**Mayor and Council plan for truck by-pass**

We understand Mayor Bill Beam and the City Council are planning to make-up a plan to go before the City Council in the near future. There are many plans, but none that we are aware of in Arkansas or North Carolina which could easily be used. If the plan is to go before the City Council in the near future, there is little time to make-up a plan. It is the only plan that we have been aware of.

**Traffic high**

It is possible that the high traffic will continue to the next week, and if that is the case, we do not expect the city to do any more than it has done in a few years. It is possible that the traffic will be a little more than we expect, and if that is the case, it will be our loss. It is possible that the traffic will continue to the next week, and if that is the case, we do not expect the city to do any more than it has done in a few years.

**The editor's uneasy chair**
