# THE BULLOCH HERALD

DEDICATED TO THE PROGRESS OF STATESBORO AND BULLOCH COUNTY

VOLUME XII STATESBORO, GEORGIA, THURSDAY, JULY 3, 1952 NUMBER 35

## Tobacco Market Opens In Flue-Cured Belt On July 21, 5 Hour Sales

Announcement was made at Raleigh last Saturday that auctioning of this year's flue-cured tobacco crop will begin Monday, July 21, on the Georgia-Florida belt.

The opening date was set Friday of last week by the board of governors of the Bright Leaf Tobacco Association after hearing recommendations from a special sales committee.

The 1952 sales season will begin on a five hour sales per day basis, which will permit all markets to sell 2,000 piles per day each set of buyers. Pile size was limited to 300 pounds.

Last year the Statesboro market for the state in sales of tobacco when it sold 16,396,958 pounds for a total of \$6,846,985.55. This was more tobacco than had ever been sold on a Georgia market in one season.

With a new tobacco warehouse to be open this summer, the Statesboro market is prepared to handle still more tobacco this year.

Flue-cured tobacco growers will vote this month whether to continue the acreage reduction program for another three years. At the same time they will vote whether to continue to assess themselves in cents per acre to support Tobacco Associates, Inc., an organization devoted to finding foreign markets for flue-cured tobacco which is used in cigarettes.

It is expected the Secretary of Agriculture, Charles Brannan will visit July 19 for this vote.

## Nevils Has Good Homemaker Setup

Mothers and Fathers, teachers, principals, and the students themselves are helping plan homemaker programs to be carried these days. Nevils, a community in Bulloch County, is one of many places in the supervisory district of Mrs. Mary Beth Lovell, which have used community advisory committees in planning good homemaking programs.

Residents who were members of the advisory committee this year are Robert F. Young, principal, Miss Maude White, visiting teacher in Midlet League and the PTA, Mr. and Mrs. Rufus Brannen, Mr. and Mrs. O. E. Nesmith, Mrs. G. A. Lanier, Mrs. L. E. Haygood, and Mrs. R. L. Roberts.

"Since everybody benefits by good homes, we feel that an education program that is designed to promote good homemaking should take into consideration the views and welfare of all members of the family," Mrs. Lovell said.

"We find the advisory groups of great benefit to us in planning better ways to teach homemaker."

Mrs. Robert Cox is the homemaker at Nevils school.

"Our advisory committee meets with us in summer, for instance," she says, "and makes suggestions for things they would like to see included in the homemaker program. The students and I work out these plans into a homemaker program that fits the special needs of our own community and its home."

The homemaker program in Nevils included not only learning how to cook and sew, but learning better family relationships, personal improvement, home beautification, care and understanding of children, arts and crafts, home food preservation, better nutrition, and homemaker leadership.

Future Homemakers have an active chapter at Nevils, and carry on their chapter work in close cooperation with the regular school studies. Margaret Anderson is president of the PMA chapter, which has 39 members. The other officers are Betty Jane Whitaker, vice-president, Charlotte Hodges, secretary; Beverly Brannen, treasurer; Patty Sue Lanier, public relations chairman; Elizabeth, chairman and home recreation chairman; Ethel Lee Hendrix, parliamentary; and Melva Greasy, historian.

## Local Chapter Of Polio Fund Set Up

A Bulloch County Chapter of the National Foundation of Infantile Paralysis has been organized here with E. L. Anderson, Jr., as chairman.

The local chapter was organized recently when E. T. Antony of the National Foundation came here to install the chapter.

The other officers are Chairman Alderman, Vice Chairman, Norman Williams, secretary; and Joe Clements, treasurer.

Members of the executive board are Miss Ann Wilhofer, John Thayer, Jr., and Clint Anderson.

The medical advisory board is headed by Dr. Helen Reid Deal and Dr. W. D. Lundquist. Leodel Coleman and Jim Watson were named to handle public relations.

Anderson states that with a local chapter and the foundation here, treatment can be faster and more. He pointed out the funds are on deposit in the local banks and are handled locally.

He stated that if a polio case should develop in Statesboro or Bulloch County it should be reported to the local chapter of the National Foundation and the machinery for assistance in its treatment set into motion immediately.

Mr. Horace E. Ward, state representative of the National Foundation, with headquarters in Waycross, was in Statesboro last week to make the final details of the new chapter.

## So You Need Rain? Then See The Elks

So you need more rain? Well, see Dr. W. D. Lundquist, exalted ruler of the Statesboro Lodge of Elks. He can arrange it. "It's quite simple" explains Dr. Lundquist. "If you need more rain, we simply see C. B. McAllister, president of the Statesboro Pilots Baseball club and make a date for an 'Elks Night' and the Elks all get out and sell tickets to the Elks Night Game with the money going to Aidmore Hospital in Atlanta to help crippled children. Then stand by for the rain."

The night of June 14th the Elks sold enough tickets to fill Pilots Field and the game was called off because of rain. The date was moved up to Saturday night, June 28, with tickets for the June 14 date good for the new date. A daily washer rained out that game.

Now Bulloch county farmers interested in rain are urging Dr. Lundquist and Mr. McAllister to go in the rain-making business. They'll notify them when they need the rain so that an "Elks Night" can be set up.

A new date, when the tickets for the June 14 and June 28 dates will be good, will be set and announced later—when the farmers need rain.

## Where You Going To Be Next Week? Home, At Work, On Vacation? Sure?

Where are you going to be Monday next week? At home? At work? Still on vacation? Are you real sure? What makes you so certain you won't be one of the hundreds of people who will start out to-morrow afternoon after work for July Fourth long week end—and not a place back?

Not a place, thought with that to begin with. Is it? You may even be a little proud that we brought it up. Well that's all right with us. For the more you may think about this Fourth of July traffic toll that usually makes a massacre out of a holiday that ought to be for pleasure and patriotism, not going out to get killed—NOT ONE. You think it couldn't be you? That's what the 300 people

thought who were killed over the Memorial Day holiday just a month ago. That's what the 300 people thought who have died in holiday traffic in the last six years. Almost three times as many as were killed at Pearl Harbor. Half as many as have died for America on the battlefields of Korea.

How many of these 8,936 people who died during the holiday that they would never come back? Not one!

This one was just a warning paper. This one was taking his family to visit friends in Peoria. This one was merely crossing the street. Not one of them was purposely going out to get killed—NOT ONE. So you see, it could be you.

Here's the bright spot in the picture; it doesn't have to be you.

The National Safety Council, which has the grim responsibility for estimating these holiday tolls in advance says you can make your estimates look silly by merely using a little extra caution, common sense and courtesy to offset the extra holiday traffic hazards.

The council says the toll could be cut in half, or even by two thirds, if you and I would make up our minds that, by golly, we aren't going to be one of those holiday traffic statistics.

It's just that simple. Instead of saying, "It couldn't be me," just say, "It won't be me." Then act accordingly.

That's all there is to it! Happy Fourth of July! See you next week.

## Statesboro and Bulloch County To Observe Independence Day

Tomorrow, July 4, citizens of Statesboro and Bulloch County will gather at the Statesboro Primitive Baptist Church to observe Independence Day.

The program will begin at 10 o'clock with the singing of patriotic songs, a devotional, and reading of selections from the Scriptures.

A feature of the program will be a tableau depicting the growth of "The Spirit of Independence" presented by Nancy Hamilton, Cindy and Mary Emmie Johnston, Sandra Scott, Dottie Daniel, Margaret Ann Dekle, Linda Pount, Jan Gay.

Following this, the members of the Statesboro citizens will be heard representing members of the congress of 1776 as they discuss the adoption of the Declaration of Independence. These voices will be those of Bob Winburn, Bernard Morris, Joe Neville, Bernard Scott, Bill Holloway, Paul Carroll, Seaman Williams, Fielding Russell, Dekle Banks, and Leodel Coleman.

The climax of the program will come with the reading of the Declaration of Independence by Dr. Fielding Russell.

Henry McCormick will be the narrator.

A highlight of the observance will be the display of a framed copy of the Declaration of Independence contributed to the committee in charge of the program by Congressman Prince Preston.

The observance is expected to become an annual affair and the copy of the Declaration will be used each year.

## Temperature And Rain For Bulloch County

The thermometer soared up to 102 degrees on Friday of last week (June 27), and hit 100 degrees on Thursday and Saturday. It stayed in the 90's all the week. The high and low readings for the week June 22-June 29 were as follows:

Day	High	Low
Monday, June 23	93	73
Tuesday, June 24	97	76
Wednesday, June 25	98	76
Thursday, June 26	100	79
Friday, June 27	102	78
Saturday, June 28	100	75
Sunday, June 29	93	71

The rainfall for the same week was just "a trace."

The thermometer for the same week in 1951 did not hit the 100 mark, but it did hit 99 degrees on June 24.

The readings for 1951 were: On June 23 it hit 95; June 24, 99; June 25, 97; June 26, 98; June 27, 95; June 28, 97; and June 29, 97. The low for the week was 70 on June 25. There were 0.30 inches of rainfall.

## 600 Swimmers Yelp For Help As Water Gets Hot

Consider the plight of the 600 who sought relief from the 100 degree weather at the swimming pool on Wednesday last week. Consider their frustration when they dipped their toes into the waters only to find it hot enough to boil a lobster, maybe—anyway too hot to go swimming in comfort.

They set up a yelp for help. Max Lockwood, Recreation Center Superintendent, who thinks only of the comfort, pleasure, welfare and happiness of those who come to Memorial Park, solved the problem quickly.

On a rush call he secured three-hundred blocks of ice and dumped them into the warm waters of the pool from time to time.

In minutes the ice dumped into the pool was melted.

But the waters of the pool were kept cool enough that the 600 were made happy.

"And we gotta keep 'em happy" allows Max.

The prizes were awarded by the Standard Oil Company of Kentucky.

# The Declaration Of Independence

Tomorrow is The Fourth of July.

This day 176 years ago, July 4, 1776, The Declaration of Independence was adopted by the Continental Congress in Philadelphia. It was signed by John Hancock as President and by Charles Thomson as Secretary. It was published first on July 6 in the Pennsylvania Evening Post. A copy of the Declaration, engraved on parchment, was signed by members of Congress on and after August 2, 1776. On January 18, 1777, Congress ordered that "authenticated copies, with the same names of the Members of Congress subscribing the same, be sent to each of the United States, and that they be desired to be put upon record." Authenticated copies were printed in broadside form by Mary Katherine Goddard in Baltimore, where Congress was then in session.

Tomorrow morning (Friday, July 4) at 10 a. m. in the Statesboro Primitive Baptist Church there will be a public observance when the Declaration will be read. Believing that there is a new interest in this document we publish it here in full.

WHEN, in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain inalienable Rights, that among these are Life, Liberty, and the pursuit of Happiness. That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed. That whenever any Form of Government becomes destructive of these ends it is the Right of the People to alter or abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But a long train of abuses and usurpations, pursuing invariably the same object, evince a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security. Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpation, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.

HE has refused his Assent to Laws, the most wholesome and necessary for the public good. He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained, and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.

He has called together legislative bodies at places, unusual, uncomfortable, and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures. He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.

He has refused for a long time, after such dissolutions, to cause others to be elected; whereby the Legislative powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the meantime exposed to all dangers of invasion from without, and convulsions within.

He has endeavored to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands.

He has obstructed the Administration

of Justice, by refusing his Assent to Laws for establishing Judiciary powers. He has made Judges dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries.

He has erected a multitude of New Offices, and sent hither swarms of Officers, to harass our people, and eat their substance.

He has kept among us, in times of peace, Standing Armies, without the Consent of our Legislatures.

He has affected to render the Military independent of and superior to the Civil Power.

He has combined with others to subject us to a Jurisdiction foreign to the Civil Constitution and unacknowledged by our Laws; giving his Assent to their Acts of pretended Legislation: For quartering large bodies of armed troops among us; For protecting them by Mock Trial from punishment for any Murders which they should commit on the Inhabitants of these States; For cutting off our Trade with all parts of the world; For imposing Taxes on us without our Consent; For depriving us in many cases of the benefits of Trial by Jury; For transporting us beyond Seas to be tried for pretended offenses; For abolishing the free System of English Laws in a neighbouring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies; For taking away our Charters, and altering fundamentally the Forms of our Governments; For suspending our own Legislatures and declaring themselves invested with power to legislate for us in all cases whatsoever.

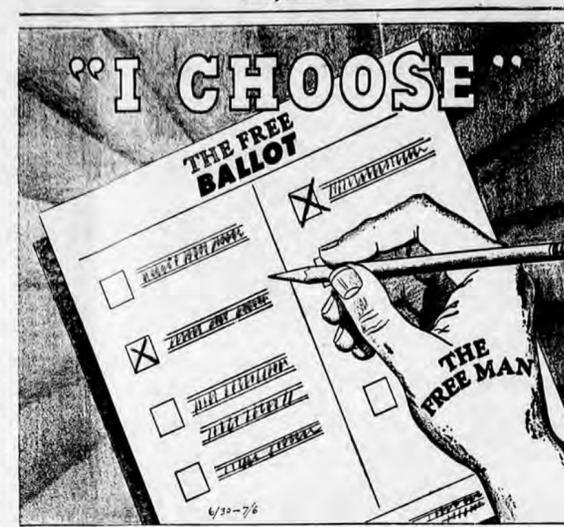

HE has abdicated Government here by declaring us out of his Protection and waging War against us.

He has plundered our seas, ravished our Coasts, burnt out towns, and destroyed the lives of our people.

He is at this time transporting large Armies of foreign Mercenaries to complete the works of death, desolation and tyranny, already begun with circumstances of cruelty and perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation.

He has constrained our fellow Citizens taken Captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands.

He has excited domestic insurrections amongst us, and has endeavored to bring on the inhabitants of our frontiers, the merciless Indian Savages, whose known rule of warfare is an undistinguished destruction of all ages, sexes, and conditions. In every stage of these Oppressions, We have Petitioned for Redress in the most humble terms. Our repeated Petitions have been answered only by repeated injury. A Prince, whose character is thus marked by every act which may define Tyrant, is unfit to be the ruler of a free people. Nor have We been wanting in attention to our British Brethren. We have warned them from time to time of attempts by their legislation to extend unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which de-

## Editor's Uneasy Chair

So your Herald was late last week. Well, you're lucky you got a Herald at all. Our doctor jerked us off our feet and put us flat as a pancake with a bottle of capsule gold. "The Virus" he loosely termed it. "Take this," and he wrote out doctor's hieroglyphics on a prescription blank. But, ha, ha, I got it on him. I didn't stay in bed—not all the time, that is. I got up and came to work long enough Wednesday to see that the boys were getting along fine without me, and that the paper would come out, if it were late.

And thanks to Billy Gerrard and C. J. Jackson, Jr., your Herald DID get out. And we didn't carry the temperature readings last week. We were plain decided that too much had already been said about the heat and you couldn't do anything about it anyway. We received commendations for our editorial last week about the state of sportsmanship at Pilots' Field. A. M. Seligman is taking, in stride, a lot of kidding from "the boys" over his forthcoming wedding. We got a preview of the future Mrs. Seligman's photograph, and she's pretty. Our neighbor, Aaron Halowitz, went to the beach last week and just like all other young folk, blistered to a turn. His wife says, "A smart boy, he is." We chided him about it, but he just rattled on his cigar. Oh well, it doesn't bother him, it can't bother

us. Heard of nobody trying an egg on the sidewalk yet. Going the rounds—A man in Chicago was grubbing about the heat. Said another, who had just returned from a trip through Bulloch county. "Hot, you don't know what hot is. One day this week in Bulloch county I saw a dog chasing a cat and they were both walking." Oh well, we're sorry. A wise man, Auerbach, by name, says of the weather, "we consider it tedious to talk of the weather, and yet there is nothing more important." And he's right. We who live in this agricultural section live by the weather. And so 'tis no laughing matter. But your Herald will bear it to make jokes about it.

## ALL'S FAIR . . . . . By Jane

OUR PEOPLE do travel. Sitting around the table at the Waldorf Floyd, Sr., Virginia Lee said to Jackie Zetterover, "Let's go to California." Just as casually as I would have said "Pass me the butter, please." Waldo and Joanne were there. Each came up with suggestions. Waldo said, "I have a good friend in Seattle. Joanne had a relative who owned an enormous sheep ranch in Albuquerque, New Mexico. Jackie had to ask Mother and Daddy. Result—Wednesday the four of them were westerly bound, but the last I heard was that they went as far as Seattle, they might go to Canada, and certainly anybody would not enter North West Canada without visiting Lake Louise, one of the most beautiful scenic spots in the world. Finally, they are coming back through Yellow Stone Park and stop over in Chicago during Con-vention time, for after all Joanne was formerly a Peterson, and Hugh Peterson married Dick Russell's sister, and well Joanne wanted to see the freewheel and when she got on Dick Russell. They're going to Los Angeles and San Francisco.

Next I picked up a card from Ann and Bert Ramsey, Postmarked, Gallatinberg, Tenn. I simply turned green with envy. "Our hotel here is lovely, the mountain scenery BEAUTIFUL—Food is better get on home and help the Statesboro Pilots get a move on. In the meantime they're missing the torrid weather and when we have here. Why go to Hot Springs when you can sweat it out here." The Charlie Gillett's and the H. P. Jones have come in from a two week's trip to Hot Springs. And two up and coming high school students, James Bland and Bobby Donaldson have just returned from a trip which included Washington, D. C., and Princeton University. In Franklin, Britt and Carlene, their children, Happy and Pluffy, the dog and the cat went to the coast. Contentment Bluff for a week. Our business woman, Ann Wilford was Boston bound June 25 to attend the National Business and Professional Women's Club convention in the city of baked beans, cod fish and my favorite delicacy.

It's been tough luck for Shirley Lanier. Only a few more weeks to go to finish up a bit of work she needed before getting her degree from the University of Georgia, and with her wedding to Avant Daughtry scheduled for August, she has a virus attack, diagnosis jaundice. And back to her work at Georgia, her last report she showed a straight A's. For Shirley we are wishing her happy days. There was excitement in the L. M. Durden household this week. Beginning with Lorena's mother-in-law, Mrs. E. W. Bowman of Port Valley coming to see her and the children Lee and Lyn, before they left Tuesday on the Silver Meteor for New York City where Lorena has to attend Orientation classes at Fort. Hamilton before she and her children sail for England where Lt. Dick Bowman is stationed. Then, during the week end all of the Durdens and Winnie Durden's people who live in Savannah went to Savannah Beach where they all honored Lorena Bowman before she left for Eng-land for perhaps three years. And speaking of the Durdens reminds me that in the Sunday Magazine section a week ago, the picture of a home decorated throughout. Come to think of it I don't believe

## Summertime Is Daily Vacation Bible School Time

VIRGINIA RUSSELL

Among the best things that summertime brings in my opinion is the Daily Vacation Bible School. If there are young children around your house and they attend you believe in it, too. The sweet music of a very melodious voice attracted my attention. I followed the sound and from an upstairs window saw our five-year-old walking up and down the hot sandy street in front of the house, and in the middle heat she carried a borrowed umbrella over her head, not so much to keep off the scorching sun as to enjoy the novelty of the umbrella. (She had never held one before, or even been under one—we don't own an umbrella at our house.)

We sang this young one sang was the thing that caught my heart strings: "I've got the joy, joy, down in my heart, down in my heart today." This vigorous singing was the result of Bible School.

Bible schools started in the various churches soon after school ended. From all reports, one gathered that each church testified, over the results of its own school. Certainly we need to feel gratification over the efforts made and the objectives attained by our different churches. Perhaps this feeling came to me after hearing a talk on the radio, a talk on religious instruction. I tuned in late, so I don't know who the speaker was. And I fruitlessly searched for a pencil to take some notes.

The talk, however, was about the religious training of children. According to the statistics offered by the speaker, I learned that Jewish children receive the most hours of religious training a year, the Catholic next, and the Protestant, lagging far behind, came last. With this talk in my mind I felt extremely grateful for our Bible schools, where the children given spiritual training.

The entire program each year is built around some biblical theme, and the children learn by doing. There is usually a story from the scriptures, the teacher telling the story and the children discussing it together. Sometimes they may act the story out. There are also workbooks for all ages, each child working on some phase of the Bible story. For instance, the Negroes, after hearing about God's creation, take their scissars and cut out fishes, animals, stars, all those things mentioned in the story.

The child is encouraged to say a prayer daily, and he learns to sing with his group. Together they talk about, talk with, and sing to God. Our children, the American children, are probably the best cared for children in the world. They receive the best medical care; they are offered the best diet; they receive clothes comfortable and attractive in fit and design; they are accorded rich opportunities in education.

But by far the most important side of their lives is the spiritual. So it is most encouraging to find the churches, all denominations, both white and colored, working out their various programs for reaching the spiritual lives of our children.

The Bible School workers give their time and talents to the children. There is no compensation except the joy of seeing their charges grow in spiritual stature. So when we all get to heaven, let us look out for the crowns, most likely Johnny started. I bet they'll belong to the Bible School workers. But until then let's say "Thank you" for the Bible Schools and to those who work in them.

Then there's Mrs. L. D. Collins (Merle) and her son, Durden, will report on July 6 to Anchorage, Alaska. And the fine black haired boy who occupied our back room as he played shortstop for the Statesboro Pilots when they were members of the Ogechee League, Danny Murphy, who finished at Tybee, and I might add current Heart Beats. Yes, my last count on the young people at Savannah Beach totaled 45, not counting those who are using their cottages down there for the summer, or the chaperones—no, cooks would be a better word.

And for the support of this Declaration, with a firm reliance on the protection of Divine Providence we mutually pledge each other our Lives, our Fortunes, and our sacred Honor.

## Hear Declaration Of Independence

Hear the Declaration of Independence read at a special observance of the Fourth of July at the Statesboro Primitive Church Friday morning at 10 o'clock.

A one hour program has been arranged in which Statesboro citizens will take part in dramatizing the signing of the Declaration. The document itself will be read as a climax of the program. Take time out on Independence Day, Friday, and renew your faith in the document upon which your American Way of Life is Founded, 10 o'clock Friday morning, July 4th. Be there. Your neighbor will.

## Bulloch County FARM NEWS

Hot weather is subject of discussion at West Side and Portal Farm Bureaus.

Hot weather was the subject of discussion at the Farm Bureau meetings last week at West Side and Portal.

The West Side group brought in the Moonlight Hillbillies for their program on Tuesday night. Members of the band willed down considerably under the heat but did entertain some 250 present for about 20 minutes.

That band is composed of Walter Smith, Ruel Johnson, Roger Bedlock, and Tommy Hendrix. R. P. Mikell, county president asked the West Side members to keep in mind the need for the increased dues starting this year. Mr. Mikell pointed out that the demands were stronger now than ever before on the Farm Bureau for activities and that the present funds just did not permit the state organization to function up to its demands. The money just will not go as far as it used to when the dues were set at \$3. Inflation hit the Farm Bureau just as it has other business.

C. M. Cowart, the Portal president, urged the some 250 present for their meeting on Thursday night not to worry too much yet about what the price of cotton might be this fall. He pointed out that legislation calling for a better support program would add about \$17.50 more per bale on cotton than the present program calls for. This legislation has passed the House but had not passed the Senate as of last Thursday.

Both of these groups served a barbecue supper, despite the hot weather. Edwin Banks, the West Side president, pointed out that it is almost impossible to serve anything else to such a large group and within any degree of right on the amount of food to prepare.

The Ogeechee Farm Bureau will hold its July meeting tomorrow, last week, the first directors' meeting since he was named president of the state organization.

While in Atlanta Mr. Hodges was informed by the State Highway Department that a section of

the Oliver-Statesboro road and the Bulloch-Screven bridge on the Ogeechee River at Rocky Ford was set up for early letting to contract by the department. Mr. Hodges stated that the bridge has just been set up for the paving of a portion of the old location of U. S. 90 in Stillson, Brooklet and Portal and a section in Nevils from the school to the business section to connect with the post road from Brooklet.

Mr. Hodges thinks, from his discussion with Jim L. Gilie, highway board chairman, and J. O. Bacon, district engineer, the Oliver-Statesboro road paving and the bridge at Rocky Ford will be in the Highway Department's July contract letting.
