ROTTATION GRAZING Dairy specialists at the University of Georgia Agricultural Extension Service strongly recommend rotation grazing for dairy cows. They point out that, in practically every test on the value of rotation grazing, dairy cows have responded with an increase in milk when grazed on a new area, although there is little difference in this area as far as humans can tell.

Preston says 'very horror' of H-Bomb may act to prevent a third world war Representative Prince H. Preston said in an address in Savannah, April 20, that the "very horror" of the hydrogen bomb may prevent a third world war because "the threat of massive retaliation that we have promised may well give pause to the most powerful despots and cause him to refrain from unleashing the fury that would, inevitably, be visited on his people and probably on himself."

The Congressman stated that he had supported measures to provide a great radar network to give warning of an air attack, and appropriations for an adequate air force. He pointed out, however, that "There is no known defense against this terrible weapon" and recalled that the Air Force admitted it "could only intercept a fraction of any mass flight of planes intent on bombing our cities."

"It seems to me," Mr. Preston told his audience at the Kiwanis Club, "that in this hour of mortal peril we individual Americans must once more look to our own resources, our own ingenuity, and our own God to examine our faith and courage in this time of danger."

The First District representative likened the present danger of hydrogen bombs to the night of pioneer settlers in the face of surprise Indian attacks, when the pioneers were on their own with no federal soldiers or local militia to defend them.

"Sudden Indian onslaughts on wilderness outposts brought absolute destruction and death to pioneer settlements as surely as the hydrogen bomb could bring desolation to our cities today," Congressman Preston said.

"Let me suggest that as we pray for guidance for our leaders to channel our terrible power into peaceful objectives," Mr. Preston concluded, "that we pray just as fervently that God may revive in us the qualities of faith and courage that enabled our ancestors to contrive means of survival and progress amid the deadly perils that surrounded them for so long."

A full color 16mm sound film of the explosion of the first hydrogen bomb in the Pacific Ocean was shown to the group at the conclusion of the Congressman's remarks. This film, just released by the Civil Defense Administration for restricted showing to civilian audiences, was made under the name of the Atomic Energy Commission on Atomic Energy.

This complete technician reproduction of the hydrogen explosion, which was scheduled for May 12 at the Forest Heights Country Club here, The championship flight will be 72 holes medal play and the other flights will be match play.

Last year's tourney consisted of four flights but it is expected that enough players will qualify this year to make up five flights. Jerry Thomas of Savannah defeated Carl Griffin, also of Savannah, last year for the tourney championship.

Originally this year's tourney was set up for all five flights to be match play, but after consideration it was decided that the championship would be medal play.

All golfers interested in entering this tourney should contact Charlie Robbins in Savannah. They should include their average score of club handicaps with a \$5 entrance fee which cover the Saturday night buffet supper.

The answer lies within each of us

"The very horror of the Hydrogen Bomb..."
"The threat of massive retaliation..."

There is no known defense against this terrible weapon...
These words and phrases and others of similar import are turning up daily in newspaper editorials, in speeches, in sermons, in news releases.

The impact of the significance of these words and phrases on the citizens of our nation and the citizens of other freedom-loving nations is terrific.

Representative Prince H. Preston used them in an address in Savannah Tuesday of this week, bringing them closer to us than they were as they appeared as having been uttered by others farther removed from us.

And Representative Preston had an answer. It's not a new one. It's one that has been offered from the pulpits of every church in the country by preachers of every faith practiced by our people.

"It seems to me," said our Congressman, "that in this hour of peril we individual Americans must once more look to our own resources, our own ingenuity, and

A spring offensive must be started soon

The skies are clear and quiet these days.
It's still cool and pleasant outside in the late afternoons.

There's comparative peace. But soon the peace will be broken.
The skies will still be clear and they'll still be quiet.

But it'll not be cool and pleasant outside in the late afternoons. There'll be little peace. For the peace will be broken. We'll be under air attack.

It's aggravating to homemakers on N. College

They don't really mean to do it.
They don't realize the damage they are doing.

They're just plain being boys. But it's sort of aggravating to those homemakers who take the time, the trouble and go to the expense of setting out small dogwood trees along the sidewalks in front of their home.

The complaint along North College street is that boys of school age ride along on their bicycles and knock off the foliage and limbs of these small trees. Or they

Happy birthday and many more

Last week the Bulloch County Bank observed its Twentieth Anniversary.
There was no big celebration. Business went on just like it did today, just like it did last month.

Life—a surprise

where there's a husband

by VIRGINIA RUSSELL

It would seem that three boys in one household should be enough for one woman where camping out and scouting is concerned. But not so in this household. The Papa has reverted or is entering his second boyhood or something.

Such a commotion as went on around here before the young man took to the woods would cause the strongest to fold up.

"Where's my mess kit?" the newly-made young roared. The mess kit he was asking about was one he brought with him from his boyhood days. It has been years since he has used it and that many since he's seen it. He ended up using a son's for a substitute. (He lost the handle and we dread to hear the result of that when the son discovers his father's carelessness.)

It wouldn't be wise to quote the rest of the conversation that took place in getting ready for this great event. But we will admit we felt great relief when Dr. Leland Wilson and Prof. Jay Folds did us to take away our scouters. In expressing our concern over the rain and the "little" boys sleeping on the ground, Dr. Wilson assured us that Dr. Wilson was going to share his trailer with our husband. We took a look at the width of the trailer and laughed. It was obvious that he had never encountered such a bed-fellow as he was going to encounter that very night.

The purpose, we should tell, for this escapade was the drawing to a conclusion of a Scoutmaster's Training Course. The men that made the scouting trip were Mr. Ed Tally, Mr. John Gee, Mr. E. T. Mullis, Dr. Stubbs and his brother, Mr. Stubbs, Mr. Rep. DeLoach, Mr. J. Folds, Mrs. L. A. Scraggs, Dr. Leland Wilson and Fielding Russell.

Sunday morning found the men returning bright and early for Sunday School, they said. We bet they were glad for Sunday School. Nevertheless, the "little boy" returned as full of enthusiasm, right at first, as when he was leaving.

"Honey, you should have tasted our supper." He went into great detail and told how the food was placed in tin foil and baked in the ashes. It was the best food he'd eaten in many a day. "And we ate it right out of the tin foil; no dishes to wash," he explained. "Yes, I leave it to a man to figure out a way to eat without washing dishes we thought."

After a full description of the evening's schedule including the telling of how much better their supper was than the other patrol's supper (the men divided themselves into two groups) he got to breakfast. (It was an early meal, we gather. Those sore bodies were ready to rise before dawn, we bet.) Breakfast was the best meal of the course, because our little boy made pancakes. (Our children would at least agree with this. They think their Daddy can make better pancakes than the best cook alive.) Well, at last the Scouters took himself off to shave himself. We noticed he didn't even grumble about his weekly bath.

He got through Sunday School, church, and dinner before he fell into the bed. When we woke him late in the afternoon he said "You know we have grown soft—yes, civilization has made us so soft."

"What do you mean?" we asked. "This bed is the finest thing we've felt in many a year," he replied. (It was an

We hope he's had his fill of camping out—but we wouldn't be shocked to hear any day "Who's a Hankie I could take camping?"

But that's the fun of being married. Life is certainly full of surprises when a woman has a husband.

So your paper boy was a little late this morning? Well, could be there's a reason over which he has no control. We saw curs trying to peddle through a mess of dogs on our side of town Monday morning. Five dogs were loose, and they were as frisky and yapping dogs as you've ever seen.

We have a surplus of dogs on our side of town. How about your side of town?

And while we're on this subject of dogs, we saw in Sunday's newspaper where a veterinary recommends giving dogs sleeping pills for their health. That makes sense. Sleeping dogs don't howl and yap all night. There should be a good sale for sleeping pills for dogs here.

He didn't know whose car it was. But there it was parked with the parking meter glowing red. Officer Henry Anderson was there about to make out an over-parking ticket. Joe Zetterower came along and slipped a couple of pennies in the meter before Henry had a chance to make out the ticket.

It then came out that the Christmas-time Henry saved many a citizen of Statesboro and Bulloch county, and out of the county visitors.

A motion picture on the life of the people and animals in the Congo River Basin of Africa was a part of the Register program. Bulletins summarizing the work of the state five-acre cotton contest over the past seven years were given to those present at all the meetings.

Miss Shirley Groover was alternate queen at Warnock Wednesday night.

The talent program also featured two other skits played by Mrs. Turner, Billy Simmons, J. P. Folds and Mr. and Mrs. J. N. Albin.

W. C. Hodges and W. A. Hodges, members of the rural telephone cooperative board, advised the members at Register, Thursday night, and Ogechee Tuesday night, that the staking crews were moving along nicely enough with the lines. When they have finished about one-third of the proposed lines, bids will be procured on the actual construction. Mr. Anderson and Mr. Hodges both expressed themselves as being well satisfied with the progress the rural telephone program is making now.

Uneasy Chair

Register, Georgia
April 4, 1954
Editor Bulloch Herald,
Statesboro, Georgia.

Dear Lode: As of recent date the City Fathers of the county of Bulloch county have begun to beat their drums against the non-insertion of coins in the parking meters. Let me say this, everytime they do, I criminate against the better judgment and purchasing power of the people of Bulloch county, especially the farmers, then these same misinformed members of the Statesboro city council are cutting the throat of the city and county that feeds them.

Almost every farmer that tills the soil of Bulloch county spends almost their entire life savings with the merchants of Statesboro. On my farm for fifteen to twenty thousand dollars worth of farm products a year, as it has been ninety-one percent of my income has been spent right in Statesboro with a wide variety of merchants.

On the installation of parking meters of Statesboro, the people of Bulloch county were forced to pay a tax whether or not they were in town to borrow or spend, just for the privilege of breathing the atmosphere of the Statesboro. This is no worse holdup than all the slot machines and the arm bands ever constructed, what's more, these slots have the law to back them up.

The citizen of Bulloch, when he has spent his dollars with the merchants of Statesboro, and has forgotten to keep an ever-flowing pocket of change ploped into the parking meters, he is served with a little blue invitation to visit the city hall, this place of huge helping of indignation on the part of the city and county.

For one rebel, and question the parking meters from the standpoint of good reason and government, and whether or not the forced donation will prove lucrative for the merchants of Statesboro, or end up by driving business to other towns.

I enjoy your paper very much. We include in our Uneasy Chair. Here it is.

—H. V. FRANKLIN SR.

IT SEEMS TO ME... Max Lockwood

With the news of war and the hydrogen bomb controversy filling the papers, the report from accidents, murders, crimes and unpleasant stories that fill everyday lives we somehow seem to forget that there is so much goodness in the world. Even when we look at the facts and figures, we somehow seem to forget that there is so much goodness in the world.

Today, here in America we live a prosperity and a happiness in the life of the people that is unknown in any other human history. We have beauty, greatness, security, and the freedom to enjoy all that God has given us. We have been blessed with great natural resources and have built a civilization that is the envy of the living world.

Sometimes without thinking we find ourselves accepting the little unpleasant reports and the cruelties that exist from day to day as a code that represents the American way. We ask ourselves, what's wrong with America when all we need to do is look around us and see the greatest country with the biggest hearted people in the world. We in this country don't lose ourselves. We know there is much to be desired, that we know that there are things that we could do better and will do better, we know that we are far from what God would have us be—but still—I'm sure that God must look down on America and smile and give credit for the great accomplishments that have been our heritage across the pages of history and time.

If you are one of those looking for goodness in our American way just stand where you are and look around—look at the church steeples that lift their spires clear up to the gates of heaven itself, look at the people who pass you on the street and think of their happy smiles and their families. Think of their freedom to enjoy the great liberties that this country offers all of those who are fortunate enough to call themselves Americans.

Sure we have the evil. Sure we have the unfortunate. Sure
