HOPE AND HOPE GARDEN CLUB MEETS WITH MRS. DONALD HACKETT

The Hope and Hope Garden Club met Tuesday afternoon of last week with Mrs. Donald Hackett at her lovely home on Donoho Street.

Three distinctive arrangements were used in appropriate settings. In the dining room King Alfred daffodils were exquisite with purple Dutch Iris. The mustard plant running up to seed used with yellow daffodils was unique and attractive. White daffodils and pansies blended harmoniously in the living room.

The program topic, "Your Lawn is the Key to Your Garden", was presented by Mrs. W. W. Mann of Brooklet. The club members were delighted with her interesting observations.

There were 22 members present.

There's even more to Chevrolet styling than meets the eye!

This is beauty with a bonus... for Chevrolet styling is designed to add safety and comfort while you drive, and to return greater value when you trade.

Truly modern lines are shaped by usefulness. You can see what we mean in the deep crystal curve of Chevrolet's Sweep-Sight windshield... a dramatic style note, certainly, but one that stems from the need for wider, safer vision. Or take high-set taillights—they add to the impressive length of line... but they are up where they can be seen for safety's sake.

The smart louvers across the hood aren't just decoration... they mark the intake for the High-Level ventilation system for cleaner, fresher air. And the whole shape of the body—its lowness, the dipped belt line—is merely a reflection of a lowered center of gravity, the added stability.

This is truly functional styling that serves you better every mile, and preserves its value against the distant day when you trade. This is Body by Fisher—another Chevrolet exclusive in the low-price field. Come in and let us demonstrate that this new Chevrolet is just as exciting to drive as to look at!

Bulloch County Farm Bureau

The Ogeechee Farm Bureau held their meeting Tuesday night with a shad supper, and Mrs. Horace Bird to help with the drive.

Mrs. Ben Barnwell, Mrs. Jesse Akins, Miss Shirley Groover and Mrs. Horace Bird to help with the drive.

SINKHOLE
Mrs. Delmas Rushing, Jr. was named chairman in the Sinkhole. She asked Mrs. H. C. Rushing, Mrs. Sam Neville, Mrs. Jim H. Strickland, and Mrs. W. G. Anderson to help her. The Warnock program consisted of some musical numbers by Jesse N. Akins and Miss Anne Turner, and one that involved Mr. Akins and Mrs. E. L. Barnes. They were blindfolded and Mr. Akins and Mrs. Rushing fed each other a banana, while Mrs. Barnes and Mrs. Akins fed each other a pie.

The entire audience thoroughly appreciated the efforts, especially so when Barney attempted to make Mr. Akins eat the entire banana at one bite, along with his finger. Mrs. Grady Lee, who was in charge of the program, plans a queen and talent program for April. Vice President Sam Neville turned the Sinkhole program over to Mrs. Delmas Rushing, Jr. who presented Mrs. Eddie Mae Rushing as Liberator. She did a very entertaining job of imitating the famous piano player.

Miss Sariyan Brown gave a piano solo. Then Mrs. Delmas Rushing, Jr. directed several word games, a bingo party and finished the evening of fun and play with an old time spelling bee. The ability of the older members present to out spell the younger people was a bit embarrassing. Evidently the days of the blue-backed speller developed this phase of education stronger than the present system.

A membership in the Red Cross makes you a link in the unbreakably strong chain of human sympathy and brotherly love which circles the world. Edward W. Williams, farm agent for the Sea Island Bank, stated to the Warnock and Sinkhole Farm Bureaus. The Red Cross seeks the cause of trouble and suffering in order that it may bring relief to the unfortunate and reduce pain and unpleasantness with happiness and contentment.

It binds up war's wounds but does not fold its hands in idleness when war goes, but continues to earn its title "The greatest mother in the world".

Miss Sariyan Brown, who is in charge of rural activities in the present drive, pointed out.

WARNOCK
Mrs. R. P. Mikell was named chairman for the Warnock community by President Barney Rushing. She asked Billy Simmons, Mrs. W. E. Webb.

OUR HEALTH

By DR. K. R. HERRING

OUR HEALTH HEADACHES

Many suffers think of a headache as a disease in itself, which is far from the truth. Headache is a symptom due to some other trouble. It is common knowledge that headache is associated with many physical disorders, such as kidney trouble, heart trouble, digestive disorders, disorders in the female generative organs, infected tonsils, and many others.

There are many types of headaches which are felt in different areas of the head. The Chiropractor attempts not only to relieve the headache but to find and correct the cause or causes wherever they exist.

Remember chronic headaches is a symptom of other chronic trouble, don't seek relief without attempting to find out what is causing the headache.

Take The Hard Work Out of Tobacco Harvesting

You will find out that tobacco harvesting can be an easy job when you use the Silent Flame tobacco harvester. Imagine what it would be like to ride in the shade all day while you pull tobacco. It would be a lot easier than bending all day.

Taking the hard work out of harvesting is only one of the important reasons for getting one of these harvesters. When you can save up to \$75.00 or \$100.00 per acre on labor costs it is more important than ever that you get one of these machines.

Remember too, that the Silent Flame is a proven machine. Nearly two thousand owners have found out how wonderful it is to take the hard work out of harvesting and make more money, too! They have also found that the Silent Flame is built to last and built to do the job better.

No gasoline-no, not a single one-has higher octane than New 1955 GULF NO-NOX

but octane alone is not enough...

That's why new Super-Refined GULF NO-NOX is specially made to burn clean—to protect your engine—to give you thousands of extra miles of full engine power.

Fill up with new Super-Refined GULF NO-NOX and feel the difference in lasting power. You'll get:

- More complete engine protection than with so-called "miracle-additive" gasolines.
- Extra gas mileage in the short-trip stop-and-go driving motorists do most.
- Stall-proof smoothness... instant start... fast, fuel-saving warm-up.
- No knock, no pre-ignition—even in today's high-compression engines.

This lamp is burning the "DIRTY-BURNING TAIL-END" of gasoline which GULF refines out.

This lamp test shows what a difference Gulf super-refining makes. Gulf refines out the "dirty-burning tail-end" of gasoline—at the refinery—to bring you new, clean-burning GULF NO-NOX. Just see how clean new NO-NOX burns.

This lamp is burning NEW SUPER-REFINED GULF NO-NOX, the clean-burning super-fuel.

This is GULF'S PLEDGE to the motoring public:

- We at Gulf make this promise to America's motorists. We will not permit a single competitor—no, not a single one—to offer a gasoline superior to our own superb No-Nox.
- It is our sincere belief that No-Nox is the finest gasoline on the market today, and no matter what others do or say we will keep it the finest—in power, in performance, in engine protection.
- This is not a boast, not a claim. It is a pledge to you, the motoring public—a pledge backed by the resources—and the integrity—of the Gulf Oil Corporation.

Compare clean piston "A" from engine using new NO-NOX with piston "B" from engine using the "dirty-burning tail-end" of gasoline that Gulf refines out. Both pistons shown here, from Gulf test engines, ran the same number of hours under the same conditions.

It's super-refined... to burn clean!
The '55 gasoline for all high-compression engines.

HOTTEST BUICK IN HISTORY

No wonder you see so many 1955 Buicks on the highway—they're setting up bigger sales than ever before in history—topping the popularity that has already made Buick one of the "Big Three" in total national sales.

\$2,548.77* makes it yours
—delivered and ready to roll

WE keep coming across a good many people who still are surprised when they see the low delivered price of the Buick shown here.

They're surprised because they know that this price is just about what a lot of the smaller cars are asking—if not more.

But that's just the point.

What's making the 1955 Buick the hottest one in all Buick sales history is the simple fact that its low delivered price buys so much more automobile.

Much more automobile when it comes to the lift and life of great V8 power—Buick power in record might.

Much more automobile when it comes to style and size and room and ride steadiness—and the integrity of construction that comes of Buick building.

Much more, too, when it comes to matching your motoring needs to the simple practicality of your budget—because Buick offers you

a stunning choice in just about every price class...

Like the rock-bottom-priced SPECIAL—the high-powered CENTURY—the extra-spacious SUPER—the magnificent and custom-built ROADMASTER. Each is a Buick through and through—and each is a big reason why Buick sales are soaring as never before.

Why not drop in on us this week and see how much your new-car dollars can really buy—in thrills and fun and comfort and deep satisfaction—when you buy Buick.

Thru the F's of Virginia russell

With the first breath of spring bringing us such an array of beauty, Statesboro was slightly prepared for the loveliness of Youth that poured into town last weekend. These boys and girls of the Hi-Y and Tri-Hi-Y from miles around made us all sit up and take notice.

Here was Youth at its best. Yes, we've thought about young folks a lot lately because there has been so much talk about juvenile delinquency. We were feeling a tinge of remorse that we, too, had talked about the delinquents and had said very little about the boys and girls who are doing a good job of growing up.

We had two of them in our home. Many of the people had heard only good reports from all.

We observed over forty college students as they ate breakfast in our back yard. They were good boys and girls. Somebody ought to tell them that we appreciate them.

Then we ran across a Scouting magazine that carried an article "They Are NON-Delinquents," by Martha M. Elliot, Chief of U. S. Children's Bureau. She began her article:

"Last year some eighteen million boys and girls between the ages of ten and seventeen were NOT picked up by the police for any or whatsoever, a vital statistic that somehow escapes attention in our eagerness to solve the problems of our juvenile delinquency. In this group—95% of our juve-

surveys or written any books or formed any committees. But I am 17. I know what our generation needs, what we need more than laws or courts or recreation centers, more than better schools or better entertainment or better discipline—no matter how much we may need all of those.

"We need someone to believe in us."

After that last sentence we resolved to tell these young folks that we DO BELIEVE in them. Let us all join together and have a "We Appreciate and Love You Week" for these young citizens.

GEORGIA CELEBRATES GOLDEN ANNIVERSARY OF 4-H

This is National 4-H Club Week. Georgia members are taking a great interest in its observance this year, because it is the 50th anniversary of 4-H in the state. Two State 4-H Council officers—Clarice Sparks of Banks County and Joe Harrison of DeKalb County—called on Gov. Marvin Griffin, watched him sign a proclamation calling attention to the occasion, then presented the chief executive with the official Club Week poster. Four-H grew out of the Newton County corn club started in 1905 by G. C. Adams, County School Commissioner. The state's present 4-H enrollment of 153,317 is the highest on record.

What is time? Why, everybody knows that. Most of us common folk would probably point to the clock and say, "Time is what happens when the hands go around." But if you've gone

and gotten yourself one of them there fancy "egkushushins," then you will probably turn to an old friend named Webster and say with him, "Time is the period during which an action continues." And if you have really gone off the deep end and have become "a lover of wisdom," then you will no doubt shrug your shoulders and admit that in the end neither you nor anyone else really knows what time is.

But whatever time is, we all know that it is that of which we have more, want more, and waste more than anything else. The Bible doesn't say so, but surely part of the curse must have been: "And there shall be only twenty-four hours in each day." Indeed, strange is the creature who does not daily bow down and worship at the altar of King Clock in the Temple of Time, and then at the moving of his hands hasten forth to do his bidding.

Precious Commodity — this thing called time. And not only is it precious to man, but also to God. So much so that He gives it a prominent place in His Word. Two of the truly great words of the Bible are time words—Eternity and Now. The very core of the Bible is the message that: Where we spend ETERNITY, depends upon our decision regarding Jesus Christ NOW. Yes, God is vitally concerned with time. Not His time, but your time. Not what it is, but how it is used.

These are indeed busy days. We are born in a hurry. We live in a hurry. We die in a hurry. And while we live, we are all trying to crowd two or three lives into one. On every hand there is someone or some-

thing making demands on our time. And above every other clang and clatter of our noisy life there ever rises the relentless ticking of the clock.

Oh friends, amid this mad rush, how desperately we need to stop and—take time for God! Make time for God! Spend time with God!

Parents, how much time do you and your family spend with God? If you were to sit down and go over your family schedule, would it reveal that God has been crowded out of your life? Your family has gotten so busy that it has no time for God!

Dad, how does your daily schedule run? Up early and off to work in field or office. Hurry home, change and eat. Then to the club, or evening at the Browns. Hours later you climb into bed, tired at the close of another day. Such a busy day—no time for God!

Mother, what about yours? You too arise early and get Dad and the kids off to work and school. Then the day really begins. Dishes, housecleaning, washing, Mrs. Brown from down the street drops in for a chat. In the afternoon there is the Ladies Aid. The kids get

home from school. Then there is shopping, and after that dinner to get ready. Once more dishes to do. Then a visit with friends, or perhaps a movie. Finally home again, the child driven to get off to bed. Late at night you crawl into bed—so tired. Such a busy day—no time for God!

How about it, parents? Does your family schedule run something like that? The days are so short, so much to do. Busy days—too busy for God. Time for work, time for play,

Time for work, time for play,

The Bulloch Herald, Statesboro, Ga. THURSDAY, MARCH 17, 1955

Time to eat, time to sleep. And prayer meetings and church services, then you need to alter at the end of each day you find that you've had—no time for God. Then let's say it—nobly, tenderly—but let's say it. You are too busy. If you're too busy to have a family altar, then you are too busy. If your schedule is too full for family Bible reading, then your schedule is too full. If your plans do not leave room for

"Willie Wirehead" Says NO MORE EXPORTS. Until a few years ago - farming in Georgia was a back-breaking job for man, wife and child. The smartest and finest of our rural youth knew this. They looked elsewhere for opportunity.

We are EXPORTING our brains and talent! Today - all this is changed, 9 out of 10 Georgia farms enjoy the benefits of low-cost, non-profit electricity, brought to them by 41 locally-owned and managed PRIVATE utilities - the Rural Electric Cooperatives.

Young Georgians are now staying close to the land that gave them birth. They enjoy all the comforts and tools taken for granted by their city neighbors.

That's the greatest change wrought by Rural Electrification. That's another reason why we continue to say...
