ALL'S FAIR - SOCIETY - PERSONALS

ALL'S FAIR By JANE SOCIALS Mrs. Ernest Brannen Society Editor Phone 212 PERSONALS

make a long story short, the house is completely modernized and absolutely charming. Marguerite's planning and good taste is reflected throughout the home. There are lovely bits of unique and some antique pieces that lend personality and beauty to the home. And yes, the brick work went on until the entire house is bricked. So when you man folks present your wife with a gift, be sure she doesn't have to build and remodel the house to take care of it.

A PRETTY GIRL who works in a very important building down town has received a pretty clothes and take a long rest. . . . Day can swing in swings, and see movies free; even watch television that way.

IN CONVERSATION with R. T. Moore one day last week I learned that her son, Sgt. R. T. Moore Jr., who by the way, is six feet-six inches tall, is stationed at Camp Stewart. His wife and child live with him at Stewart. R. T. was in Nevada and stayed through the atom bomb test. He told his mother, that it wasn't funny. Your plane takes off in seconds not minutes. But for one who likes fire works, the games, Coca-Cola and ivy were arranged to form the background.

Miss Frieda Gernant received grass plaques for high school, every one can read and rite. Mathematics still come hard but you should see 'em rite. . . . Over problems about such things as how much I'd and why? . . . Seems to me I'd purr near die. . . . Makes you wonder how you made it just finish, fourth grade. And we ain't never fussin' too how much we git paid.

As ever, JANE.

MOTHER-DAUGHTER BANQUET

On Wednesday last week the annual Mother-Daughter Banquet for the members of the junior and intermediate girls' auxiliaries and their mothers, was held at the First Baptist Church.

The tables were beautifully decorated with pink, Dorothy Perkins roses and trailing green vines.

Mrs. Nina Sturgis rendered a program of music during the banquet.

This was followed by an interesting program.

We'd have told off the roost-lans in no uncertain terms. . . . And there'd be no talk about them a-scatterin' germs.

O, there's lots a things that I could set right. . . . But it's nigh on to supper time and I ain't had a bite. Now scusing dis here rhyme which Jane told me to rite. . . . Hit ain't no good, but it tuck a half 'n'ight.

This ole machine ain't half as smooth as ole time crepe de chine. . . . Here after I'll let the lady do the rite. . . . I'll take mine out in hard work and fight'n.

WELL, AFTER THIS long and sad statement of the times, I'm afraid there is not much room left. However, I've been thinking for some time about a story I ran into when we had the big fire on South Main street in front of Mrs. Bryant's kitchen. I wouldn't go near the fire because I was afraid of an explosion.

Marguerite came out of Charlie's office door and invited me to come in. And here comes the part that all men should pause with care. Last Christmas, Charles gave Marguerite a television set for her Christmas gift. Marguerite was happy and yet she was stumped.

"Where shall I put it?" she moaned. But for long, because Marguerite gets ideas no sooner said than done. A room must be added to accommodate the visitors who might trail all over her living room rugs. She called in Seab Proctor and they figured how a room could be made by taking off the carpet and making a room there.

The room was wide, and she wanted it deeper for T-Veening.

The work was done with brick walls and finally after a bit more figuring, the addition should run the length of the house and give Lavinia a separate den for her record players, her magazines, and all the plunder a high school girl collects. And I want you to know that a new kitchen just fitted naturally into the plans.

A kitchen with a snack bar with saw-horse chairs designed by Marguerite and hand-crafted by a local man. To

Following the ceremony, a reception was held. The bride's table was overlaid with a lace cloth and centered with a three-tiered wedding cake topped with a miniature bride and groom. The cake was encircled with white roses, flanked by candles in candelabra.

Later in the evening Mr. and Mrs. French left for a wedding trip to Florida. For traveling, the bride wore a chartreuse suit with black and white accessories. Her corsage was a white orchid. Upon their return, they will make their home at Raymond, Miss., where Mr. French will attend college.

MISS HELEN ZETTEROWER, daughter of Mr. and Mrs. Charlie William Zetterower, whose engagement to James Blackshear Harley Jr. of Waycross, was announced last week. Miss Helen will attend college.

COLLEGE BOYS AT HOME

From Tech: Frank Williams visited his parents, Mr. and Mrs. Everett Williams; Sammy Franklin visited his parents, Mr. and Mrs. Sam Franklin; and Frederick Dyer spent the weekend with his parents, Mr. and Mrs. Byron Dyer. From Emory: Jere Fletcher spent the weekend with his parents, Mr. and Mrs. Perry Kennedy Sr.

MRS. PAUL LEWIS FETES MUSIC PUPILS AT PICNIC

On Friday afternoon Mrs. Paul Lewis entertained her piano pupils with a picnic at the Recreation Center. Games were played in the park and later they saw a movie. Assisting Mrs. Lewis in serving and entertaining were Mrs. Shields Kenan, Mrs. Strick Holloway, Mrs. Charlie Howard, Mrs. Byron Dyer, Mrs. Jones Lane and others.

HOUSE PARTY AT BEACH

Spending the weekend together at Mrs. Frank Grimes' home at Savannah Beach were Mrs. Cecil Brannen, Mr. and Mrs. Bob Donaldson and son, Bobby, from the University of Georgia; and their daughter, Dot; Mr. and Mrs. Claud Howard and sons, Cecil and Arthur; and Mr. and Mrs. James Bland. They were joined Sunday by Misses Dorothy Brannen and Elizabeth Sorrier who were in Atlanta Friday and John Deal, Mrs. William Saturday.

FOR ATHLETE'S FOOT

Keratolytic action is a must! T-4-L, a keratolytic fungicide, sloughs off infected skin to reach and kill germs and fungus ON CONTACT. If not pleased in 1 HOUR, your 40 cents back at any drug store. Today at FRANKLIN DRUG CO.

When the Congress of the United States passes an act and it is signed by the President, it becomes the law of the land. Most people respect it. But alas and alack! there are always some who wish to circumvent the law; question its intent; distort its purpose.

The Flood Control Act passed by Congress in 1944 provides PREFERENCE to electric cooperatives and public bodies to power generated at federally constructed power projects. Such projects are scattered all over the nation and the power generated is being handled under the ACT OF CONGRESS. In Georgia the great CLARK HILL project now turns out millions of kilowatts of electricity. Under the LAW, this electricity belongs to the cooperatives and public bodies but the power trust seeks to claim and acquire for its selfish use benefits which have been computed as being in the proportion of 10 to 1. This is not right. OUR NATURAL RESOURCES BELONG TO EVERYBODY.

With Our Armed Forces

PRIVATE CHAS. HARRIS, son of Mr. and Mrs. George Mallard of RFD 3, for duty with the 84th Engineer Construction Battalion. He entered the Army in April, 1953 and completed his basic training at Camp Rucker, Alabama.

PRIVATE JAMES HARRIS, son of Mr. and Mrs. J. J. Harris, for duty with the 84th Engineer Construction Battalion. He entered the Army in April, 1953 and completed his basic training at Camp Rucker, Alabama.

PRIVATE WILLIAM R. HOWARD, son of Mr. and Mrs. D. J. Howard, for duty with the 84th Engineer Construction Battalion. He entered the Army in April, 1953 and completed his basic training at Camp Rucker, Alabama.

PFC. CURTIS P. CLAXTON JR., whose parents live at 230 Walnut street, Statesboro, is serving with the Korean Military Advisory Group. American military personnel assigned to KMAAG advise Republic of Korea Army units in training. This group played an important role in the build-up of the South Korean forces.

PFC. JOHN D. JEFFCOAT, son of Mr. and Mrs. D. J. Jeffcoat, Palaski, Ga., recently arrived in Germany for duty with the 2nd Armored Division Private First Class Jeffcoat, whose wife, Robbie, lives on Route 3, Lyons, Ga., is a member of the 57th Tank Battalion. He entered the Army in February, 1953 and completed his basic training at Camp Pickett, Va.

EUGENE MCCULLOUGH, son of Mrs. Henry McCullough, RFD 4, Statesboro, recently was promoted to sergeant while serving with the 49th Engineer Battalion in Korea. Sergeant McCullough is a welder in Headquarters and Service Company of the battalion which maintains supply roads in the Eighth Army sector. He entered the Army in November, 1952 and arrived overseas six months later. His wife, Carrie, lives in Portal.

OUR SOIL

Some excellent stands of bahia and sericea have been gotten by Ogeechee River Soil Conservation cooperators in the county. Mr. W. R. Newsome near the airport planted about 30 acres in the spring on very sandy land and the bahia and sericea are looking fine.

John Akins out Westside way has a very good stand of bahia and sericea on a big new ground area he cleared this spring. The sericea seems to get an earlier start than the bahia but the bahia will come. John also got a fine drainage ditch cut before the rains in a very good time indeed to prevent water standing on his corn. I notice several places around the county where drainage ditches would certainly pay off. An acre of corn or other crop drowned would pay for the ditch in one year.

Mr. Harold Zetterower of Denmark is building a pond on his farm. He is using a natural

look at all the Advantages of owning a **Silent Flame Tobacco Harvester**

SAVINGS IN LABOR OF 50% AND MORE . . . With this tobacco harvester you can easily cut your tobacco harvesting costs in half. In many cases you can do even better than this. With a crew of only seven people it is possible to harvest two acres in a day! Think of the money you could make.

RIDE IN THE SHADE . . . No stooping or bending . . . workers that are more comfortable work better and do more. Primers sit in seats and pull the ripe tobacco from the stalk without stooping or bending. Loopers ride on the leaf holders on this harvester faster than they can taking it from handlers.

ECONOMICAL TO OPERATE . . . The Silent Flame tobacco harvester will operate all day on about \$1.50 worth of gasoline. Because the machine is ruggedly made it will have practically no up-keep.

ELIMINATES NEED FOR TOBACCO SLIDES OR TRUCKS . . . No longer will you have the extra expense of buying or building and maintaining tobacco trucks, looping shelters and racks. No need to keep mules just to harvest tobacco either.

TWO-ROW TRANSPLANTER AVAILABLE . . . You can now get a two-row transplanter to attach to the harvester and at a price only slightly more than the one-row transplanters cost. In the near future a sprayer will be available.

SEVEN-ROW CROP DUSTER AVAILABLE . . . You can really cover some ground fast up to width of harvester.

CAN PAY FOR ITSELF IN ONE SEASON OR LESS . . . With the big savings you can make on harvesting costs with the Silent Flame tobacco harvester, this machine should pay for itself in one season or less if you own 20 to 30 acres of tobacco. If you plant less the machine can pay for itself in two seasons or less. You can also use the harvester to do custom work for your neighbors.

HYBRID CORN ACREAGE

The amount of Georgia's corn acreage planted in adapted hybrids increased to 48 per cent in 1953. In 1952 hybrids occupied only 27 per cent of this acreage. This change from the open-pollinated varieties of corn to hybrids can be explained by the great increase in production that it makes possible.

South Georgia farmers are reporting good stands of cotton, and the boll weevil apparently is not as plentiful as it was last year.

Apple orchards in Georgia are in about the same stage of development now as they were at this time in 1953.

More than 9,000 families engaged in community activities in the 1953 North Georgia Rural Community Improvement Program.

PRETTY, PETITE MRS. MARILU MILLS, Avondale Estates, provides a queenly smile as she receives the crown as Queen of May during the annual May Day Program last week. Jo Starr, Greensboro, last year's May Queen relinquishes the crown to the new house of royalty while Yvonne Jones, Jessup, Maid of Honor, looks on. This was all a part of an elaborate program in honor of the new queen and the new season on back campus Friday.

pond as the basin with a dam pushed out nearly all around. It has a pretty large contributing watershed. Most of the natural basins do not have sufficient water shed to insure a good head of water at all times.

Mr. Henry Blitch of Westside planted oats on his first year Bahis last fall and grazed them with no apparent damage to the Bahis. It is coming back looking mighty good this spring. "The secret," says Mr. Blitch, "is in getting the oats

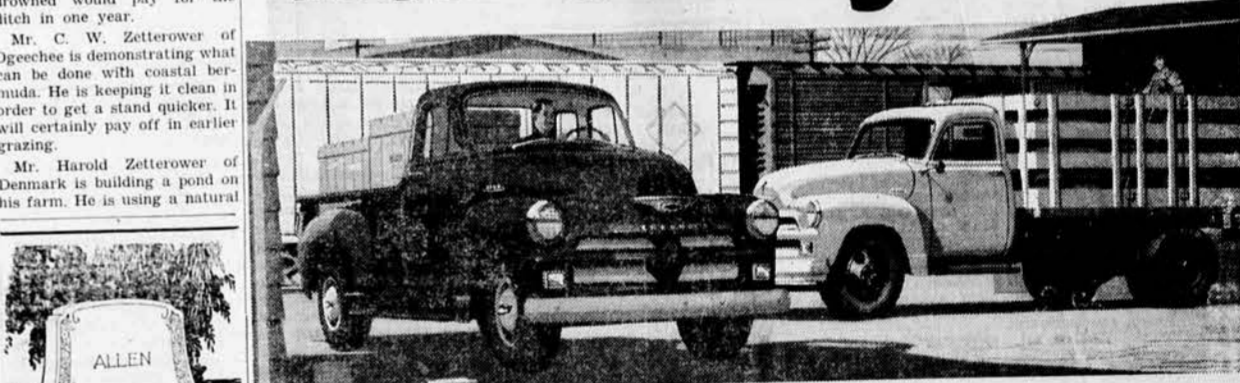

4 DIFFERENT SIZES

HENRY VANN Tobacco Curers come in sizes 4, 5, 6, or 7 burners. You can get exactly what you need for best curing in any size barn. See the HENRY VANN now and you'll know why the manufacturer has never been called upon to replace a faulty unit.

The HENRY VANN Controlled Ventilator, pictured above, assures proper ventilation, cures fast, kills all the insects you raise and produces a better leaf. It's recommended by tobacco experts. See us now for complete details!

New driver comfort! New driving ease!

New Chevrolet Trucks...
do more work per day . . . more work per dollar!

You save time in traffic. New truck Hydra-Matic transmission gets you off to smooth, time-saving starts making driving in traffic and on delivery routes! It's optional at extra cost on 3/2, 3/4- and 1-ton models.

You save time on the highway. New high-compression power gets you up to highway speeds from a standstill in less time, and saves you time on hills, too. You make trips faster—and the new Comfortmaster cab makes them seem shorter. It's got everything!

You save extra trips, too. That's because of the extra load space you get in the new Advance-Design bodies. New pickup bodies are wider and longer. Also, they're set lower to the ground for easier loading.

You save on operating costs. High-compression power saves you money! The "Thrifmaster 235" engine, the "Loadmaster 235," and the "Jobmaster 261" (optional on 2-ton models at extra cost), deliver greater horsepower plus increased operating economy.

You save with lower upkeep. New Chevrolet trucks are built stronger to last longer and save you money on maintenance. There are heavier axle shafts in two-ton models . . . bigger clutches in light- and heavy-duty models . . . stronger frames in all models.

And your savings start the day you buy. In fact, they start with the low price you pay—and they never stop. Chevrolet, you know, is America's lowest-priced line of trucks. And it's also the truck that has a traditionally high trade-in value.

Come in and see how much you're ahead with America's number one truck. You'll like the way we're talking business!

Most Trustworthy Trucks on Any Job!
