statesboro Railway Company, the "S and S." On Saturdays the Smith boys would go out the word that they were going to Meldrim in the camp car and their friends were many.

Bealy came in and sat and talked for a spell. He wanted to see a little insurance, seeing as how he's in the insurance business, and he considers it a waste of time if he doesn't see insurance. We gave him some novel reasons why we weren't having any, so the visit went on a friendly basis.

While talking to him our mind wandered.

There was the time when we went to Meldrim with him in the camp car. It was parked on a siding adjacent, but when it comes to our young 'uns, thoughts of coat goes out the window.

Yes, Bealy's visit sent us back thirty years.

ALL'S FAIR By Jane

What is so raw as a rainy day when it comes in Jan. or Feb.? It makes you long for the first of May. When you feel like a young spring daffodil.

Why, this fog and mist, this bitter chill Gets into your bones. You seek a hot grill.

For days and days there's no letup. If it doesn't get better, just won't get up. I'll stay in bed 'til the sun comes out.

For this weather, to me, without a doubt. Keeps me sluggish and dull, and utterly weary. You'll gather with this my outlook is dreary.

We Go to Georgia Press Institute

By VIRGINIA RUSSELL

THE GEORGIA PRESS Institute, held in Athens, Ga., last week, proved to be a new and stimulating experience for this writer.

From all over the state, from cities and towns, came the men and women who provide us with news, daily and weekly.

The Press people have a professional mannerism that makes them all akin. Taken as a whole, they impress one with the fact that the Press of the state is in pretty good hands.

The program of the Institute was as varied as possible, with each speaker expressing his own convictions. All these speeches, taken one right after another, pulled me into a process similar to that which the cow follows in eating.

The speakers were from the various professions. There were the newspapermen, of course, but, in addition, there were Alexander Nunn, editor of The Progressive Farmer; Hugh Grant, former minister to Albania and Siam; Roxane Colaskie, author of "The Wing and the Thorn"; Ed Barrett, former assistant-secretary of state; Max Ways, senior editor of Time Magazine; and Ed Dodd, creator of "Mark Trail." All gave most interesting talks.

There were also workshops dealing with the problems confronting the Press today. The Bulloch Herald's editor was the moderator of the panel discussion, "What Does a Newspaper Owe Its Community?" These workshops and panels were a revelation of the present problems of the Press.

Perhaps not in the intellectual vein, but certainly enjoyed by everyone attending, were the wonderful luncheons and dinners. The gracious hosts for these were The Atlanta Journal, The Atlanta Constitution, The Columbus Ledger-Gazette, The Augusta Chronicle, and The Savannah Morning News-Press.

These delightful meals meant one thing to the men—good food; but to the women they were a wonderful reprieve in addition, a release from the drudgery of marketing, meal-planning, and cooking. Each menu differed in every two chickens and about 12 of them in a county show in August or September. These 12 pullets will be sold at auction and the money used to buy chicks for another group of clubsters next year.

After taking in the whole Press Institute and by observing and listening, I decided that Bulloch county and Statesboro can well be proud of their editor of The Bulloch Herald. His service on the committee which made all the plans for the Institute, the poise and ability which he displayed on the meeting on Saturday, and the esteem in which he is held by the publishers of the state shows credit upon us. We are proud of him.

HERO WORSHIP. Cute little Joanne Hodges of Newington hadn't missed a TC basketball game in two seasons (meaning home games, naturally). Her favorite player is Ralph Parsons. She always manages to talk to her hero after each game. Saturday night was very special. It was Ralph's last appearance with the TC team. After a close confab with Ralph, Joanne slipped away laughing. "You ought to have heard what he told me!" she exclaimed. Also, constancy is a jewel—but later on, Joanne, there'll be a parade of heroes. But it's wonderful for little girls to have shining and heroic examples to dream about!

SO MUCH IN STORE for those who love good entertainment. On Friday evening, February 29, the Milledgeville A Cappella Choir, under the direction of Max Noah, and composed of students of GSCW and GMC, will be presented at the Methodist Church. . . . And coming up on the evening of March 4 and 5, 10 and 11, will be productions of "Twelfth Night"—an outstanding event you can't afford to miss.

BETTY ANN SHERMAN, home from the University of Georgia and accompanied by one of her roommates, a vivacious blonde, who already loves Statesboro. Betty Parker, the roommate, is from Moultrie. She says Statesboro is actually every bit as fine as Betty Ann had pictured it. That makes

good listening for us, for Moultrie is a fine place itself.

I HAVE A DEADLINE to meet and what's first and worst, an appointment with my doctor, who'll probably say: "It's all in your mind." You know—you probably agree.

As ever, JANE.

National 4-H Club Week Is March 2-8

The week of March 2 will be National 4-H Club Week, and nearly 2,000,000 boys and girls throughout the United States, Alaska, Hawaii and Puerto Rico who are members of the organization will make plans for further expansion of 4-H Club work in 1952.

Georgia's 126,138 members are planning a variety of activities through "Serving as Loyal Citizens Week."

According to Miss Elizabeth Zolner, assistant state 4-H Club leader, after in many counties will officially begin the week of March 2 by taking part in 4-H Club Sunday programs in some 100 churches over the state. The 1952 State 4-H Club Council office will help conduct a 4-H program at the David Hill Barbecue in Atlanta. This service (which is under the direction of Dr. J. M. D. Newton, pastor of the church).

The night before, on March 1, the club's first meeting of the Georgia 4-H Club Council will be held at the Piedmont Hotel in Atlanta. Officers of the Council this year are: Billy Davis, Lenoards County, president; Ed Lee McDonald, Wheeler, girls' vice-president; Bill Ford, Chatham, boy's vice-president; Libby Gibbs, Hart, treasurer; and Wendell Johnson, Doolittle, reporter.

Organized protection is the forest owners insurance that the values he has built up over many years won't suddenly disappear. Fire protection is our only insurance against complete loss when we are growing trees for pulpwood, sawlog, poles, piling, and other products.

Bulloch County has had organized fire protection since 1946, and during that period since then, the small landowner has come to realize its importance in gaining his regular income from his woodlands. A brief journey on the roads leading through Bulloch County will show that lumber crops often grow right alongside row crops. Most of you have seen how uncontrolled fires in woods can reach into the fields and destroy not only crops but ground cover used to build up soil in idle fields.

Those who participate in the Bulloch County Forestry Program, however, cannot put out these fires until the fires are spotted or until we have been notified that the fires are burning. You can help by reporting woods fires by telephone to County Forest Program headquarters whenever you spot a wild woodfire. Our telephone number is 501-L.

CROP ROTATIONS PAY. It is possible to reduce soil losses from 27 tons per acre to as little as three tons per acre when cotton is planted in a three-year rotation on land with a seven per cent slope as compared with planting cotton on the same land with a two per cent slope according to soil conservation leaders.

10 4-H'ers Enter BC Poultry Chain

Ten Bulloch County 4-H Club members are again carrying on a poultry chain sponsored by Sears, Roebuck and Company.

Chicks have been delivered to Jimmy Atkins, Emmitt Alford, J. W. Smith Jr., Delmar H. Hendrix, Jimmy Ridgion, Ann Smith, Gall McCormick, Mary Ellen Ridgion, Shirley Gilmore, and Frankie Deal. These club members will raise the ten chicks and show 12 of them in a county show in August or September. These 12 pullets will be sold at auction and the money used to buy chicks for another group of clubsters next year.

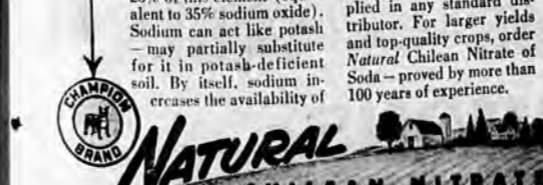

Nearly 2,000,000 4-H Club members in the U. S., Alaska, Hawaii and Puerto Rico will officially begin National 4-H Week on March 2 by attending and taking part in 4-H Sunday programs. In Georgia, these special services will be held in some 100 churches. Club members take part by singing, taking in collection, leading prayers, making talks, and in many other ways.

CHILEAN NITRATE OF SODA. This fertilizer is fast-acting, increases crop yield and improves quality of food and feed crops. It is completely available to the crop. Nitrogen increases yield and improves quality of food and feed crops. Nitrate of soda furnishes more nitrate nitrogen than any other alkaline nitrate. Sodium improves crop health and vigor.

Natural Chilean Nitrate is rich in sodium—contains 26% of this element (equivalent to 35% sodium oxide). Sodium can act like potash in many partially substitute for it in potash-deficient soil. By itself, sodium increases the availability of applied phosphate. . . . tends to have a "sweetening" effect on the soil.

Natural traces of other elements are found in Chilean Nitrate. These include iodine, manganese, copper, zinc, boron, magnesium, calcium, iron and sulfur. In small quantities, these elements are essential to proper plant or animal nutrition.

Free-flowing pellet form Chilean Nitrate can be applied in any standard distributor. For large-scale operations, order Natural Chilean Nitrate of Soda—proved by more than 100 years of experience.

Methodist Set Conference Dates

Rev. John Lough, pastor of the Statesboro Methodist Church, this week announces that the South Georgia Conference will be held at the First Methodist Church in Thomasville, June 3-7, and the North Georgia Conference at Wesley Memorial Church in Atlanta, June 17-21.

On June 25 the Southeastern Jurisdictional Conference opens at Roanoke, Va. At this session, Bishop Arthur J. Moore and other bishops of the Southeast will receive their four-year assignments in much the same manner as the pastors receive their one-year assignments at the annual conference.

Meetings of particular importance to Georgia Methodist women include the Southeastern Woman's Society of Christian Service meeting in Atlanta, February 26-28. The North Georgia Woman's Society of Christian Service will hold its annual meeting at St. John Methodist Church in Augusta, March 26-28, and the South Georgia Woman's Society of Christian Service at Cherokee Heights

Methodist Church in Macon, April 2-4. This year it will be held at San Francisco on April 23 and continue until May 6.

May 15, South Georgia Methodists will make a pilgrimage to Epworth-by-the-Sea on St. Simons Island for dedication of the new assembly building, erected as a tribute to the late Mrs. A. J. Strickland of Valdosta by her children.

After the last of the series of conferences, a full summer program will get underway for North Georgia Methodists at Camp Glasgow, for South Georgia Methodists at Epworth-by-the-Sea, and for Methodists throughout the Southeast at Lake Junaluska, N. C.

In addition to the regular conferences in Georgia during June this is the year for the Southeastern and worldwide General Conference.

How to get what you want and need in a truck

"Dodge 'Job-Rated' Trucks are the best we've ever used!"

... says PAUL CRUCE, Cruce Bulane Co., Tulsa, Okla.

"We do a lot of driving on narrow roads, in and out of driveways, in small yards and other tight spots. We need trucks that are real easy to handle, so we switched to Dodge. They'll turn on a dime!"

"We service oil wells, too, and that's the toughest off-the-road hauling there is. We need plenty of pulling power. For mud and heavy pulling, Dodge 'Job-Rated' trucks are dependable and economical to operate."

That calls for a truck in which every unit that moves the load is engineered to meet the most severe operating conditions—one in which every unit that supports the load is engineered to provide the strength and capacity needed. What's more, both load-moving and load-supporting units must be engineered to work together.

The way to get such a truck is to see us about a Dodge 'Job-Rated' truck—one that's factory-engineered to your kind of work! Yes... when it comes to your hauling job, you'll find everything you want and need in a Dodge 'Job-Rated' truck!

Time-saving performance. Low loading height on 1½- and 2-ton models and hinged center sections on stake bodies make loading easier. 5-speed transmission available on most models for more power, speed.

Power with economy. The big high-compression engine of a Dodge 'Job-Rated' 1½- or 2-ton truck operates with outstanding economy. You get chrome-plated top piston rings, and exhaust valve seat inserts.

Easy handling. Exceptional handling and steering ease is made possible by wide front tread and short wheelbase. Thanks to shorter turning diameters, you can turn sharper either right or left—back into tight places easier.

YOU SEE MORE because YOU GET MORE

No doubt about the fact you see more GMC trucks on the roads today than ever before—and the reason's no mystery.

This popularity must mean that GMC owners are getting more of the kind of performance they appreciate in a truck. Like what?

Like more horsepower. Not more than you need, but all that you need to meet exacting schedules—without relying on excessive speeds to make up the time many trucks lose when the going is rough.

Like more hub-to-hub, bumper-to-tailight stamina. Plenty of brawn in the right places—yet a GMC is a trim truck, engineered so that it doesn't penalize your pay load with dead weight.

Whether your hauling involves gasoline or Diesel power—light, medium or maximum loads—why not come in and see a new GMC? See why you get more!

The Red Mill' at TC Next Thursday

Thursday evening, March 6, will see the first full-scale musical dramatic production to be presented on Teachers College campus by the division of music.

Victor Herbert's hilarious and tuneful "Red Mill" will be given by the Philharmonic Choir under the direction of Dr. Ronald J. Neil, assisted by Miss Dorothy Stewart of the dramatic department and Miss Frieda Gernant of the art department.

The story concerns the attempt of the Burgomaster (Russ Everett) to marry his daughter, Gretchen (Joan Griffin), to the Governor of Zealand (Bill Fox) while she is in love with Captain Doree (Billy Moore). Events are complicated by the antics of the Americans, Kid Connor (Sunny Hawkins), who disguises himself at various times as an organ grinder and his assistant, Sherlock Holmes and his assistant, Dr. Watson, interpreters, and waiters. An auto crash between cars driven by a French Countess (Betty Ewing) with her son, (Rudy Mills, Ed Timmerman, Ed Mitchell, Spencer Overstreet) and lawyer Pennyfoother (George Parrish) and his daughter (Evelyn Travis) is the plot.

The sheriff (Bill Childers), William the innkeeper (Bobby Pickens), his daughter, Tina (Anne Trice) and his sister Bertha (Betty Hart) also have a hand in things.

The action takes place in the courtyard of the Red Mill Inn (the set has been designed by Bill Fox) in Holland, and the plot abounds in humorous situations.

A check for \$5,949.91 was delivered to the City of Statesboro February 21 by Sam Strauss, district manager of the Georgia Power Company. The check represented three percent of the company's gross receipts from the sale of electric power in 1951 to residential and commercial customers. The company paid Brooklet \$449.59 and Port City \$343 for 1951, under the agreement.

The Georgia Power Company's entire tax bill for 1951 amounted to approximately \$4,800,000. This does not include the Georgia three percent sales tax paid on materials and equipment purchased by the company.

The total amount to be paid under the municipal partnership plan is expected to increase from \$1,145,000 in 1951 to more than \$1,320,000 in 1952.

Answer The Call

With the simple plea "Answer the Call," the local American Red Cross this week began its annual appeal for funds to carry on its local, national, and international work.

Here, surely, is a call we must all answer generously and with a full measure of warm-hearted approval. For the call of the Red Cross is the call of suffering humanity everywhere—of human beings in need of distress across the street or across the nation. It is a call which Americans have never failed to answer.

It is particularly appropriate, too, that the Red Cross should make this appeal, because few other organizations are so much a part of American life. The Red Cross is not an organization apart from the people of this country. It is made up of the people themselves.

When it acts, anywhere, it acts in your behalf—doing what you would do if you were at the scene of disaster or at a soldier's side in Korea or Europe. It is you who make its great work possible by your gift of time and energy and money.

And it is you for whom it exists—no matter who you are, no matter where you live. For Red Cross service is available to all, freely and without question. On the simple human basis of need alone.

Answer the call of the Red Cross when you are asked to support its great humanitarian work. Answer as generously as you can.
