Let's forget for a while that Dick Russell is a Southerner.

Let's concentrate our thinking on the fact that Dick Russell is an American. Let's come to an understanding with ourselves and make it plain to the rest of the country that Russell is an American seeking the presidency of the United States as any other American from New York, Ohio, or California might seek the office. The regional tag must be lifted from him and he must become known solely as Richard Russell, American, candidate for President.

There are many Southerners still who do not realize that his candidacy is more than a mere regional protest.

His speech Friday night in Atlanta allay all doubts in the minds of reasonable men about his position on civil rights.

While it is the task of the home demonstration agent to teach the homemaker better methods and practices of homemaking, she is doing more. She is shaping farm women into leaders. In addition to learning better homemaking practices, farm women are learning to stand on their own two feet and tell their neighbors what they have learned.

The deep V neckline of the bodice was framed with a wide panel of princess lace, embroidered with tiny pearls and irridescent sequins, and the long sleeves tapered to points over the hands. The very full gathered skirt extended into a cathedral train. The circular tiered veil, in slightly more than fingertipingth, was caught to a small white orchids showered with stephanotis.
